A History of Hinduism - R. Ramachandran (ret'd) 2018-03-19

IS THE HISTORY OF HINDUISM, THE HISTORY OF BRAHMANAS FROM RIGVEDIC TIMES TO THE PRESENT? Or, does the story of Hinduism begin with the descriptions of the ancient roots as revealed by archaeological findings and the evidence from present day tribal, village and regional cultures? This book looks at both. The history of Brahmanas, tracing their lineage to the fifty-odd Rigvedic poets, is dealt with through the chronological ordering of the Sanskrit texts which were first handed down to us as oral narratives from Gurus to shishyas. The circumstances and purposes for which these

texts were written is examined, along with events of a true historical nature. This is followed by a sequential treatment of Hinduism as a 'Rigvedic religion', the two Mimamsas, Buddhism, Jainism, Dharmasastras, the Epics and the Puranas. The growth of Hindu temples, the role of Adi Sankaracharya and the Bhakti movement is delved into, and the influences of Muslim and British rule of the subcontinent on Hinduism is analysed. The author explores one major reason for the survival of Hinduism—the support of prehistoric tribal and village cultures which were not modified or destroyed by the later-day Brahmanas. Much of tribal and village deities and practices were co-opted into concurrent Hinduism, so-much-so that today these cannot be separated from mainstream Hindu practices and traditions. They exist in all their colourful glory to this date and make Hinduism vibrant. It is these ancient folk religions that provide a stable foundation for the survival of Hinduism, argues author R

Ramachandran, presenting in this book an all-encompassing landscape view of Hinduism as it has been for the last five thousand years. Finally, the present status of Hinduism is discussed along with its survival in the future.

The Arabian Desert in English Travel Writing Since 1950 - Jenny Walker 2022-12-30

Broadly this book is about the Arabian desert as the locus of exploration by a long tradition of British travellers that includes T.E. Lawrence and Wilfred Thesiger; more specifically, it is about those who, since 1950, have followed in their literary footsteps. In analysing modern works covering a land greater than the sum of its geographical parts, the discussion identifies outmoded tropes that continue to impinge upon the perception of the Middle East today while recognising that the laboured binaries of "East and West", "desert and sown", "noble and savage" have outrun their course. Where, however, only a barren legacy of latent

Orientalism may have been expected, the author finds instead a rich seam of writing that exhibits diversity of purpose and insight contributing to contemporary discussions on travel and tourism, intercultural representation and environmental awareness. By addressing a lack of scholarly attention towards recent additions to the genre, this study illustrates for the benefit of students of travel literature, or indeed anyone interested in "Arabia", how desert writing, under the emerging configurations of globalisation, postcolonialism and ecocriticism, acts as a microcosm of the kinds of ethical and emotional dilemmas confronting today's travel writers in the world's most extreme regions.

Raj Rhapsodies: Tourism, Heritage and the Seduction of History - Maxine Weisgrau 2016-03-23

Heritage is a prized cultural commodity in the marketing of tourism destinations. Particular aspects of heritage are often more actively promoted, with others played down. The representation of heritage in tourism as static and timeless, derived since time immemorial from a distant past, is seductive. In Asia, a major part of the tourism market lies in the sale and consumption of highly orientalized images and versions of culture and history. In India's marketing discourse, the state of Rajasthan symbolizes the nation in its heritage-laden, traditional and most authentic form. These images draw heavily on the British period in India - the Raj. In one sense, this vision of Rajasthan is ennobling, highlighting moments of cultural pride. In another sense, it demeans, by omitting and obscuring salient features of contemporary life. This fascinating book explores the cultural politics of tourism through interdisciplinary perspectives. Carol E. Henderson and Maxine Weisgrau demonstrate that tourism heritage privileges elite histories that recapitulate colonial relationships, compelling non-elites to collude in these

narratives of subordination even as they advance their own alternative visions of history.

