

# Politics One Ian Ward

This is likewise one of the factors by obtaining the soft documents of this **Politics One Ian Ward** by online. You might not require more mature to spend to go to the ebook inauguration as skillfully as search for them. In some cases, you likewise get not discover the broadcast Politics One Ian Ward that you are looking for. It will unquestionably squander the time.

However below, taking into consideration you visit this web page, it will be appropriately completely easy to get as skillfully as download guide Politics One Ian Ward

It will not give a positive response many get older as we run by before. You can get it though achievement something else at home and even in your workplace. fittingly easy! So, are you question? Just exercise just what we meet the expense of below as without difficulty as evaluation **Politics One Ian Ward** what you in imitation of to read!

**Future Active** - Graham Meikle 2014-02-04

First Published in 2003. Routledge is an imprint of Taylor & Francis, an informa company.

*Government Politics in Australia* - Alan Fenna 2013-09-05

Government and Politics in Australia 10e is the comprehensive and scholarly political science text that provides thorough and accessible content written by authorities in the field. Now in its 10th edition, Government and Politics in Australia continues to provide students with a research-based, in-depth contemporary introduction to the Australian political system. A strengthened focus on government and politics ensures that this classic text remains the most comprehensive and authoritative guide to the structure and institutions of Australian government, as well as political parties, representation, interest groups and the role of the media in Australian politics. The 10th edition has been thoroughly revised and updated by experts in the field led by a new editor team and includes a completely new chapter on Australia in the world.

*Politics of the Media* - Ian Ward 1995

This book introduces social science students to the world of media, and media students to the world of politics, power and control. Students of the social sciences are introduced to a wide range of contemporary theories about media production, representation and audiences. Difficult concepts drawn from semiotics and cultural studies in general are explained clearly and their relevance to the world of public affairs is carefully described. Politics of the Media is also ideal for media students as it explains the political importance of mass media in contemporary Western societies, and takes the reader through the web of processes and networks in the political world where control and exercise of media power can have a dramatic effect. Most chapters are illustrated with images from either broadcast or print media. Each chapter concludes with a summary and discussion questions.

*Australia* - Marian Sawer 2009

On many criteria, Australia has been a pioneering democracy. As one of the oldest continuing democracies, however, a health check has long been overdue. Since 2002 the Democratic Audit of Australia, a major democracy assessment project, has been applying an internationally tested set of indicators to Australian political institutions and practices. The indicators derive from four basic principles--political equality, popular control of government, civil liberties and human rights and the quality of public deliberation.

Comparative data are taken from Australia's nine jurisdictions, as well as from three comparator democracies, Canada, New Zealand and the United Kingdom, to identify strengths, weaknesses and opportunities for reform. Some of the findings are disturbing. For example, Australia has fallen well behind in the regulation of private money in elections and in controlling the use of government or parliamentary resources for partisan benefit. Transparency and accountability have suffered from relatively weak FOI regimes and from executive dominance of parliaments. For those studying democracy or wanting to reform Australian politics, The State of Democracy provides a wealth of evidence in a well-illustrated and highly accessible format. Internationally, it is an important contribution to the democracy assessment literature and pushes into new areas such as the intergovernmental decision-making of federalism.

*Politics One* - NA Stewart 2009-12-02

Politics One is a popular introduction to the institutions and processes of the Australian political system, covering all the core topics a student would expect to study throughout an undergraduate course on Australian politics. Updated and revised throughout, this fourth edition covers the last election and the changing political scene under Rudd. The book is suitable for first year undergraduate students of Australian politics, as well as students of business, law and criminology taking introductory level units on business and government.

**Law, Text, Terror** - Ian Ward 2009-04-16

Ian Ward places contemporary political and jurisprudential responses to terrorism within a broader literary, cultural and historical context.

