*The Bone Readers* - Claudio Tuniz 2016-06-16  
The Bone Readers are a dedicated group of scholars who study the earliest human remains, their chemistry and DNA, their extinct floral and faunal contemporaries, and the geologic layers in which they were found. Their research leads them to theories about modern human origins that continually challenge conventional wisdom and cherished beliefs— about “Eve ,” Neanderthals, “hobbits,” and the Bering Straits, among others. Two leading Bone Readers and a science writer have penned a literate, authoritative summary of the current questions and the minefield of academic politics that surround it. Ideal for students in human origins or biological anthropology courses, and a delightful read.

The period from the late fourth to the late second century B. C. witnessed, in Greek-speaking countries, an explosion of objective knowledge about the external world. While Greek culture had reached great heights in art, literature and philosophy already in the earlier classical era, it is in the so-called Hellenistic period that we see for the first time — anywhere in the world — the appearance of science as we understand it now: not an accumulation of facts or philosophically based speculations, but an organized effort to model nature and apply such models, or scientific theories in a sense we will make precise, to the solution of practical problems and to a growing understanding of nature. We owe this new approach to scientists such as Archimedes, Euclid, Eratosthenes and many others less familiar today but no less remarkable. Yet, not long after this golden period, much of this extraordinary development had been reversed. Rome borrowed what it was capable of from the Greeks and kept it for a little while yet, but created very little science of its own. Europe was soon smothered in the obscurantism and stasis that blocked most avenues of intellectual development for a thousand years — until, as is well known, the rediscovery of ancient culture in its fullness paved the way to the modern age.

**How to Live** - Sarah Bakewell 2010-10-19

Winner of the 2010 National Book Critics Circle Award for Biography *How to get along with people, how to deal with violence, how to adjust to losing someone you love—such questions arise in most people's lives. They are all versions of a bigger question: how do you live? How do you do the good or honorable thing, while flourishing and feeling happy?* This question obsessed Renaissance writers, none more than Michel Eyquem de Montaigne, perhaps the first truly modern individual. A nobleman, public official and wine-grower, he wrote free-roaming explorations of his thought and experience, unlike anything written before. He called them "essays," meaning "attempts" or "tries." Into them, he put whatever was in his head: his tastes in wine and food, his childhood memories, the way his dog's ears twitched when it was dreaming, as well as the appalling events of the religious civil wars raging around him. *The Essays* was an instant bestseller and, over four hundred years later, Montaigne's honesty and charm still draw people to him. Readers come in search of companionship, wisdom and entertainment—and in search of themselves. This book, a spirited and singular biography, relates the story of his life by way of the questions he posed and the answers he explored. It traces his bizarre upbringing, youthful career and sexual adventures, his travels, and his friendships with the scholar and poet Étienne de La Boétie and with his adopted "daughter," Marie de Gournay. And we also meet his readers—who for centuries have found in Montaigne an inexhaustible source of answers to the haunting question, "how to live?"

**Rogue Economics** - Loretta Napoleoni  
2011-01-04

What do Eastern Europe's booming sex trade, America's subprime mortgage lending scandal, China's fake goods industry, and celebrity philanthropy in Africa have in common? With biopirates trolling the blood industry, fish-farming bandits ravaging the high seas, pornography developing virtually in Second Life, and games like World of Warcraft spawning

online sweatshops, how are rogue industries transmuting into global empires? And will the entire system be transformed by the advent of sharia economics? With the precision of an economist and the narrative deftness of a storyteller, syndicated journalist Loretta Napoleoni examines how the world is being reshaped by dark economic forces, creating victims out of millions of ordinary people whose lives have become trapped inside a fantasy world of consumerism. Napoleoni reveals the architecture of our world, and in doing so provides fresh insight into many of the most insoluble problems of our era.

Gorsky - Vesna Goldsworthy 2015-10-20

On a rainy afternoon in London's old Chelsea, a charming multi-billionaire Russian oligarch, Gorsky, walks into an ailing bookshop and writes the first of several quarter-of-a-million pound checks. With that money, Gorsky has tasked Nikola, the store's bored and brilliant clerk, with sourcing books for a massive personal library, which will be housed in the magnificent, palatial home Gorsky happens to be building immediately next to Nikola's own modest dwelling. Gorsky needs a tasteful collection of Russian literature to woo a long-lost love—no matter that she happens to be married to an Englishman. His passion for her surpasses even his immeasurable wealth, and Nikola will be drawn into a world of opulence, greed, capitalism, sex, and beauty as he helps Gorsky pursue this doomed love. Charming and inspired by *The Great Gatsby*, Gorsky is a vicarious thrill—an ode to cosmopolitan taste and a brilliant reimagining of a powerful classic.

