## **A Comparative History of Literatures in the Iberian Peninsula** - Fernando Cabo

Aseguinolaza 2010-05-26

A Comparative History of Literatures in the Iberian Peninsula is the second comparative history of a new subseries with a regional focus, published by the Coordinating Committee of the International Comparative Literature Association. As its predecessor for East-Central Europe, this two-volume history distances itself from traditional histories built around periods and movements, and explores, from a comparative viewpoint, a space considered to be a powerful symbol of inter-literary relations. Both the geographical pertinence and its symbolic condition are obviously discussed, when not even contested. Written by an international team of researchers who are specialists in the field, this history is the first attempt at applying a comparative approach to the plurilingual and multicultural literatures in the Iberian Peninsula. The aim of

comprehensiveness is abandoned in favor of a diverse and extensive array of key issues for a comparative agenda. A Comparative History of Literatures in the Iberian Peninsula undermines the primacy claimed for national and linguistic boundaries, and provides a geo-cultural account of literary inter-systems which cannot otherwise be explained.

**Pedagogical Translanguaging** - Jasone Cenoz 2022-01-31

Learning through the medium of a second or additional language is becoming very common in different parts of the world because of the increasing use of English as the language of instruction and the mobility of populations. This situation demands a specific approach that considers multilingualism as its core.

Pedagogical translanguaging is a theoretical and instructional approach that aims at improving language and content competences in school contexts by using resources from the learner's whole linguistic repertoire. Pedagogical translanguaging is learner-centred and endorses the support and development of all the languages used by learners. It fosters the development of metalinguistic awareness by softening of boundaries between languages when learning languages and content. This Element looks at the way pedagogical translanguaging can be applied in language and content classes and how it can be valuable for the protection and promotion of minority languages. This title is also available as Open Access on Cambridge Core.

Cultural Encounters - Mary Elizabeth Perry 2018-08-14

More than just an expression of religious authority or an instrument of social control, the Inquisition was an arena where cultures met and clashed on both shores of the Atlantic. This

pioneering volume examines how cultural identities were maintained despite oppression. Persecuted groups were able to survive the Inquisition by means of diverse strategies—whether Christianized Jews in Spain preserving their experiences in literature, or native American folk healers practicing medical care. These investigations of social resistance and cultural persistence will reinforce the cultural significance of the Inquisition. Contributors: Jaime Contreras, Anne J. Cruz, Jesús M. **The Narrative of Cabeza de Vaca** - Álvaro Núñez Cabeza de Vaca 2020-06-18  
This edition of Álvaro Núñez Cabeza de Vaca's *Relación* offers readers Rolena Adorno and Patrick Charles Pautz's celebrated translation of Cabeza de Vaca's account of the 1527 Pánfilo de Narváez expedition to North America. The dramatic narrative tells the story of some of the first Europeans and the first-known African to encounter the North American wilderness and its Native inhabitants. It is a fascinating tale of survival against the highest odds, and it highlights Native Americans and their interactions with the newcomers in a manner seldom seen in writings of the period. In this English-language edition, reproduced from their

award-winning three-volume set, Adorno and Pautz supplement the engrossing account with a general introduction that orients the reader to Cabeza de Vaca's world. They also provide explanatory notes, which resolve many of the narrative's most perplexing questions. This highly readable translation fires the imagination and illuminates the enduring appeal of Cabeza de Vaca's experience for a modern audience.

*Evidentiality and Epistemic Modality in Spanish (Semi-)Auxiliaries* - Bert Cornillie 2007-01-01  
This volume presents a systematic and comprehensive analysis of the Spanish evidential semi-auxiliaries *parecer* and *resultar*, the modal constructions with *amenazar* and *prometer*, and the modal auxiliaries *poder*, *deber* and *tener que*. These verbs have never been considered together in a global approach that transcends the classical "verbal periphrases" model. The book proposes a cognitive-functional account of evidentiality and modality in Spanish with

