Hinduism - Hiro G. Badlani 2008

Hinduism, the world's oldest living religion, embodies a wide spectrum of philosophies, beliefs, and customs. It has prompted thinkers from an array of cultures and ages—from Apollonius Tyaneus, a first century Greek thinker, to Voltaire, Mark Twain, and Albert Einstein—to extol its influence. Now, Dr. Hiro G. Badlani brings you *Hinduism: Path of the Ancient Wisdom*, an easy-to-understand guidebook that delves into Hinduism's spiritual and historical perspectives. For more than ten years, Dr. Badlani has passionately channeled his resources and inner reflections into learning about this ancient religion. His meticulous research, combined with guidance from spiritual masters, sages, and swamis has brought forth in this volume. This mini-encyclopedia covers all aspects of Hinduism in a series of small chapters. Spiritual teachings form the book's core, for without the spiritual teachings, what function can any religion play? Still, however, information is presented in a non-dogmatic manner, stressing the basic unity and homogeneity of all religions. With its powerful narrative and roots in spiritual storytelling, this book is perfect for anyone who desires authentic information on Hinduism. Engaging with this book will not only educate you, but imbue you with personal peace and happiness, becoming an experience both elegant and empowering.

The Lives of Sri Aurobindo - Peter Heehs 2008

Since his death in 1950, Sri Aurobindo Ghose has been known primarily as a yogi and a philosopher of spiritual evolution who was nominated for

the Nobel Prize in peace and literature. But the years Aurobindo spent in yogic retirement were preceded by nearly four decades of rich public and intellectual work. Biographers usually focus solely on Aurobindo's life as a politician or sage, but he was also a scholar, a revolutionary, a poet, a philosopher, a social and cultural theorist, and the inspiration for an experiment in communal living. Peter Heehs, one of the founders of the Sri Aurobindo Ashram Archives, is the first to relate all the aspects of Aurobindo's life in its entirety. Consulting rare primary sources, Heehs describes the leader's role in the freedom movement and in the framing of modern Indian spirituality. He examines the thinker's literary, cultural, and sociological writings and the Sanskrit, Bengali, English, and French literature that influenced them, and he finds the foundations of Aurobindo's yoga practice in his diaries and unpublished letters. Heehs's biography is a sensitive, honest portrait of a life that also provides surprising insights into twentieth-century Indian history.

Hindus Under Siege - Subramanian Swamy 2006

Taj Mahal, the True Story - Purushottam Nagesh Oak 1989

Hinduism for Our Times - Arvind Sharma 1996

This book examines the contours of this creative tension in the context of Hinduism in our own times. For Hinduism, a religion of unknown antiquity, is also, in several ways, surprisingly modern. Hinduism for Our Times is an attempt to raise this dimension of Hinduism to an unprecedented level of self-awareness.

The Politics of Religion in Indonesia - Michel Picard 2011-05-13

Indonesia is a remarkable case study for religious politics. While not being a theocratic country, it is not secular either, with the Indonesian state officially defining what constitutes religion, and every citizen needing to be affiliated to one of them. This book focuses on Java and Bali, and the interesting comparison of two neighbouring societies shaped by two different religions - Islam and Hinduism. The book examines the appropriation by the peoples of Java and Bali of the idea of religion, through a dialogic process of indigenization of universalist

religions and universalization of indigenous religions. It looks at the tension that exists between proponents of local world-views and indigenous belief systems, and those who deny those local traditions as qualifying as a religion. This tension plays a leading part in the construction of an Indonesian religious identity recognized by the state. The book is of interest to students and scholars of Southeast Asia, religious studies and the anthropology and sociology of religion.

Bhakti or Devotion - Swami Vivekananda 1963

In this lecture, Swami Vivekananda discusses some of the crucial and most pertinent issues surrounding the practice of devotion in a succinct way. He brilliantly brings out the rationale of this practice, ignorance of which has been the main cause of the timeless conflict in the religious scenario of the world. This booklet by Advaita Ashrama, a Publication House of Ramakrishna Math, Belur Math, forcefully justifies the need of Bhakti or Devotion for every man while still in the nursery of religious life.

Hinduism in Modern Indonesia - Martin Ramstedt 2005-06-28

This book provides new data and perspectives on the development of 'world religion' in post-colonial societies through an analysis of the development of 'Hinduism' in various parts of Indonesia from the early twentieth century to the present. This development has been largely driven by the religious and cultural policy of the Indonesian central government, although the process began during the colonial period as an indigenous response to the introduction of modernity.

