NEW YORK TIMES BESTSELLER • The series that began with *The Girl with the Dragon Tattoo* continues in this “engrossing” novel (USA Today) as brilliant hacker Lisbeth Salander teams up with journalist Mikael Blomkvist to uncover the secrets of her childhood and take revenge. Lisbeth Salander—obstinate outsider, volatile seeker of justice for herself and others—seizes on a chance to unearth her mysterious past once and for all. And she will let nothing stop her—not the Islamists she enrages by rescuing a young woman from their brutality; not the prison gang leader who passes a death sentence on her; not the deadly reach of her long-lost twin sister, Camilla; and not the people who will do anything to keep buried knowledge of a sinister pseudoscientific experiment known only as *The Registry*. Once again, Lisbeth Salander and Mikael Blomkvist are the fierce heart of a thrilling full-tilt novel that takes on some of the world's most insidious problems.

Imagining Contagion in Early Modern Europe - Claire L. Carlin 2005-10-14

The ideological underpinnings of early modern theories of contagion are dissected in this volume by an integrated team of literary scholars, cultural historians, historians of medicine and art historians. Even today, the spread of disease inspires moralizing discourse and the ostracism of groups thought responsible for contagion; the fear of illness and the desire to make sense of it are demonstrated in the current preoccupation with HIV, SARS, 'mad cow' disease, West Nile virus and avian flu, to cite but a few contemporary examples. *Imagining Contagion in Early Modern Europe* explores the nature of understanding when humanity is faced with threats to its well-being, if not to its very survival.

The Bastard Factory - Chris Kraus 2022-07-07

Chris Kraus' *The Bastard Factory* tells the story of an entire epoch: a drama of betrayal and self-delusion spanning the years 1905 to 1975, taking us from Riga to Moscow, Berlin and Munich all the way to Tel Aviv. Hubert and Konstantin Solm are brothers, born in Riga at the beginning of the twentieth century. They will find themselves - along with their Jewish adopted sister, Ev Solm - caught up in in the maelstrom of their changing times. As the two brothers climb the rungs of society - working first for the government in Nazi Germany, then as agents for the Allied Forces, and eventually becoming spies for the young West Germany - Ev will be their constant companion, and eventually a lover to them both. The passionate love triangle that emerges will propel the characters to terrifying moral and political depths. The story of the Solms is also the story of twentieth-century Germany: the decline of an old world and the rise of a new one - under new auspices but with the same familiar protagonists. Translated from the German by Ruth Martin

Africa's Future, Africa's Challenge - Marito H. Garcia 2008-01-18

Early childhood, from birth through school entry, was largely invisible worldwide as a policy concern for much of the twentieth century. Children, in the eyes of most countries, were 'appendages' of their parents or simply embedded in the larger family structure. The child did not emerge as a separate social entity until school age (typically six or seven). 'Africa's Future, Africa's Challenge: Early Childhood Care and Development in Sub-Saharan Africa' focuses on the 130 million children south of the Sahel in this 0-6 age group. This book, the first of its kind, presents a balanced collection of articles written by African and non-African authors ranging from field practitioners to academicians and from members of government organizations to those of nongovernmental and local organizations. 'Africa's Future, Africa's Challenge' compiles the latest data and viewpoints on the state of Sub-Saharan Africa's children. Topics covered include the rationale for investing in young children,

policy trends in early childhood development (ECD), historical perspectives of ECD in Sub-Saharan Africa including indigenous approaches, new threats from HIV/AIDS, and the importance of fathers in children's lives. The book also addresses policy development and ECD implementation issues; presents the ECD programming experience in several countries, highlighting best practices and challenges; and evaluates the impact of ECD programs in a number of countries.

The Disappearance of Stephanie Mailer - JOEL. DICKER 2021-09-02

Stieg and Me - Eva Gabrielsson 2012-07

The poignant account of the 30-year life shared together by Stieg Larsson and Eva Gabrielsson. There is only one person who can tell Stieg Larsson's story other than himself - his lifelong companion and muse, Eva Gabrielsson. Here she tells the story of their 30-year romance, of Stieg's upbringing and early years, and how this shaped his morals and personality. She talks of his life-long struggle to expose Sweden's Neo-Nazis, of his struggle to keep the magazine he founded, Expo, alive, his difficult relationships with his immediate family, and the joy and relief he discovered writing The Millennium trilogy. Their story is told as a series of short vignettes, and Eva Gabrielsson speaks with rare candour and dignity, inspired only by the truth as she knows it. This book is poignant in its account of two soulmates and the life they shared, and most importantly is deeply insightful into the man everyone wants to know better, and about whom so little is known.

