Plant Engineer's Handbook - R. Keith Mobley 2001-05-14

Plant engineers are responsible for a wide range of industrial activities, and may work in any industry. This means that breadth of knowledge required by such professionals is so wide that previous books addressing plant engineering have either been limited to only certain subjects or cursory in their treatment of topics. The Plant Engineering Handbook offers comprehensive coverage of an enormous range of subjects which are of vital interest to the plant engineer and anyone connected with industrial operations or maintenance. This handbook is packed with indispensable information, from defining just what a Plant Engineer actually does, through selection of a suitable site for a factory and provision of basic facilities (including boilers, electrical systems, water, HVAC systems, pumping systems and floors and finishes) to issues such as lubrication, corrosion, energy conservation, maintenance and materials handling as well as environmental considerations, insurance matters and financial concerns. One of the major features of this volume is its comprehensive treatment of the maintenance management function; in addition to chapters which outline the operation of the various plant equipment there is specialist advice on how to get the most out of that equipment and its operators. This will enable the reader to reap the rewards of more efficient operations, more effective employee contributions and in turn more profitable performance from the plant and the business to which it contributes. The Editor, Keith Mobley and the team of expert contributors, have practiced at the highest levels in leading corporations across the USA, Europe and the rest of the world. Produced in association with Plant Engineering magazine, this book will be a source of information for plant engineers in any industry worldwide. * A Flagship reference work for the Plant Engineering series * Provides comprehensive coverage on an enormous range of subjects vital to plant and industrial engineer * Includes an international perspective including dual units and regulations

Standard Letters in Architectural Practice - David Chappell 2008-04-15

Architects and contract administrators spend a great deal of timewriting letters of various types. Many of them are routine and repetitive in character, but they require proper consideration if potentially dangerous liability situations are to be avoided. This book provides some 285 standard letters for use at all stages of project administration. To assist the user, they are grouped into sections which correspond with the RIBA Plan of Work: the aim is to cover all the common situations encountered in practice. The book has been revised to take account of the latest contract revisions and many letters have been added. Unless otherwise stated, all letters are suitable for use with: JCT 98 WCD 98 IFC 98 MW 98 GC/Works/1 (1998) The latest edition also takes account of the three new RIBA Standard Forms of Agreement for Appointment of an Architect: SFA/99, CE/99 and SW/99 Although primarily written for architects and contract administrators, the book will also be of use to project managers and employers' agents under WCD 98. Contractors will also find much of interest.

Compilation of Laws and Decisions Relating to the Common School System and List of State Educational Institutions of Georgia ... - Georgia 1906

Computer Leasing - Henry S. Beers 1983

Kuwait Taxation Laws and Regulations Handbook - International Business Publications, USA 2008-03-03
Driving home after being kicked out of college, Tucker meets and picks up the mysterious Corinne Chang at a rest stop. Infatuated, and with nothing better to do, he ends up with her in St. Louis, where he gets a job as a chef in a Chinese restaurant. Even though he's a gwai lo—a foreign devil—his cooking skills impress the Chinese patrons of the restaurant, and his wooing skills impress Corinne when she joins him there as a waitress. But when Chinese gangsters show up demanding diamonds they believe Tucker's kind-of, sort-of, don't-call-her-a-girlfriend stole, he and his friends—which luckily include a couple of FBI agents—have to figure out just who is gunning for Corinne and how to stop them. Good thing Tucker is a Mandarin-speaking martial arts master who isn't afraid to throw the first punch. With its one-of-a-kind hero, Chinese Cooking for Diamond Thieves is perfect for anyone who loves cooking, Chinese culture, bad jokes, and young love. Diamonds are forever . . . unless Chinese mobsters decide they want them back.

Professional Practice for Interior Designers - Christine M. Piotrowski 2001-10-22

The tools needed to create and manage a thriving interior design practice This essential sourcebook provides all of the information needed to establish and manage a productive, profitable interior design firm.