L'atto costitutivo e lo Statuto della Vegan Society fondata nel 1979 da Donald Watson e Elsie Shrigley riportano questa definizione: "Una filosofia e uno stile di vita che cerca di escludere, per quanto possibile e praticabile, tutte le forme di sfruttamento e crudeltà nei confronti degli animali". Le ragioni per cui si può decidere di adottare uno stile di vita che non preveda l'utilizzo di prodotti di derivazione animale sono in relazione tra di loro. La scelta etica, quella salutare e quella ecologica sono interdipendenti, l'una confluisce nell'altra come anelli di una stessa catena. L'autrice di questo libro, Maria Paola Gragnani, dopo studi approfonditi e vari episodi che si sono susseguiti nella sua vita, le ha certamente abbracciate tutte e tre. Ha finalmente raggiunto quella consapevolezza che le ha dato il coraggio di fare una scelta prima ed esprimere la verità poi.

Compagni di viaggio - Elena Balsamo 2018-01-19  
Che fare quando il bambino si ammala? Che significato hanno i suoi sintomi? Che relazione c'è tra la salute del bambino e quella dei suoi genitori? Sulle strade della vita si è compagni di viaggio, questa è la chiave di lettura di questo libro. Si viaggia insieme ed è necessario avere una bussola, una mappa e rotte ben precise. Come scrive Winnicott, «non esiste un bambino senza una madre» e la felicità è contagiosa: se la mamma è felice, anche il bambino lo è. Viceversa se la mamma è

depressa, triste, frustrata, piena di rabbia o di sensi di colpa, o eccessivamente affaticata, anche il bambino risente di queste sue emozioni e ne soffre in modi svariati nell'anima e nel corpo. Per crescere sani e felici i bambini non hanno bisogno tanto di farmaci quanto di genitori che abbiano il coraggio di trasformare in profondità se stessi, affrontando la loro sofferenza e curando le ferite dell'anima, che sono la vera causa di tutte le malattie e i malesseri. Elena Balsamo, dopo aver affrontato i temi del maternage e dell'educazione nei best-seller *Sono qui con te* e *Libertà e amore*, in questo libro rivolge l'attenzione alla salute emotiva della famiglia. Basandosi sulla sua personale esperienza sia di medico sia di paziente, offre al lettore non solo una panoramica chiara ed esauriente dei diversi strumenti terapeutici alternativi a disposizione della famiglia, e in particolare della coppia mamma-bambino, ma anche numerosi spunti di riflessione sul significato della malattia e sul messaggio contenuto nei sintomi, per trasformare, come lei ha fatto, la sofferenza in occasione preziosa di apprendimento ed evoluzione. Nel corso della sua vita, l'autrice ha provato e sperimentato su se stessa svariati approcci terapeutici come omeopatia, fiori di Bach, terapia cranio-sacrale biodinamica, Logosintesi, Jin Shin Do. Alcuni di questi li propone anche ai genitori che hanno il coraggio di mettersi in discussione e lavorare sui propri vissuti di sofferenza, per evitare di trasmetterli ai propri figli. *Compagni di viaggio* è un libro da consultare ogni volta che ne avrete bisogno. Ogni capitolo è corredato con un "riquadro" contenente spunti di riflessione o un esercizio pratico o qualche suggerimento terapeutico per poter fare da sé nei momenti di emergenza. Ma attenzione: questo non è un manuale di salute olistica per genitori, che offre facili ricette preconfezionate, ma un vero e proprio "libro-medicina" che invita a riflettere e a risvegliarsi, a osare e mettersi in gioco, che tocca il cuore e, per risonanza, aiuta a ritrovare la propria autentica essenza, a sviluppare le proprie risorse, a far fiorire i propri talenti, permettendo così anche ai bambini di diventare ciò che sono chiamati a essere. È questa la vera strada per guarire, per viaggiare sereni adulti e bambini insieme, verso la Salute integrale, il cui altro

nome è Libertà. Compagni di viaggio è un "fuori collana" perché è diretto non solo alle famiglie con bambini, ma a tutti indistintamente, giacché ognuno di noi può trovarvi spunti per migliorare la propria salute, ma anche le proprie relazioni e il proprio modo, unico e speciale, di stare al mondo.

