American Cosmic - D.W. Pasulka 2019-01-18

More than half of American adults and more than seventy-five percent of young Americans believe in intelligent extraterrestrial life. This level of belief rivals that of belief in God. *American Cosmic* examines the mechanisms at work behind the thriving belief system in extraterrestrial life, a system that is changing and even supplanting traditional religions. Over the course of a six-year ethnographic study, D.W. Pasulka interviewed successful and influential scientists, professionals, and Silicon Valley entrepreneurs who believe in extraterrestrial intelligence, thereby disproving the common misconception that only fringe members of society believe in UFOs. She argues that widespread belief in aliens is due to a number of factors including their ubiquity in modern media like *The X-Files*, which can influence memory, and the believability lent to that media by the search for planets that might support life. *American Cosmic* explores the intriguing question of how people interpret unexplainable experiences, and argues that the media is replacing religion as a cultural authority that offers believers answers about non-human intelligent life.

The Resonance of Unseen Things - Susan Lepselter 2016-03-03

The Resonance of Unseen Things offers an ethnographic meditation on the "uncanny" persistence and cultural freight of conspiracy theory. The project is a reading of conspiracy theory as an index of a certain strain of late 20th-century American despondency and malaise, especially as understood by people experiencing downward social mobility. Written by a cultural anthropologist with a literary background, this deeply interdisciplinary book focuses on the enduring American preoccupation with captivity in a rapidly transforming world. Captivity is a trope that appears in both ordinary and fantastic iterations here, and Susan Lepselter shows how multiple troubled histories—of race, class, gender, and power—become compressed into stories of uncanny memory. "We really don't have anything like this in terms of a focused, sympathetic, open-minded ethnographic study of UFO experiencers. . . . The author's

semiotic approach to the paranormal is immensely productive, positive, and, above all, resonant with what actually happens in history.” —Jeffrey J. Kripal, J. Newton Rayzor Professor of Religion, Rice University
“Lepselter relates a weave of intimate alien sensibilities in out-of-the-way places which are surprisingly, profoundly, close to home. Readers can expect to share her experience of contact with complex logics of feeling, and to do so in a contemporary America they may have thought they understood.” —Debbora Battaglia, Mount Holyoke College
“An original and beautifully written study of contemporary American cultural poetics. . . . The book convincingly brings into relief the anxieties of those at the margins of American economic and civic life, their perceptions of state power, and the narrative continuities that bond them to histories of violence and expansion in the American West.” —Deirdre de la Cruz, University of Michigan

Secret History - Nick Redfern 2015-04-20

History is written by the winners—and the powerful—but how much of it is fiction? And who is really in control today? From the dawn of civilization to the 21st century, from ancient aliens to the New World Order, *Secret History: Conspiracies from Ancient Aliens to the New World Order* examines, explores, and uncovers the hidden, overlooked, and buried history of mankind. The book moves from biblical, Egyptian, Mayan, Greek, and early mysteries of antiquity to the clandestine doings of the Nazis and the Masons and assassination plots of the more recent past to the surveillance, monitoring, mind-control, and secret schemes of today. Researcher Nick Redfern investigates the stories, mythologies, lore behind incredible events and clandestine groups of yesterday and today. More than 60 entries dig deep into the manipulation of events by influential groups, including ...

- Historical riddles—alien visitations, space gods, and human-alien crossbreeding.
- Government cover ups—mind control, murders, scientists, and secret agents.
- Powerful groups and intended consequences—9-11, new world order, bird-flu, and chemtrails.

Tracing the chilling and lasting effects of conspiracies, cabals, and plots, *Secret History: Conspiracies from Ancient Aliens to the New World Order* exposes their deep reach in shaping today's world.

Flying Saucers Over America - Gordon Arnold 2021-12-03

On June 24th, 1947, a private pilot reported numerous dazzling objects rushing through the sky above Mount Rainier in Washington state. It was the start of the current UFO phenomena, one of the country's most perplexing and persistent mysteries. Within a few weeks, hundreds of sightings of flying saucers were reported to news media. Surprising reports of a UFO crash in Roswell, New Mexico further added to the mystery that July. Since then, UFOs have sparked a slew of incredible claims and speculations. This is a sober and honest history of America's first major saucer craze, based on many sources including previously classified government records. The book cuts through decades of mystique and confusion, beginning with the 1947 UFO wave and ending with the launch of Project Blue Book in 1952. Balanced and comprehensive, this history provides background, social context and other tools for reframing perceptions of a controversial subject.

