The Spanish Connection - Eberhard Crailsheim 2016-09-12

In early modern times, the city of Seville was the most important entrepôt between the Old and the New World, attracting numerous merchants from all of Europe. They provided the American market with European merchandise, especially with textiles and metalware from Flanders and France. This book investigates the networks of Flemish and French merchants in Seville, displaying overall structures of trade as well as collective strategies of both merchant colonies.

Converso Non-Conformism in Early Modern Spain - Kevin Ingram 2018-12-06

This book examines the effects of Jewish conversions to Christianity in late medieval Spanish society. Ingram focuses on these converts and their descendants (known as conversos) not as Judaizers, but as Christian humanists, mystics and evangelists, who attempt to create a new society based on quietist religious practice, merit, and toleration. His narrative takes the reader on a journey from the late fourteenth-century conversions and the first blood purity laws (designed to marginalize conversos), through the early sixteenth-century Erasmian and radical mystical movements, to a Counter-Reformation environment in which conversos become the advocates for pacifism and concordance. His account ends at the court of Philip IV, where growing intolerance towards Madrid's converso courtiers is subtly attacked by Spain's greatest painter, Diego Velázquez, in his work, *Los Borrachos*. Finally, Ingram examines the historiography of early modern Spain, in which he argues the converso reform phenomenon continues to be underexplored.
