The Use of Children's Literature in Teaching - Alyson Simpson
2016-03-22

The Use of Children's Literature in Teaching reveals the impact of politics, professional guidelines and restrictive measurements of literacy on the emerging identities of young teachers. It places renewed emphasis on the importance of creative teaching with children's literature for the empowerment of teacher agency to enhance the learning of their students. Framing the debate alongside the issue of teacher autonomy, Simpson describes results from a two-year study, which brings together information from interviews, surveys, document analysis and digital stories from Australia, Canada, the UK and the US to assess the role of children's literature in pre-service teacher education. Through cross-cultural comparison, this research captures the different levels of connection between politics, education systems, higher education and pre-service teachers. It exposes how politics, narrow views of professionalism and program structures in teacher education may adversely affect the development of pre-service teachers. This book presents a strong case that reading and responding critically to literary texts leads to better educational outcomes than basic decoding and low-

level comprehension training. As such, this book will be of great interest to researchers and scholars working in the areas of teacher education and literacy and primary education. It should also be essential reading for teacher educators and policymakers.

English Language Teaching Today - Willy A. Renandya 2016-08-22
English Language Teaching Today: Linking Theory and Practice provides an up-to-date account of current principles and practices for teaching English in the world today. The chapters, written by internationally recognized language teacher educators and TESOL specialists, introduce the reader to key language skill areas (i.e., listening, speaking, reading, writing, pronunciation, grammar and vocabulary) and explain how each skill area can be taught in a principled manner in diverse language learning contexts. Throughout the book, the link between theory and practice is explicitly highlighted and exemplified. This reader-friendly book is suitable for undergraduate and graduate students enrolled in TESOL and other second language education programmes as well as for TESOL professionals who wish to stay current with recent developments in ELT.

[A Critical Ethnography of 'Westerners' Teaching English in China](#) - Phiona Stanley 2013

Western 'teachers', many of whom would not be considered teachers

elsewhere, teach English in public and private education in China. This book sheds light on their experiences, the effect they have on education and on students' perceptions of 'the West'.

Current Perspectives on the TESOL Practicum - Andrzej Cirocki
2020-01-30

This volume presents the current state of the TESOL (Teaching English to Speakers of Other Languages) practicum in 13 countries, including Armenia, Australia, Chile, Costa Rica, Croatia, England, Indonesia, Japan, Malta, Poland, South Korea, Sweden and the USA. Together the contributions offer a unique and contemporary view of how teachers are being educated and brought into the TESOL worldwide community of practice. This is the first publication to present diverse models/frameworks of the TESOL practicum from several international teaching contexts, focusing on exemplary practicum cases in the selected countries.

International Handbook of Research in Medical Education -

Geoffrey R. Norman 2012-12-06

GEOFF NORMAN McMaster University, Hamilton, Canada
CEES VAN DER VLEUTEN University of Maastricht, Netherlands
DA VID NEWBLE University of Sheffield, England
The International Handbook of Research in Medical Education is a review of current research findings and contemporary issues in health sciences education. The orientation is toward research evidence as a basis for informing policy and practice in education. Although most of the research findings have accrued from the study of medical education, the handbook will be useful to teachers and researchers in all health professions and others concerned with professional education. The handbook comprises 33 chapters organized into six sections: Research Traditions, Learning, The Educational Continuum, Instructional Strategies, Assessment, and Implementing the Curriculum. The research orientation of the handbook will make the book an invaluable resource to researchers and scholars, and should help practitioners to identify research to place their educational decisions on a sound empirical footing. THE FIELD OF RESEARCH IN MEDICAL EDUCATION The discipline of medical education began in North America

more than thirty years ago with the founding of the first office in medical education at Buffalo, New York, by George Miller in the early 1960s. Soon after, large offices were established in medical schools in Chicago (University of Illinois), Los Angeles (University of Southern California) and Lansing (Michigan State University). All these first generation offices mounted master's level programs in medical education, and many of their graduates went on to found offices at other schools.