The Śākta Pīṭhas - Dineschandra Sircar 1948

The holy places associated with the Mother Goddess and spread over various parts of the Indian subcontinent have been popular pilgrim spots for a long time. According to some late Tantric texts ascribable to Eastern India, the number of such Sakta-Tirthas is fifty-one and the present monograph is a dissertation on the origin and development of this conception. Thus it is at the same time the study of a number of Tantric and other texts as well as of certain problems of Tantric religion and of historical geography. It is unique in its approach because Tantra Studies have not progressed satisfactorily so far on scientific lines.

My Science, My Religion - Michael A. Cremo 2012

This book is a collection of twenty-four papers that Michael A. Cremo, who is not a professional scientist, presented at scientific and academic conferences. Versions of some of these papers have appeared in peer-reviewed academic publications. In these papers, Cremo explores the relationship between science and religion, in terms of his specific scientific and religious commitments. Many of the papers in this book deal with archeological evidence for extreme human antiquity, consistent with the Puranic histories. Other papers explore the history of archeology in India. In his book Human Devolution, Cremo presented a Vedic alternative to the current theory of human origins. Some of the

papers in My Science, My Religion are related to this topic. This collection will be of interest to theologians, scientists, historians of science, philosophers of science, and scholars of science and religion.

The Low Density Lifestyle - Michael Wayne 2010-12-01

A Low Density Lifestyle is experiencing and living in a more relaxed, less stressed, and calm, clear and focused manner on an everyday basis. It is also a way that can lead you to better health and happiness, along with living a more fulfilled life. A Low Density Lifestyle is the antidote for our increasingly fast-paced lifestyle. With each passing day our hectic existence is becoming more and more unbalanced and out of control. The pace of our society is leading us to the complete opposite of a Low Density Lifestyle-to a High Density Lifestyle. Collectively, all of us have been affected and are literally crying for a pause, a virtual time-out from this torrid pace. Our natural inclination is to aspire towards a flow state, no matter the obstacles, because intuitively we know that this is the true path to happiness, health, inner peace, success, productivity, focus, clarity and quality of thought, better relationships, love and spiritual growth. We all want to be there, yet we don't know how, nor do we have a clear road map as a guide. This book is your guide. This is a book about many things-health, wellness, happiness, fulfillment, doing what you love, movement, being a creative thinker-but at the same time, it's about one thing: living to your maximum potential by living a Low Density Lifestyle. The goal with this book is to help you become a more complete human being. We are meant to live a healthy life, a more fulfilled life, a conscious life, and a more awakened life - this is what it means to be a complete human being. And this is what is meant by living a Low Density Lifestyle: it is a model for living.

Narendra Modi: The Man, the Times - Nilanjan Mukhopadhyay 2014-12-28

On 26 December 2012, Narendra Modi was sworn in as the Chief Minister of Gujarat for the fourth time to extend his record tenure in office. "Mass Murderer" or "Development Man"? It depends on which

side of the spectrum he is viewed from, because Narendra Modi is one of those politicians whose name prompts extremes of hate-filled anger or outright adulation. Despite polarizing Gujarat and India in more ways than one, Modi brilliantly does what it takes to survive in a democracy: win elections. Written by veteran journalist and writer, Nilanjan after several in-depth interviews, meticulous research and extensive travel through Gujarat, this book reveals hitherto unknown aspects of Narendra Modi's psyche: as a six year- old boy selling tea to help out his father and distributing badges and raising slogans at the behest of a local political leader; abandoning his family and wife in search of his definition of truth; initiation into the RSS as a fledgling who ran errands for his seniors; his idea of Gujarati pride and Indian-ness; and finally, his meteoric rise which gave him a distinct identity post the 2002 Godhra riots. Narendra Modi: The Man, The Times is a definitive biography of a man who may have challenged the basic principles of a sovereign secular nation but emerged at its destination as an undisputed and larger-than-life leader.

