Globalisation and Labour Struggle in Asia - Phoebe Moore
2012-10-30

How has South Korea's development influenced and been influenced by world events? What light can it shed on the way that international struggles for hegemony affect local environments? Phoebe Moore seeks to address these questions critically, from the perspective of International Political Economics, and so provides important insight into one of the fastest growing Asian economies. Through an original account of Korean development she challenges the neo-Gramscian school theories, observing that all economic development in this country has been carried out through 'passive revolution' driven by an elite, frequently supported by external forces, against the will of a large part of the population. Moore draws out the relationships between socio-economic change, revolution, hegemony struggles and global politics, making this a key resource for Asian political economics, labour relations and international politics.

The Musical Shape of the Liturgy - William Peter Mahrt 2012

"Professor William Mahrt of Santford Univeristy and the Church Music Association of America has written a sweeping book--one that it is at once scholarly and practical--on that most controversial topic of music and the liturgy. He provides an over-whelming argument that every

parish must have high standrads for liturgical music and he makes the full case for Gregorian chant as the model and the ideal of that liturgical music." - back cover

Feminizing the Fetish - Emily Apter 2018-03-15

Shoes, gloves, umbrellas, cigars that are not just objects—the topic of fetishism seems both bizarre and inevitable. In this venturesome and provocative book, Emily Apter offers a fresh account of the complex relationship between representation and sexual obsession in turn-of-the-century French culture. Analyzing works by authors in the naturalist and realist traditions as well as making use of documents from a contemporary medical archive, she considers fetishism as a cultural artifact and as a subgenre of realist fiction. Apter traces the web of connections among fin-de-siècle representations of perversion, the fiction of pathology, and the literary case history. She explores in particular the theme of "female fetishism" in the context of the feminine culture of mourning, collecting, and dressing.

A Historical Perspective on Light Infantry - Scott Ray McMichael 1987

This study seeks to clarify the nature of light infantry. General

characteristics of light infantry forces are identified, and an analysis of how light forces operate tactically and how they are supported is presented. In the process, the relationship of the light infantry ethic to its organization is evaluated, and the differences between light infantry and conventional infantry is illuminated. For the purpose of this study, the term conventional infantry refers to modern-day motorized and mechanized infantry and to the large dismounted infantry forces typical of the standard infantry divisions of World War II, the Korean War, and the Vietnam War. The study concludes that light infantry is unique and distinct. A light infantry ethic exists and manifests itself in a distinctive tactical style, in a special attitude toward the environment, in a freedom from dependence on fixed lines of communication, and in a strong propensity for self-reliance. The study is based on a historical analysis of 4 light infantry forces employed during and since World War II: The Chindits, in the 1944 Burma campaign against the Japanese; The Chinese communist Forces during the Korean War; British operations in Malaya and Borneo 1948-66; and the First Special Service Force in the mountains of Italy 1942-44. -- p. Code - Lawrence Lessig 2009-07-09

Since its original publication in 1999, this foundational book has become a classic in its field. This second edition, Code Version 2.0, updates the work and was prepared in part through a wiki, a web site allowing readers to edit the text, making this the first reader-edited revision of a popular book. Code counters the common belief that cyberspace cannot be controlled or censored. To the contrary, under the influence of commerce, cyberspace is becoming a highly regulable world where behavior will be much more tightly controlled than in real space. We can - we must - choose what kind of cyberspace we want and what freedoms it will guarantee. These choices are all about architecture: what kind of code will govern cyberspace, and who will control it. In this realm, code is the most significant form of law and it is up to lawyers, policymakers, and especially average citizens to decide what values that code embodies. Korean Children's Favorite Stories - Kim So-Un 2012-11-06

This colorfully illustrated multicultural Korean children's book presents Indian fairy tales and other folk stories—providing insight into a rich literary culture. Korean Children's Favorite Stories is a captivating collection of Korean folktales for children which are still being told, just as they have been for generations. Some are Korean-specific, while others echo those told in other countries. Written with wit and pathos, they unveil the inevitable foibles of people everywhere and expose the human-like qualities of animals and the animal-like qualities of humans. Pulsating with the rhythm of life and the seasons, these Korean fables transport the reader to a wonderland where ants talk, a baby rabbit outwits a tiger, a tree fathers a child, and a toad saves a whole village. Korean stories include: The Story Bag The Pheasant, the Dove, and the Magpie The Bridegroom's Shopping The Bad Tiger The Great Flood The Pumpkin Seeds The Grateful Tiger The Three Princesses And more... The Children's Favorite Stories series was created to share the folktales and legends most beloved by children in the East with young readers of all backgrounds in the West. Other multicultural children's books in this series include: Asian Children's Favorite Stories, Indian Children's Favorite Stories, Indonesian Children's Favorite Stories, Japanese Children's Favorite Stories, Singapore Children's Favorite Stories, Filipino Favorite Children's Stories, Favorite Children's Stories from China & Tibet, Chinese Children's Favorite Stories, Balinese Children's Favorite Stories, and Vietnamese Children's Favorite Stories.

History of the Huguenot Emigration to America (Volume II) -

Charles W. Baird 2020-07-03

Omar Khayyam Poems - Omar Khayyam 2021-07-23

The poems attributed to Omar Khayyam have a universal and timeless philosophical theme: life is a meaningful journey even if brief and uncertain. They inspire an unconstrained free-thinking mindset and a wise realization that guides thinking persons: it is impossible to see the absolute truth, as the universe has its own reality that remains largely hidden, and that one must think and act accordingly. This book presents a selection of Khayyam's poems in their original Persian language along with their English translations in a faithful and modern version. By relying only on the original Persian version of Khayyam's poems, and using the author's own body of literary and linguistic knowledge, this book presents a modern translation of Omar Khayyam's poems since Edward Fitzgerald's Rubaiyat in 1859.

League of the Ho-dé-no-sau-nee Or Iroquois - Lewis Henry Morgan 1922

Men and Bears - AA.VV. 2020-01-23

The time of Carnival represents a “wild” time at the end of winter and pointing to the beginning of a new season. It is characterized by the irruption of border figures, animal masks, characters which recall the world of the dead and which bring within themselves the germ of a vital force, of the energy that produces the reawakening of nature and announces the growth and fertility of the new crops. This wild domain shows itself under the shapes of a contiguity between human and animal: the costumes, the masks, refer to a world in which the characteristics of the human and those of the animal are fused and intertwined. Among these figures, in particular, emerge those of the Wild Man, the human being who takes on animal-like attributes and aspects, and of the Bear, the animal that, more than all the others, gets as close as possible to the human and seems to reflect a deformed image of it. Such symbolic

images come from far off times and places to tell a story that belongs to our common origins. The bear assumes attributes and functions alike in very different cultural contexts, such as the Sámi of Finland or North-American hunter-gatherers, and represents a boundary between the world of nature and the human world, between the domain of animals and the difficult construction of humanity: a process continued for centuries, perhaps millennia, and which cannot still be said complete.