UFOs and the National Security State - Richard M. Dolan 2002-06-01

Richard M. Dolan is a gifted historian whose study of U.S. Cold War strategy led him to the broader context of increased security measures and secrecy since World War II. One aspect of such government policies that has continued to hold the public's imagination for over half a century is the question of unidentified flying objects. *UFOs and the National Security State* is the first volume of a two-part detailed chronological narrative of the national security dimensions of the UFO phenomenon from 1941 to the present. Working from hundreds of declassified records and other primary and secondary sources, Dolan centers his investigation on the American military and intelligence communities, demonstrating that they take UFOs seriously indeed. Included in this volume are the activities of more than fifty military bases relating to UFOs, innumerable violations of sensitive airspace by unknown craft and analyses of the Roswell controversy, the CIA-sponsored Robertson Panel, and the Condon Committee Report. Dolan highlights the development of civilian anti-secrecy movements, which flourished in the 1950s and 1960s until the adoption of an official government policy and subsequent "closing of the door" during the Nixon

administration.

Intimate Alien - David J. Halperin 2020-03-24

A voyage of exploration to the outer reaches of our inner lives. UFOs are a myth, says David J. Halperin—but myths are real. The power and fascination of the UFO has nothing to do with space travel or life on other planets. It's about us, our longings and terrors, and especially the greatest terror of all: the end of our existence. This is a book about UFOs that goes beyond believing in them or debunking them and to a fresh understanding of what they tell us about ourselves as individuals, as a culture, and as a species. In the 1960s, Halperin was a teenage UFOlogist, convinced that flying saucers were real and that it was his life's mission to solve their mystery. He would become a professor of religious studies, with traditions of heavenly journeys his specialty. With *Intimate Alien*, he looks back to explore what UFOs once meant to him as a boy growing up in a home haunted by death and what they still mean for millions, believers and deniers alike. From the prehistoric Balkans to the deserts of New Mexico, from the biblical visions of Ezekiel to modern abduction encounters, *Intimate Alien* traces the hidden story of the UFO. It's a human story from beginning to end, no less mysterious and fantastic for its earthliness. A collective cultural dream, UFOs transport us to the outer limits of that most alien yet intimate frontier, our own inner space.

Behold a Pale Horse - William Cooper 2012-04-11

Bill Cooper, former United States Naval Intelligence Briefing Team member, reveals information that remains hidden from the public eye. This information has been kept in Top Secret government files since the 1940s. His audiences hear the truth unfold as he writes about the assassination of John F. Kennedy, the war on drugs, the Secret Government and UFOs. Bill is a lucid, rational and powerful speaker who intent is to inform and to empower his audience. Standing room only is normal. His presentation and information transcend partisan affiliations as he clearly addresses issues in a way that has a striking impact on listeners of all backgrounds and interests. He has spoken to many groups throughout the United States and has appeared regularly on many radio

talk shows and on television. In 1988 Bill decided to "talk" due to events then taking place worldwide, events which he had seen plans for back in the early '70s. Since Bill has been "talking," he has correctly predicted the lowering of the Iron Curtain, the fall of the Berlin Wall and the invasion of Panama. All Bill's predictions were on record well before the events occurred. Bill is not a psychic. His information comes from Top Secret documents that he read while with the Intelligence Briefing Team and from over 17 years of thorough research. "Bill Cooper is the world's leading expert on UFOs." -- Billy Goodman, KVEG, Las Vegas. "The onlt man in America who has all the pieces to the puzzle that has troubled so many for so long." -- Anthony Hilder, Radio Free America "William Cooper may be one of America's greatest heros, and this story may be the biggest story in the history of the world." -- Mills Crenshaw, KTALK, Salt Lake City. "Like it or not, everything is changing. The result will be the most wonderful experience in the history of man or the most horrible enslavement that you can imagine. Be active or abdicate, the future is in your hands." -- William Cooper, October 24, 1989.

