## **Staring at the Sun** - Irvin D. Yalom 2010-06-10

Written in Irv Yalom's inimitable story-telling style, Staring at the Sun is a profoundly encouraging approach to the universal issue of mortality. In this magisterial opus, capping a lifetime of work and personal experience, Dr. Yalom helps us recognize that the fear of death is at the heart of much of our anxiety. Such recognition is often catalyzed by an "awakening experience"—a dream, or loss (the death of a loved one, divorce, loss of a job or home), illness, trauma, or aging. Once we confront our own mortality, Dr. Yalom writes, we are inspired to rearrange our priorities, communicate more deeply with those we love, appreciate more keenly the beauty of life, and increase our willingness to take the risks necessary for personal fulfillment.

Some of these and other uses originate in a medieval book that has not yet been translated into English. This book delves into the history of these plants, covering such topics as: How shamans and priests used these plants for their magical attributes, as a means to foretell the future or to commune with the gods How a pot of basil helped to conceal a savage murder The truth about the mysterious mandrake A conundrum written by Jane Austen to entertain her family—the answer to which is one of the plants in this book These stories and many more will enlighten you on these treacherous and peculiar plants, their defensive and deadly traits, the facts behind them, and the folklore that has grown around them.

## **The Curious Incident of the Dog in the Night-Time** - Mark Haddon 2009-02-24

A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.

**The Reaper's Garden** - Vincent Brown 2010-09-30

Winner of the Merle Curti Award Winner of the James A. Rawley Prize Winner of the Louis Gottschalk Prize Longlisted for the Cundill Prize Vincent Brown makes the dead talk. With his deep learning and powerful historical imagination, he calls upon the departed to explain the living. The Reaper's Garden stretches the historical canvas and forces readers to think afresh. It is a major contribution to the history of Atlantic slavery. Ira Berlin From the author of Tacky's Revolt, a landmark study of life and death in colonial Jamaica at the zenith of the British slave empire. What did people make of death in the world of Atlantic slavery? In The Reaper's Garden, Vincent Brown asks this question about Jamaica, the staggeringly profitable hub of the British Empire in America—and a human catastrophe. Popularly known as the grave of the Europeans, it was just as deadly for Africans and their descendants. Yet among the survivors, the dead remained both a vital presence and a social force. In this compelling and evocative story of a world in flux, Brown shows that death was as generative as it was destructive. From the eighteenth-century zenith of British colonial slavery to its demise in the 1830s, the Grim Reaper cultivated essential aspects of social life in Jamaica—belonging and status, dreams for the future, and commemorations of the past. Surveying a haunted landscape, Brown unfolds the letters of anxious colonists; listens in on wakes, eulogies, and solemn incantations; peers into crypts and coffins, and finds the very spirit of human struggle in slavery. Masters and enslaved, fortune seekers and spiritual healers, rebels and rulers, all summoned the dead to further their desires and ambitions. In this turbulent transatlantic world, Brown argues, mortuary politics

played a consequential role in determining the course of history. Insightful and powerfully affecting, The Reaper's Garden promises to enrich our understanding of the ways that death shaped political life in the world of Atlantic slavery and beyond.
