**The Arabic Language** - Kees Versteegh 1997

This general introduction to the Arabic Language, now available in paperback, places special emphasis on the history and variation of the language. Concentrating on the difference between the two types of Arabic - the Classical standard language and the dialects - Kees Versteegh charts the history and development of the Arabic language from the earliest beginnings to modern times. The reader is offered a solid grounding in the structure of the language, its historical context and its use in various literary and non-literary genres, as well as an understanding of the role of Arabic as a cultural, religious and political world language. Intended as an introductory guide for students of Arabic, it will also be a useful tool for discussions both from a historical linguistic and from a socio-linguistic perspective. Coverage includes all aspects of the history of Arabic, the Arabic linguistic tradition, Arabic dialects and Arabic as a world language. Links are made between linguistic history and cultural history, while the author emphasises the role of contacts between Arabic and other languages. This important book will be an ideal text for all those wishing to acquire an understanding or develop their knowledge of the Arabic language.

"This Dictionary of Modern Written Arabic (fourth edition) has been enlarged and amended with 13,000 new entries. It is the only authorized paperback edition of the famous Hans Wehr Arabic-English Dictionary, edited by J. Milton Cowan. This new edition has thousands of new entries include numerous additions and corrections to the material and presents the results in a single handsome volume. The author provides a useful introduction in which he discusses, clearly and precisely, the present state of the Arabic language. He points out the situations in which written and spoken varieties of Arabic are used, and remarks on the forces that influenced the development of the lexicon of Modern Arabic. He discusses both the purist movement with its normative tradition, and what might be called the laissez-faire actual usage of writers and journalists under the influence of Western modes of expression, of their everyday colloquial, or both. He then moves on to the problem of local terminology, especially for public institutions, offices, administrative

matters, titles, and foods. Although such terms are included for most of the Arab countries, the list is not complete, as indeed the author recognizes (viii); readers of Arabic material characterized by a distinct regional coloring are advised to refer to dialect dictionaries and glossaries."

*Verbal Festivity in Arabic and Other Semitic Languages* - Lutz Edzard 2010

"Verbal Festivity in Arabic and Other Semitic Languages" edited by Lutz Edzard and Stephan Guth deals with one of the most essential and fascinating, though still much neglected aspects of Middle Eastern culture(s) - politeness and the ways it can be expressed or encoded in language. The contributions to the Proceedings of a workshop held in Bonn in 2009 attempt to shed spotlights on several aspects of Verbal Festivity. They include a comparative approach (English-German-Arabic) to the cultural concepts of "politeness", "Hoflichkeit", and "adab" in general (Stephan Guth); a survey of everyday-life polite formulae and expressions of courtesy in Palestinian Arabic (Avihai Shivtiel); a study of the morphological patterns of Arabic formulaic terminology itself (Pierre Larcher); a linguistic analysis of how the wish, or intention, to fulfill ethical duties or prescriptions is expressed in some neo-Aramaic dialects (Geoffrey Khan); a comparative investigation, covering several Semitic languages, of how to remain polite through suppressing explicit mentioning of the negative consequences the addressee will face if he does not comply with the speaker's suggestions (Lutz Edzard); and an analysis of formulae used in commercial documents at a 13th century Red Sea port (Andreas Kaplony).
