Christianity and Islam - Samuel Zinner 2011

An examination of the similarities and differences between Christianity and Islam, especially in the areas of ontology, philosophy and metaphysics. The integration of the heritages of Plato and Aristotle in the Church and in Islam is explored deftly and densely. This book invites adherents of Christianity and Islam to understand more deeply their own respective traditions and on this basis to understand and respect 'the other'. Several chapters are devoted to a comparison between both Sunnite Sufi and Shi'ite Gnostic esoteric traditions, especially in the area of Qur'anic exegesis. This book will be equally challenging and rewarding for the serious reader.

*The Old Woman and the Eagle* -  
Idries Shah 2015-09-01

In this amusing story, an old woman encounters an eagle for the first time. Perplexed by its unfamiliar appearance, she decides to change it to suit her own ideas of what a bird should look like. Her efforts mirror a common pattern of human thought: altering the unfamiliar to make it acceptable. This tale is specially presented for children by Afghan author Idries Shah, who, for more than 30 years, collected stories from the Sufi tradition and adapted them to contemporary Western culture. Told since ancient times throughout Central Asia and the Middle East, such tales are used to help foster greater mental flexibility and insight in people of all ages. *Girl (In Real Life)* - Tamsin  
Winter 2021-07-08

What's it like to grow up online and have every tantrum, every spot - even your first period - broadcast to hundreds of thousands of followers? Most parents try to limit their kids' online exposure. But not Eva's. Her parents run a hugely successful blog, Happily Eva After - and Eva is the star of the show. But Eva is getting sick of being made to pose in stupid mum-and-daughter matching outfits for sponsored

posts. The freebies aren't worth the teasing at school. And when an intensely humiliating "period party" post goes viral, Eva is outraged. She's going to find a way to stop the vlog, even if she has to sabotage it herself.

*A Year with Swollen Appendices* - Brian Eno  
2020-11-17

The diary and essays of Brian Eno republished twenty-five years on with a new

introduction by the artist in a beautiful hardback edition. 'A cranium tour of one of the most creative minds of our age . . . [Eno] delivers razor-sharp commentary with devilish snarkiness and brutal honesty.' Wired At the end of 1994, Brian Eno resolved to keep a diary. His plans to go to the cinema, theatre and galleries fell quickly to the wayside. What he did do - and write - however, was astonishing: ruminations on his collaborative work with David Bowie, U2, James and Jah Wobble, interspersed with correspondence and essays dating back to 1978. These 'appendices' covered topics from the generative and ambient music Eno pioneered to what he believed the role of an artist and their art to be, alongside adroit commentary on quotidian tribulations and happenings around the world. An intimate insight into one of the most influential creative artists of our time, *A Year with Swollen Appendices* is an essential classic.

**Diaspora, Law and Literature** - Klaus Stierstorfer 2016-11-07

The well-known challenges of international migration have triggered new departures in academic approaches, with 'diaspora studies' evolving as an interdisciplinary and even transdisciplinary field of study.

Its emerging methodology shares concerns with another interdisciplinary field, the study of the relations between law and literature, which focuses on the ways in which the two cultural practices of law and literature mutually negotiate each other and on the question after the ontological commensurability of the domains. This volume offers, for the first time, an attempt to provide an interface between these overlapping interdisciplinary endeavours of literary studies, legal studies, and diaspora studies. In doing so, it explores new approaches and invites new perspectives on diasporas, migration and the disciplines that study them, hopefully also adding to the cultural resources of coping with a swiftly changing social landscape in a globalizing world.

**Aberrations** - Tariq Ahmad Bhat 2017-02-08

This book is a compilation of various chapters contributed by a group of leading researchers from different countries and covering up to date information based on published reports and personal experience of authors in the field of cytogenetics. Beginning with the introduction of chromosome, the subsequent chapters on organization of genetic material, karyotype evolution, structural and numerical variations in chromosomes, B-chromosomes and chromosomal aberrations provide an in-depth knowledge and easy understanding of the subject matter. A special feature of the book is the inclusion of a series of chapters on various types of chromosomal aberrations and their impact on breeding behaviour and crop improvement. The possible mechanism, their consequences and role in genetic analysis has been emphasized in these chapters. A few chapters have also been

dedicated on various techniques routinely used in the laboratory by students and researchers. Each chapter ends with an extensive bibliography so that the students and researchers may find it relevant to consult more literature on the subject than a book of this size can offer. The book is intended to fulfill the needs of undergraduate and post graduate students of botany, zoology and agriculture besides, teachers and researchers engaged in the field of genetics, cytogenetics, and molecular genetics. In general the readers will find each chapter of the book informative and easy to understand.