special attention to subjectivity and grounding. The theoretical reflection relies on empirical evidence of two sorts: synchronic and diachronic corpus-analyses alternate with tests that measure the semantic and pragmatic compatibility of the evidential and epistemic constructions with specific sentences. Following the assumption that linguistic forms are determined by their meaning, the array of constructions that characterizes the different verbs justifies their grouping in three pairs of (semi-)auxiliaries: *parecer* vs *resultar*, *amenazar* vs *prometer* and *poder* vs *deber/tener que*. The distributional differences observed in the corpus are further shown to correlate with different degrees of grammaticalization. Primarily intended for scholars working in the field of Spanish functional linguistics, the monograph is also relevant for grammaticalization studies and for cognitive-semantic research at large. Given its combined theoretical and applied character, the volume is also of interest to anyone concerned with syntactic processes, lexical semantics or the wider area of discourse analysis and pragmatics.

## **Diversification of Mexican Spanish -**

Margarita Hidalgo 2016-10-24

This book offers a diversification model of transplanted languages that facilitates the exploration of external factors and internal changes. The general context is the New World and the variety that unfolded in the Central Highlands and the Gulf of Mexico, herein identified as Mexican Colonial Spanish (MCS). Linguistic corpora provide the evidence of (re)transmission, diffusion, metalinguistic awareness, and select focused variants. The tridimensional approach highlights language data from authentic colonial documents which are connected to socio-historical reliefs at particular periods or junctions, which explain language variation and the dynamic outcome leading to change. From the Second Letter of Hernán Cortés (Seville 1522) to the decades preceding Mexican Independence (1800-1821) this book examines the variants transplanted from the peninsular tree into Mesoamerican lands: leveling of sibilants of late medieval Spanish, direct object (masc. sing.] pronouns LO and LE, pronouns of address (*vos, tu, vuestra* merced plus plurals), imperfect subjunctive endings in *-SE* and *-RA*), and Amerindian loans. Qualitative and quantitative analyses of variants derived from the peninsular tree show a gradual process of attrition and recovery due to their saliency in the new soil, where they were identified with ways of speaking and behaving like Spanish speakers from the metropolis. The variants analyzed in MCS may appear in other regions of the Spanish-speaking New World, where change may have proceeded at varying or similar rates. Additional variants are classified as optimal residual (e.g. *dizque*) and popular residual (e.g. *vide*). Both types are derived from the medieval peninsular tree, but the former are vital across regions and social strata while the latter may be restricted to isolated and / or marginal speech communities. Each of the ten chapters probes into the pertinent variants of MCS and the stage of development by century. Qualitative and quantitative analyses reveal the trails followed by each select variant from the years of the Second Letter (1520-1522) of Hernán Cortés to the end of the colonial period. The tridimensional historical sociolinguistic model offers explanations that shed light on the

multiple causes of change and the outcome that eventually differentiated peninsular Spanish from New World Spanish. Focused-attrition variants were selected because in the process of transplantation, speakers assigned them a social meaning that eventually differentiated the European from the Latin American variety. The core chapters include narratives of both major historical events (e.g. the conquest of Mexico) and tales related to major language change and identity change (e.g. the socio-political and cultural struggles of Spanish speakers born in the New World). The core chapters also describe the strategies used by prevailing Spanish speakers to gain new speakers among the indigenous and Afro-Hispanic populations such as the appropriation of public posts where the need arose to file documents in both Spanish and Nahuatl, forced and free labor in agriculture, construction, and the textile industry. The examples of optimal and popular residual variants illustrate the trends unfolded during three centuries of colonial life. Many of them have passed the test of time and have survived in the present Mexican territory; others are also vital in the U.S. Southwestern states that once belonged to Mexico. The reader may also identify those that are used beyond the area of Mexican influence. Residual variants of New World Spanish not only corroborate the homogeneity of Spanish in the colonies of the Western Hemisphere but the speech patterns that were unwrapped by the speakers since the beginning of colonial times: popular and cultured Spanish point to diglossia in monolingual and multilingual communities. After one hundred years of study in linguistics, this book contributes to the advancement of newer conceptualization of diachrony, which is concerned with the development and evolution through history. The additional sociolinguistic dimension offers views of social significant and its thrilling links to social movements that provoked a radical change of identity. The amplitude of the diversification model is convenient to test it in varied contexts where transplantation occurred.