The Preparation of Teachers of English as an Additional Language around the World - Nihat Polat 2021-08-09

This book fills a critical gap in a neglected area in current educational research: international teacher education. It focuses on the preparation of teachers of English as an additional language (EAL) in several world regions. The book consists of chapters by researchers in well-established teacher education programs in 11 countries: Brazil, Canada, China, Finland, Greece, New Zealand, Russia, Saudi Arabia, South Korea, Turkey and the United States of America. It takes a cross-national, comparative approach around four major focus areas: policy, research, curriculum and practice, offering critical implications that can help improve EAL teacher education programs in different parts of the world. Teacher education is an area that has great potential for international cross-pollination of ideas and actions, and this book represents an important first step along this road.

Dual Language Education in the US - Pablo C. Ramírez 2020-08-26

Originally published as a special issue of the journal *Theory into Practice*, this text examines innovative practices and research relating to Dual Language Education (DLE) in the US. Offering a variety of perspectives, contributors consider how dual language learning can benefit English-speaking and partner-language students across K-12, and explore how multilingualism can be harnessed for wider academic success. By investigating the ways in which schools and teachers have ensured provision of an effective DLE curriculum, chapters identify pedagogies and learning environments which support dual language learning, and consider how policy, curricula, and teacher education can be designed to promote social justice and diversity through broader access to dual

programs. This book will be of interest to graduate and post graduate students, researchers, academics, professionals and policy makers in the field of multicultural education, international & comparative education, bilingualism studies, education policy and pedagogy.

Today's Universities: Combining Rigour with Relevance - Michigan State University 2015-08-05

Last year, the Dubai International Conference in Higher Education considered the global challenge of sustaining success in higher education. This year, we posed the question: 'How do universities combine rigour with relevance?' Once again we have invited all those involved in the higher education community to come together to share insights related to the provision of education that is rigorous and at the same time relevant. The three key premises of the conference are these: 1. Higher education institutions must demonstrate their relevance to the needs of the workforce in a landscape of constant and rapid economic and social change. 2. They must maintain the rigorous academic standards that are the hallmark of a quality institution. 3. With the accelerating power and reach of the web, universities must meet unprecedented challenges as technological innovation disrupts their traditional business model. Unless individual universities prove that they are capable of adapting successfully in the face of these three pressures, their futures may be uncertain.

Improving English Reading Skills - Bahar Ilk 2016-03-24

Lesson Plan from the year 2015 in the subject English - Pedagogy, Didactics, Literature Studies, grade: 1,3, Oxford Brookes University, language: English, abstract: A group of 16 upper-intermediate level 19 year olds from several European and Japanese universities is currently studying on an exchange programme at a British university. They need to improve their reading skills as they tend to tunnel-read and to look up unknown words in the dictionary too often when faced with long, challenging texts. They are very fluent in informal speaking but need to develop more formal group discussion skills. They have expressed a desire to learn more idiomatic expressions.

Group Work in the English Language Curriculum - P. Chappell
2014-11-04

This book explores how using small groups in second language classrooms supports language learning. Chappell's experience as a language teacher equips him to present a clear, evidence-based argument for the powerful influence group work has upon the opportunities for learning, and how it should therefore be an integral part of language lessons.

Exemplary Teachers of Students in Poverty - Geoff Munns 2013

"Education and poverty exist in a highly contested relationship even in the developed world. On the one hand, educational outcomes seem solidly attached to socio-economic status, and on the other, education is often cited as a way out of poverty. Success at de-coupling poverty from educational outcomes varies across the developed world. The issues connecting education and poverty are complex, but the question of the successful engagement of students from poor backgrounds involves a complex mix of public policy on poverty, public policy on education, and teacher action. This book focuses on a number of exemplary teachers who demonstrate a set of common pedagogical qualities, assisting them to work productively with persistent classroom challenges in low SES classrooms. Exemplary Teachers of Students in Poverty shares successful classroom practice from schools serving diverse and disadvantaged communities, and stresses that opportunities in school can influence educational engagement and encourage students to achieve. The text locates itself in international debates about education and poverty, and reports on the Teachers for a Fair Go project. Included in the book: teaching in low SES communities what exemplary teachers of students in low SES communities do specific pedagogical approaches in literacy, ICT, creativity and culturally responsive practices students' voices professional qualities of these teachers Exemplary Teachers of Students in Poverty will greatly benefit researchers, teacher educators and trainee teachers, allowing them to gain a much deeper understanding of the issues, constraints and perspectives in teaching contexts across low SES communities"--