*Politics One* - Ian Ward 2005-11

This title explains that the party squabbles and rivalries which have given Australian politics a bad name, conceal an important virtue - political stability. Provides a readable introduction to Australia's national-level politics and political institutions. Ward from the University of Queensland and Stewart from the University of Sydney.

**Beautiful Bad** - Annie Ward 2019-03-05

A devoted wife, a loving husband and a chilling murder that no one saw coming. Things that make me scared: When Charlie cries. Hospitals and lakes. When Ian drinks vodka in the basement. ISIS. When Ian gets angry... That something is really, really wrong with me. Maddie and Ian's love story began with a chance encounter at a party overseas; he was serving in the British army and she was a travel writer visiting her best friend, Jo. Now almost two decades later, married with a beautiful son, Charlie, they are living the perfect suburban life in Middle America. But when a camping accident leaves Maddie badly scarred, she begins attending writing therapy, where she gradually reveals her fears about Ian's PTSD; her concerns for the safety of their young son; and the couple's tangled and tumultuous past with Jo. From the Balkans to England, Iraq to Manhattan, and finally to an ordinary family home in Kansas, sixteen years of love and fear, adventure and suspicion culminate in The Day of the Killing, when a frantic 911 call summons the police to the scene of a shocking crime. Don't miss Annie Ward's explosive new novel, The Lying Club, a story of revenge, murder and shocking secrets!

*Political Deference in a Democratic Age* - Catherine Marshall 2021-01-13

This book explores the concept of deference as used by historians and political scientists. Often confused and judged to be outdated, it shows how deference remains central to understanding British politics to the present day. This study aims to make sense of how political deference has functioned in different periods and how it has played a crucial role in legitimising British politics. It shows how deference sustained what are essentially English institutions, those which dominated the Union well into the second half of the twentieth century until the post-1997 constitutional transformations under New Labour. While many dismiss political and institutional deference as having died out, this book argues that a number of recent political decisions - including the vote in favour of Brexit in June 2016 - are the result of a deferential way of thinking that has persisted through the democratic changes of the twentieth century. Combining close readings of theoretical texts with analyses of specific legal changes and historical events, the book charts

the development of deference from the eighteenth century through to the present day. Rather than offering a comprehensive history of deference, it picks out key moments that show the changing nature of deference, both as a concept and as a political force.

Powerscape - Anika Gauja 2020-08-06

An innovative and exciting approach to the study of Australian politics that is guaranteed to spark students' interest.' Professor Carol Johnson, University of Adelaide Powerscape is an engaging study of power relationships in the Australian political system and the community at large.' Alex Karolis, Public Administration Today Powerscape is an introduction to Australian politics designed for today's students. It outlines the core political institutions and processes, and also analyses contemporary political issues and debates. Powerscape tells the story of a dynamic political system, and of high levels of public engagement. Despite the prevailing view that political participation in the 21st century in many liberal-democracies is subdued, this book reveals complex interactions with political processes by a wide range of players. Organised in three parts: power and democracy, political actors, and policy processes, Powerscape systematically investigates the role of power in political life. Each chapter is introduced by a snapshot', a detailed example based on a current issue or recent event. With extended analysis of the change of government at the 2007 federal election, this second edition has been fully updated. It includes new examples, and new chapters on political institutions and policy-making.

**Australian Politics in the Twenty-First Century** - Glenn Kefford 2018-09-20

Australian Politics in the Twenty-First Century presents the many moving parts of Australia's political system from an institutional perspective. It equips students with the requisite foundational knowledge, and encourages them to critically examine the complex interplay between a centuries' old system and a diverse, modern Australian society.