**What Would Jesus Deconstruct? (The Church and Postmodern Culture)** -

John D. Caputo 2007-11-01  
This provocative addition to The Church and Postmodern Culture series offers a lively rereading of Charles Sheldon's In His Steps as a constructive

way forward. John D. Caputo introduces the notion of why the church needs deconstruction, positively defines deconstruction's role in renewal, deconstructs idols of the church, and imagines the future of the church in addressing the practical implications of this for the church's life through liturgy, worship, preaching, and teaching. Students of philosophy, theology, religion, and ministry, as well as others interested in engaging postmodernism and the emerging church phenomenon, will welcome this provocative, non-technical work.

The Whole Truth About Fatima  
- Frere Michel De La Sainte Trinite 2017-07-13

May 13, 1917: Three children of the hamlet of Aljustrel, near Fatima in Portugal, tend their sheep at the Cova da Iria. Lucy, the eldest of the trio, is only ten years old, and her two cousins, Francisco and Jacinta, are nine and seven. It is hardly surprising that these cheerful and ingenuous children who were also very pious, would

become the object of the predilection of the Queen of Heaven, who would appear to them six times in a row, from May 13 to October 13, to pass on to them Her Message.

The Storyteller - Evan Turk  
2016-06-28

In a time of drought in the Kingdom of Morocco, a storyteller and a boy weave a tale to thwart a Djinn and his sandstorm from destroying their city.

Collected Works of Velimir Khlebnikov: Letters and theoretical writings - Велимир Хлебников 1987

Dubbed by his fellow Futurists the "King of Time," Velimir Khlebnikov (1885-1922) spent his entire brief life searching for a new poetic language to express his convictions about the rhythm of history, the correspondence between human behavior and the "language of the stars." The result was a vast body of poetry and prose that has been called hermetic, incomprehensible, even deranged. Of all this tragic generation of Russian poets

(including Blok, Esenin, and Mayakovsky), Khlebnikov has been perhaps the most praised and the more censured. This first volume of the Collected Works, an edition sponsored by the Dia Art Foundation, will do much to establish the counterimage of Khlebnikov as an honest, serious writer. The 117 letters published here for the first time in English reveal an ebullient, humane, impractical, but deliberate working artist. We read of the continuing involvement with his family throughout his vagabond life (pleas to his smartest sister, Vera, to break out of the mold, pleas to his scholarly father not to condemn and to send a warm overcoat); the naive pleasure he took in being applauded by other artists; his insistence that a young girl's simple verses be included in one of the typically outrageous Futurist publications of the time; his jealous fury at the appearance in Moscow of the Italian Futurist Marinetti; a first draft of his famous zoo poem ("O Garden of Animals!"); his

seriocomic but ultimately shattering efforts to be released from army service; his inexhaustibly courageous confrontation with his own disease and excruciating poverty; and always his deadly earnest attempt to make sense of numbers, language, suffering, politics, and the exigencies of publication. The theoretical writings presented here are even more important than the letters to an understanding of Khlebnikov's creative output. In the scientific articles written before 1910, we discern foreshadowings of major patterns of later poetic work. In the pan-Slavic proclamations of 1908-1914, we find explicit connections between cultural roots and linguistic ramifications. In the semantic excursions beginning in 1915, we can see Khlebnikov's experiments with consonants, nouns, and definitions spelled out in accessible, if arid, form. The essays of 1916-1922 take us into the future of Planet Earth, visions of universal order and accomplishment that

no longer seem so farfetched but indeed resonate for modern readers.

**Gender** - Linda L. Lindsey 2020-12-17

A landmark publication in the social sciences, Linda Lindsey's *Gender* is the most comprehensive textbook to explore gender sociologically, as a critical and fundamental dimension of a person's identity, interactions, development, and role and status in society. Ranging in scope from the everyday lived experiences of individuals to the complex patterns and structures of gender that are produced by institutions in our global society, the book reveals

how understandings of gender vary across time and place and shift along the intersecting lines of race, ethnicity, culture, sexuality, class and religion. Arriving at a time of enormous social change, the new, seventh edition extends its rigorous, theoretical approach to reflect on recent events and issues with insights that challenge conventional thought about the gender binary and the stereotypes that result. Recent and emerging topics that are investigated include the #MeToo and LGBTQ-rights movements, political misogyny in the Trump era, norms of masculinity, marriage and family formation, resurgent feminist activism and praxis, the gendered workplace, and profound consequences of neoliberal globalization. Enriching its sociological approach with interdisciplinary insight from feminist, biological, psychological, historical, and anthropological perspectives, the new edition of *Gender* provides a balanced and broad approach with readable, dynamic content that

furthering student understanding, both of the importance of gender and how it shapes individual trajectories and social processes in the U.S. and across the globe.

