Umbanda E Sua História - Diamantino Fernandes Trindade 1991

San Spirituality - J. David Lewis-Williams 2004

At the intersection between western culture and Africa, we find the San people of the Kalahari desert. Once called Bushmen, the San have survived many characterizations—from pre-human animals by the early European colonials, to aboriginal conservationists in perfect harmony with nature by recent New Age adherents. Neither caricature does justice to the complex world view of the San. Eminent anthropologists David Lewis-Williams and David Pearce present instead a balanced view of the spiritual life of this much-studied people, examining the interplay of their cosmology, myth, ritual, and art. Integrating archaeological finds, historical accounts, ethnographic information, and interpretation of rock art, the authors discuss San cosmic geography, the role of shamans and mind-altering substances, the ritual of the trance dance, the legends reproduced on stone, and other intriguing accounts of other-worldly experiences. From this, Lewis-Williams and Pearce illuminate the world view of the San, how it plays out in their society, and how it has been challenged and altered by the modern world. For students of anthropology, archaeology, religion, and African studies, this volume will be essential and fascinating reading.

Mindfulness in the Modern World - Osho 2014-04-08

One of the greatest spiritual teachers of the twentieth century will show you how to develop your sense of being in the now—and avoid the distractions of both your busy environment and your wandering mind. When the mind disappears and thoughts disappear, you become mindful. What is mindfulness? It is awareness. It is perfect awareness. In *Mindfulness in the Modern World: How Do I Make Meditation Part of Everyday Life?*, Osho helps us explore both the inner and the outer obstacles that prevent us from bringing more awareness to all our daily activities. He emphasizes that while techniques can be useful in pointing the way, in themselves they are not meditation. Rather, meditation—or mindfulness—is ultimately a state of being in which we are capable of both action and stillness, work and play, and able to be fully present to each moment of life as it comes. Osho's insights into the nature of the modern mind, with its tendency to judge and compare, provides a helpful entry point for longtime meditators as well as beginners.

Mindfulness in the Modern World covers a wide range of topics, including five experiential techniques that will help you bring awareness to your everyday life. Osho challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the Sunday Times of London as one of the "1000 Makers of the 20th Century" and by Sunday Mid-Day(India) as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand, reaching seekers of all ages in virtually every country of the world.

Ife, Cradle of the Yoruba - J. A. Ademakinwa 2013-12

"When this book made its first appearance in 1958, it was well received by lovers of Yoruba history and culture. Indeed, the most famous scholar of the Yoruba at that time, Professor S. O. Biobaku, who encouraged the project, supplied a foreword to the first edition. The reason for reprinting this book is exactly the same reason expressed many years ago: a new generation remains ignorant of the history of their people. The central focus is the city of Ile-Ife; the author, the late J. A. Ademakinwa, was an Ife indigene. He puts the mythologies and traditions of his people to good use to speak to a host of subjects." . "Ademakinwa's book fulfills the goals set out by the author, conveying ideas to understand historical

events within the idioms and conception of history by his own people. It links rituals with mythologies to explain events and phenomena. It explains the formation of Yoruba customs and culture in combination with traditional accounts that tell us about Yoruba history and culture. The book deals primarily with a past that is no more, that very distant time not covered by scientific explanations but by mythologies. In this sense, the myths are valid within the rubric of traditional stories. The book can be enjoyed at multiple levels: as the history of Ife and the Yoruba; as a body of impressive myths about the past; and as the memory of a different age." -Toyin Falola University Distinguished Teaching Professor Jacob and Frances Sanger Mossiker Chair in the Humanities The University of Texas at Austin (From the New Foreword) ABOUT THE AUTHOR J. A. Ademakinwa is believed to have been born in Ile-Ife sometime in 1894 according to the Yoruba traditional method of age calculation in the absence of official birth registry records. He was among the earliest Ife indigenes to embrace the Christian faith. As a result of this conversion, he was admitted to the CMS Primary School, Aiyegbaju, Ile-Ife. His brilliant performance at the school earned him a scholarship to the prestigious St. Andrew's College, Oyo from where he graduated in 1918. Upon graduation, he taught in several schools in the Old Western Region of Nigeria before moving to Lagos in 1928 where he continued his teaching career and eventually retired. During a teaching tenure at Ijebu-Ode, he met a fellow teacher and an indigene of the town, Victoria Abosede Oluyemi-Wright whom he later married in Lagos in 1930. The union was blessed with six children. J. A. Ademakinwa was one of the founding members of the Yoruba Research Council. Between the early 1940s and late 1960s, he was a regular contributor to major Lagos-based newspapers as well as Radio programs. He was also the author of *The History of St. Andrew's College, Oyo* and *The History of Christ Apostolic Church* (both written in Yoruba language).