Indigenous People and Economic

Development - Katia Iankova 2016-03-22

Indigenous peoples are an intrinsic part of countries like Australia, New Zealand, Canada, Finland, USA, India, Russia and almost all parts of South America and Africa. A considerable amount of research has been done during the twentieth century mainly by anthropologists, sociologists and linguists in order to describe, and document their traditional life style for the protection and safeguarding of their established knowledge, skills, languages and beliefs. These communities are engaging and adapting rapidly to the changing circumstances partly caused by post modernisation and the process of globalization. These have led them to aspire to better living standards, as well as preserving their uniqueness, approaches to environment, close proximity to social structures and communities. For at least the last two decades, patterns of increased economic activity by indigenous peoples in many countries have been viewed to be significantly on the rise. Indigenous People and Economic Development reveals some of the characteristics of this economic activity, 'coloured' by the unique regard and philosophy of life that indigenous people around the world have. The successes, difficulties and obstacles to economic development, their solutions and innovative practices in business - all of these elements, based on research findings, are discussed in this book and offer an inside view of

the dynamics of the indigenous societies which are evolving in a globalised and highly interconnected contemporary world.

Corpus Linguistics and the Web - Marianne Hundt 2007-01

Using the Web as Corpus is one of the recent challenges for corpus linguistics. This volume presents a current state-of-the-arts discussion of the topic. The articles address practical problems such as suitable linguistic search tools for accessing the www, the question of register variation, or they probe into methods for culling data from the web. The book also offers a wide range of case studies, covering morphology, syntax, lexis, as well as synchronic and diachronic variation in English. These case studies make use of the two approaches to the www in corpus linguistics - web-as-corpus and web-for-corpus-building. The case studies demonstrate that web data can provide useful additional evidence for a broad range of research questions.

Steps to Water - Morna Livingston 2002-04

From the fifth to the nineteenth centuries, the people of western India built stone cisterns to collect the water of the monsoon rains and keep it accessible for the remaining dry months of the year. These magnificent structures-known as stepwells or stepped ponds-are much more than utilitarian reservoirs. Their lattice-like walls, carved columns, decorated towers, and intricate sculpture make them exceptional architecture., while their very presence tells much about the region's ecology and history. For these past 500 years, stepwells have been an integral part of western Indian communities as sites for drinking, washing, and bathing, as well as for colorful festivals and sacred rituals. Steps to Water traces the fascinating history of stepwells, from their Hindu origins, to their zenith during Muslim rule, and eventual decline under British occupation. It also reflects on their current use, preservation, and place in Indian communities. In stunning color and quadtone photographs and

drawings, Steps to Water reveals the depth of the stepwells' beauty and their intricate details, and serves as a lens on these fascinating cultural and architectural monuments.

Railway Discourse - Esterino Adami

2019-01-15

This volume examines the train trope in a variety of cultural, literary and linguistic contexts, from contemporary crime fiction and dystopian graphic narratives to postcolonial railway travelogues, by employing a range of methods and frameworks. Situated within the "Discourse, Pragmatics and Sociolinguistics" collection, the book critically engages with significant areas such as discourse and narrative structure.

Interpreting the railway as a powerful cultural and imaginary site in the English-speaking world that traverses a range of creative domains, this study explores the ways in which the train and its structures, symbols and metaphors are textually rendered and the type of stylistic effects they generate in readers. It introduces, frames and discusses the idea of railway discourse and focuses on specific case studies (The Girl on the Train by Paula Hawkins, the graphic novel Snowpiercer and Monisha Rajesh's Around India in 80 Trains). In particular, it considers how a compartment window can constrain, and shape, the point of view of a narrator, the way in which science fiction trains are conceptually imagined, and the intercultural implications of rail travel writing in India today. To analyse the role and meaning of the railway in these texts, and compare them with others, this work adopts and adapts analytical tools and critical concepts from the integration of different fields, such as stylistics and linguistics, postcolonial criticism and literary studies.

