## **Making a Market** - Jean Ensminger 1992-11-27

In Making a Market, Jean Ensminger analyzes the process by which the market was introduced into the economy of a group of Kenyan pastoralists. Professor Ensminger employs new institutional economic analysis to assess the impact of new market institutions on production and distribution, with particular emphasis on the effect of institutions on decreasing transaction costs over time. This study traces the effects of increasing commercialization on the economic well-being of individual households, rich and poor alike, over considerable time and analyzes the process by which institutions themselves are transformed as a market economy develops. This case study points out the importance of understanding the roles of ideology and bargaining power--in addition to pure economic forces, such as changing relative prices--in shaping market institutions.

**Inclusion Dividend** - Mark Kaplan 2016-10-21

In today's increasingly diverse, global, interconnected business world, diversity and inclusion (D&I) is no longer just "the right thing to do," it is a core leadership competency and central to the success of business. Working effectively to combat unconscious bias across differences such as gender, culture, generational, race, and sexual orientation not only leads to a more productive, innovative corporate culture but also to a better engagement with customers and clients. The Inclusion Dividend provides a framework to tap the bottom-line impact that results from an inclusive culture. Most leaders have the intent to be inclusive, however translating that intent into a truly inclusive outcome with employees,

customers, and other stakeholders requires a focused change effort. The authors explain that challenge and provide straightforward advice on how to achieve the kind of meritocracy that will result in a tangible dividend and move companies ahead of their competition.

**Aging Options (East King County)** - Rajiv Nagaich 2013-05-01

Each day in the United States, 10,000 people become eligible to retire. For these individuals, and the thousands of others already retired, retirement issues loom large. Though visions of retirement for most start out as a joyous anticipation of being engaged in activities we did not have time for when working, re-engaging with friends and family, visiting new and exotic places and the like, these visions can be short-lived for many unprepared retirees. The primary reason? An episode with illness (such as a stroke, heart attack, cancer, or a diagnosis of Alzheimers, Parkinsons) can leave the whole family in chaos and render the ill person a huge burden on loved ones. Unplanned illness can lead to many undesirable outcomes, including: A forced and unwelcome move to an institutional care setting; Loss of assets to cover the high cost of care not

covered by Medicare and other health insurance; and, A significant burden being placed on loved ones of the ill person. This reality is quite visible to aging Americans who harbor significant anxieties over these issues. For most, this will be the time when we will realize that Medicare does NOT cover long-term care needs in any meaningful fashion. All this leads to the fact that a bout with illness can quickly render traditional retirement planning ineffective in addressing the most critical retirement concerns aging Americans harbor; however, the good news is with proper planning these concerns can be addressed. So what is proper planning? It is coordinated and comprehensive planning around healthcare, housing, financial, and legal issues. It is planning that can help you: Avoid institutional care if that is at all possible; Locate the most appropriate housing alternative if aging at home is not possible Protect your assets not only from probate costs and estate taxes, but from uncovered long-term care and medical costs as well; and, Not become a burden on your loved ones in case of incapacity. The AgingOptions Guide is a primer on these issues and how to develop a plan to have a better retirement than might be possible.

*Animal Beauty* - Christiane Nusslein-Volhard 2019-05-14

An illustrated exploration of colors and patterns in the animal kingdom, what they communicate, and how they function in the social life of animals. Are animals able to appreciate what humans refer to as "beauty"? The term scarcely ever appears nowadays in a scientific description of living things, but we humans may nonetheless find the colors, patterns, and songs of animals to be beautiful in apparently the same way that we see beauty in works of art. In *Animal Beauty*, Nobel Prize-winning biologist Christiane Nüsslein-Volhard describes how the colors and patterns displayed by animals arise, what they communicate, and how they function in the social life of animals. Watercolor drawings illustrate these amazing instances of animal beauty. Darwin addressed

the topic of ornament in his 1871 book *The Descent of Man and Selection in Relation to Sex*, and did not hesitate to engage with criteria of beauty, convinced that animals experienced color and ornament as attractive and agreeable in the same way that we do, and that the role this played in mate choice pointed to a "sexual selection" distinct from natural selection. Nüsslein-Volhard examines key examples of ornament and sexual selection in the animal kingdom and lays the groundwork for biological aesthetics. Noting that color patterns have not been a research priority—perhaps because they appeared to be nonessential luxuries rather than functional necessities—Nüsslein-Volhard looks at recent scientific developments on the topic. In part because of Nüsslein-Volhard's own research on the zebrafish, it is now possible to decipher the molecular genetic mechanisms that lead to production of colors in animal skin and its appendages and control its pattern and distribution.

