De la vanidad - Michel Eyquen de Montaigne

"He envejecido mucho desde mis primeras publicaciones, que tuvieron lugar en el año 1580. Pero dudo que me haya vuelto una pulgada más sabio. Yo entonces y yo ahora somos por cierto dos: cuál es mejor no puedo decirlo. Sería bonito ser viejo si uno no se encaminara a otra cosa que al mejoramiento.

Es un titubeante andar de borracho, vertiginoso, informe, o de juncos que el aire maneja azarosamente según los designios de la brisa.”Todo es relativo. Ésa es la gran lección que sobrevuela este texto, extraído del libro III de los Ensayos de Montaigne. Pilar de un auténtico monumento literario, De la vanidad nos acerca una propuesta esencial: conservar el espíritu crítico, pues ningún conocimiento es absoluto. En un siglo en el cual reinan las guerras de religión, la miseria y la vanidad, Montaigne reclama el derecho a dudar, para defender el eclecticismo y la tolerancia. Michel Eyquem de Montaigne (1533-1592) fue uno de los escritores más influyentes del Renacimiento francés. En sus escritos demuestra una asombrosa habilidad para mezclar la especulación teórica más rigurosa con anécdotas casuales y autobiográficas. Buena parte de la literatura moderna de no ficción debe su génesis a Montaigne, quien dejó su huella en autores como Shakespeare, Rousseau y

Nietzsche.

[Making and Rethinking the Renaissance](#) - Giancarlo Abbamonte 2019-06-04

The purpose of this volume is to investigate the crucial role played by the return of knowledge of Greek in the transformation of European culture, both through the translation of texts, and through the direct study of the language. It aims to collect and organize in one database all the digitalised versions of the first editions of Greek grammars, lexica and school texts available in Europe in the 14th and 15th centuries, between two crucial dates: the start of Chrysoloras’s teaching in Florence (c. 1397) and the end of the activity of Aldo Manuzio and Andrea Asolano in Venice (c. 1529). This is the first step in a major investigation into the knowledge of Greek and its dissemination in Western Europe: the selection of the texts and the first milestones in teaching methods were put together in that period, through the work of scholars

like Chrysoloras, Guarino and many others. A remarkable role was played also by the men involved in the Council of Ferrara (1438-39), where there was a large circulation of Greek books and ideas. About ten years later, Giovanni Tortelli, together with Pope Nicholas V, took the first steps in founding the Vatican Library. Research into the return of the knowledge of Greek to Western Europe has suffered for a long time from the lack of intersection of skills and fields of research: to fully understand this phenomenon, one has to go back a very long way through the tradition of the texts and their reception in contexts as different as the Middle Ages and the beginning of Renaissance humanism. However, over the past thirty years, scholars have demonstrated the crucial role played by the return of knowledge of Greek in the transformation of European culture, both through the translation of texts, and through the direct study of the language. In addition, the

actual translations from Greek into Latin remain poorly studied and a clear understanding of the intellectual and cultural contexts that produced them is lacking. In the Middle Ages the knowledge of Greek was limited to isolated areas that had no reciprocal links. As had happened to many Latin authors, all Greek literature was rather neglected, perhaps because a number of philosophical texts had already been available in translation from the seventh century AD, or because of a sense of mistrust, due to their ethnic and religious differences. Between the 12th and 14th century AD, a change is perceptible: the sharp decrease in Greek texts and knowledge in the South of Italy, once a reference-point for this kind of study, was perhaps an important reason prompting Italian humanists to go and study Greek in Constantinople. Over the past thirty years it has become evident to scholars that humanism, through the re-appreciation of classical

antiquity, created a bridge to the modern era, which also includes the Middle Ages. The criticism by the humanists of medieval authors did not prevent them from using a number of tools that the Middle Ages had developed or synthesized: glossaries, epitomes, dictionaries, encyclopaedias, translations, commentaries. At present one thing that is missing, however, is a systematic study of the tools used for the study of Greek between the 15th and 16th century; this is truly important, because, in the following centuries, Greek culture provided the basis of European thought in all the most important fields of knowledge. This volume seeks to supply that gap.