**A Perfumed Scorpion** - Idries Shah 2000

Using the powerful approach of classical teachers, Shah has crafted a contemporary teaching tool that blends a fast-paced look at today's world

with the timeless teachings of the Sufis. The book brings into sharp focus the conditioned behavior and self-deception that are common in Western minds. Far more than a literary tool for breaking loose old mental habits, it is a blueprint for a process of self-development that precludes self-deceit. Truly a book among books, *A Perfumed Scorpion* is treasured the world over for its clarity of wisdom and forcefulness of insight.

*Seven Blind Mice* - Ed Young 2012-03-15

The Caldecott Honor book and modern classic now in boardbook format. Finally! Nearly twenty years ago, Ed Young translated the ancient parable of the seven blind men and the elephant into a modern children's classic, one as simple as it is profound. A lesson in colors, numbers, the days of the week and most important, knowledge, this beautifully illustrated book has stood the test of time and continues to entertain and teach. Now in board book format, even the youngest

children can experience the beauty and wisdom.

*Fatima the Spinner and the Tent -- Fatima la Fileuse Et la Tente* - Idries Shah 2017-04-25

Fatima's life seems beset by one disaster after another. Fatima finally realizes that what seemed to be disasters were really essential steps towards realizing her eventual fulfillment. A story of wisdom and depth, ideal as a bedtime story, it helps children understand the need for perseverance to reach their goals.

*The Search for a Nonviolent Future* - Michael N. Nagler 2010-10-01

Beginning with the achievements of Mahatma Gandhi, and following the legacy of nonviolence through the struggles against Nazism in Europe, racism in America, oppression in China and Latin America, and ethnic conflicts in Africa and Bosnia, Michael Nagler unveils a hidden history. Nonviolence, he proposes, has proven its power against arms and social injustice wherever it has been

correctly understood and applied. Nagler's approach is not only historical but also spiritual, drawing on the experience of Gandhi and other activists and teachers.

Individual chapters include A Way Out of Hell, The Sweet Sound of Order, and A Clear Picture of Peace. The last chapter includes a five-point blueprint for change and "study circle" guide. The foreword by Arun Gandhi, the grandson of Mahatma Gandhi, is new to this edition.

**Fatima the Spinner and the Tent - La Hilandera Fatima Y La Carp** - Idries Shah

2015-09-01

Fatima's life is beset with what seem to be disasters. Her journey leads her from Morocco to the Mediterranean, Egypt, Turkey and, finally, to China. It is in China that she realizes that what seemed at the time to be really unfortunate events were an integral part of her eventual fulfillment. This Teaching-Story is well known in Greek folklore, but this version is attributed to Sheikh Mohamed Jamaludin of Adrianople (modern-day Edirne) in Turkey who died in 1750. It was first published by Idries Shah in 1967 in his classic work, Tales of the Dervishes, Teaching-Stories of the Sufi Masters over the past thousand years. This book is

filled with wonderful illustrations by Natasha Delmar. Taught to paint by her father, the celebrated classic Chinese painter Ng Yi-Ching, she captures Fatima's adventures with a wealth of detail and color. Using Middle Eastern and Chinese design, Delmar transports readers into the exotic worlds of Fatima's travels, in a way delightful to both young and old.

Plant, Soil and Microbes -

Khalid Rehman Hakeem

2016-06-21

The interactions between the plant, soil, and microbes are very complex in nature and may be antagonistic, mutualistic, or synergistic, depending upon the types of microorganisms and their association with the plant and

soil. The multi-trophic interactions are involved in these types of interactions to nourish the plants in various habitats and conditions. Understanding the mechanisms of these interactions is highly desired to utilize the knowledge in such an eco-friendly and sustainable way, which may not only resolve the upcoming food security issues but also make the environment green by reducing the chemical inputs. *Plant, Soil and Microbes: Mechanisms and Molecular Interactions*, along with the recently published *Plant, Soil and Microbes: Implications in Crop Science*, provide detailed accounts of the exquisite and delicate balance between the three critical components of agronomy. Specifically, these two titles focus on the basis of nutrient exchange between the microorganisms and the host plants, the mechanism of disease protection and the recent molecular details emerged from studying this multitrophic interaction. Together they provide a solid foundation for the students,

teachers, and researchers  
interested in soil microbiology,

plant pathology, ecology and  
agronomy.