Golden Promise - Laurie Paige 1988

Spiritism in its simplest expression - Allan Kardec 2021-11-17

Wanting to popularize Spiritism and make spreading it easier and quicker, but without prejudicing the basic works of the Spiritist Doctrine, Allan Kardec wrote a number of booklets and distributed them throughout France at prices that were affordable for anyone who might be interested. Some of them had several printings and were highly successful. They continued to be republished even after the Codifier's discarnation. This is one of those booklets. It is hoped that Spiritist readers will find that this unpretentious work enriches their knowledge of the Spiritist Doctrine.

Ngoma - John M. Janzen 1992-10-21

Ngoma, in Bantu, means drum, song, performance, and healing cult or association. A widespread form of ritual healing in Central and Southern Africa, ngoma is fully investigated here for the first time and interpreted in a contemporary context. John Janzen's daring study incorporates drumming and spirit possession into a broader, institutional profile that emphasizes the varieties of knowledge and social forms and also the common elements of "doing ngoma." Drawing on his recent field research in Kinshasa, Dar-es-Salaam, Mbabane, and Capetown, Janzen reveals how ngoma transcends national and social boundaries. Spoken and sung discourses about affliction, extended counseling, reorientation of the self or household, and the creation of networks that link the afflicted, their kin, and their healers are all central to ngoma—and familiar to Western self-help institutions as well. Students of African healing and also those interested in the comparative and historical study of medicine, religion, and music will find Ngoma a

valuable and thought-provoking book.

Africas of the Americas - Stephan Palmié 2008-03-31

Until recently, African Americanist scholarship has been dominated by programmatic searches for African origins. This book aims to transcend this research agenda by exploring the ritual and discursive production and reproduction of conceptions of Africa and Africanity in the Americas.

The Forward March of Labour Halted? - Eric J. Hobsbawm 1981

This is the disturbing central conclusion of Eric Hobsbawm's analysis of recent working-class history. The present volume brings together trade-union leaders and Labour MPs, socialist writers and workplace militants to debate Hobsbawm's assessment and to explore the situation and prospects of the labour movement. So broad a range of contributors has rarely been assembled for a discussion of this kind. Their essays are remarkable for their candour and clarity, and also for the freedom with which they cross the barriers that too often separate political from industrial issues, and academic research from the many questions raised by practical struggles. Nothing more clearly reveals the depth of Britain's crisis than the strategic and organizational controversies that currently divide the political and the trade-union wings of the labour movement. *The Forward March of Labour Halted?* will have an immediate impact, both inside the movement and on a wider public. -- from back cover.

The Sociology of Social Change - Piotr Sztompka 1993-12-08

The sociology of social change has always been the product of times of flux, and the unmatched dynamism of our period is already reflected in the revitalization of theories of change. Piotr Sztompka's aim in this volume is to take stock of and to reappraise the whole legacy of sociological thinking about change, from the classical to the contemporary, providing the intellectual tools necessary for a critical and rational grasp of our own turbulent times. Intended primarily as an advanced textbook for upper-division and graduate students, as well as researchers, this book covers the four grand visions of social and historical change which have dominated the field since the 19th century: the evolutionary, the cyclical, the dialectical, and the post-developmental. In so doing, it provides indispensable analytic discussions of the concepts focal to contemporary debates such as social process, development, progress, social time, historical tradition, modernity, post-modernity, and globalization.

Our Evolution - Waldo Vieira 2016-07-06

Who are you? What are you? Where did you come from? What are you doing in this life on Earth? Where are you going to? Using a series of questions and answers we seek to provide simple and logical responses to these classic philosophical questions, as well as many others, from the standpoint of conscientiology. What is conscientiology? Conscientiology is the science that studies the "entire" consciousness (soul, ego, individual essence), along with all of its bodies, existences, experiences, epochs and places, with an integral, projective and self-aware approach in relation to the various existential dimensions.