Flying Saucer to the Center of Your Mind: Selected Writings of John A. Keel - John Keel 2013-08-09

New Saucerian proudly presents "Flying Saucer to the Center of Your Mind," a collection of magazine articles and lectures by John Keel, the man many consider to have been the 20th Century's premiere investigator of all things unusual and "Fortean." Many of the articles in this anthology and its companion volumes, "The Outer Limits of the Twilight Zone" and "Searching For the String," were revolutionary, and explored ideas popularized in Keel's classic books. Written in Keel's engaging trademark style, they are sure to delight fans with their fresh, unparalleled insights into the nature of reality. In these pages, John Keel displays the keen observational skills and investigative tenacity that made him the enfant terrible of ufology for decades. In this no-holds-barred analysis - some of which was written almost 50 years ago - Keel shreds most of the sacred-cow beliefs still held by many in ufological and "cryptozoological" circles today, presenting theories so radical that they are only now becoming accepted: the "4-D" or "interdimensional" thesis;

the "breakaway civilization" theory; the possible role of "ancient aliens" in human history; the synthetic and/or hallucinatory nature of many "alien abduction" and "Men in Black" encounters; the role of spy agencies in paranormal research; and the alarming connection between UFOs, animal mutilations, and attacks on unsuspecting humans. In short, "Flying Saucer to the Center of Your Mind" is witty, incisive, impassioned, and prescient, and cohesively brings Keel's message into focus in a way that perhaps no other book has. This 2013 edition features illuminating forewords by noted writers Gray Barker and Tessa B. Dick (widow of science-fiction writer Philip K. Dick), as well as an introduction by the editor, Andy Colvin (author of "The Mothman's Photographer" and "Mothman Speaks"). "Provides the foundation for a clear view of the phenomenon..." -Kenn Thomas, Steamshovel Press "The consummate cryptozoologist..." -Ron Patton, Paranoia Magazine "Turns Fortean and ufology upside down..." -Doug Skinner, johnkeel.com "The key to unraveling many mysteries..." -Ted Torbich, The Stench of Truth "Far ahead of its time..." -Keith Hansen, Vzygoth's Grassy Knoll

The Eerie Silence - Paul Davies 2010-04-13

One of the world's leading scientists explains why—and how—the search for intelligent life beyond Earth should be expanded. Fifty years ago, a young astronomer named Frank Drake first pointed a radio telescope at nearby stars in the hope of picking up a signal from an alien civilization. Thus began one of the boldest scientific projects in history, the Search for Extraterrestrial Intelligence (SETI). After a half-century of scanning the skies, however, astronomers have little to report but an eerie silence—eerie because many scientists are convinced that the universe is teeming with life. Physicist and astrobiologist Paul Davies has been closely involved with SETI for three decades and chairs the SETI Post-Detection Taskgroup, charged with deciding what to do if we're suddenly confronted with evidence of alien intelligence. He believes the search so far has fallen into an anthropocentric trap—assuming that an alien species will look, think, and behave much like us. In this provocative book Davies refocuses the search, challenging existing ideas of what form an alien intelligence might take, how it might try to communicate with us, and how we should respond if it does.

The Alien Agendas - Richard Dolan 2020-11-17

Of the many books on UFOs and aliens, this one may be unique. Richard Dolan, one of the world's leading historians of the UFO subject, has analyzed the different alien types and agendas based on longstanding patterns observed by witnesses. This is both a careful review of the best evidence we have of human-alien interaction, as well as a bold speculation of just who the aliens are and what they want. Dolan's analysis starts with our ancient pre-history and potential genetic modifications and monitoring by extraterrestrials. He also studies the long history of interaction with perfectly human-looking beings who somehow did not seem as though they were "from here." Such interactions have continued through the present day. Who are these beings? He also analyzes reports of gray aliens and other types, including reptilian types, insectoid types, hybrid beings, and a range of

others. With a view toward understanding their psychology, their technological capabilities, and the nature of their interactions with people, he speculates as to what ultimate plans may be. He argues that the alien presence is especially important now. This is because of the rapid transformation of human civilization into something we have never before experienced. We still don't have a proper name for what we are going through, but it includes a combination of radical new technologies with a new social order that ultimately might make human civilization much more like the societies that these other beings already have. One that combines a tightly centralized and controlled social order with sophisticated science and technology.