**English Legal Histories** - Ian Ward 2020-01-09

English Legal Histories is an exciting and innovative approach to the study of English law. Written in an accessible style intended for students as well as a broader audience, it takes the reader beyond the narrower confines of legal doctrines and cases, and invites them to consider the myriad contexts within which English law has been shaped: the politics, the economics, the art, the poetry. Reaching from the Reformation through to the age of Reform, it tells stories, the 'histories', of English law. Histories of the constitution and government, of crime and contracts, tort and trespass, property and equity. Of the people who made that law, those who wrote it, and those who suffered it. For it is in the end a human story, of justice and injustice, of success and failure, good luck and bad. The law is full of statutes and instruments, cases and precedent, but its history is full of people and peculiarity. Which is what, of course, makes it so endlessly fascinating.

**Money and Politics** - Joo-Cheong Tham 2010

"Examines the various ways in which money influences Australian politics: private and public funding, income and spending, direct contributions to political parties as well as lobbying." - cover.

**Legal Concepts of Childhood** - Julia Fionda 2001-12-02

This book aims to assess how children are regarded by lawyers in disciplines which centrally involve them.

Constitutional Democracy in Crisis? - Mark A. Graber 2018-08-23

Is the world facing a serious threat to the protection of constitutional democracy? There is a genuine debate about the meaning of the various political events that have, for many scholars and observers, generated a feeling of deep foreboding about our collective futures all over the world. Do these events represent simply the normal ebb and flow of political possibilities, or do they instead portend a more permanent move away from constitutional democracy that had been thought triumphant after the demise of the Soviet Union in 1989? Constitutional Democracy in Crisis? addresses these questions head-on: Are the forces weakening constitutional democracy around the world general or nation-specific? Why have some major democracies seemingly not experienced these problems? How can we as scholars and citizens think clearly about the ideas of "constitutional crisis" or "constitutional degeneration"? What are the impacts of forces such as globalization, immigration, income inequality, populism, nationalism, religious sectarianism? Bringing together leading scholars to engage critically with the crises facing constitutional democracies in the 21st century, these essays diagnose the causes of the present afflictions in regimes, regions, and across

the globe, believing at this stage that diagnosis is of central importance - as Abraham Lincoln said in his "House Divided" speech, "If we could first know where we are, and whither we are tending, we could then better judge what to do, and how to do it."

Political Parties in Transition? - Ian Marsh 2006

Australian politics have been dominated for nearly a century by two more or less continuous political groupings, Labor and the Liberal- National Coalition. But in recent decades Australians have embraced a new range of issues: gender, the environment, indigenous rights while party membership has collapsed.

Introduction to Critical Legal Theory - Ian Ward 2012-10-02

Introduction to Critical Legal Theory provides an accessible introduction to the study of law and legal theory. It covers all the seminal movements in classical, modern and postmodern legal thought, engaging the reader with the ideas of jurists as diverse as Aristotle, Hobbes and Kant, Marx, Foucault and Dworkin. At the same time, it impresses the interdisciplinary nature of critical legal thought, introducing the reader to the philosophy, the economics and the politics of law. This new edition focuses even more intently upon the narrative aspect of critical legal thinking and the re-emergence of a distinctive legal humanism, as well as the various related challenges posed by our 'new' world order. Introduction to Critical Theory is a comprehensive text for both students and teachers of legal theory, jurisprudence and related subjects.

Worth Fighting for - Kathie Muir 2008

This book tells the story of the ACTU's 'Your Rights at Work' campaign against Work Choices, the largest, most expensive and most sophisticated political campaign ever mounted in Australia, and one with a decisive impact on the 2007 federal election.

Howard's Agenda - Marian Simms 2000

No Marketing Blurbs

**The Australian Study of Politics** - R. Rhodes 2009-11-11

The Australian Study of Politics provides the first comprehensive reference book on the history of the study of politics in Australia, whether described as political studies or political science. It focuses on Australia and on developments since WWII, also exploring the historical roots of each major subfield.