Pilgrims to Openness - Shambhavi Sarasvati 2009

Pilgrims to Openness introduces the heart of authentic Indian Tantra in a series of lyrical, readable essays that speak with warmth, intelligence and compassion to the curious beginner and more adept practitioner alike. The essays follow the path from the first fleeting recognition of one's real nature to integration of the fruits of spiritual practice with every moment of life. Many of the essays were prompted by queries from students to the author. Heartfelt questions, such as "Do I need a Guru," and more philosophical topics are addressed in a simple, lucid, gutsy and often humorous style. No topic is off limits, from difficult emotions to love relationships, death, kundalini, chakras, boredom, the meaning of nonduality and how to wake up-in the morning and for all time. While Pilgrims to Openness is a series of teachings, not a "how-to" manual, the final pages of the book offer detailed instructions for three key practices that anyone can do. Shambhavi Sarasvati has trained for more than twenty years in the view and practices of North Indian direct realization Tantra. She has been fortunate to have studied with several great teachers in Indian and Tibetan nondual traditions. She has both a

practitioner's and an academic grounding in Tantra. Her non-mystical view is that Tantra is a way to learn about and live in the fullness of Reality. This is Self-realization. Nothing more or less.

Vedic Cosmography and Astronomy - Richard L. Thompson 2004

The mysteries of the fifth Canto of the Srimad Bhagavatam have long puzzled students of Vedic cosmography and astronomy. Confronted with a description of the universe that seems much at variance with the information provided by our senses and standard astronomical calculations, foreign observers and even Indian commentators from the middle ages up to the present have concluded that the Bhagavatam`s account elaborated in other Puranas must be mythological. On the other hand the same persons have been much impressed with vedic astronomical treatises the jyotisastras which provide remarkably accurate measurements of the solar system.

The First Hindu Mission to America - Sunrit Mullick 2010

This book positions Brahma Samaj leader Protap Chunder Mozoomdar as the originator of the Hindu mission movement to the United States of America in the late 19th century. It is known that Protap Mozoomdar, together with Swami Vivekananda, represented Hinduism at the Parliament of Religions at Chicago in 1893. But what has missed the focus of scholars is that Mozoomdar visited the United States ten years earlier in 1883, making him the pioneer of the Hindu mission movement to the United States. The book is the first detailed study of Protap Chunder Mozoomdar in America. It is written through primary research on American newspapers, periodicals, manuscripts, diaries and archival material available in American libraries, and material in possession of the author. On the whole, the book presents new information of interest to both the general reader and the scholarly community.

The Mandala Astrological Tarot - A. T. Mann 2009-10-01

There are many tarot sets on the market?but not one like this! Then, the original design eliminates the conventional human figures of the tarot, replacing them with mandala images that aid meditation. What's more, the 22 major arcane signs are divided into three groups corresponding to the signs of the zodiac, the elements, and the planets. This spiritually aware approach to the tarot provides a remarkable new set of tools for understanding the forces that shape our lives.

Vic leads us into the wonderful depths of Vedic wisdom by relating the myths connected with each of the 27 lunar mansions and their deities. Using this approach, this book goes considerably deeper than other Jyotish textbooks I have seen. Warmly recommended, even to non-astrologers! Can we hope for follow-up book about the Hindu planetary deities?" - Dieter Koch, Indologist and Archaeoastronomer Co-creator of the Swiss Ephemeris "Vic DiCara's exploration and definitive research on the lunar mansions brings the primordial zodiac alive with the rich symbolism and sacred stories of Indian lore. We often forget that the basis of Vedic astrology will always be the mystical mythology associated with Jyotish, the science of light. Mr. DiCara's brilliant text illuminates our path home to the divine through his deep understanding and the blessings of the gods and goddesses of ancient India" - Dennis M. Harness, Ph.D. Psychologist, Writer and Vedic Astrologer "27 Stars, 27 Gods is a fantastically deep book about the fixed stars of Vedic astrology. It is well written and well researched, and is a clear and enjoyable read! I highly recommend it for everyone from astrologers to yogis and everyone in between." - Juliana Swanson, RN ACVA Teacher, Jyotish Visharada & Kovid More than a journey through the outer universe of astrological stars, 27 Stars 27 Gods is a journey through the driving forces of the subconscious inner

universe. By helping us identify these influences Vic DiCara helps us understand ourselves better and progress more smoothly on our life's journey. 27 Stars 27 Gods can be a reference book in the hands of an experienced astrologer, but it is also a self improvement tool for any reader interested in exploring life in depth. It presents symbols, mythology, ancient storytelling and divine lila in language that immediately catches one's interest and speaks to us like a friend - never prescriptive, but always revealing our opportunities. Let me congratulate Vic on this unique book. Unlike most books in the spiritual market, this is not at all a copy of a copy of a copy. It is an outstanding new addition to our knowledge, written with an inspired pen of intensity and wit. - Sripad Sacinandana Swami Vaishnava Guru & Sanyassi