Medieval Elite Women and the Exercise of Power, 1100-1400 -

Heather J. Tanner 2019-01-09

For decades, medieval scholarship has been dominated by the paradigm that women who wielded power after c. 1100 were

exceptions to the “rule” of female exclusion from governance and the public sphere. This collection makes a powerful case for a new paradigm. Building on the premise that elite women in positions of authority were expected, accepted, and routine, these essays traverse the cities and kingdoms of France, England, Germany, Portugal, and the Latin Kingdom of Jerusalem in order to illuminate women’s roles in medieval power structures. Without losing sight of the predominance of patriarchy and misogyny, contributors lay the groundwork for the acceptance of female public authority as normal in medieval society, fostering a new framework for understanding medieval elite women and power.

Coronations - János M. Bak 2022-04-29

Fascination with royal pomp and circumstance is as old as kingship itself. The authors of *Coronations* examine royal ceremonies from the ninth to the sixteenth century, and find

the very essence of the monarchical state in its public presentation of itself. This book is an enlightened response to the revived interest in political history, written from a perspective that cultural historians will also enjoy. The symbolic and ritual acts that served to represent and legitimate monarchical power in medieval and early modern Europe include not only royal and papal coronations but also festive entries, inaugural feasts, and rulers' funerals. Fifteen leading scholars from North America, Britain, France, Germany, Poland, and Denmark explore the forms and the underlying meanings of such events, as well as problems of relevant scholarship on these subjects. All the contributions demonstrate the importance of in-depth study of rulership for the understanding of premodern power structures. Emphasis is placed on interdisciplinary approaches, drawing on the findings of ethnography and anthropology, combined with rigorous critical

evaluation of the written and iconic evidence. The editor's historiographical introduction surveys the past and present of this field of study and proposes some new lines of inquiry. "For 'reality' is not a one-dimensional matter: even if we can establish what actually transpired, we still need to ask how it was perceived by those present." This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1990.

The Genitive - Anne Carlier
2013-07-17

This volume, the fifth in the series Case and Grammatical Relations across Languages, is devoted to genitive constructions in a range of Indo-European languages (Russian, French, Romanian, German and Swedish), as well as Finnish, Bantu languages and Northern Akhvakh (Northeast Caucasian). Definitions of genitives typically start out from the notion of an inflectional marker, often suffixal, that marks dependency relations of a noun phrase with respect to another noun phrase and conveys possessive meaning. The contributions in this volume demonstrate a huge range of variation in genitives,

semantically (from possessive meaning to generalized dependency), morphologically (from affixes to different types of clitics) and syntactically (from adnominal uses to argument relations and adjunct uses). The volume contains both general surveys of genitives and case studies of the semantics, pragmatics and historical development of specific genitive constructions. It will be of interest to scholars and students in syntax, semantics, morphology, typology, and historical linguistics.

Consuming Youth - Robert
Latham 2007-11-01
From the novels of Anne Rice
to *The Lost Boys*, from *The
Terminator* to cyberpunk
science fiction, vampires and
cyborgs have become strikingly
visible figures within American
popular culture, especially
youth culture. In *Consuming
Youth*, Rob Latham explains
why, showing how fiction, film,
and other media deploy these
ambiguous monsters to
embody and work through the
implications of a capitalist
system in which youth both
consume and are consumed.
Inspired by Marx's use of the
cyborg vampire as a metaphor
for the objectification of
physical labor in the factory,
Latham shows how
contemporary images of
vampires and cyborgs
illuminate the contradictory
processes of empowerment and
exploitation that characterize
the youth-consumer system.
While the vampire is a

voracious consumer driven by a
hunger for perpetual youth, the
cyborg has incorporated the
machineries of consumption
into its own flesh. Powerful
fusions of technology and
desire, these paired images
symbolize the forms of labor
and leisure that American
society has staked out for
contemporary youth. A
startling look at youth in our
time, *Consuming Youth* will
interest anyone concerned with
film, television, and popular
culture.