**The Rise and Fall of One Nation** - Michael Leach 2000

Launched with the enthusiasm and support of many thousands of Australians, the One Nation party gave expression to the anger and disenchantment of voters drawn to Pauline Hanson's views on race, immigration and national identity. In this landmark study, scholars in political and social research bring into focus the character and origins of One Nation; its organisation and right-wing links; the unprecedented role of an influential minor party in state parliament; and its indelible impact upon Australian political life. In particular this timely new book analysis One Nation's electoral failure in the 1998 federal and the subsequent NSW elections, and its subsequent deregistration and investigation for fraud. There is a key chapter on Aboriginal Australia written from the Murri perspective, while other chapters offer up intriguing social commentary on the wider issues of an Australian political populism; national identity; and the impact of globalisation.

**Leo Strauss and the Problem of Political Philosophy** - Michael P. Zuckert 2014-06-30

Leo Strauss and his alleged political influence regarding the Iraq War have in recent years been the subject of significant media attention, including stories in the Wall Street Journal and New York Times. Time magazine even called him "one of the most influential men in American politics." With The Truth about Leo Strauss, Michael and Catherine Zuckert challenged the many claims and speculations about this notoriously complex thinker. Now, with Leo Strauss and the Problem of Political Philosophy, they turn their attention to a searching and more comprehensive interpretation of Strauss's thought as a whole, using the many manifestations of the "problem of political philosophy" as their touchstone. For Strauss, political philosophy presented a "problem" to which there have been a variety of solutions proposed over the course of Western history. Strauss's work, they show, revolved around recovering—and restoring—political philosophy to its original Socratic form. Since positivism and historicism represented two intellectual currents that undermined the possibility of a Socratic political philosophy, the first part of the book is devoted to Strauss's critique of these two positions. Then, the authors explore Strauss's interpretation of the history of philosophy and both ancient and modern canonical political philosophers, including Plato, Aristotle,

Machiavelli, and Locke. Strauss's often-unconventional readings of these philosophers, they argue, pointed to solutions to the problem of political philosophy. Finally, the authors examine Strauss's thought in the context of the twentieth century, when his chief interlocutors were Schmitt, Husserl, Heidegger, and Nietzsche. The most penetrating and capacious treatment of the political philosophy of this complex and often misunderstood thinker, from his early years to his last works, Leo Strauss and the Problem of Political Philosophy reveals Strauss's writings as an attempt to show that the distinctive characteristics of ancient and modern thought derive from different modes of solving the problem of political philosophy and reveal why he considered the ancient solution both philosophically and politically superior.

**Slaughter and Deception at Batang Kali** - Ian Ward 2009

This book is one of several highly revealing historical subjects researched and written by husband and- wife collaborative authors, Ian Ward and Norma Miraflor. Since its initial publication, Slaughter and Deception at Batang Kali has spearheaded a quite relentless legal pursuit for justice. This will be reaching its climax within the next few months. The book has so far been central to evidence presented at two previous British High Court hearings. At the conclusion of this second session in High Court in May 2012, the presiding judges finally proclaimed there was indeed a case to answer. The Batang Kali massacre now moves to the Supreme Court in London where once again Slaughter and Deception at Batang Kali will figure as a key factor of evidence.

**A Guide to Eclectus Parrots as Pet and Aviary Birds** - Rob Marshall 2004-04-01

Features a comprehensive description and taxonomy details on the 10 Eclectus subspecies, including housing, feeding, breeding, incubation, and handrearing. Chapter on health and diseases written by an avian veterinarian.

**The Trials of Charles I** - Ian Ward 2022-09-08

One of the iconic moments in English history, the trial and execution of King Charles I has yet to be studied in-depth from a contemporary legal perspective. Professor Ian Ward brings his considerable legal and historical acumen to bear on the particular constitutional issues raised by the regicide of Charles, and not only analyses the unfolding of events and their immediate historical context, but also draws out their wider importance and legacy for the generations of historians, politicians, and writers over the ensuing three and a half centuries. This is a book about constitutional history and thought, but also about the writing of constitutional history and thought and the forms they have taken -whether as scholarship, polemics, or literary experiments - in collective British memory. Chapters range from the events leading up to and through the trial and execution of Charles; to their theatricality, legality, and constitutionality; to the political writings such as Milton's Tenure of Kings and Hobbes' Leviathan that followed; and finally trace the various subsequent histories and trials of Charles I that presented him either as martyr, Tory or -- in the 18th and 19th centuries -- the Whig.