Globalisation and Its Effects on Team-Teaching - Naoki Fujimoto-Adamson 2020-06-16

This book reveals the underlying connections among global issues, national policy-making, and local practices related to partnership, or team-teaching, in English language lessons in the Japanese Junior High School context. It investigates the complex relationship among team-teachers, students, and wider stakeholders, such as the local Board of Education, Ministry of Education and other non-educational influences at the political, social and economic levels. The book offers essential knowledge for scholars, students and policy makers who are interested in, or have experienced, team-teaching in the Japanese school context. Additionally, team-teaching in English classrooms is widely implemented not only in Japan, but also other Asian countries. Similar types of joint instruction are also seen in collaborative teaching in British schools and in European schools in which Content and Language Integrated Learning (CLIL) has been carried out. In this sense, this study into the particular Japanese context provides both valuable insights into the multi-layered influences on Japanese secondary school English education, and also a model of research methodology into team-teaching contexts in wider contexts.

Restrictive Language Policy in Practice - Amy J. Heineke 2016-11-01

As the most restrictive language policy context in the United States, Arizona's monolingual and prescriptive approach to teaching English learners continues to capture international attention. More than five school years after initial implementation, this study uses qualitative data from the individuals doing the policy work to provide a holistic picture of the complexities and intricacies of Arizona's language policy in practice. Drawing on the varied perspectives of teachers, leaders, administrators, teacher-educators, lawmakers and community activists, the book examines the lived experiences of those involved in Arizona's language policy on a daily basis, highlighting the importance of local perspectives and experiences as well as the need to prepare and professionalize teachers of English learners.

Soft CLIL and English Language Teaching - Makoto Ikeda 2021-08-20

Content and Language Integrated Learning (CLIL) is a transformative and powerful approach to language education and has had a significant impact on educational pedagogy in recent years. Despite burgeoning literature on the efficacy and implementation of CLIL, there remains a gap between CLIL and English Language Teaching (ELT). Many practitioners wonder how they can 'do CLIL' if their main classes are focused on English as a Foreign Language (EFL). This volume addresses these concerns by examining the experiences of various CLIL practitioners in the EFL context of Japan. Chapters outline the CLIL methodology, the differences in 'hard CLIL' (subject led) and 'soft CLIL' (language-oriented) before focusing on the EFL interpretations of soft-CLIL. Although the distinction of hard CLIL and soft CLIL has been mentioned in several publications, this is the first book-length exploration of this issue, featuring chapters examining expectations, challenges, material support, implementation, and even motivation in CLIL classrooms. All of this culminates in a review of the potential and future of CLIL in EFL contexts, paving the way for more widespread and well informed implementation of CLIL all over the world.

Learning Trajectories for Teachers - Paola Sztajn 2019-06-07

Designed to strengthen the teaching of mathematics in the elementary grades, this book focuses on helping teachers engage in instruction based on learning trajectories (LTs). Renowned scholars, including professional development researcher Hilda Borko, examine four exemplary projects with details on professional development design, teacher learning, and project implementation. Contributors include Hilda Borko, Douglas H. Clements, Susan B. Empson, Victoria R. Jacobs, and Julie Sarama. "This is an amazingly important and valuable resource for mathematics teachers and leaders at any level. It provides the background and understandings so critical for teachers and teacher leaders to regularly consider and use learning trajectories to inform teacher planning and instruction." —Dr. Francis (Skip) Fennell, professor emeritus, McDaniel College, and past president of the Association of Mathematics Teacher Educators and the National Council of Teachers of Mathematics "This is the first book that I've come across that unpacks

what it means to have a framework for student learning at the center of one's instruction." —Mary Kay Stein, University of Pittsburgh School of Education "I find this book useful for mathematics educators interested in framing learning trajectories across several domains—including tasks, discourse, curriculum, learners' understanding, and assessment—to support professional development. Learning trajectories help us make connections among the domains and deepens professional knowledge and understanding." —Robert Q. Berry III, University of Virginia, and president of the National Council of Teachers of Mathematics