**The Memory of Evil** - Roberto Costantini 2015-09-03

Everything started from that day. The memory of 31 August 1969 has been at the back of Commissario Michele Balistreri's mind for over four decades. It was not only the day that preceded Colonel Muammar Gaddafi's seizure of power in Balistreri's birthplace of Libya, drastically altering his and his country's destiny, but that on which his beloved mother Natalia fell to her death, and the resulting suicide verdict that Balistreri - now Head of Homicide in Rome - has always suspected to be a flagrant cover-up for her murder. The memory of 23 July 2006 has been at the front of investigative journalist Linda Nardi's mind for the past five years. Ever since her and Balistreri together thwarted a phantom-like killer stalking Rome, Nardi has been intent on shedding further light on the Vatican Bank's shadowy involvement in the abominations uncovered that summer. But now Linda will find her attention diverted to an equally irresistible assignment: the collapse of Colonel Gaddafi's forty-two year dictatorship. The Memory of Evil is the earth-shattering finale to Roberto Costantini's internationally bestselling trilogy, in which one woman will encounter a long-entombed truth in the rubble of Gaddafi's Tripoli: unearthing a conspiracy neither she, nor the man it was designed to protect, will ever be able to erase from their minds.

Hotel Florida: Truth, Love, and Death in the Spanish Civil War - Amanda Vaill 2014-04-22

A spellbinding story of love amid the devastation of the Spanish Civil War Madrid, 1936. In a city blasted by a civil war that many fear will cross

borders and engulf Europe—a conflict one writer will call "the decisive thing of the century"—six people meet and find their lives changed forever. Ernest Hemingway, his career stalled, his marriage sour, hopes that this war will give him fresh material and new romance; Martha Gellhorn, an ambitious novice journalist hungry for love and experience, thinks she will find both with Hemingway in Spain. Robert Capa and Gerda Taro, idealistic young photographers based in Paris, want to capture history in the making and are inventing modern photojournalism in the process. And Arturo Barea, chief of the Spanish government's foreign press office, and Ilsa Kulcsar, his Austrian deputy, are struggling to balance truth-telling with loyalty to their sometimes compromised cause—a struggle that places both of them in peril. Beginning with the cloak-and-dagger plot that precipitated the first gunshots of the war and moving forward month by month to the end of the conflict. Hotel Florida traces the tangled and disparate wartime destinies of these three couples against the backdrop of a critical moment in history: a moment that called forth both the best and the worst of those caught up in it. In this noir landscape of spies, soldiers, revolutionaries, and artists, the shadow line between truth and falsehood sometimes became faint indeed—your friend could be your enemy and honesty could get you (or someone else) killed. Years later, Hemingway would say, "It is very dangerous to write the truth in war, and the truth is very dangerous to come by." In Hotel Florida, from the raw material of unpublished letters and diaries, official documents, and recovered reels of film, the celebrated biographer Amanda Vaill has created a narrative of love and reinvention that is, finally, a story about truth: finding it, telling it, and living it—whatever the cost. \*INCLUDES 16 PAGES OF BLACK-AND-WHITE PHOTOGRAPHS

Slow Food Nation - Carlo Petrini 2013-10-08

By now most of us are aware of the threats looming in the food world. The best-selling *Fast Food Nation* and other recent books have alerted us to such dangers as genetically modified organisms, food-borne diseases, and industrial farming. Now it is time for answers, and *Slow Food Nation* steps up to the challenge. Here the charismatic leader of the Slow Food movement, Carlo Petrini, outlines many different routes by which we may take back control of our food. The three central principles of the Slow Food plan are these: food must be sustainably produced in ways that are sensitive to the environment, those who produce the food must be fairly treated, and the food must be healthful and delicious. In his travels around the world as ambassador for Slow Food, Petrini has witnessed firsthand the many ways that native peoples are feeding themselves without making use of the harmful methods of the industrial complex. He relates the wisdom to be gleaned from local cultures in such varied places as Mongolia, Chiapas, Sri Lanka, and Puglia. Amidst our crisis, it is critical that Americans look for insight from other cultures around the world and begin to build a new and better way of eating in our communities here.