*Multilingual Europe* - Guus Extra 2008-12-10

This book offers an inclusive perspective on the constellation of languages in Europe by taking into account official state languages, regional minority languages and immigrant minority languages. Although "celebrating linguistic diversity" is one of the key propositions in the European discourse on multilingualism and language policies, this device holds for these three types of languages in a decreasing order. All three types of languages, however, are constituent parts of a multilingual European identity and should be taken into account in any type of language policy. Both facts and policies on multilingualism and plurilingual education are addressed in case studies at the national and European level. The selection of case studies is based on a careful weighing of geographical spread of countries and languages across Europe on the one hand, and availability of established expert knowledge on the other. After an Introduction to the theme of the book (Guus Extra and Durk Gorter), Part I deals with official state languages with a focus on the spread of English as lingua franca across Europe (Juliane House), on French and France (Dennis Ager), on Polish in Poland and abroad

(Justyna Lesniewska), and on language constellations in the Baltic States (Gabrielle Hogan-Brun). Part II deals with regional minority languages with a focus on Catalan in Spain (Francesc Xavier Vila i Moreno), Frisian in the Netherlands (Durk Gorter et al.), Hungarian as a minority language in Central Europe (Susan Gal), and Saami in the Nordic countries (Mikael Svonni). Part III deals with immigrant minority languages in the United Kingdom (Viv Edwards), Sweden (Lilian Nygren-Junkin), Italy (Monica Barni and Carla Bagna) and Europe at large (Guus Extra and Kutlay Yağmur).

**Blumenberg** - Sibylle Lewitscharoff 2021-03-22

Now in paperback, from one of the most dazzling authors of contemporary German literature comes this delightful tale of a philosopher and his encounter with a supernatural lion. One night, German philosopher Hans Blumenberg returns to his study to find a shocking sight—a lion lying on the floor as if it's the most natural thing in the world. The lion stretches comfortably on the Turkmen rug, eyes resting on Blumenberg. The philosopher with some effort retains his composure, even when the next day during his lecture the lion makes another appearance, ambling slowly down the center aisle. Blumenberg glances around; the seats are full, but none of his students seem to see the lion. What is going on here? Blumenberg is the captivating and witty fictional tale of this likable philosopher and the handful of students who come under the spell of the supernatural lion—including skinny Gerhard Optatus Baur, a promising young Blumenbergian, and the delicate, haughty Isa, who falls head over heels in love with the wrong man. Written by Sibylle Lewitscharoff, whom *Die Welt* called the "most dazzling stylist of contemporary German literature," Blumenberg will delight English readers.

### *West-Eastern Divan* - Johann Wolfgang von Goethe 2019-10-15

In 1814, Johann Wolfgang von Goethe read the poems of the great fourteenth-century Persian poet Hafiz in a newly published translation by Joseph von Hammer-Purgstall. For Goethe, the book was a revelation. He felt a deep connection with Hafiz and Persian poetic traditions, and was immediately inspired to create his own *West-Eastern Divan* as a lyrical conversation between the poetry and history of his native Germany and that of Persia. The resulting collection engages with the idea of the other and unearths lyrical connections between cultures. The *West-Eastern Divan* is one of the world's great works of literature, an inspired masterpiece, and a poetic linking of European and Persian traditions. This new bilingual edition expertly presents the wit, intelligence, humor, and technical mastery of the poetry in Goethe's *Divan*. In order to

preserve the work's original power, Eric Ormsby has created this translation in clear contemporary prose rather than in rhymed verse, which tends to obscure the work's sharpness. This edition is also accompanied by explanatory notes of the verse in German and in English

and a translation of Goethe's own commentary, the "Notes and Essays for a Better Understanding of the West-Eastern Divan." This edition not only brings this classic collection to English-language readers, but also, at a time of renewed Western unease about the other, to open up the rich cultural world of Islam.