Mind Stalkers - Commander X 2012-09

THIS MAY BE THE MOST FRIGHTENING BOOK YOU WILL EVER READ! THE GOVERNMENT WOULD LIKE TO DESTROY THIS WORK, BUT THE AUTHORS AND PUBLISHER ARE DETERMINED TO GET THIS INFORMATION TO THE PUBLIC! WE WILL NOT BE STOPPED - OUR FREEDOM AND OUR LIVES MAY BE ON THE LINE! So says

Commander X a retired military intelligence operative who has elected to go "public" with his astounding claims of having worked behind the locked gates of Area 51 and been privy to a vast array of information on everything from captured alien craft to the latest anti gravity technology and the manufacturing of triangle-shaped "UFOs" that operate silently in our skies and are as large as a mile long. In *Mind Stalkers - Mind Control of the Masses*, Commander X teams up with television producer, radio talk show host and conspiracy researcher Tim Swartz to provide the most hush-hush "classified" secrets on a subject that has been widely ignored by the press and misunderstood by the public. **FAKED "ALIEN" ABDUCTIONS, ELF WAVES, DRUGS, MENTAL MANIPULATION . . . EQUALS BEHAVIOR MODIFICATION!** Here are "insider" findings on the sinister practice of Mind Control utilized by members of a secret group (some call them the New World Order or the Illuminati) to direct the Earth's population for their own sinister benefits. Many UFO abductees maintain that they have become part of an off-the-world program designed by ETs to infiltrate our society by using monitoring devices or

implants. And while Commander X and Tim Swartz do not discount this possibility, they point out that the CIA and other "Agencies" have long practiced behavior modification with drugs, hypnosis and ELF waves and more recently with computer chips placed in the brains of "dissidents." There can be no mistake - that the powers that be can subliminally implant thoughts in a person's mind to control their actions, even utilizing telephones by impressing a coded message while negotiating with an individual. One of the most recent devices in this program of deception is the use of unmarked helicopters as a form of electronic mind control harassment. Here is all you need to know - regardless of if you are a believer or a control freak - about Mind Control in the 21st Century. Also included is a special update on MILAB-Mind Control and UFO Connection. This is serious stuff. Buy a copy and help break the back of the NWO!

UFOs for the 21st Century Mind - Richard M. Dolan 2014-01-21

This is the new must-have UFO book. For beginners and experienced researchers alike, historian Richard Dolan covers the full range of this incredibly complex topic in his uniquely engaging style. He offers fresh insights on everything connected to UFOs: ancient aliens, modern encounters, abductions, channelers, the politics and cover-up, the black budget world, the bizarre science, the social dimensions (read YouTube and Facebook), the future, and much more. Toward that end, Dolan gives practical insights on how to distinguish and investigate UFOs in today's world, where we are flooded with claims and videos and data of all types. In addition, as one of ufology's pioneers in the deep analysis of the cover-up, he offers an original perspective on how it all works and why the cover-up, despite being so entrenched and insidious, is nevertheless bound to end. This is an ambitious work that truly ties the many different aspects of the subject together. It's rare to find something like this, especially considering the care and thoroughness that went into it." -- George Noory, host of Coast to Coast AM. "As a follow-up to his previous books exploring the relationship between UFOs and the National Security State, historian Richard Dolan widens his perspective to explore all aspects of this provocative phenomenon. In this role, he takes us on a journey that brings to life the subtlety and depth of this rich subject, a truly captivating read." --H. E. Puthoff, Ph.D., Director, Institute for Advanced Studies at Austin "UFOs For the 21st Century Mind represents a new kind of book - one that clearly and intelligently addresses literally every aspect and implication of the most maligned, misunderstood and compelling subject in human history. Richard Dolan's newest work is perfect reading for serious students of ufology as well as the absolute beginner. [Ancient Aliens and the Age of Giants: Through the Wormhole](#) - Lars Bergen 2014-07-02