Dialogues between Media -
Paul Ferstl 2021-01-18

Comparative Literature is changing fast with methodologies, topics, and research interests emerging and remerging. The fifth volume of ICLA 2016 proceedings, *Dialogues between Media*, focuses on the current interest in inter-arts studies, as well as papers on comics studies, further testimony to the fact that comics have truly arrived in mainstream academic discourse. "Adaptation" is a key term for the studies presented in this volume; various articles discuss the adaptation of literary source texts in different target media - cinematic versions, comics adaptations, TV series, theatre, and opera. Essays on the interplay of media beyond adaptation further show many of the strands that are woven into dialogues between media, and thus the expanding range of comparative literature.

The Count of Monte Cristo, the Three Musketeers, and the Man in the Iron Mask - Alexandre Dumas 2013

This carefully crafted ebook: "The Count of Monte Cristo + The Three Musketeers + The Man in the Iron Mask (3 Unabridged Classics)" contains 3 unabridged classic books in one volume and is formatted for your eReader with a functional and detailed table of contents. *The Count of Monte Cristo* is an adventure novel by Alexandre Dumas, first published in serial form from August 1844 until January 1846. The story takes place in France, Italy, islands in the Mediterranean, and in the Levant during the historical events of 1815-1838. It begins from just before the Hundred Days period and spans through to the reign of Louis-Philippe of France. The historical setting is a fundamental element of the book. It focuses on a man who is wrongfully imprisoned,

escapes from jail, acquires a fortune and sets about getting revenge on those responsible for his imprisonment. However, his plans have devastating consequences for the innocent as well as the guilty. The Three Musketeers is a novel by Alexandre Dumas, first published in serial form in 1844. Set in the 17th century, it recounts the adventures of a young man named d'Artagnan after he leaves home to travel to Paris, to join the Musketeers of the Guard. D'Artagnan is not one of the musketeers of the title; those are his friends Athos, Porthos and Aramis, inseparable friends who live by the motto "all for one, one for all", a motto which is first put forth by d'Artagnan. The Man in the Iron Mask climactically concludes the epic adventures of the three Musketeers. The Man in the Iron Mask is a name given to a prisoner arrested as Eustache Dauger in 1669 or 1670, and held in a number of jails, including the Bastille and the Fortress of Pignerol. He was held in the custody of the same jailer, Bénigne

Dauvergne de Saint-Mars, for a period of 34 years. The possible identity of this man has been thoroughly discussed and has been the subject of many books, because no one ever saw his face, which was hidden by a mask of black velvet cloth. Alexandre Dumas, père (1802 - 1870) was a French writer, best known for his numerous historical novels of high adventure which have made him the most widely read French author in the world. Prolific in several genres, Dumas began his career by writing plays, which were successfully produced from the first. He also wrote numerous magazine articles and travel books.

Cartesian Theodicy - Z.

Janowski 2012-12-06

Almost all interpreters of Cartesian philosophy have hitherto focused on the epistemological aspect of Descartes' thought. In his Cartesian Theodicy, Janowski demonstrates that Descartes' epistemological problems are merely rearticulations of theological questions. For example, Descartes' attempt to define the role of God in man's cognitive fallibility is a reiteration of an old argument that points out the incongruity between the existence of God and evil, and his pivotal question 'whence error?' is shown here to be a rephrasing of the question 'whence evil?' The answer Descartes gives in the Meditations is actually a reformulation of the answer found in St. Augustine's *De Libero Arbitrio* and the Confessions. The influence of St. Augustine on Descartes can

also be detected in the doctrine of eternal truths which, within the context of the 17th-century debates over the question of the nature of divine freedom, caused Descartes to ally himself with the Augustinian Oratorians against the Jesuits. Both in his Cartesian Theodicy as well as his *Index Augustino-Cartesian, Textes et Commentaire* Janowski shows that the entire Cartesian metaphysics can - and should - be read within the context of Augustinian thought.

Searing heat melts rock into incandescent pools of glowing liquid. The earth heaves. A monstrous thunderclap of sound reverberates over the land. An ominous mushroom-shaped cloud boils skywards. For years afterwards, strange

plants and even stranger human mutants are discovered in the area, warped spawn of a mysterious and deadly force. Just another atomic test? Not exactly. Because it was Professor Huxtable's brainchild. And the professor is one of the most devoted and loyal servants of Queen Victoria?