Fall of Man in Wilmslow - David Lagercrantz 2016-05-03

Several English nationals have defected to the USSR, while a witch hunt for homosexuals rages across Britain. In these circumstances, no one is surprised when a mathematician by the name of Alan Turing is found dead in his home in the sleepy suburb of Wilmslow. detective constable, Leonard Corell, who once dreamed of a career in higher mathematics, suspects greater forces are involved. In the face of opposition from his superiors, he begins to assemble the pieces of a puzzle that lead him to one of the most closely guarded secrets of the war: the Bletchley Park operation to crack the Nazis' Enigma encryption code. Stumbling across evidence of Turing's genius, and sensing an escape from a narrow life, Corell begins to dig deeper. But in the paranoid, febrile atmosphere of the Cold War, loose cannons cannot be tolerated and Corell soon realizes he has much to learn about the dangers of forbidden knowledge. He is also about to be rocked by two startling developments in his own life, one of which will find him targeted as a threat to national security.

Comments on the Society of the Spectacle - Guy Debord 2011-01-10

First published in 1967, Guy Debord's stinging revolutionary critique of contemporary society, *The Society of the Spectacle* has since acquired a cult status. Credited by many as being the inspiration for the ideas generated by the events of May 1968 in France, Debord's pitiless attack on commodity fetishism and its incrustation in the practices of everyday life continues to burn brightly in today's age of satellite television and the soundbite. In *Comments on the Society of the Spectacle*, published twenty years later, Debord returned to the themes of his previous analysis and demonstrated how they were all the more relevant in a period when the "integrated spectacle" was dominant. Resolutely refusing to be reconciled to the system, Debord trenchantly slices through the doxa and mystification offered up by journalists and pundits to show how aspects of reality as diverse as terrorism and the environment, the Mafia and the media, were caught up in the logic of the spectacular society. Pointing the finger clearly at those who benefit from the logic of domination, Debord's *Comments* convey the revolutionary impulse at the heart of situationism.

The Book of Divine Works - St. Hildegard of Bingen 2018-10-16

Completed in 1173, The Book of Divine Works (Liber Divinorum Operum) is the culmination of the Visionary's Doctor's theological project, offered here for the first time in a complete and scholarly English translation.

The first part explores the intricate physical and spiritual relationships between the cosmos and the human person, with the famous image of the universal Man standing astride the cosmic spheres. The second part examines the rewards for virtue and the punishments for vice, mapped onto a geography of purgatory, hellmouth, and the road to the heavenly city. At the end of each Hildegard writes extensive commentaries on the Prologue to John's Gospel (Part 1) and the first chapter of Genesis (Part 2)—the only premodern woman to have done so. Finally, the third part tells the history of salvation, imagined as the City of God standing next to the mountain of God's foreknowledge, with Divine Love reigning over all.

The Sense of Decadence in Nineteenth-Century France - Koenraad W. Swart 2013-11-11

"It was the best of times. It was the worst of times." The famous opening sentence of Charles Dickens' *Tale of Two Cities* can serve as a motto to characterize the mixture of optimism and pessimism with which a large number of nineteenth-century intellectuals viewed the condition of their age. It is nowadays hardly necessary to accentuate the optimistic

elements in the nineteenth-century view of history; many recent historians have sharply contrasted the complacency and the great expectations of the past century with the fears and anxieties rampant in our own age. It is often too readily assumed that a hundred years ago all leading thinkers as well as the educated public were addicted to the cult of progress and ignored or minimized those trends of their times that paved the way for the catastrophes of the twentieth century. In the nineteenth century the intoxicating triumphs of modern science undeniably induced the general public to believe that progress was not an accident but a necessity and that evil and immorality would gradually disappear. Yet fears, misgivings, and anxieties were not as exceptional in the nineteenth century as is often imagined. Such feelings were not restricted to a few dissenting philosophers and poets like Schopenhauer, Kierkegaard, Dostoevsky, Baudelaire, and Nietzsche.