La Misión del Espiritismo - Hercílio Maes 2021-05-31

La sabiduría de Ramatís, mentor espiritual que transmite sus mensajes a través del psicógrafo Hercílio Maes, se ha consolidado indiscutiblemente a través de una serie de obras de cabal sublimidad. La que aquí presentamos significa un purísimo aporte a la revelación de las verdades del Espiritismo. Ramatís, consejero y guía, ofrece aquí claras respuestas a los interrogantes que suscita su Doctrina frente a la religión, el Evangelio, el catolicismo, el protestantismo, la teosofía, el budismo, el psicoanálisis, la umbanda, la Biblia y la homeopatía. Y con deslumbrante coherencia retoma algunos tópicos mencionados en libros precedentes, pero los resume, clarifica y acrecienta mediante nuevos enfoques. Naturalmente, sus comunicaciones mediúnicas no deberán encararse como motivo de mero entretenimiento ni como literatura pasatista. Tampoco deberán encuadrarse dentro de los cánones académicos del mundo. Lo esencial, como bien lo expresa el sensitivo Hercílio Maes, es que el lector extraiga sus propias conclusiones, sin que ello implique abdicar de su simpatía hacia cualquier credo o doctrina en particular. La insistencia de Ramatís sobre determinados tópicos radica en su intención de ayudar a los seres menos familiarizados con los temas tradicionales del Espiritismo, para que asimilen, de ese modo, con mayor facilidad, aquello que realmente pueda disipar sus dudas. De esta manera, con la fluidez que lo caracteriza, el Maestro crea saludables corrientes de pensamiento, promotoras de nuevas reflexiones sobre la vida inmortal y la gloriosa misión del Espiritismo como movimiento de influencia universalista entre los

hombres.

The Jazz Scene - Eric Hobsbawm 2014-11-20

From 1955-65 the historian Eric Hobsbawm took the pseudonym 'Francis Newton' and wrote a monthly column for the *New Statesman* on jazz - music he had loved ever since discovering it as a boy in 1933 ('the year Adolf Hitler took power in Germany'). Hobsbawm's column led to his writing a critical history, *The Jazz Scene* (1959). This enhanced edition from 1993 adds later writings by Hobsbawm in which he meditates further 'on why jazz is not only a marvellous noise but a central concern for anyone concerned with twentieth-century society and the twentieth-century arts.' 'All the greats are covered in passing (Louis Armstrong, Billie Holiday), while further space is given to Duke Ellington, Ray Charles, Thelonious Monk, Mahalia Jackson, and Sidney Bechet ... Perhaps Hobsbawm's tastiest comments are about the business side and work ethics, where his historian's eye strips the jazz scene down to its commercial spine.' *Kirkus Reviews*

Doutrina e teologia de Umbanda sagrada - Rubens Saraceni 2007

Tem por objetivo despertar os umbandistas para que desenvolvam uma consciência religiosa verdadeiramente de Umbanda e totalmente calcada em conceitos próprios, fundamentada na existência de um Deus único (Olorum) e na manifestação através de suas divindades (os sagrados Orixás ou Tronos de Deus).

Evolution in two worlds - Francisco Cândido Xavier 2019-11-09

Psychographed by Francisco Candido Xavier and Waldo Vieira, *Evolution in Two Worlds* is divided into two parts. The first connects words of Christ to concepts such as the existence of the perispirit and spiritual body, the cosmic fluid, heredity, evolution and sex, nourishment in the spirit realm, and the mechanics of the mind, among others. The second part combines questions and answers related to marriage, divorce, pregnancy and abortion. The Spirit Andre Luiz combines scientific and evangelical concepts to promote a study of the evolutionary process of the being and the soul in the two realms of our existence - the material world and the spirit world - establishing an intellectual challenge to all those who practice and wish to know the Spiritist Doctrine.

The Spiritist Review - 1862 - Allan Kardec 2018-07-31

The *Spiritist Review* was written and published by Allan Kardec from January 1858 to April 1869. In total there are 136 monthly issues of the Review, bundled in volumes of 12 issues per year, yielding 12 volumes. It is the largest Spiritist production of Allan Kardec. In addition to the profound study of the Spiritist theory and the explanations about several questions raised by the Spiritists, the Review shows the evolution of Kardec's thought during the construction of the Spiritist Science. While complementing the two main books of the Spiritist Doctrine, *The Spirits' Book* and *The Mediums' Book*, and showing their most important applications, the Review is indispensable to all those willing to have an in-depth understanding of Kardec's thoughts.

