Sex Machine - Marie Force 2016-09-19

He's good for one thing and one thing only--and she wants it bad. Honey Carmichael has never had a decent orgasm, and she's out to change that with the one man in town known for his superior skill between the sheets. Blake Dempsey is happy to help Honey with her "problem" as long as she knows he's only interested in sex. His heart was broken when his high school girlfriend was killed in the car he was driving, and he has nothing to offer other than more orgasms than Honey can handle. Which is just fine with her--until fantastic orgasms aren't enough anymore for either of them and unexpected feelings turn hot sex into messy entanglement--and that most definitely wasn't in the plans. But you know what they say about plans.

Cosmos & Culture - Steven J. Dick 2009

From GPO Bookstore's Website: Authors with diverse backgrounds in science, history, anthropology, and more, consider culture in the context of the cosmos. How does our knowledge of cosmic evolution affect terrestrial culture? Conversely, how does our knowledge of cultural evolution affect our thinking about possible cultures in the cosmos? Are life, mind, and culture of fundamental significance to the grand story of the cosmos that has generated its own self-understanding through science, rational reasoning, and mathematics? Book includes bibliographical references and an index.

The Future of the Bamiyan Buddha Statues - Masanori Nagaoka 2020-12-07

This Open Access book explores heritage conservation ethics of post conflict and provides an important historical record of the possible reconstruction of the Bamiyan Buddha statues, which was inscribed in the UNESCO World Heritage List in Danger in 2003 as "Cultural Landscape and Archaeological Remains of the Bamiyan Valley". With the condition that most surface of the original fragments of the Buddha statues were lost due to acts of deliberate destruction, this publication explores a reference point for conservation practitioners and policy makers around the world as they consider how to respond to on-going acts of destruction of cultural heritage. Whilst there has been an emerging debate to the ethics and nature of heritage reconstruction, this volume provides a plethora of ideas and approaches concerning the future treatment of the Bamiyan Buddha statues. It also addresses a number of fundamental questions on potential heritage reconstruction: how it will be done; who will decide; and what it should be done for. Moreover when it comes to the inscribed World Heritage properties, how can reconstructed heritage using non-original materials be considered to retain authenticity? With a view to serving as a precedent for potential decisions taken elsewhere in the world for cultural properties impacted by acts of violence and destruction, this volume introduces academic researches, experiences and observations of heritage conservation theory and practice of heritage reconstruction. It also addresses the issue not merely from the point of a material conservation philosophy but within the context of holistic strategies for the protection of human rights and promotion of peace building.

Handbook of African Medicinal Plants, Second Edition - Maurice M. Iwu 2014-02-04

With over 50,000 distinct species in sub-Saharan Africa alone, the African continent is endowed with an enormous wealth of plant resources. While more than 25 percent of known species have been used for several centuries in traditional African medicine for the prevention and treatment of diseases, Africa remains a minor player in the global natural products market largely due to lack of practical information. This updated and expanded second edition of the Handbook of African Medicinal Plants provides a comprehensive review of more than 2,000 species of plants employed in indigenous African medicine, with full-color photographs and references from over 1,100 publications. The first part of the book contains a catalog of the plants used as ingredients for the preparation of traditional remedies, including their medicinal uses and the parts of the plant used. This is followed by a pharmacognostical profile of 170 of the major herbs, with a brief description of the diagnostic features of the leaves, flowers, and fruits and monographs with botanical names, common names, synonyms, African names, habitat and distribution, ethnomedicinal uses, chemical constituents, and reported pharmacological activity. The second part of the book provides an introduction to African traditional medicine, outlining African cosmology and beliefs as they relate to healing and the use of herbs, health foods, and medicinal plants. This book presents scientific documentation of the correlation between the observed folk use and demonstrable biological activity, as well as the characterized constituents of the plants.

I Am Malala - Malala Yousafzai 2013-10-08

A MEMOIR BY THE YOUNGEST RECIPIENT OF THE NOBEL PEACE PRIZE As seen on Netflix with David Letterman "I come from a country that was created at midnight. When I almost died it was just after midday." When the Taliban took control of the Swat Valley in Pakistan, one girl spoke out. Malala Yousafzai refused to be silenced and fought for her right to an education. On Tuesday, October 9, 2012, when she was

fifteen, she almost paid the ultimate price. She was shot in the head at point-blank range while riding the bus home from school, and few expected her to survive. Instead, Malala's miraculous recovery has taken her on an extraordinary journey from a remote valley in northern Pakistan to the halls of the United Nations in New York. At sixteen, she became a global symbol of peaceful protest and the youngest nominee ever for the Nobel Peace Prize. *I AM MALALA* is the remarkable tale of a family uprooted by global terrorism, of the fight for girls' education, of a father who, himself a school owner, championed and encouraged his daughter to write and attend school, and of brave parents who have a fierce love for their daughter in a society that prizes sons. *I AM MALALA* will make you believe in the power of one person's voice to inspire change in the world.

Guidelines for Applying Protected Area Management Categories - Nigel Dudley 2008

IUCN's Protected Areas Management Categories, which classify protected areas according to their management objectives, are today accepted as the benchmark for defining, recording, and classifying protected areas. They are recognized by international bodies such as the United Nations as well as many national governments. As a result, they are increasingly being incorporated into government legislation. These guidelines provide as much clarity as possible regarding the meaning and application of the Categories. They describe the definition of the Categories and discuss application in particular biomes and management approaches.