**Australian Security After 9/11** - Derek McDougall 2020-07-25

Debates on security became more intense following the unanticipated end of the Cold War conflict and took on added force after the terrorist attacks on the US on September 11, 2001. Generally viewed as a part of the wider 'West' despite its separation by enormous geographical distances from both Europe and the United States, Australia is a regional power in its own right. It has been an active and loyal member of the US-led coalitions of the willing, first in Afghanistan and then in Iraq. The terrorist attacks in Bali one year after the attacks in the United States brought home to Australia the direct nature of the new global terrorist threats to its own security. This volume brings together leading experts on international security and Australia's foreign and security policies in a critical examination of Australia's adaptations to the new security challenges. It is the first in-depth and comprehensive analysis of Australia's defence and security policies as well as the country's role in countering regional and global challenges to international security since the war on terrorism began.

**Constitutional Referendums** - Stephen Tierney 2012-04-05

The use of referendums around the world has grown remarkably in the past thirty years and, in particular, referendums are today deployed more than ever in the settlement of constitutional questions, even in countries with little or no tradition of direct democracy. This is the first book by a constitutional theorist to address the implications of this development for constitutional democracy in a globalizing age, when many

of the older certainties surrounding sovereignty and constitutional authority are coming under scrutiny. The book identifies four substantive constitutional processes where the referendum is regularly used today: the founding of new states; the creation or amendment of constitutions; the establishment of complex new models of sub-state autonomy, particularly in multinational states; and the transfer of sovereign powers from European states to the European Union. The book, as a study in constitutional theory, addresses the challenges this phenomenon poses not only for particular constitutional orders, which are typically structured around a representative model of democracy, but for constitutional theory more broadly. The main theoretical focus of the book is the relationship between the referendum and democracy. It addresses the standard criticisms which the referendum is subjected to by democratic theorists and deploys both civic republican theory and the recent turn in deliberative democracy to ask whether by good process-design the constitutional referendum is capable of facilitating the engagement of citizens in deliberative acts of constitution-making. With the referendum firmly established as a fixture of contemporary constitutionalism, the book addresses the key question for constitutional theorists and practitioners of how might its operation be made more democratic in age of constitutional transformation.

**Double Disillusion** - Anika Gauja 2018-04-11

This book provides a comprehensive analysis of the 2016 Australian federal election. Won by the Liberal-National Coalition by the slimmest of margins, the result created a climate of political uncertainty that threatened the government's lower house majority. While the campaign might have lacked the theatre of previous elections, it provides significant insights into the contemporary political and policy challenges facing Australian democracy and society today. In this, the 16th edited collection of Australian election studies, 41 contributors from a range of disciplines bring an unprecedented depth of expertise to the 2016 contest. The book covers the context, key battles and issues in the campaign, and reports and analyses the results in detail. It provides an evaluation of the role of political actors such as the parties, independents, the media, interest groups and GetUp!, and examines election debate in the online space. Experts from a range of policy fields provide an analysis of election issues ranging from the economy and industrial relations to social policy, the environment, and gender and sexuality. Each of the chapters is written on the basis of in-depth and original research, providing new insights into this important political event.

