**Policing Undocumented Migrants** - Louise Boon-Kuo 2017-08-07

Migration policing experiments such as boat turn-backs and offshore refugee processing have been criticised as unlawful and have been characterised as exceptional. Policing Undocumented Migrants explores the extraordinarily routine, powerful, and above all lawful practices engaged in policing status within state territory. This book reveals how the everyday violence of migration law is activated by making people 'illegal'. It explains how undocumented migrants are marginalised through the broad discretion underpinning existing frameworks of legal responsibility for migration policing. Drawing on interviews with people with lived experience of undocumented status within Australia, perspectives from advocates, detailed analysis of legislation, case law and policy, this book provides an in-depth account of the experiences and legal regulation of undocumented migrants within Australia. Case studies of street policing, immigration raids, transitions in legal status such as release from immigration detention, and character based visa determination challenge conventional binaries in migration analysis between the citizen and non-citizen and between lawful and unlawful status. By showing the organised and central role of discretionary legal authority in policing status, this book proposes a new perspective through which responsibility for migration legal practices can be better understood and evaluated. Policing Undocumented Migrants will be of interest to scholars and practitioners working in the areas of criminology, criminal law, immigration law and border studies.

**Welcome to Britain: Fixing Our Broken Immigration System** - Colin Yeo 2022-03-17

"A must-read" - Maya Goodfellow "Highly readable" - Joshua Rozenberg QC "Brilliant and urgently necessary" - Amelia Gentleman "Incisive and compelling" - The Secret Barrister \*\*\* How would we treat Paddington Bear if he came to the UK today? Perhaps he would be a casualty of extortionate visa application fees; perhaps he would experience a cruel term of imprisonment in a detention centre; or perhaps his entire identity would be torn apart at the hands of a hostile environment that delights in the humiliation of its victims. Britain thinks of itself as a welcoming country, but the reality is very different. This is a system in which people born in Britain are told in uncompromising terms that they are not

British, in which those who have lived their entire lives on these shores are threatened with deportation, and in which falling in love with anyone other than a British national can result in families being ripped apart. Now fully updated to include the Nationality and Borders Bill, in this vital and alarming book, campaigner and immigration barrister Colin Yeo tackles the subject with dexterity and rigour, offering a roadmap of where we should go from here as he exposes the injustice of an immigration system that is unforgiving, unfeeling and, ultimately, failing. **Feminist (Im)Mobilities in Fortress(ing) North America** - Amy Lind 2016-04-15

Since the establishment of the North American Free Trade Agreement (NAFTA) tensions concerning immigration trends and policies, which continued to escalate at the turn of the millennium resulted in revised national security policies in Mexico, Canada, and the United States. These tensions have catalyzed the three governments to rethink their political and economic agendas. While national feminist scholarship in and on these respective countries continue to predominate, since NAFTA, there has been increasing feminist inquiry in a North American regional frame. Less has been done to understand challenges of the hegemonies of nation, region, and empire in this context and to adequately understand the meaning of (im)mobility in people's lives as well as the (im)mobilities of social theories and movements like feminism. Drawing from current feminist scholarship on intimacy and political economy and using three main frameworks: Fortressing Writs/Exclusionary Rights, Mobile Bodies/Immobile Citizenships, and Bordered/Borderland Identities, a handpicked group of established and rising feminist scholars methodically examine how the production of feminist knowledge has occurred in this region. The economic, racial, gender and sexual normativities that have emerged and/or been reconstituted in neoliberal and securitized North America further reveal the depth of regional and global restructuring.

**Importing Into the United States** - Border Protection U S Customs and 2015-10-12

This edition of Importing Into the United States contains material pursuant to the Trade Act of 2002 and the Customs Modernization Act, commonly referred to as the Mod Act. Importing Into the United States provides wide-ranging information about the importing process and import requirements. We have made every effort to include essential requirements, but it is not possible for a book this size to cover all import laws and regulations. Also, this publication does not supersede or modify any provision of those laws and regulations. Legislative and administrative changes are always under consideration and can occur at any time. Quota limitations on commodities are also subject to change. Therefore, reliance solely on the information in this book may not meet the "reasonable care" standard required of importers.

**Indiana Notary Public Guide** - Indiana Secretary of State 2019-04-06

A notary is a public official responsible for independently verifying signatures and oaths. Depending on how a document is written, a notarization serves to affirm the identity of a signer and the fact that they personally executed their signature. A notarization, or notarial act, officially documents the identity of a party to a document or transaction and the occasion of the signing that others can rely upon, usually at face value. A notary's authentication is intended to be reliable, to avoid the inconvenience of having to locate a signer to have them personally verify their signature, as well as to document the execution of a document perhaps long after the lifetime of the signer and the notary. An oath is a

sworn statement. In most cases a person will swear that a written statement, oral statement, or testimony they are about to give is true. A notary can document that the notary administered an oath to an individual.

**Diversity of Law in the United Arab Emirates** - Kristin Kamøy 2020-12-16

This book examines the law and its practice in the United Arab Emirates (UAE). The objective is to understand the logic of the legal system in the UAE through a rounded analysis of its laws in context. It thus presents an understanding of the system on its own terms beyond the accepted Western model. The book shows how the Emirati law differs from the conventional rule of law. The first section of the book deals with the imperial, international, and cultural background of the Emirati legal system and its influences on some of the elements of the legal system today. It maps the state's international legal obligations according to core human rights treaties showing how universal interpretations of rights may differ from Emirati interpretations of rights. This logic is further illustrated through an overview of the legal system, in federal, local, and free zones and how the UAE's diversity of legal sources from Islamic and colonial law provides legal adaptability. The second section of the book deals mainly with the contemporary system of the rule of law in the UAE but at times makes a detour to the British administration to show how imperial execution of power during the British administration created forerunners visible today. Finally, the debut of the UAE on the international scene contributed to an interest in human rights investigations, having manifestations in UAE law. The work will be a valuable resource for researchers and academics working in the areas of Comparative Constitutional Law, Legal Anthropology, Legal Pluralism, and Middle Eastern Studies.

**Black Identities** - Mary C. WATERS 2009-06-30

The story of West Indian immigrants to the United States is generally considered to be a great success. Mary Waters, however, tells a very different story. She finds that the values that gain first-generation immigrants initial success--a willingness to work hard, a lack of attention to racism, a desire for education, an incentive to save--are undermined by the realities of life and race relations in the United States. Contrary to long-held beliefs, Waters finds, those who resist Americanization are most likely to succeed economically, especially in the second generation.

NIC leadership engaged with experts in nearly 20 countries, from think tanks, banks, government offices and business groups, to solicit reviews of the report.
