*Rapport mondial sur les
drogues 2004* - United Nations
Office on Drugs and Crime
2006-10-06
Selon les estimations, environ
3 % de la population mondiale -
soit 185 millions de personnes -
consomment chaque année des
drogues illicites, personnes qui
vivent dans la quasi-totalité des

pays du monde et viennent de
tous les milieux.
D'innombrables autres
personnes participent à la
production et au trafic de
drogues illicites et plus
nombreuses encore sont celles
sur lesquelles pèse le coût
économique et social
faramineux de ce commerce.
Ces individus vivent dans les
pays développés ou dans les
pays en développement, sont
riches ou pauvres, en bonne

santé ou malades, citoyens ou réfugiés; les drogues illicites constituent un phénomène véritablement mondial. Les analyses et les statistiques fiables sur la production, le trafic et la consommation des drogues sont rares, à cause tant de l'omniprésence que du caractère illicite et clandestin de ces substances. L'Office des Nations Unies contre la drogue et le crime (ONUDC) agissant en coopération avec les États Membres, a tenté de combler les lacunes. La première édition du nouveau Rapport mondial sur les drogues, en deux volumes, présente plus de données quantitatives que jamais pour augmenter les preuves factuelles disponibles dans un domaine où toute mesure est notoirement difficile. Cette année, l'analyse des tendances, dont certaines remontent à dix ans ou plus, est présentée dans le premier volume. Le second volume rassemble des statistiques détaillées. Pris ensemble, les deux volumes dressent un tableau complet de la situation actuelle en matière de drogues

illicites.

The new Edition of the report of the European Commission for the Efficiency of Justice (CEPEJ), which evaluates the functioning of the judicial systems in 45 Council of Europe's member states and an observer state to the CEPEJ, Israël, remains in line with the process carried out since 2002. Relying on a methodology which is already a reference for collecting and processing a wide number of quantitative and qualitative judicial data, this unique study has been conceived above all as a tool for public policy aimed at improving the efficiency and the quality of justice. To have the knowledge in order to be able to understand, analyse and reform, such is the objective of the CEPEJ which has prepared this report, intended for policy makers, legal practitioners, researchers as well as for those

Rapport mondial sur les drogues 2006 - United

Nations Office on Drugs and Crime 2006-01-01

Environ 200 millions de personnes (soit 5 % de la population mondiale âgée de 15 à 64 ans) ont consommé des drogues illicites au moins une fois au cours des 12 derniers mois. Presque tous les pays de la planète sont représentés parmi ces consommateurs. Plus de personnes participent à la production et au trafic de drogues illicites, et plus encore en subissent les conséquences socioéconomiques dévastatrices. En raison d'une part de l'étendue du problème, et d'autre part de sa nature illicite et dissimulée, les analyses et les statistiques fiables sur la production, le trafic et la consommation des drogues illicites sont rares. Le Rapport mondial sur les drogues de 2006 tente de

combler cette lacune. Il offre l'un des aperçus les plus complets qui soient des tendances en matière de drogues illicites au niveau international. On y trouve en outre un chapitre thématique spécial sur le cannabis, qui est de loin la drogue la plus produite, trafiquée et consommée dans le monde. L'analyse des tendances (qui remontent parfois à 10 ans et plus) est présentée dans le volume 1. Les statistiques détaillées figurent dans le volume 2. Ensemble, ces deux volumes représentent la synthèse la plus complète à ce jour de la situation des drogues illicites dans le monde.

promotes the scientific study of nineteen European supranational organisations and the OECD. The series offers a detailed survey of the history, structure and yearly activities of each organisation and an up-to-date overview of the member states of each organisation. This special anniversary volume celebrates 60 years of publication of the Yearbook, and its contents differs from that of the regular volumes therefore. It offers a selection of the most important articles, dealing with European cooperation and integration, to appear in the Yearbook during its 60 years of publication. These are of particular interest not only because they provide a unique historical snapshot of the many successes (and occasional failures) in the field of European integration but also because they discuss the ideals and aims that lay behind these efforts, many of which still resonate today as Europe confronts questions about its political destiny and ideal shape. This volume contains articles in English and French."

Le Rapport mondial sur les drogues se propose à aider les États membres à mieux comprendre les tendances mondiales des drogues illicites et vise à sensibiliser l'ensemble des gouvernements à la nécessité de recueillir et de notifier de façon plus systématique les données concernant ces drogues illicites. L'ONUDC compte sur les États membres pour lui fournir les données dont il a besoin, principalement en répondant aux Questionnaire destiné à l'élaboration des rapports annuels. L'ONUDC a envoyé cette année 200 exemplaires de son

Questionnaire; il a reçu 118 réponses à la section concernant l'abus de drogues, et 116 à celle qui concernait l'offre illicite. D'une manière générale, l'aptitude des États membres à fournir des informations sur l'offre de drogues illicites est très supérieure à sa capacité de fournir des données concernant la demande. En dépit de progrès louables, par exemple en ce qui concerne les estimations de prévalence, il reste encore beaucoup à faire pour pouvoir établir une base solide et fiable permettant l'analyse des tendances et des politiques suivies.

de la nutrition, fournissant une perspective actuelle sur un problème en rapide mutation. Malgré les progrès accomplis au cours des deux dernières décennies, un tiers des enfants de moins de 5 ans souffrent de malnutrition, sous la forme d'un retard de croissance, d'une émaciation ou d'un surpoids, tandis que deux tiers sont exposés à un risque de malnutrition ou de faim insoupçonnée en raison de la piètre qualité de leur alimentation. Ces schémas reflètent le triple fardeau de la malnutrition, à savoir la dénutrition, la faim insoupçonnée et le surpoids, qui menace la survie, la croissance et le développement des enfants et des nations. Un système alimentaire dysfonctionnel, qui ne donne pas aux enfants l'alimentation dont ils ont besoin pour grandir en bonne santé, se trouve au coeur de ce problème. Ce rapport fournit des données et des analyses uniques sur la malnutrition au

Catalogue de Timbres de France 2019 - Spink Maury
2018-09-01

A catalogue made by collectors for collectors. This year the Spink Maury Catalogue, heir to the prestigious Maury, Ceres and Dallay catalogues, continues its work of research, compiled over generations of philately. It covers all French stamps from 1849 to the present day, offering hundreds of changes - with oddities, new varieties and discoveries presented, as always, in an exceptional way. Included in the new material is the continuation of the monographic studies, presenting a stamp per page with all varieties known until the First World War; a redesign of types Merson and Pasteur; and a specialised part devoted to Marianne de Beaujard, reviewed in depth. In addition the section on current usage stamps (TUC) is fully updated following feedback from our contributors and readers.

France has one of the most

beautiful philatelic legacies in the world, and we are pleased to be its modest ambassador to the numerous international readers who join us each year. "Layout and coverage are sumptuous ... The trite phrase "mine of information" does not begin to do justice to this immense achievement. To any collector of France beyond the elementary stage, this would be a bargain at twice the official retail price ... Highly recommended.an absolute must for collectors of French stamps..."