**The Long Decade** - David Jenkins 2014-03-18

The terrorist attacks of 9/11 precipitated significant legal changes over the ensuing ten years, a "long decade" that saw both domestic and international legal systems evolve in reaction to the seemingly permanent threat of international terrorism. At the same time, globalization produced worldwide insecurity that weakened the nation-state's ability to monopolize violence and assure safety for its people. The Long Decade: How 9/11 Changed the Law contains contributions by international legal scholars who critically reflect on how the terrorist attacks of 9/11 precipitated these legal changes. This book examines how the uncertainties of the "long decade" made fear a political and legal force, challenged national constitutional orders, altered fundamental assumptions about the rule of law, and ultimately raised questions about how democracy and human rights can cope with competing security pressures, while considering the complex process of crafting anti-terrorism measures.

**The Cambridge Handbook of Deliberative Constitutionalism** - Ron Levy 2018-04-19

Deliberative democratic theory emphasises the importance of informed and reflective discussion and persuasion in political decision-making. The theory has important implications for constitutionalism - and vice versa - as constitutional laws increasingly shape and constrain political decisions. The full range of these implications has not been explored in the political and constitutional literatures to date. This unique Handbook establishes the parameters of the field of deliberative constitutionalism, which bridges deliberative democracy with constitutional theory and practice. Drawing on contributions from world-leading authors, this volume will serve as the international reference point on deliberation as a foundational value in constitutional law, and will be an indispensable resource for scholars, students and practitioners interested in the vital and complex links between democratic deliberation and constitutionalism.

**The SAGE Handbook of European Union Politics** - Knud Erik Jørgensen 2007-01-03

This volume is one to which anyone trying to make sense of the EU of the early 21st century will return again and again. A terrific line-up that combines diverse talents from North America and Europe. Few

books of this kind could live up to the billing 'definitive benchmark', but this one certainly does' - John Peterson, University of Edinburgh 'A most useful book that can be highly recommended. A strong analytical framework coupled with unparalleled coverage of the major issues of the political science research of the EU makes this volume a formidable tool for teaching and a significant input to new scholarly research. It is both relatively sophisticated and very accessible to graduate students and advanced researchers. The clear writing style and the richness of information presented will certainly make this book interesting for non-academic readers' - Igor Vidacak, Institute for International Relations, Zagreb - Journal of Common Market Studies 'An admirably comprehensive source book for those interested in how the tools of political science inspire EU area studies. The editors enlist leading researchers to synthesize the state of the art in their field of expertise. The Handbook of European Union Politics will be an indispensable intellectual resource for researchers, teachers, and graduate students of the European Union' - Liesbet Hooghe, University of North Carolina at Chapel Hill, USA 'Presents an excellent overview of political science research on the EU. It finds the right balance between establishing the state of the art and pointing the reader to theoretical diversity. Highly recommended for advanced students and scholars looking for quick and solid orientation in a fragmented field - and for new ideas for research' - Frank Schimmelfennig, ETH Zurich, Switzerland 'This is a milestone in the study of EU politics. The authors include the most knowledgeable practitioners in the field, and collectively they provide a comprehensive and highly competent overview of the state of theory and research on EU institutions, politics and policies' - Fritz Scharpf, Max Planck Institute for the Study of Societies, Germany The European Union (EU) poses quite profound questions for scholars and students of the social and political sciences. This benchmark handbook is designed to: - provide an authoritative state-of-the art guide to the scope of the field suitable for both established scholars and students of the EU - reflect and contribute to the debates about the nature of the field of EU studies and EU politics in particular - explore in detail the development of the many approaches to the study of EU politics. Divided into four sections, the Handbook focuses on theorizing European integration; the EU as polity; politics and policy making in the EU; and the EU and the international system. Its appeal will reside not only in its comprehensive and authoritative coverage of the field, but also in the quality of its contributors, and the diversity of theoretical and methodological approaches included. The resulting volume is a 'must have' for all scholars and advanced students of the EU and European integration.