Analyze thousands of years of giant skeletons from 7 to 15 feet tall, along with DNA evidence, genetic mutations, newspaper articles, archeological notes, and excerpts from the Smithsonian Institution's own records. Meet a living tribe of 19th century Stone Age giants. A leading anthropologist compared their bones to Cro-Magnon skeletons. Do they represent the original humans prior to the arrival of extraterrestrial giants, or the biblical Nephilim? Explore the advanced technology of the extraterrestrial giants: two-way radios, aircraft, self-propelled boats, wormholes, military vehicles, and aerial weapons that blasted Earth. Historical accounts, first-person encounters, plus legends and mythology tell us who they were, where they came from, how they interacted with humans, and left us with predictions of their return. There is a systematic attack on the evidence, however, that keeps giants mired in disbelief and ridicule. Documents are being rewritten one word at a time to give us an altered history that completely erases extraterrestrial giants, except in the realm

of fairytales and fantasy. Dissect several alleged hoaxes and questionable discoveries for an in-depth look at how debunkers twist the facts: How does Area 51 and several missing witnesses fit into one of the biggest hoaxes in giant history? Were giant mummies used as a diversion for the Roswell UFO crash? Take an expanded look at the mummified, red-haired Lovelock giant found in Lovelock Cave, Nevada, and see how debunkers twisted the facts. Revisit the Los Lunas Decalogue Stone, and see how the Navajo translation was summarily dismissed by casting a shadow of doubt on the credentials of the translator - a translator whose credentials are impeccable. What happened to King Solomon's Cave in Montana? What turned this cave of giants into a giant hoax? The easiest way to hide the truth is to bury it under accusations of incompetency, hoaxes and frauds, so that archeologists and anthropologists distance themselves from the controversy, and everyone questions the authenticity of the bones or artefacts. Meet specific giants including Goliath, King Og, Hiawatha, Odin, and The Watchers of the Bible. Go deep inside the Bible and its forbidden books. Compare Bible translations about the extraterrestrial Grigori giants and their landing site on Mount Hermon. Meet their hybrid descendants: the Nephilim giants, Elioud, Anakim, Rephaim, and others. Benevolent giants lifted humans up out of savagery and taught us agriculture, raising livestock, building shelters, reading and writing, astrology, astronomy, medicine, warfare, and road building. This coincides with the Neolithic Revolution that took us from the Stone Age into the Bronze Age. Human-Giant hybrids destroyed what their parents built, and they became cannibals. Chilling accounts of these giant cannibals span the entire world, leaving us with a truth that's almost too horrific to contemplate. The Fourth World of Native American mythology was the age of giants, and it was attacked by gods who left amazing evidence of their technology. Stolen artefacts, witch hunts, and the total annihilation of the bones of heretics and biblical giants eliminated a big chunk of evidence. The gruesome fate of old bones in general plunges us into a Twilight Zone of the bizarre. Today the Battle of the Bones rages on over old hoaxes and new laws. The fate of the giant bones goes far beyond denial or government cover-up, however. More

important than the controversy over missing evidence is what will happen when the extraterrestrial giants return. Conspiracy theories keep humans busy with finger pointing and demands for the truth, when what we should really be focused on is who the extraterrestrial giants were, and what to expect when they return. Are we ready? Look at the evidence, and judge for yourself.