Localizing Global English - Hikyoung Lee 2020-09-30

English is the most widely taught and learned language in the world and is used for communication among speakers from different language backgrounds. How it can be effectively taught and learned, what English means to, and how it can be "owned" by, non-native speakers of English in Asia and elsewhere, are all issues that warrant contemplation. This edited collection addresses these issues and more by looking at a wide range of topics that are relevant and timely in contexts where English is taught as a foreign language. The authors offer novel perspectives gleaned from theory and actual practice that can inform English language teaching in Asia and beyond. This book will be of interest to researchers, policymakers, curriculum developers, and practitioners in the field of English teaching and learning.

Language Planning for Medium of Instruction in Asia - M. Obaidul Hamid 2015-10-16

This volume investigates the policy and practice of medium of instruction at different levels of education in Asian polities including Bangladesh, Hong Kong, India, Indonesia, Japan, Malaysia, the Maldives, Nepal, Timor-Leste and Vietnam. The chapters provide an informed understanding of the context, process, actors, goals and outcomes of medium of instruction policies from a language policy and planning perspective. The volume has an emphasis on the exploration of medium of instruction in action which brings into focus the perspectives of micro policy enactors including teachers, students, and parents in the local context, generating crucial empirical insights. This critical analysis of the

goals, outcomes and experiences of this trend in global language-in-education will be of interest to language and education students, researchers, practicing teachers, executives in academia and language studies and to education policymaking authorities in Asia and other parts of the world. The volume updates existing research on medium of instruction and takes the field forward in a fast-changing world as English medium instruction policies are globalised. This book was originally published as a special issue of Current Issues in Language Planning.

Glimpses into Primary School Teacher Education in South Africa - Sarah Gravett 2020-11-06

This book explores the current landscape of Initial Teacher Education (ITE) in primary schools in South Africa. Considering recent policy directives and initiatives, it highlights the dilemmas of ITE for the primary school and gives a thorough account of innovations and initiatives to improve ITE. The book presents what works best for quality preparation of teachers in the Global South, where many children rely on their teachers and school life to break the cycle of poverty. Chapters draw on evidence from workplace learning, pre-service study, and primary school teacher education policy to highlight examples of promising change in teacher education in South Africa, addressing the clichés of "theory versus practice" head-on. This book successfully brings out the challenging aspects of teacher education for childhood learning which has otherwise been regarded as the softer option for a career in education. This book will be of great interest for academics, researchers, and post-graduate students in the fields of teacher education, African education, educational policy, international education, and comparative education.

English-Medium Instruction and Translanguaging - BethAnne Paulsrud 2021-01-20

This book offers a critical exploration of definitions, methodologies and ideologies of English-medium instruction (EMI), contributing to new understandings of translanguaging as theory and pedagogy across diverse contexts. It brings together a number of conceptual and

empirical studies on translanguaging in EMI at different educational levels, in a variety of countries, with different approaches to translanguaging, different named languages, and different policies. These studies include several underrepresented contexts across the globe, providing a broad view of how translanguaging in EMI is understood in these educational settings. Furthermore, this book addresses the complexities of translanguaging through a discussion of the affordances and constraints associated with the use of multiple linguistic resources in the EMI classroom.

Teaching Readers of English - John S. Hedgcock 2018-02-13

A comprehensive manual for pre- and in-service ESL, EFL, and EIL educators who work with multilingual students at the secondary and postsecondary levels, this text balances insights from reading theory and research with highly practical, field-tested strategies for teaching and assessing second-language reading that educators can readily adopt and adapt to suit their contexts and student populations. Teaching Readers of English is a complete "go-to" source for teaching reading and promoting classroom and professional literacies in an increasingly digital world. Offering principled approaches and methods for planning and delivering effective L2 reading instruction, the text includes pedagogical features, such as questions for reflection, further reading and resources, and application activities to develop purposeful classroom reading lessons in a range of contexts. Changes in the Second Edition: Updated and revised chapters on formative and summative reading assessment, developing vocabulary knowledge and grammatical skill, and cultivating extensive reading and literary appreciation Updated information on institutional settings and reader demographics New pedagogical features in each chapter, including Chapter Summaries, Further Reading, Reflection and Review, and Application Activities A streamlined chapter sequence to enhance the text's usability

