*Say Their Names* - Michael H. Cottman 2021-10-05

An incisive, gripping exploration of the forces that pushed our unjust system to its breaking point after the death of George Floyd and a definitive guide to America's present-day racial reckoning. For many, the story of the weeks of protests in the summer of 2020 began with the horrific eight minutes and 46 seconds when Police Officer Derek Chauvin killed George Floyd on camera, and it ended with the sweeping federal, state, and intrapersonal changes that followed. It is a simple story, wherein white America finally witnessed enough brutality to move their collective consciousness. The only problem is that it isn't true. George Floyd was not the first Black man to be killed by police—he wasn't even the first to inspire nation-wide protests—yet his death came at a time when America was already at a tipping point. In SAY THEIR NAMES, five seasoned journalists probe this critical shift. With a piercing examination of how inequality has been propagated throughout history, from Black imprisonment and the Convict Leasing program to long-standing predatory medical practices to over-policing, the authors highlight the disparities that have long characterized the dangers of being Black in America. They examine the many moderate attempts to counteract these inequalities, from the modern Civil Rights movement to Ferguson, and how the killings of George Floyd, Breonna Taylor and others pushed compliance with an unjust system to its breaking point. Finally, they outline the momentous changes that have resulted from this movement,

while at the same time proposing necessary next steps to move forward. With a combination of penetrating, focused journalism and affecting personal insight, the authors bring together their collective years of reporting, creating a cohesive and comprehensive understanding of racial inequality in America.

*Ancient Civilizations of the World* - Denny Rose & Rowan Allen  
2018-05-08

About 5,000 years ago the first urban societies developed laying the foundations for the first civilizations. Nearly all civilizations share the same few features- they have abundant food surpluses, contained cities, political bureaucracies, armies, defined religious and social hierarchies and long distance trading. Ancient Egyptian culture flourished between c. 5500 BCE with the rise of technology (as evidenced in the glass-work of faience) and 30 BCE with the death of Cleopatra VII, the last Ptolemaic ruler of Egypt. It is famous today for the great monuments which celebrated the triumphs of the rulers and honored the gods of the land. The culture is often misunderstood as having been obsessed with death but, had this been so, it is unlikely it would have made the significant impression it did on other ancient cultures such as Greece and Rome. Neolithic means "e;new stone"e;, even though agriculture was the crowning achievement of the period. Civilizations started out small. Agriculture at first tended to tie only small groups together. These groups also all settled along rivers, important as a reliable and

predictable source of water. As time passed, families usually worked the same plot of land over successive generations, leading to the concept of ownership. Ancient mortars and grinding tools unearthed in a large mound in the Zagros Mountains of Iran reveal that people were grinding wheat and barley about 11,000 years ago. Grass pea, wild wheat, wild barley, and lentils were found throughout the site, including some of the earliest known samples. This was much further east than most sites known for early agriculture. This book furnishes with utmost facility to all classes of readers, the needed information on ancient civilization. The unusual variety of the subject makes this a work of endless fascination.

My Last Lament - James William Brown 2017-04-04

A poignant and evocative novel of one Greek woman's story of her own—and her nation's—epic struggle in the aftermath of World War II. Aliko is one of the last of her kind, a lamenter who mourns and celebrates the passing of life. She is part of an evolving Greece, one moving steadily away from its rural traditions. To capture the fading folk art of lamenting, an American researcher asks Aliko to record her laments, but in response, Aliko sings her own story... It begins in a village in northeast Greece, where Aliko witnesses the occupying Nazi soldiers execute her father for stealing squash. Taken in by her friend Takis's mother, Aliko is joined by a Jewish refugee and her son, Stelios. When the village is torched and its people massacred, Aliko, Takis and Stelios are able to escape just as the war is ending. Fleeing across the chaotic landscape of a postwar Greece, the three become a makeshift family. They're bound by friendship and grief, but torn apart by betrayal, madness and heartbreak. Through Aliko's powerful voice, an unforgettable one that blends light and dark with wry humor, My Last Lament delivers a fitting eulogy to a way of life and provides a vivid portrait of a timeless Greek woman, whose story of love and loss is an eternal one.

The Raid on the Termites - Paul Ernst 2016-01-21

Chapter I The Challenge of the Mound It was a curious, somehow weird-looking thing, that mound. About a yard in height and three and a half in

diameter, it squatted in the grassy grove next the clump of trees like an enormous, inverted soup plate. Here and there tufts of grass waved on it, of a richer, deeper color, testifying to the unwholesome fertility of the crumbling outer stuff that had flaked from the solid mound walls. Like an excrescence on the flank of Mother Earth herself, the mound loomed; like an unhealthy, cancerous growth. And inside the enigmatic thing was another world. A dark world, mysterious, horrible, peopled by blind and terrible demons--a world like a Dante's dream of a second Inferno. Such, at least, were the thoughts of Dennis Braymer as he worked with delicate care at the task of sawing into the hard cement of a portion of the wall near the rounded top. His eyes, dark brown and rimmed with thick black lashes, flashed earnestly behind his glasses as they concentrated on his difficult job. His face, lean and tanned, was a mask of seriousness. To him, obviously, this was a task of vital importance; a task worthy of all a man's ability of brain and logic. Obviously also, his companion thought of the work as just something with which to fill an idle afternoon. He puffed at a pipe, and regarded the entomologist with a smile.