They Are Already Here - Sarah Scoles 2021-06-08

An anthropological look at the UFO community, told through first-person experiences with researchers in their element as they pursue what they see as a solvable mystery—both terrestrial and cosmic. More than half a century since Roswell, UFOs have been making headlines once again. On December 17, 2017, the New York Times ran a front-page story about an approximately five-year Pentagon program called the Advanced Aerospace Threat Identification Program. The article hinted, and its sources clearly said in subsequent television interviews, that some of the ships in question couldn't be linked to any country. The implication, of course, was that they might be linked to other solar systems. The UFO community—those who had been thinking about, seeing, and analyzing supposed flying saucers (or triangles or chevrons) for years—was surprisingly skeptical of the revelation. Their incredulity and doubt rippled across the internet. Many of the people most invested in UFO reality weren't really buying it. And as Scoles did her own digging, she ventured to dark, conspiracy-filled corners of the internet, to a former paranormal research center in Utah, and to the hallways of the Pentagon. In *They Are Already Here* we meet the bigwigs, the scrappy upstarts, the field investigators, the rational people, and the unhinged kooks of this sprawling community. How do they interact with each other? How do they interact with “anomalous phenomena”? And how do they (as any group must) reflect the politics and culture of the larger world around them? We will travel along the Extraterrestrial Highway (next to Area 51) and visit the UFO Watchtower, where seeking lights in the sky is more of a spiritual quest than a “gotcha” one. We meet someone who, for a while, believes they may have communicated with aliens. Where do these alleged encounters stem from? What are the

emotional effects on the experiencers?

Area 51 - Annie Jacobsen 2011-05-17

This "compellingly hard-hitting" bestseller from a Pulitzer Prize finalist gives readers the complete untold story of the top-secret military base for the first time (New York Times). It is the most famous military installation in the world. And it doesn't exist. Located a mere seventy-five miles outside of Las Vegas in Nevada's desert, the base has never been acknowledged by the U.S. government — but Area 51 has captivated imaginations for decades. Myths and hypotheses about Area 51 have long abounded, thanks to the intense secrecy enveloping it. Some claim it is home to aliens, underground tunnel systems, and nuclear facilities. Others believe that the lunar landing itself was filmed there. The prevalence of these rumors stems from the fact that no credible insider has ever divulged the truth about his time inside the base. Until now. Annie Jacobsen had exclusive access to nineteen men who served the base proudly and secretly for decades and are now aged 75-92, and unprecedented access to fifty-five additional military and intelligence personnel, scientists, pilots, and engineers linked to the secret base, thirty-two of whom lived and worked there for extended periods. In Area 51, Jacobsen shows us what has really gone on in the Nevada desert, from testing nuclear weapons to building super-secret, supersonic jets to pursuing the War on Terror. This is the first book based on interviews with eye witnesses to Area 51 history, which makes it the seminal work on the subject. Filled with formerly classified information that has never been accurately decoded for the public, Area 51 weaves the mysterious activities of the top-secret base into a gripping narrative, showing that facts are often more fantastic than fiction, especially when the distinction is almost impossible to make.

UFOs: Exopolitics & the New World Disorder - Ed Komarek 2012-06-01

The thesis, of this book, is that if our leaders had not failed us in the 1940s and 1950s, the positive vision of Star Trek could now have become our present day reality. The author shows through case after case of credible whistleblower and extraterrestrial contact testimony, that had our leaders embarked on a policy of openness and transparency, rather

than secrecy and cover-up, human evolution, would have moved forward instead of backward and the earth's environment protected. The author shows that about the time the Bilderberg group was founded in 1954, the European and American oligarchy chose to play to humanity's dark side, deciding to selfishly and savagely protect its established interests and institutions, and its covert control over the masses, when confronted with alien contact. The oligarchy chose to subvert democratic principles and the rule of law, in order to secretly monopolize extraterrestrial technologies, for immense profit, making this along with fiat money, a foundation stone of its covert global power. Under the guise of National Security, leaders and ordinary citizens that opposed the UFO/ET cover-up were discredited, harassed and in some cases murdered, under a covert policy of denial and ridicule. Fantastic and shocking as it would seem to some, rather than lead mankind to an enlightened future offered to us by ethical extraterrestrial races and civilizations, our autocratic leaders agreed to secret Faustian treaties and technological transfer agreements with less ethical extraterrestrial races, thereby creating the greatest national security threat of all time. We can only imagine our future, if overt space travel had become commonplace, with ethical ET cultural and technological exchanges bringing in a new age of enlightenment, along with exotic cheap non-polluting energy and transportation, from reverse engineered alien technologies. Ed Komarek has had over 40 years of experience in the UFO field and is one of the founders of the newly emerging field of Exopolitics evolving out of the more general UFO/ET field. He maintains a blog, exopolitics.blogspot.com/ having written over 200+ articles the past decade that have been published in the Internet press including, UFO Digest, OpEd News, and the Canadian National Newspaper. Ed can be reached on Facebook, where he posts UFO/ET news items daily to his wall, for those that friend him. Ed can also be reached by email at: edkomarek@yahoo.com

The Secret Space Program and Breakaway Civilization - Richard M. Dolan 2016-08-16

Is there a secret space program that is connected in some way to UFOs?

