*Auto Repair For Dummies* - Deanna Sclar 2019-01-07

Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026).

While this version features a new Dummies cover and design, the content

is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

*Gaining Momentum* - Joseph Tidd 2010

Diffusion, or the widespread adoption of innovations, is a critical yet under-researched topic. There is a wide gap between development and successful adoption of an innovation. Therefore, a better understanding of why and how an innovation is adopted can help develop realistic management and business plans. Most books on this topic use a single-discipline approach to explain the diffusion of innovations. This book adopts a multi-disciplinary and managerial process approach to understanding and promoting the adoption of innovations, based on the latest research and practice. It will be of interest to graduates and researchers in marketing, product development and innovation courses.

*If You Had Controlling Parents* - Dan Neuharth 2009-10-13

"Dan Neuharth's book demystifies much within our pasts that can hurt our intimate relationships in ways we may not even realize. *If You Had Controlling Parents* helps spark understanding and acceptance across generations." — John Gray, Ph.D., author of *Men Are from Mars, Women Are from Venus* Do you sometimes feel as if you are living your life to please others? Do you give other people the benefit of the doubt but second-guess yourself? Do you struggle with perfectionism, anxiety, lack of confidence, emotional emptiness, or eating disorders? In your intimate relationships, have you found it difficult to get close without losing your sense of self? If so, you may be among the fifteen million adults in the United States who were raised with unhealthy parental control. In this groundbreaking bestseller by accomplished family therapist Dan Neuharth, Ph.D., you'll discover whether your parents controlled eating, appearance, speech, decisions, feelings, social life, and other aspects of your childhood—and whether that control may underlie problems you still struggle with in adulthood. Packed with inspiring case studies and dozens of practical suggestions, this book shows you how to leave home emotionally so you can improve assertiveness, boundaries, and confidence, quiet you "inner critics," and bring more balance to your

moods and relationships. Offering compassion, not blame, Dr. Neuharth helps you make peace with your past and avoid overcontrolling your children and other loved ones.

**Brand Relevance** - David A. Aaker 2011-01-25

Branding guru Aaker shows how to eliminate the competition and become the lead brand in your market. This ground-breaking book defines the concept of brand relevance using dozens of case studies—Prios, Whole Foods, Westin, iPad and more—and explains how brand relevance drives market dynamics, which generates opportunities for your brand and threats for the competition. Aaker reveals how these companies have made other brands in their categories irrelevant. Key points: When managing a new category of product, treat it as if it were a brand; By failing to produce what customers want or losing momentum and visibility, your brand becomes irrelevant; and create barriers to competitors by supporting innovation at every level of the organization. Using dozens of case studies, shows how to create or dominate new categories or subcategories, making competitors irrelevant. Shows how to manage the new category or subcategory as if it were a brand and how to create barriers to competitors. Describes the threat of becoming irrelevant by failing to make what customer are buying or losing energy. David Aaker, the author of four brand books, has been called the father of branding. This book offers insight for creating and/or owning a new business arena. Instead of being the best, the goal is to be the only brand around—making competitors irrelevant.