*The Global Rise of Populism* - Benjamin Moffitt 2016-05-31

Once seen as a fringe phenomenon, populism is back. While some politicians and media outlets present it as dangerous to the U.S., Europe, and Latin America, others hail it as the fix for broken democracies. Not surprisingly, questions about populism abound. Does it really threaten democracy? Why the sudden rise in populism? And what are we talking about when we talk about "populism"? *The Global Rise of Populism* argues for the need to rethink this concept. While still based on the classic divide between "the people" and "the elite," populism's reliance on new media technologies, its shifting relationship to political representation, and its increasing ubiquity have seen it transform in nuanced ways that demand explaining. Benjamin Moffitt contends that populism is not one entity, but a political style that is performed, embodied, and enacted across different political and cultural contexts. This new understanding makes sense of populism in a time when media pervades political life, a sense of crisis prevails, and populism has gone truly global.

**The Politics of Immigration** - James Hampshire 2013-10-07

"The book shows how four defining facets of the liberal state--representative democracy, constitutionalism, capitalism and nationhood--generate conflicting imperatives for immigration policymaking, which in turn give rise to paradoxical, even contradictory policies."--Page [4] of cover.

**Shakespeare and the Legal Imagination** - Ian Ward 1999-07

This work offers an analysis of constitutional law, examining Shakespeare's plays as legal texts. Professor Ward uses the plays as a starting point to investigate the development of constitutional ideas such as sovereignty, commonwealth, conscience and moral law, and the art of government. In the developing area of law and literature, this book examines how Shakespeare's work offers a rich source of textual material on legal subjects.

*A Critical Introduction to European Law* - Ian Ward 2003-04

This book discusses the history and institutional framework of the EU without becoming mired in the minutiae of 'black letter' law. It provides an accessible introduction for students to current critical academic commentary on European law.

**Politics One** - Randal G. Stewart 1996

*Australian Politics and Government* - Jeremy Moon 2003-02-26

Table of contents

**Mechanical Properties of Solid Polymers** - Ian M. Ward 2012-10-22

Providing an updated and comprehensive account of the properties of solid polymers, the book covers all aspects of mechanical behaviour. This includes finite elastic behavior, linear viscoelasticity and mechanical relaxations, mechanical anisotropy, non-linear viscoelasticity, yield behavior and fracture. New to this edition is coverage of polymer nanocomposites, and molecular interpretations of yield, e.g. Bowden, Young, and Argon. The book begins by focusing on the structure of polymers, including their chemical composition and physical structure. It goes on to discuss the mechanical properties and behaviour of polymers, the statistical molecular theories of the rubber-like state and describes aspects of linear viscoelastic behaviour, its measurement, and experimental studies. Later chapters cover composites and experimental behaviour, relaxation transitions, stress and yielding. The book concludes with a discussion of breaking phenomena.

**A Critical Introduction to European Law** - Ian Ward 2009-05-14

Written by one of the leading academics specialising in European law and legal theory, *A Critical Introduction to European Law* explains the history and institutional framework of European Union law to students and scholars. Through the inclusion of commentaries on successive drafts of the Constitutional and Lisbon treaties, and discussion of recent developments such as the Turkish application, this third edition explores the evolving role of the EU in international and global politics. A consciously interdisciplinary approach, which draws on a variety of materials from political and legal thought, social theory, economic analysis, literature, history and cultural studies, is deployed to make the present state of Union law comprehensible.

**Law and Literature** - Ian Ward 1995-05-26

The emergence of an interdisciplinary study of law and literature is one of the most exciting theoretical developments taking place in North America and Britain. In *Law and Literature: Possibilities and Perspectives* Ian Ward explores the educative ambitions of the law and literature movement, and its already established critical, ethical and political potential. He reveals the law in literature, and the literature of law, in key areas of literature, from Shakespeare to Beatrix Potter to Umberto Eco, and from feminist literature to children's literature to the modern novel, drawing out the interaction between rape law and *The Handmaid's Tale*, and the psychology of English property law and *The Tale of Peter Rabbit*. This original book defines the developing state of law and literature studies, and demonstrates how the theory of law and literature can illuminate the literary text.