Bullying, Cyberbullying and Student Well-Being in Schools - Peter K. Smith 2018-05-17

School bullying and cyberbullying are widely recognized as an international problem, but publications have focused on the western tradition of research. In India, recognition of these issues and research on the topics have been emerging in recent years. Beginning with cross-cultural differences across Indian, European and Australian contexts, this volume provides direct empirical comparisons between western and Indian situations. It then discusses

innovative ways of hearing the views of students, pre-service teachers and teachers, featuring a range of qualitative and quantitative methodologies. The concluding commentaries from North American investigators provide a further international perspective from another region where much progress in researching these areas has been made. Together this ground-breaking collection comprises contributions from four continents on the prevalent issues of bullying, cyberbullying and student well-being.

[Experiencing Anthropology in the Nicobar Archipelago](#) - Vijoy S Sahay 2020-07-27

This book explores the discipline of social-cultural anthropology through an extensive study of the Nicobarese people in one of the remotest human settlements of the Indian Ocean. It examines the social, cultural, economic, political and magico-religious beliefs of the Nicobarese, and traces their ritualistic upbringing from conception till after death. The book also discusses the nature-man-spirit complex observed in the life of the Nicobarese. The author further utilises this study to examine the complex role of anthropologists in maintaining objectivity and authenticity in ethnographic accounts, and discusses several critical epistemological issues concerning social-cultural anthropology as a field of study today. Based upon extensive field research by the author conducted over four decades, this volume will be of great interest to scholars and researchers of sociology and social-cultural anthropology, human geography, social sciences, minority studies, as well as South Asian studies. **Professional Discourse** - Kenneth Kong
2014-08-14

Using a wide range of professional genres such as research papers, business reports, performance commentaries, guidebooks and legal documents, this study focuses on the discourse of professional writing, employing analytic paradigms from systemic-functional linguistics, pragmatics, text analysis, sociology and anthropological linguistics. Kenneth Kong argues that while professions use different sets of practices, their use of language displays many universals. This is demonstrated through the analysis of data from a broad cross-section of professional settings such as medicine, law, business, mass media and engineering. This examination of professional discourse, and its important role in society, will be of interest to researchers in applied linguistics, to professionals who want to understand the role of language in their work, and to teachers of English for specific purposes.

The Politics of Heritage from Madras to Chennai - Mary E. Hancock 2008-10-29

In this anthropological history, Mary E. Hancock examines the politics of public memory in the southern Indian city of Chennai. Once a colonial port, Chennai is now poised to become a center for India's "new economy" of information technology, export processing, and back-office services. State and local governments promote tourism and a heritage-conscious cityscape to make Chennai a recognizable "brand" among investment and travel destinations. Using a range of textual, visual, architectural, and ethnographic sources, Hancock grapples with the question of how people in Chennai remember and represent their past, considering the political and economic contexts and implications of those memory practices. Working from specific sites, including a historic district created around an ancient Hindu temple, a living history museum, neo-traditional and vernacular architecture, and political memorials, Hancock examines the spatialization of memory under the conditions of neoliberalism.

International Heritage and Historic Building Conservation - Zeynep Aygen

2013-03-05

The majority of books in English on historic building conservation and heritage preservation training are often restricted to Western architecture and its origins. Consequently, the history of building conservation, the study of contemporary paradigms and case studies in most universities and within wider interest circles, predominantly in the UK, Europe, and USA focus mainly on Europe and sometimes the USA, although the latter is often excluded from European publications. With an increasingly multicultural student body in Euro-American universities and with a rising global interest in heritage preservation, there is an urgent need for publications to cover a larger geographical and social area including not only Asia, Australia, Africa and South America but also previously neglected countries in Europe like the new members of the European Community and the northern neighbour of the USA, Canada. The inclusion of the 'other' in built environment education in general and in building conservation in particular is a pre-requisite of cultural interaction and widening participation. *International Heritage and Historic Building Conservation* assesses successful contemporary conservation paradigms from around the world. The book evaluates conservation case studies from previously excluded areas of the world to create an integrated account of Historic Building Conservation that crosses the boundaries of language and culture and sets an example for further inclusive research. Analyzing the influence of financial constraints, regional conflicts, and cultural differences on the heritage of disadvantaged countries, this leading-edge volume is essential for researchers and students of heritage studies interested in understanding their topics in a wider framework.