How I Became a Nun - César Aira 2007-02-28

"A good story and first-rate social science."—New York Times Book Review. A sinisterly funny modern-day *Through the Looking Glass* that begins with cyanide poisoning and ends in strawberry ice cream. The idea of the Native American living in perfect harmony with nature is one of the most cherished contemporary myths. But how truthful is this larger-than-life image? According to anthropologist Shepard Krech, the first humans in North America demonstrated all of the intelligence, self-interest, flexibility, and ability to make mistakes of human beings anywhere. As Nicholas Lemann put it in *The New Yorker*, "Krech is more than just a conventional-wisdom overturner; he has a serious larger point to make. . . . Concepts like ecology, waste, preservation, and even the natural (as distinct from human) world are entirely anachronistic when applied to Indians in the days before the European settlement of North America." "Offers a more complex portrait of Native American peoples, one that rejects mythologies, even those that both European and Native Americans might wish to embrace."—Washington Post "My story, the story of 'how I became a nun,' began very early in my life; I had just turned six. The beginning is marked by a vivid memory, which I can reconstruct down to the last detail. Before, there is nothing, and after, everything is an extension of the same vivid memory, continuous and unbroken, including the intervals of sleep, up to the point where I took the veil ." So starts Cesar Aira's astounding "autobiographical" novel. Intense and perfect, this invented narrative of childhood experience bristles with dramatic humor at each stage of growing up: a first ice cream, school, reading, games, friendship. The novel begins in Aira's hometown, Coronel Pringles. As self-awareness grows, the story rushes forward in a torrent of anecdotes which transform a world of uneventful happiness into something else: the anecdote becomes

adventure, and adventure, fable, and then legend. Between memory and oblivion, reality and fiction, Cesar Aira's *How I Became a Nun* retains childhood's main treasures: the reality of fable and the delirium of invention. A few days after his fiftieth birthday, Aira noticed the thin rim of the moon, visible despite the rising sun. When his wife explained the phenomenon to him he was shocked that for fifty years he had known nothing about "something so obvious, so visible." This epiphany led him to write *How I Became a Nun*. With a subtle and melancholic sense of humor he reflects on his failures, on the meaning of life and the importance of literature. *Milenio* - Bárbara Mujica 2001-08-31

*Historia de la poesía medieval castellana I* - Fernando Gómez Redondo 2020-10-15

Esta "Historia" aspira a fijar una nueva visión de la poesía medieval castellana, centrada básicamente en el desarrollo de sus materias principales, tal y como son requeridas por los contextos de recepción a los que las obras se dirigen, asentada en un continuo examen de los textos y atendida a la evolución de los tres sistemas métricos medievales (isométrico, isosilábico e isorrítmico). Cada materia requiere un proceso de versificación adecuado y la evolución de las leyes prosódicas refleja los

cambios que sufren los grupos receptores. *The Journey of Alvar Nuñez Cabeza de Vaca and His Companions from Florida to the Pacific, 1528-1536* - Alvar Núñez Cabeza de Vaca 1904

**The Book of Lamentations** - Rosario Castellanos 1998-08-01

Set in the highlands of the Mexican state of Chiapas, *The Book of Lamentations* tells of a fictionalized Mayan uprising that resembles many of the rebellions that have taken place since the indigenous people of the area were first conquered by European invaders five hundred years ago. With the panoramic sweep of a Diego Rivera mural, the novel weaves together dozens of plot lines, perspectives, and characters. Blending a wealth of historical information and local detail with a profound understanding of the complex relationship between victim and tormentor, Castellanos captures the ambiguities that underlie all struggles for power. A masterpiece of contemporary Latin American fiction from Mexico's greatest twentieth-century woman writer, *The Book of Lamentations* was translated with an afterword by Ester Allen and introduction by Alma Guillermoprieto.