Fake Photos - Hany Farid 2019-09-10

A concise and accessible guide to techniques for detecting doctored and fake images in photographs and digital media. Stalin, Mao, Hitler, Mussolini, and other dictators routinely doctored photographs so that the images aligned with their messages. They erased people who were there, added people who were not, and

manipulated backgrounds. They knew if they changed the visual record, they could change history. Once, altering images required hours in the darkroom; today, it can be done with a keyboard and mouse. Because photographs are so easily faked, fake photos are everywhere—supermarket tabloids, fashion magazines, political ads, and social media. How can we tell if an image is real or false? In this volume in the MIT Press Essential Knowledge series, Hany Farid offers a concise and accessible guide to techniques for detecting doctored and fake images in photographs and digital media. Farid, an expert in photo forensics, has spent two decades developing techniques for authenticating digital images. These techniques model the entire image-creation process in order to find the digital disruption introduced by manipulation of the image. Each section of the book describes a different technique for analyzing an image, beginning with those requiring minimal technical expertise and advancing to those at intermediate and higher levels. There are techniques for, among other things, reverse image searches, metadata analysis, finding image imperfections introduced by JPEG compression, image cloning, tracing pixel patterns, and detecting images that are computer generated. In each section, Farid describes the techniques, explains when they should be applied, and offers examples of image analysis.

Be a Triangle - Lilly Singh 2022-04-05

From the New York Times bestselling author of *How to Be a Bawse* comes an “insightful and charmingly funny” (Rupi Kaur) primer on learning to come home to your truest and happiest self. “I love Lilly’s honest and helpful advice about achieving happiness.”—Mindy Kaling, #1 New York Times bestselling author of *Why Not Me?* “It’s time to flip right side up. It’s time for this book title to make sense. It’s time to be a triangle.” Everyone—even world-famous actress, author, and creator Lilly Singh—knows that sometimes life just sucks. In this book, Singh provides a safe space where readers can learn how to create a sense of peace within themselves. Without sugarcoating what it’s like to face adversity—including acknowledging her own intensely personal struggles with identity, success, and self-doubt—Singh teaches readers to “unsubscribe” from cookie-cutter ideals. With her signature blend of vulnerability, insight, and humor, Singh instructs readers to “be a triangle,” creating a solid foundation for your life, one that can be built upon, but never fundamentally changed or destroyed. As she puts it, we must always find a way to come home to ourselves: “we must create a place, a system of beliefs, a simple set of priorities to come back to should life lead us astray, which it definitely will.” Like a wise, empathetic friend who always keeps you honest, Singh pushes you to adjust your mindset and change your internal dialogue. The result is a deeply humane, entertaining, and uplifting guide to befriending yourself and becoming a true “miracle for the world.”

Keeping Sweets - Cate Ashwood 2013-03-01

Days away from high school graduation, with hardly a penny to his name, Evan Lowry needs to earn money for college. When he comes across an ad for modeling, he thinks his luck has changed-until he learns he's interviewing for an adult film and will be expected to have sex. On camera. With other men. For gay porn star Brandon Court, the shine has worn off of regular shoots. He and his producer, Les, decide to try something new: a reality-show porno set at a beach house. When he meets wide-eyed and naive Evan for the first time, Brandon isn't sure if he wants the kid to get lost or get naked. Naked wins. On set, Brandon takes Evan under his wing, and over the next month, they are thrown together in every intimate way conceivable-except emotionally. Both Brandon and Evan are terrified of trying for anything deeper, and insecurities and doubts wear on their hopes, but the chemistry between them won't let them slow things down.

The Security Council Chamber - Jørn Holme 2018-11-20

The Security Council Chamber at the UN headquarters in New York is a symbolic meeting point for the international community. It is also a telling expression of its era - a testament to the seriousness and optimism of the years immediately following the Second World War. Few people, however, know that this celebrated meeting space was created entirely by Norwegian artists and designers. This book tells, for the first time, the entire history of the twentieth century's most remarkable rooms. Exhibition: The National Museum - Architecture, The Vault, Oslo, Norway (15.06. - 23.09.2018).

We print the paperback book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. The Jungle - Upton Sinclair 2020-04-17

The Jungle portrays the harsh conditions and exploited lives of immigrants in the United States in Chicago

and similar industrialized cities. The book depicts working-class poverty, the lack of social supports, harsh and unpleasant living and working conditions, and a hopelessness among many workers. The primary purpose of the novel in describing the meat industry and its working conditions was to advance socialism in the United States. The main character in the book, Jurgis Rudkus, a Lithuanian immigrant, tries to make ends meet in Chicago. The book begins with his wife Ona and his wedding feast. He and his family live near the stockyards and meatpacking district where many immigrants, who do not know much English, work. He takes a job at Brown's slaughterhouse. Jurgis had thought the US would offer more freedom, but he finds working-conditions harsh. He and his young wife struggle to survive as they fall deeply into debt and become prey to con men. Hoping to buy a house, they exhaust their savings on the down payment for a substandard slum house, which they cannot afford. The family is eventually evicted after their money is taken.