It Happens Every Spring - Catherine Palmer 2011-04-21

Meet the characters that live, work, dream, and love in the community of Deepwater Cove. Best-selling authors Gary Chapman and Catherine Palmer team up to show how four married couples, all in different stages in life, experience the joys and hardships of marriage as examined in Gary Chapman's *The Four Seasons of Marriage*. In book one, Steve and Brenda face a common problem among middle-age couples: empty nest syndrome. Steve works too much, and with their two children out of the house, Brenda feels lonely and unfulfilled. In order to save their marriage, the two must learn to reconnect. Readers are also introduced to many charming characters, like Cody, the mentally challenged homeless man that shows up on Steve and Brenda's porch; Pete, who owns the Rods 'N' Ends tackle shop; and Patsy Pringle, who owns the Just As I Am beauty parlor, where much of the action takes place. The series is based on the marriage principles found in Gary Chapman's non-fiction book *The Four Seasons of Marriage*. Similar in tone and light-hearted, quirky humor as Jan Karon's *Mitford* series, Fannie Flagg's books or *Steel Magnolias*. Each book has a study guide that talks about the four seasons of marriage and the healing strategies depicted in that volume's story.

Religions in Rio - João do Rio 2015-06-25

Joao do Rio (1881-1921) was a literary journalist before his time, before the term existed, before anyone saw that journalism could be raised to the level of art by infusing it with intellectual insight and sociological analysis. He went wherever necessary to observe life as Rio de Janeiro struggled to enter the 20th century while clinging to its traditional imperial politics and lifestyle. He flaunted his homosexuality a century before it became socially acceptable. Here, for the first time in English, are Joao do Rio's reports on the bizarre confluence of European, North American, and African religions that found adherents in Rio de Janeiro. Candomble, Spiritism, Positivism, Satanism, Judaism, the Cult of the Sea, the New Jerusalem, the Physiologists, the Priestesses, the Evangelicals...they all fell under his scrutiny. Ana Lessa-Schmidt's translation of *As Religioes no Rio*, brilliant and true to the original, brings Joao do Rio's insight and revelations to full light. Just as Joao do Rio took readers down the dark streets of the low-life and into dark houses of worship, Lessa-Schmidt's translation takes readers into one of the world's most glorious and mysterious cities during its post-imperial heyday at the turn of the 20th century."

Thinking with History - Carl E. Schorske 2014-07-14

In this book, the distinguished historian Carl Schorske--author of the Pulitzer Prize-winning *Fin-de-Siècle Vienna*--draws together a series of essays that reveal the changing place of history in nineteenth-and twentieth-century cultures. In most intellectual and artistic fields, Schorske argues, twentieth-century Europeans and Americans have come to do their thinking without history. Modern art, modern architecture, modern music, modern science--all have defined themselves not as emerging from or even reacting against the past, but as detached from it in a new, autonomous cultural space. This is in stark contrast to the historicism of the nineteenth century, he argues, when ideas about the past pervaded most fields of thought from philosophy and politics to art, music, and literature. However, Schorske also shows that the nineteenth century's attachment to thinking with history and the modernist way of thinking without history are more than just antitheses. They are different ways of trying to address the problems of modernity, to give shape and meaning to European civilization in the era of industrial capitalism and mass politics. Schorske begins by reflecting on his own vocation as it was shaped by the historical changes he has seen sweep across political and academic culture. Then he offers a European sampler of ways in which nineteenth-century European intellectuals used conceptions of the past to address the problems of their day: the city as community and artifact; the function of art; social dislocation. Narrowing his focus to Fin-

de-Siècle Vienna in a second group of essays, he analyzes the emergence of ahistorical modernism in that city. Against the background of Austria's persistent, conflicting Baroque and Enlightenment traditions, Schorske examines three Viennese pioneers of modernism--Adolf Loos, Gustav Mahler, and Sigmund Freud--as they sought new orientation in their fields. In a concluding essay, Schorske turns his attention to thinking about history. In the context of a postmodern culture, when other disciplines that had once abandoned history are discovering new uses for it, he reflects on the nature and limits of history for the study of culture. Originally published in 1998. Slavery in the Age of Memory - Ana Lucia Araujo 2020-10-15