Your Udl Lesson Planner - Patricia Kelly Ralabate, Ed.D. 2016-01

Many teacher resources explore the fundamentals of Universal Design for Learning (UDL). This one takes UDL to the next level for educators who understand the basics and can't wait to start using UDL in their

lesson plans and classrooms. In this practical, accessible guidebook, UDL expert Patti Kelly Ralabate walks teachers through the entire UDL lesson planning process, from developing learning goals to monitoring student progress. Through vignettes, exercises, video demonstrations, and other immediately useful resources, K 12 educators will discover how to translate UDL from theory to practice and plan lessons that meet every learner's needs. An essential guide for teachers, college instructors, specialized instructional support personnel, IEP team facilitators, curriculum planners, and inclusion facilitators, this book will help educators supercharge their lesson plans with one of today's best teaching approaches and improve outcomes for students with and without special needs. THIS BOOK HELPS TEACHERS Review and understand the big ideas of UDL what it is, what it's not Create effective learning goals based on content and performance standards Make sure learning goals are S.M.A.R.T.: Specific, Measurable, Attainable, Results-oriented, and Time-bound Design lesson plans that address learner variability even when teachers don't yet know the specific needs of every student Measure what matters by applying UDL principles to assessment of student progress Infuse UDL features into traditional instructional methods (with examples of how 10 other educators did it) Enhance UDL lessons with materials, tools, and media that add real value Use self-reflection strategies and professional learning communities to continuously strengthen everyday practice PRACTICAL MATERIALS: To guide teachers through each phase of the lesson planning process, the book includes scenarios, models, charts, application exercises, reflection questions, check-ins, and 7 classroom videos (available online) that bring key UDL concepts to life. Educators will also follow the lesson planning process of three teachers as they apply UDL for the first time."

Rethinking Online Education - Bessie Mitsikopoulou 2015-11-17

"Rethinking Online Education" analyzes online educational materials on the recent Iraq war aimed to be used by U.S. educators in elementary and secondary schools. It is suggested that far from being ideologically neutral, these educational materials weave together resources which provide a coherent view of the Iraq war theme, and can thus be seen

as constituting a kind of an informal curriculum. Mitsikopoulou argues that the teacher resources adhere to different pedagogical discourses and constitute materializations of two broad approaches to education. A number of pedagogical issues are also raised in the discussion: What is the difference between critical thinking and critical pedagogy? How is the genre of lesson plan realized in different teaching philosophies and how do curricular texts change when they are delivered online? This important book highlights the need to explore the new forms of textuality which emerge from online curricular materials and to develop an understanding of the processes of text composition, distribution and consumption.

Handbook of Research on Promoting Peace Through Practice, Academia, and the Arts - Lutfy, Mohamed Walid 2018-09-07

Academic disciplines perceive tranquility and a sense of contentment differently among themselves and therefore contribute to peace-building initiatives differently. Peace is not merely a function of education or a tool that produces amicable systems, but rather a concept that educational contributions can help societies progress to a more peaceful existence. The Handbook of Research on Promoting Peace Through Practice, Academia, and the Arts aims to provide readers with a concise overview of proactive positive peace models and practices to counter the overemphasis on merely ending wars as a solution. While approaching peace-building through multiple vantage points and academic fields such as the humanities, arts, social sciences, and theology, this valuable resource promotes peace-building as a cooperative effort. This publication is a vital reference work for humanitarian workers, leaders, educators, policymakers, academicians, undergraduate and graduate-level students, and researchers.