The Languages of Native North America - Marianne Mithun 2001-06-07

This book provides an authoritative survey of the several hundred languages indigenous to North America. These languages show tremendous genetic and typological diversity, and offer numerous challenges to current linguistic theory. Part I of the book provides an overview of structural features of particular interest, concentrating on those that are cross-linguistically unusual or unusually well developed. These include syllable structure, vowel and consonant harmony, tone, and sound symbolism; polysynthesis, the nature of roots and affixes, incorporation, and morpheme order; case; grammatical distinctions of number, gender, shape, control, location, means, manner, time, empathy, and evidence; and distinctions between nouns and verbs, predicates and arguments, and simple and complex sentences; and special speech styles. Part II catalogues the languages by family, listing the location of each language, its genetic affiliation, number of speakers, major published literature, and structural highlights. Finally, there is a catalogue of languages that have evolved in contact situations.

**Dissenting Japan** - William Andrews 2016-08-15

Conformist, mute and malleable? Andrews tackles head-on this absurd caricature of Japanese society in his fascinating history of its militant sub-cultures, radical societies and well-established traditions of dissent. Following the March 2011 tsunami and Fukushima nuclear crisis, the media remarked with surprise on how thousands of demonstrators had flocked to the streets of Tokyo. But mass protest movements are nothing new in Japan and the post-war period experienced years of unrest and violence on both sides of the political spectrum: from demos to riots, strikes, campus occupations, faction infighting, assassinations and even international terrorism. This is the first comprehensive history in English of political radicalism and counterculture in Japan, as well as the artistic developments during this turbulent time. It chronicles the major events and movements from 1945 to the new flowering of protests and civil dissent in the wake of Fukushima. Introducing readers to often ignored aspects of Japanese society, it explores the fascinating ideologies and personalities on the Right and the Left, including the student movement, militant groups and communes. While some elements parallel developments in Europe and America, much of Japan's radical recent past (and present) is unique and offers valuable lessons for understanding the context to the new waves of anti-government protests the nation is currently witnessing.

**Dhalgren** - Samuel R. Delany 2014-01-07

Nebula Award Finalist: Reality unravels in a Midwestern town in this sci-fi epic by the acclaimed author of *Babel-17*. Includes a foreword by William Gibson. A young half-Native American known as the Kid has hitchhiked from Mexico to the midwestern city Bellona—only something is wrong there . . . In Bellona, the shattered city, a nameless cataclysm

has left reality unhinged. Into this desperate metropolis steps the Kid, his fist wrapped in razor-sharp knives, to write, to love, to wound. So begins Dhalgren, Samuel R. Delany's masterwork, which in 1975 opened a new door for what science fiction could mean. A labyrinth of a novel, it raises questions about race, sexuality, identity, and art, but gives no easy answers, in a city that reshapes itself with each step you take . . . This ebook features an illustrated biography of Samuel R. Delany including rare images from his early career.

*Lars von Trier's Women* - Rex Butler 2016-11-17

The Danish director Lars von Trier is undoubtedly one of the world's most important and controversial filmmakers, and arguably so because of the depiction of women in his films. He has been criticized for subjecting his female characters to unacceptable levels of violence or reducing them to masochistic self-abnegation, as with Bess in *Breaking the Waves*, 'She' in *Antichrist* and Joe in *Nymphomaniac*. At other times, it is the women in his films who are dominant or break out in violence, as in his adaptation of Euripides' *Medea*, the conclusion of *Dogville* and perhaps throughout *Nymphomaniac*. *Lars von Trier's Women* confronts these dichotomies head on. Editors Rex Butler and David Denny do not take a position either for or against von Trier, but rather consider how both attitudes fall short of the real difficulty of his films, which may simply not conform to any kind of feminist or indeed anti-feminist politics as they are currently configured. Using Lacanian psychoanalysis and acknowledging the work of prior scholars on the films, *Lars von Trier's Women* reveals hidden resources for a renewed 'feminist' politics and social practice.

*The Hoodie Girl* - Yuen Wright 2021-08-10

My hoodie is freakishly oversized. It covers my body in a way that makes me feel comfortable. Safe. Invisible. Wren Martin isn't what you would call a popular girl. She is remarkably average, gets good grades, and aspires to get a scholarship to her dream college and leave her hometown, as it's filled with impossible memories. Asher Reed—star athlete and heartthrob of Eastview High—is everything wrong with high school in one frustratingly good-looking body. But when an on-field accident leaves him sidelined for the season, he takes an interest in Wren. With an undeniable connection, Wren and Asher form a friendship that quickly turns into something more. Yuen Wright's heartwarming debut is a reminder that when someone really sees you, the last thing you want is to be invisible.