Exploring notions of history, collective memory, cultural memory, public memory, official memory, and public history, *Slavery in the Age of Memory: Engaging the Past* explains how ordinary citizens, social groups, governments and institutions engage with the past of slavery and the Atlantic slave trade. It illuminates how and why over the last five decades the debates about slavery have become so relevant in the societies where slavery existed and which participated in the Atlantic slave trade. The book draws on a variety of case studies to investigate its central questions. How have social actors and groups in Europe, Africa and the Americas engaged with the slave past of their societies? Are there any relations between the demands to rename streets of Liverpool in England and the protests to take down Confederate monuments in the United States? How have black and white social actors and scholars influenced the ways slavery is represented in George Washington's Mount Vernon and Thomas Jefferson's Monticello in the United States? How do slave cemeteries in Brazil and the United States and the walls of names of Whitney Plantation speak to other initiatives honoring enslaved people in England and South Africa? What shared problems and goals have led to the creation of the International Slavery Museum in Liverpool and the National Museum of African American History and Culture in Washington DC? Why have artists used their works to confront the debates about slavery and its legacies? The important debates addressed in this book resonate in the present day. Arguing that memory of slavery is racialized and gendered, the book shows that more than just attempts to come to terms with the past, debates about slavery are associated with the persistent racial inequalities, racism, and white supremacy which still shape societies where slavery existed. *Slavery in the Age of Memory: Engaging the Past* is thus a vital resource for students and scholars of the Atlantic world, the history of slavery and public history.

Planetary Transition - Divaldo Franco Pereira 2020-12

We are on the threshold of the great transition, when our planet will go from being a world of trials and expiations to one of regeneration. This transition has been part of the heavenly plan for a long time; thus, it will not occur in an obvious manner, overnight, as if by magic, but as a slow, gradual, yet undelayable transformation. Natural tragedies, such as the Indian Ocean tsunami in 2004 - the subject of our considerations in this book - are part of this process because they are meant to make humankind progress more quickly by expunging criminal spirits - those unamenable to order and to moral and spiritual evolution, which can no longer be delayed. Those spirits will spend an amount of time on other worlds, learning the laws of Love and of the Good until they are fit to return to our planet to make their contribution to the progress of humankind. In this extraordinary book, our dear readers will learn about the mechanisms and lofty reasons for the planetary transition in favor of pressing and necessary changes that promote respect for laws, ethics and nature, transforming men and women into complete beings who are conscious of their duties to God, themselves and others.

Museums and Atlantic Slavery - Ana Lucia Araujo 2021-04-11

Museums and Atlantic Slavery explores how slavery, the Atlantic slave trade, and enslaved people are represented through words, visual images, artifacts, and audiovisual materials in museums in Europe and the Americas. Divided into four chapters, the book addresses four recurrent themes: wealth and luxury; victimhood and victimization; resistance and rebellion; and resilience and achievement. Considering the

roles of various social actors who have contributed to the introduction of slavery in the museum in the last thirty years, the analysis draws on selected exhibitions, and institutions entirely dedicated to slavery, as well as national, community, plantation, and house museums in the United States, England, France, and Brazil. Engaging with literature from a range of disciplines, including history, anthropology, sociology, art history, tourism and museum studies, Araujo provides an overview of a topic that has not yet been adequately discussed and analysed within the museum studies field. Museums and Atlantic Slavery encourages scholars, students, and museum professionals to critically engage with representations of slavery in museums. The book will help readers to recognize how depictions of human bondage in museums and exhibitions often fail to challenge racism and white supremacy inherited from the period of slavery. *Action and reaction* - Francisco Cândido Xavier 2019-11-09

In this volume you will find a description of the lower regions of the spirit realm and the suffering to which the guilty conscience is subject after the death of the physical body. Andre Luiz presents studies of real-life cases and offers guidance regarding paying one's spiritual debts, the law of cause and effect, preparations for reincarnation, collective expiations, and the value of prayer. The spirit author shows us that the possibilities of our current existence are connected to our actions in past existences, just as our actions of today will condition our possibilities in the future.