Teaching Literature to Adolescents - Richard Beach 2016-03-10

This popular textbook introduces prospective and practicing English teachers to current methods of teaching literature in middle and high school classrooms. It underscores the value of providing students with a range of different critical approaches and tools for interpreting texts and the need to organize literature instruction around topics and issues of

interest to them. Throughout the textbook, readers are encouraged to raise and explore inquiry-based questions in response to authentic dilemmas and issues they face in the critical literature classroom. New in this edition, the text shows how these approaches to fostering responses to literature also work as rich tools to address the Common Core English Language Arts Standards. Each chapter is organized around specific questions that English educators often hear in working with pre-service teachers. Suggested pedagogical methods are modelled by inviting readers to interact with the book through critical-inquiry methods for responding to texts. Readers are engaged in considering authentic dilemmas and issues facing literature teachers through inquiry-based responses to authentic case narratives. A Companion Website [<http://teachingliterature.pbworks.com>] provides resources and enrichment activities, inviting teachers to consider important issues in the context of their current or future classrooms.

Researching Language Teaching and Learning - Tatsuhiro Yoshida 2009
Papers presented at the first Oxford-Kobe English Education Seminar, sponsored by the Kobe Institute, Kobe, Japan, and held at the Institute from 14-17 March, 2007.

Resources in Education - 1999-10

China's English - Bob Adamson 2004-04-01

This book traces the history of English education in the People's Republic of China from 1949 to the present day. It uses the junior secondary school curriculum as the means to examine how English curriculum developers and textbook writers have confronted the shifting ambiguities and dilemmas over five distinct historical periods. The study of the processes of curriculum development and the products such as syllabi and textbooks offers insights into the construction of an 'official' English, as well as what was considered as acceptable content in English. This book addresses fundamental and significant questions concerning the English promoted in China, namely its characteristics; its changes over time and explanations for such changes; and the kind of content that has been viewed as appropriate for textbooks. To investigate these issues,

the analysis draws on qualitative and quantitative data, such as interviews with principal stakeholders and analysis of the syllabus and recommended textbooks. Specifically, it looks at the choice and organization of linguistic components, and the orientation and messages of the curriculum. "Language education in China during the second half of the twentieth century might arguably be called the world's largest language engineering project. In this comprehensive study, Dr Adamson examines a part of that project by charting the twists and turns of English language education from the pre-revolutionary period to the present. He successfully illustrates how tensions in China's massive educational system are negotiated from center to periphery, how textbook writers adapt to the socio-political mandates of their time to construct formal school curricula. Adamson also raises significant questions regarding the contradictions inherent in Chinese globalization." —Heidi Ross, Professor, Department of Educational Leadership and Policy Studies, School of Education, Indiana University at Bloomington "Bob Adamson has provided in this book one of the first detailed studies published in English of the history of a school subject in the PRC. The study provides fascinating insights into the changing nature of the English curriculum, the shifting socio-political context of the PRC and their complex inter-relationships." —Paul Morris, President, The Hong Kong Institute of Education "The learning of English is a crucial aspect of China's opening up to the world and increasingly prominent global role. This welcome volume provides an in-depth historical perspective on this important subject, including the recent periods of modernization (1978-1993) and globalization (1993 to the present). It should be compelling reading for all those involved with contemporary China across a wide spectrum of areas." —Ruth Hayhoe, University of Toronto; President Emerita, The Hong Kong Institute of Education

Mainstreaming ESL - John Clegg 1996-01-01

"In this book, ESL and mainstream teachers from primary and secondary schools in Australia, Canada, the USA and the United Kingdom, describe how they go about 'mainstreaming'. Well-supplied with examples of

teaching materials and pupils' work, their narratives are practical and detailed. At the same time they raise vital questions of school policy which the whole school community must address when launching initiatives of this kind." "The book will be of very practical use to ESL and mainstream teachers, as well as to principals, advisers and those at all levels of the education service who work in multilingual communities. It will also serve as a handbook for teacher-educators and student teachers of any subject who are preparing to work in linguistically diverse classrooms."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Second Language Teacher Education - Karen E. Johnson 2009-06-02

