Progressing Science Education - Keith S. Taber 2009-05-29

Exploring one of the central themes in science education theory, this volume examines how science education can be considered as a scientific activity within a broad post-positivist notion of science. Many students find learning science extremely problematic, whatever level of education they have reached. At the end of the 1970s a new approach to tackling learning difficulties in science was developed, drawing on ideas from psychology and cognitive science, and centred on the way students build up new knowledge in reference to their existing ideas. 'Constructivism' became the dominant paradigm in science education research for two decades, spawning a vast body of literature reporting aspects of learners' ideas in different science topics. However, Constructivism came under fire as it was recognised that the research did not offer immediate and simple prescriptions for effective science teaching. The whole approach was widely criticised, in particular by those who saw it as having 'anti-science' leanings. In this book, the notion of scientific research programmes is used to understand the development, limitations and potential of constructivism. It is shown that constructivist work in

science education fits into a coherent programme exploring the contingencies of learning science. The author goes further to address criticisms of constructivism; evaluate progress in the field; and suggest directions for future research. It is concluded that constructivism has provided the foundations for a progressive research programme that continues to guide enquiry into learning and teaching science.

The Constitution of India - B. Ambedkar 2019-06-06

The Constitution of India is the supreme law of land. The document lays down extensively the framework demarcating fundamental political code,

structure, procedures, powers, and duties of government institutions and sets out fundamental rights, directive principles, and the duties of citizens. It is the longest written constitution of any country on earth. B. R. Ambedkar, chairman of the drafting committee, is widely considered to be its chief architect. Constitution is a living document, an instrument which makes the government system work. Its flexibility lies in its amendments. In this edition, the text of the Constitution of India has been brought up-to-date by incorporating therein all amendments made by Parliament up to and including the Constitution (One Hundredth Amendment) Act, 2015 which contains details of acquired and transferred territories between the Governments of India and Bangladesh and the same has been included in Annexure. Good Readable Print !

The Indian Struggle, 1920-1942 - Subhas Chandra Bose 1997-10-09

This volume narrates the political upheavals of the inter-war period, further enriched by Netaji's reflections on the key themes Indian history and a finely etched assessment of Mahatma Gandhi's role in it.

Rajmohan's Wife and Sultana's Dream - Bankim Chandra Chatterjee 2021-04-21

Rajmohan's Wife and Sultana's Dream (1864/1908) features the debut novel of Indian writer Bankim Chandra Chatterjee and a story by Bengali writer, feminist, and educator Rokeya Sakhawat Hossain. Rajmohan's Wife, Chattopadhyay's only work in English, launched his career as a leading Bengali intellectual and political figure. Written in English, Sultana's Dream originated as a way of passing time for its young author while her husband was away on work. Initially published in The Indian Ladies Magazine, Sultana's Dream helped establish Rokeya's reputation as a leading figure in Bengali arts and culture. Rajmohan's Wife is the story of Matangini, a beautiful woman married to a violent, jealous man. Unable to marry the man she loves—who happens to be her own sister's husband—she settles for the villainous Rajmohan, an abusive man who rules his middle-class Bengali household with an iron fist. With the help of her friend Kanak, Matangini does her best to avoid her husband's wrath, illuminating the importance of solidarity among women faced with

oppression. Vindictive and cruel, Rajmohan secretly enacts a plan to rob Madhav, his brother-in-law, in order to obtain and invalidate a will. Sultana's Dream is set in Ladyland is a feminist utopia ruled by women, a perfect civilization with no need for men, who remain secluded and without power. Free to develop their own society, women have invented flying cars, perfected farming to the point where no one must work, and harnessed the energy of the sun. With men under control, there is no longer fear, crime, or violence. Ultimately, Ladyland is a world made to mirror our own, a satirical exploration of the absolute power wielded by men over women, and a political critique of Bengali society at large. Sultana's Dream is more than a science fiction story; it is an act of resistance made by a woman who would shape the lives of her people through advocacy, education, and activism for generations to come. With a beautifully designed cover and professionally typeset manuscript, this edition of Bankim Chandra Chatterjee and Rokeya Sakhawat Hossain's Rajmohan's Wife and Sultana's Dream is a classic of Bengali literature and utopian science fiction reimagined for modern readers.

The Cop and the Anthem - O. Henry 2020-08-26

While some try to get out of prison, Soapy, the only character in O. Henry's short story, tries to get into it. Soapy is a homeless guy who prefers the warm cell to the cold night under the New York sky. He does everything he can think of in order to draw the attention of the police. However without any success. Until he hears a magical organ anthem. How will this story develop? Will Soapy manage to get into jail or he will find another way to sort out his life? "The Cop and the Anthem" is a comical short story with a touch of irony which emphatically presents the lower class and the obstacles man has to face. William Sidney Porter (1862-1919), known simply as O. Henry, was a prolific American author of humorous literary pieces. His fame came exceptionally quickly and he became a bestselling author of short story collections, among the most

famous being "Cabbages and Kings", "The Voice of the City", and "Strictly Business." As a result of the outstanding literature legacy that O. Henry left behind, there is an American annual award after his name, given to exceptional short stories.

To Sir, With Love - E. R. Braithwaite 2014-01-14

This schoolroom drama that inspired the classic Sidney Poitier film is "a microcosm of the racial issues . . . A dramatic picture of discrimination" (Kirkus Reviews). With opportunities for black men limited in post-World

War II London, Rick Braithwaite, a former Royal Air Force pilot and Cambridge-educated engineer, accepts a teaching position that puts him in charge of a class of angry, unmotivated, bigoted white teenagers whom the system has mostly abandoned. When his efforts to reach these troubled students are met with threats, suspicion, and derision, Braithwaite takes a radical new approach. He will treat his students as people poised to enter the adult world. He will teach them to respect themselves and to call him "Sir." He will open up vistas before them that they never knew existed. And over the course of a remarkable year, he will touch the lives of his students in extraordinary ways, even as they in turn, unexpectedly and profoundly, touch his. Based on actual events in the author's life, *To Sir, With Love* is a powerfully moving story that celebrates courage, commitment, and vision, and is the inspiration for the classic film starring Sidney Poitier.