The Place of the Dead - Bruce Gordon 2000-01-28

This volume of essays provides a comprehensive treatment of a very significant component of the societies of late medieval and early modern Europe: the dead. It argues that to contemporaries the 'placing' of the dead, in physical, spiritual and social terms, was a vitally important exercise, and one which often involved conflict and complex negotiation. The contributions range widely geographically, from Scotland to Transylvania, and address a spectrum of themes: attitudes towards the corpse, patterns of burial, forms of commemoration, the treatment of dead infants, the nature of the afterlife and ghosts. Individually the essays help to illuminate several current historiographical concerns: the significance of the Black Death, the impact of the protestant and catholic Reformations, and interactions between 'elite' and 'popular' culture. Collectively, by exploring the social and cultural meanings of attitudes towards the dead, they provide insight into the way these past societies understood themselves.

Comunicação imaterial com as divindades - Luís Erlin 2019-02-06

A leitura deste livro nos ajudará a compreender como em determinados tempo e lugar um grupo social lida com a fé, relaciona-se com uma ou mais divindades, de acordo com sua cultura, seu modo de ser e as visões de mundo que dão sentido à vida desse grupo. Uma fonte significativa e instigante para a pesquisa de quem se interessa por comunicação popular e pela inter-relação entre comunicação e religiões. O rigoroso

levantamento histórico feito por Luís Erlin, que inclui visitas a locais de devoção, traz à tona que a expressão ex-voto era usada desde o princípio da religião da antiga Roma expressando o mesmo significado conhecido hoje, não apenas nas práticas de fiéis católicos em agradecimento a graças alcançadas, por meio das quais se oferecem elementos nos locais destinados (igrejas, pontos de devoção, marcos geográficos). Aqui reside a importantíssima contribuição deste livro: a afirmação de que os ex-votos estão presentes também nas práticas de outras expressões religiosas ao longo da História, permeando a cultura.

How to Be an Existentialist - Gary Cox 2010-06-01

How to Be an Existentialist is a witty and entertaining book about the philosophy of existentialism. It is also a genuine self-help book offering clear advice on how to live according to the principles of existentialism formulated by Nietzsche, Sartre, Camus, and the other great existentialist philosophers. An attack on contemporary excuse culture, the book urges us to face the hard existential truths of the human condition. By revealing that we are all inescapably free and responsible - 'condemned to be free,' as Sartre says - the book aims to empower the reader with a sharp sense that we are each the master of our own destiny. Cox makes fun of the reputation existentialism has for being gloomy and pessimistic, exposing it for what it really is - an honest, uplifting, and potentially life changing philosophy!

In the greater world - Francisco Cândido Xavier 2021-10-10

In this volume, Andre Luiz focuses on aspects of life in the spirit world and the communication between discarnates and incarnates, especially during the sleep of the physical body. The spirit author explains the causes of mental disturbances and presents their respective spiritual treatments. In the form of a novel, he also analyzes topics such as abortion, epilepsy, schizophrenia and Down syndrome and highlights the immediate rescue given by invisible workers to those who need help in order to avoid - as far as possible - madness, suicide and extreme moral disasters.

Postsocialist Europe - László Kürti 2009

Now that nearly twenty years have passed since the collapse of the Soviet bloc there is a need to understand what has taken place since that historic date and where we are at the moment. Bringing together authors with different historical, cultural, regional and theoretical backgrounds, this volume engages in debates that address new questions arising from recent developments, such as whether there is a need to reject or uphold the notion of post-socialism as both a necessary and valid concept ignoring changes and differences across both time and space. The authors' firsthand ethnographies from their own countries belie such a simplistic notion, revealing, as they do, the cultural, social, and historical diversity of countries of Central and Southeastern Europe.

Quantum Creativity - Amit Goswami 2014-03-03

In this mind-expanding work, physicist Amit Goswami, Ph.D., explores the world of human creativity—the

ultimate source of joy and fulfillment—through the lens of quantum physics, and offers up a unique way to nurture and enhance your own creativity. According to quantum physics, reality occurs on two levels: possibility and actuality. Goswami uses this same duality to explore what he calls "quantum thinking," which focuses on two levels of thinking—the conscious mind of actuality and the unconscious mind of possibility. He then poses questions that probe the wellspring of creation that exists in each of us. What is creativity? Can anyone be creative? What kinds of creativity are there? And through this inquiry, he lays out a guidebook for understanding the power of the mind to access creativity in a whole new way. Combining the art of creativity with the objectivity of science, Quantum Creativity uses empirical data to support this new method of thinking and outlines how to harness our innate abilities in order to live more creatively. In short, Goswami teaches you how to think quantum to be creative.