'... A beautifully written, articulate and compelling argument for a sociocultural perspective on second language teacher education . . . Essential reading for all who wish to understand this perspective.' - David Nunan, University of Hong Kong '...Significant and timely. Johnson is masterful at writing in an engaging, transparent prose about complex concepts. It's a rare scholar who can write prose like this. Throughout my reading I wanted to engage in dialogue with her - this is a sure sign of a great book." - Diane Tedick, University of Minnesota, USA This book presents a comprehensive overview of the epistemological underpinnings of a sociocultural perspective on human learning and addresses in detail what this perspective has to offer the field of second language teacher education. Captured through five changing points of view, it argues that a sociocultural perspective on human learning changes the way we think about how teachers learn to teach, how teachers think about language, how teachers teach second languages, the broader social, cultural, and historical macro-structures that are ever present and ever changing in the second language teaching profession, and what constitutes second language teacher professional development. Overall, it clearly and accessibly makes the case that a sociocultural perspective on human learning reorients how the field understands and supports the professional development of second language teachers.

Advocacy in English Language Teaching and Learning - Heather A. Linville 2019-01-10

Appropriate for those new to the topic and established scholars, this holistic text examines the nexus of advocacy and English-language teaching, beginning with theories of advocacy, covering constraints and challenges in practice, and offering a range of hands-on perspectives in different contexts and with different populations. Bringing together wide-ranging and diverse viewpoints in TESOL, this volume examines the role of advocacy through a social justice lens in a range of contexts, including K-12 classrooms and schools, adult and higher education settings, families and communities, and teacher-education programs and professional organizations. Advocacy in English Language Teaching and Learning offers readers a deeper understanding of what advocacy is and can be, and gives teacher candidates and educators the tools to advocate for their students, their families and communities, and their profession. *English Teaching Forum* - 2009

Language, Ideology and Education - Xiao Lan Curdt-Christiansen 2015-03-27

This book examines the role textbooks play in the teaching of dominant and non-dominant (first and foreign) languages in a range of cultural contexts worldwide. Each chapter addresses important issues related to what constitutes "legitimate knowledge", the politics of learning materials, global cultural awareness, competing ideologies, and the development of multilingual literacies. *Language, Ideology and Education: The Politics of Textbooks in Language Education* comprehensively surveys theoretical perspectives and methodological issues in the critical examination of language textbooks. In particular, it looks at: *The Cultural Politics of Language Textbooks in the Era of Globalization* *The Politics of Instructional Materials for English for Young Learners* *Ideological Tensions and Contradictions in Lower Primary English Teaching Materials in Singapore* *Creating a Multilingual/multicultural Space in Japanese EFL: A Critical Analysis of Discursive Practices within a New Language Education Policy* The book is primarily addressed to those who teach and research in the areas of Foreign Language Education, TESOL, Applied Linguistics, Language

Policy, Critical Pedagogy, and Textual Cultures. Although the book is focused on textbook and materials analysis, rather than evaluation, most chapters discuss implications for curriculum design and materials development and therefore will be relevant to scholars working in those fields.

Doing Reflective Practice in English Language Teaching - Thomas S. C. Farrell 2021-12-30

This practical and engaging book introduces readers to reflective practice in English language teaching. Assuming no background knowledge, Thomas S. C. Farrell clearly and accessibly walks through ways that teachers can integrate and implement reflective practice in the classroom and in other contexts to benefit their teaching and their own professional development. Each chapter covers an important dimension of reflective practice and features many ready-to-use activities that are designed to empower teachers and allow them to overcome challenges they'll face throughout their careers. Covering many types of reflection and the many purposes it serves, this book addresses written reflection, lesson planning, classroom observation, classroom management, group communication and more. This resource is ideal for preservice and early career language teachers and is an important supplement to courses in language education and applied linguistics programs.

Teaching English One-to-one - Priscilla Osborne 2005

How to teach one to one classes - for the professional English language teacher. This book provides an analysis of the problems of teaching students on a one to one basis as opposed to teaching groups of students. Covering a wide range of topics in this field, this book explains learner needs analysis and learner profiles, especially the student's current use

of English and the reason for taking a one to one course; course planning; techniques which are specific to one to one teaching; techniques which do not work with one to one teaching; using the learner as the resource for teaching; together with the advantages of teaching students on a one to one basis. This book is packed with tried and tested suggestions for managing your students and your teaching time, on both a personal and pedagogical level, so that you can make the one-to-one teaching experience a rewarding and productive one.