In this booklet, historian Richard Dolan delves into this question, one of the most discussed in ufology today. Providing a wealth of data and context for the reader, he offers his own conclusion: yes, there is indeed such a program. But this program is not a simple extension of the normal operations of the U.S. government or military, much less of NASA. Instead, it seems to be the product of what Dolan has previously termed a "breakaway civilization," a radically advanced and increasingly separate structure that has access to classified science and data denied to the rest of us. Adapted from his classic lecture at the Secret Space Program and Breakaway Civilization conference in San Mateo, this is now offered as a volume in the Richard Dolan Lecture Series.

A.D. After Disclosure - Richard Dolan 2012-05-22

"What if the UFO cover-up is real and what if it ended? After Disclosure poses this fascinating question and looks at the societal consequences of such a revelation. Richard Dolan and Bryce Zabel have produced a thoughtful and provocative analysis that goes well beyond the usual scope of books on UFOs and alien life." —Nick Pope, Former Chief of UK Ministry of Defence UFO Desk What if UFO secrecy ended tomorrow? The transition from B.C. (Before Confirmation) to A.D. (After Disclosure) is the ultimate "what if?" scenario in which the calendar is reset and history begins again. This work of speculative non-fiction combines meticulous fact-finding from historian/researcher Richard M. Dolan and forward-leaning scenarios from journalist/screenwriter Bryce Zabel on the world's most mind-bending subject. The authors predict radical changes after official acknowledgment that at least some UFOs are intelligently controlled craft from somewhere other than Earth. A.D. After Disclosure isn't afraid to make mind-blowing, specific predictions, such as: Congress will hold Watergate-style hearings and ask secret-keepers, "What did you know and when did you know it?" The first decade A.D. (After Disclosure) will be like a high-tech 1960s, spawning massive cultural and societal change. Abductees will file a class-action suit against the government for withholding critical information. All the textbooks on planet Earth--from history to science--will need an immediate review. Whether disclosure leads to social panic or ushers in a

new era of unity and peace, it will undoubtedly be a game-changing event.

The Demon-Haunted World - Carl Sagan 1997-02-25

A prescient warning of a future we now inhabit, where fake news stories and Internet conspiracy theories play to a disaffected American populace "A glorious book . . . A spirited defense of science . . . From the first page to the last, this book is a manifesto for clear thought."—Los Angeles Times How can we make intelligent decisions about our increasingly technology-driven lives if we don't understand the difference between the myths of pseudoscience and the testable hypotheses of science? Pulitzer Prize-winning author and distinguished astronomer Carl Sagan argues that scientific thinking is critical not only to the pursuit of truth but to the very well-being of our democratic institutions. Casting a wide net through history and culture, Sagan examines and authoritatively debunks such celebrated fallacies of the past as witchcraft, faith healing, demons, and UFOs. And yet, disturbingly, in today's so-called information age, pseudoscience is burgeoning with stories of alien abduction, channeling past lives, and communal hallucinations commanding growing attention and respect. As Sagan demonstrates with lucid eloquence, the siren song of unreason is not just a cultural wrong turn but a dangerous plunge into darkness that threatens our most basic freedoms. Praise for *The Demon-Haunted World* "Powerful . . . A stirring defense of informed rationality. . . Rich in surprising information and beautiful writing."—The Washington Post Book World "Compelling."—USA Today "A clear vision of what good science means and why it makes a difference. . . . A testimonial to the power of science and a warning of the dangers of unrestrained credulity."—The Sciences "Passionate."—San Francisco Examiner-Chronicle

Believing in Bits - Simone Natale 2019-10

"As technologies that work by computing numbers, digital media apparently epitomize what is considered scientific and rational. Yet, people experience the effects of digital devices and algorithms in their everyday life also through the lenses of magic and the supernatural. Algorithms, for instance, are discussed for their capacity to "read minds" and predict the future; Artificial Intelligence as an opportunity to

overcome death and achieve immortality through singularity; and avatars and robots are accorded a dignity that traditional religions restricted to humans. The essays collected in this volume address these and similar phenomena, challenging and redefining established understandings of digital media and culture by employing the notions of belief, religion, and the supernatural." -- Provided by publisher.