English in East and South Asia - Ee Ling Low 2021-08-30

This book provides a first systematic and comprehensive account of English in East and South Asia (EESA) based on current research by scholars in the field. It has several unique features. Firstly, it provides a rigorous theoretical overview that is necessary for the understanding of EESA in relation to the burgeoning works on World Englishes as a discipline. Secondly, in the section on linguistic features, a systematic template was made available to the contributors so that linguistic

coverage of the variety/varieties is similar. Thirdly, the vibrancy of the sociolinguistic and pragmatic realities that govern actual English in use in a wide variety of domains such as social media, the Internet and popular culture/music are discussed. Finally, this volume includes an extensive bibliography of works on EESA, thus providing a useful and valuable resource for language researchers, linguists, classroom educators, policymakers and anyone interested in the topic of EESA or World Englishes. This volume hopes to advance understanding of the spread and development of the different sub-varieties reflecting both the political developments and cultural norms in the region. *Performing Heritage* - Navina Jafa 2012-09-11 Centred in academic theory in the area of exhibiting culture, this book seeks to explore the art and politics of cultural representation. While thus far this discussion has been restricted to the closed spaces of museums, exhibitions, cultural festivals and the like, here, this densely interdisciplinary problematic is approached through the unique and increasingly popular medium of Heritage Walks. Focusing on the idea of the living exhibit, the author employs her decades-long career in the field of academic cultural tourism and the performing arts to develop a uniquely critical frame and methodology for engaging with cultures in a dynamic and performative manner. The book argues that heritage walks are necessarily creative and academically invested, and can be an effective medium for rethinking the disciplines of history, sociology and conservation and the challenges they face in contemporary post-colonial India. Through an acutely experiential account, the author bridges the gap between applied and academic theory in the fields of visual anthropology, museology, heritage conservation and cultural studies among others, providing the much needed scholarship in studies of living heritage.

Travelling Languages - John O'Regan
2015-10-14

Based on the commonly held assumption that we now live in a world that is 'on the move', with growing opportunities for both real and virtual travel and the blurring of boundaries between previously defined places, societies and cultures, the theme of this book is firmly grounded in the interdisciplinary field of 'Mobilities'. 'Mobilities' deals with the movement of people, objects, capital, information, ideas and cultures on varying scales, and across a variety of borders, from the local to the national to the global. It includes all forms of travel from forced migration for economic or political reasons, to leisure travel and tourism, to virtual travel via the myriad of electronic channels now available to much of the world's population. Underpinning the choice of theme is a desire to consider the important role of languages and intercultural communication in travel and border crossings; an area which has tended to remain in the background of Mobilities research. The chapters

included in this volume represent unique interdisciplinary understandings of the dual concepts of mobile language and border crossings, from crossings in 'virtual life' and 'real life', to crossings in literature and translation, and finally to crossings in the 'semioscape' of tourist guides and tourism signs. This book was originally published as a special issue of *Language and Intercultural Communication*.

Global English Slang - Julie Coleman 2014-01-10
Global English Slang brings together nineteen key international experts and provides a timely and essential overview of English slang around the world today. The book illustrates the application of a range of different methodologies to the study of slang and demonstrates the interconnection between the different sub-fields of linguistics. A key argument throughout is that slang is a function played by specific words or phrases rather than a characteristic inherent in the words themselves- what is slang in one context is not slang in another. The volume also challenges received wisdom on the nature of slang: that it is short-lived and that slang is restricted to verbal language. With an introduction by editor Julie Coleman, the topics covered range from Inner City New York slang and Hip Hop Slang to UK student slang and slang in Scotland. Authors also explore slang in Jamaica, Australia, New Zealand, India and Hong Kong and the influence of English slang on Norwegian, Italian and Japanese. A final section looks at slang and new media including online slang usage, and the possibilities offered by the internet to document verbal and gestural slang. *Global English Slang* is an essential reference for advanced undergraduates, postgraduates and researchers working in the areas of lexicology, slang and World Englishes.