[Mother of Sorrows](#) - Richard McCann 2011-04-13

With the breadth and cumulative force of a novel, *Mother of Sorrows* presents ten interwoven stories of an American family starting out in the post—World War II suburbs of Washington, D.C., a world of identical brick houses and sunstruck, treeless lawns, a world of initial hopefulness from which shame and loss have seemingly been banished. This is the story of two adolescent brothers whose father has suddenly died, and of their beautiful and complicated mother, a mother whom the younger son worshipfully imagines as “Our Mother of the Sighs and Heartaches . . . Our Mother of the Gorgeous Gypsy Earrings . . . Our Mother of the Late Movies and the Cigarettes . . . Our Mother of Sudden Attentiveness . . . Our Mother of Sudden Anger.” This is the brother who narrates these tales as he looks back thirty years later, the only remaining survivor of a world he seeks both to leave behind and to preserve in words forever, a

world of sorrow that has held him spellbound even as he has attempted to create a life of his own. Suffused with the beauty of Richard McCann's extraordinary language, *Mother of Sorrows* introduces us to a voice that is urgent, contemplative, elegant, angry, revelatory, and like no other in contemporary fiction.

Her talent for translating complex emotions with astonishing simplicity has won her a cult following of devoted modern poetry fans from all over the world. Forget the dainty, delicate love poems of yore; these little poems pack a mighty punch. Lang Leav is a poet and internationally exhibiting artist. Her work expresses the intricacies of love and loss. Love & Misadventure is her first poetry collection.

**Teaching and Advocacy** - Denny Taylor 1997

What happens to children who live on the edge? Children in families that are trying to make it somehow, someday, anyway they can—children with disabilities, who speak other languages, who are told they are different and who know they don't fit? What happens to adolescents who are kicked out of regular high school, who end up under the control of the social welfare system, who belong to gangs, whose friends are killed by gunfire? How can they articulate their own positions and needs? What kinds of literacy do they require so that society will recognize them? Who

is their advocate? Because literacy can be used to enable or disable, those children marginalized by society must be literate to survive, and teachers are often their only advocates. But teachers often stand alone when they advocate. For most teachers there are no guidelines available on teaching and advocacy, and we rarely talk about the role that literacy plays in providing opportunities for teachers to work as advocates. Exploring how literacy learning is enabled and disabled offers that opportunity. The teacher-researchers in this book use written texts to uncover the hidden assumptions that shape our perceptions about people's positions in society. They focus on how language is done, what we do with it, how we define ourselves in print, how students are defined-often reinvented-in obscure documents that control their lives. Teaching and Advocacy encourages teachers to stand beside their students, to expose the hidden assumptions in official documents, to develop alternative explanations, and above all, to advocate. Following each chapter, Denny Taylor's interview with the author reveals a rare commitment to children and to advocacy and demonstrates the involvement implicit in qualitative research.

**Pidgins, Creoles and Mixed Languages** - Viveka Velupillai 2015-04-15  
This lucid and theory-neutral introduction to the study of pidgins, creoles and mixed languages covers both theoretical and empirical issues pertinent to the field of contact linguistics. Part I presents the theoretical background, with chapters devoted to the definition of terms, the sociohistorical settings, theories on the genesis of pidgins and creoles, as well as discussions on language variation and the sociology of language. Part II empirically tests assumptions made about the linguistic characteristics of pidgins and creoles by systematically comparing them with other natural languages in all linguistic domains. This is the first introduction that consistently applies the findings of the Atlas of Pidgin and Creole Language Structures and systematically includes extended pidgins and mixed languages in the discussion of each linguistic feature. The book is designed for students of courses with a focus on pidgins, creoles and mixed languages, as well as typologically oriented courses on contact linguistics.

*Giving Account of Faith and Hope in Africa* - John Samuel Pobee  
2017-07-10

What is African theology? What are its distinctive traits and characteristics, modes of investigation, and style of expression? Can African theology reach wider and run deeper than simple propositional articulation? What concerns and special circumstances have shaped its outlook? What unique burdens or hurdles imposed by the past must African theology surmount? What challenges and opportunities lie before it? What are African theology's prospects? As a field of Christian engagement, is it condemned to be only an appendage to theology imported from the West and the North? Or does it have a distinctive contribution to make and gifts to share, not just within the continent of Africa, but also with the Christian world at large? These questions exercise the mind and soul of the African church. A worthy capstone to a lifetime of service as a theologian, educator, and ecumenical leader, this volume offers John Samuel Pobee's considered and mature reflections on issues he raised nearly forty years ago when he published *Toward an African Theology*.