For as long as people have talked about UFOs, they have wondered about when and how the governments of the world will acknowledge them. Among people following the subject, that's called Disclosure. In this second volume of the Richard Dolan Lecture Series, Historian Richard Dolan tackles an enormous subject. After explaining why UFOs are taken seriously in national security circles around the world, he provides his best analysis to date as to how the secrecy on UFOs has taken form, how it has corroded our society, and how it works internationally. He gives a fresh analysis on the black budget breakaway civilization, on the weaponization of secret technologies, the intelligences behind the UFO phenomenon, and how Russia and China fit into the global UFO cover-up. He drives his analysis home with four distinct disclosure scenarios: Fascist Disclosure, Premature Disclosure, Insider Disclosure, and People-Driven Disclosure. Finally, Dolan offers a unique view on how the UFO cover-up and possible disclosure could transpire during the presidency of Donald Trump. One thing is clear: we live in a world that hangs in the balance.

have working agreements. I've been told this information was once classified as "Above Top Secret" and that this information was never intended to be released to the public! The scientist visited various UFO crash sites, and the notes and drawings were allegedly made from those visits. UFOs, Conspiracy Theories and the New Age - David G. Robertson
2016-02-25

How-and why- were UFOs so prevalent in both conspiracy theories and the New Age milieu in the post-Cold War period? In this ground-breaking book, David G. Robertson argues that UFOs symbolized an uncertainty about the boundaries between scientific knowledge and other ways of validating knowledge, and thus became part of a shared vocabulary. Through historical and ethnographic case studies of three prominent figures-novelist and abductee Whitley Strieber; environmentalist and reptilian proponent David Icke; and David Wilcock, alleged reincarnation

of Edgar Cayce-the investigation reveals that millennial conspiracism offers an explanation as to why the prophesied New Age failed to arrive-it was prevented from arriving by malevolent, hidden others. Yet millennial conspiracism constructs a counter-elite, a gnostic third party defined by their special knowledge. An overview of the development of UFO subcultures from the perspective of religious studies, UFOs, Conspiracy Theories and the New Age is an innovative application of discourse analysis to the study of present day alternative religion.

Exoconsciousness - Rebecca Hardcastle PhD 2008-12-27

Exoconsciousness: Your 21st Century Mind invites readers to advance their consciousness beyond earthly pursuits, beckoning them toward an extraterrestrial identity. Where the mind travels, the body and emotions follow, the author, Rebecca Hardcastle, says. In the 1950s, space exploration prompted many people to contemplate the possibility that humans might well have extraterrestrial origins. From this launching point, Hardcastle conceived *Exoconsciousness* to describe the extraterrestrial origins, dimensions and abilities of human consciousness. In a short span of fifty years of space exploration, humans are now searching for answers to questions that previously they dared not contemplate, Hardcastle writes. Many questions are obvious, even urgent. Did humans originate off-planet? Are we a seeded race? Who, what and where are our legacies? With whom and how we are connected? *Exoconsciousness* answers these questions and many more. Hardcastle broadens the definition of consciousness, integrating personal anecdotes and testimony with contemporary brain research. She asks whether the human brain is balancing to become an extraterrestrial-like unified mind. *Exoconsciousness* is a heightened physical experience. It demands being fully present in the body, on a cellular, DNA and quantum level, in order to transform quickly and easily. Throughout the book, Hardcastle provides easy-to-use exercises to enhance readers exoconsciousness, as well as an extensive glossary for readers to formulate a new vocabulary. Expand your cosmic awareness with this thought-provoking new guide.
