Towards a New Standard - Massimo Cerruti 2017-01-11

In many European languages the National Standard Variety is converging with spoken, informal, and socially marked varieties. In Italian this process is giving rise to a new standard variety called Neo-standard Italian, which partly consists of regional features. This book contributes to current research on standardization in Europe by offering a comprehensive overview of the re-standardization dynamics in Italian. Each chapter investigates a specific dynamic shaping the emergence of Neo-standard Italian and Regional Standard Varieties, such as the acceptance of previously non-standard features, the reception of Old Italian features excluded from the standard variety, the changing standard language ideology, the retention of features from Italo-Romance dialects, the standardization of patterns borrowed from English, and the developmental tendencies of standard Italian in Switzerland. The contributions investigate phonetic/phonological, prosodic, morphosyntactic, and lexical phenomena, addressed by several empirical methodologies and theoretical vantage points. This work is of interest to scholars and students working on language variation and change, especially those focusing on standard languages and standardization dynamics.

Musicians' Mobilities and Music Migrations in Early Modern Europe - Gesa zur Nieden 2016-10-31

During the 17th and 18th century musicians' mobilities and migrations are essential for the European music history and the cultural exchange of music. Adopting viewpoints that reflect different methodological approaches and diversified research cultures, the book presents studies on central scopes, strategies and artistic outcomes of mobile and migratory musicians as well as on the transfer of music. By looking at elite and non-elite musicians and their everyday mobilities to major and minor centers of music production and practice, new biographical patterns and new stylistic paradigms in the European East, West and South emerge.

Code Annota(c) de La Cour Pa(c)Nale Internationale: 2004 - 2006 - Cyril Laucci 2008-09-15

Depuis l'entrée en vigueur de son Statut, le 1er juillet 2002, la Cour pénale internationale (CPI) a commencé à travailler. Les premières Situations (République Démocratique du Congo, Ouganda, République Centrafricaine et Soudan) et affaires (Lubanga, Kony, Otchi, Lukwya, Odhiambo, Ongwen, Katanga, Ngudjolo) sont à présent pendantes devant la Cour. Les premières décisions publiques datent de juillet 2004. Plus de 250 décisions publiques ont été rendues en date du 31 décembre 2006. Le Code annoté de la Cour pénale internationale (2004-2006) est le premier volume d'une collection. En fonction du nombre de décisions rendues par la Cour dans l'avenir, un nouveau volume sera publié chaque année ou tous les deux ans. Le Code propose une sélection des extraits les plus pertinents des décisions publiques rendues par la Cour entre juillet 2004 et le 31 décembre 2006. Les extraits proposés ont été sélectionnés sur la base

des critères suivants :1) extraits qui clarifient un point de droit, interprètent l'une des dispositions statutaires de la Cour ;2) extraits qui montrent comment une règle spécifique est concrètement appliquée par la Cour ;3) extraits pertinents du point de vue de l'évolution de la justice internationale, des droits de l'homme, du droit international humanitaire Les extraits sont proposés dans leur version française officielle, chaque fois qu'elle est disponible ou dans leur version anglaise originale. Dans tous les cas, un résumé en français identifie de façon claire l'apport de l'extrait par rapport aux critères de sélection. Les extraits sont classifiés par rapport à la disposition statutaire (article du Statut, règle du Règlement de procédure et de preuve, norme du Règlement de la Cour) à laquelle ils se rapportent. Un numéro d'identification rapide facilite le renvoi aux extraits des autres décisions sélectionnés dans le présent volume. La présente collection de Codes annotés est avant tout conçue comme un outil à l'usage des praticiens du droit pénal international et des universitaires, qui, grâce au numéro d'identification rapide et à l'index thématique, y trouveront le moyen d'identifier immédiatement les extraits les plus pertinents de la jurisprudence de la Cour sur chaque sujet.

Genre in a Changing World - Charles Bazerman 2009-09-16

Genre studies and genre approaches to literacy instruction continue to develop in many regions and from a widening variety of approaches. Genre has provided a key to understanding the varying literacy cultures of regions, disciplines, professions, and educational settings. *GENRE IN A CHANGING WORLD* provides a wide-ranging sampler of the remarkable variety of current work. The twenty-four chapters in this volume, reflecting the work of scholars in Europe, Australasia, and North and South America, were selected from the over 400 presentations at SIGET IV (the Fourth International Symposium on Genre Studies) held on the campus of UNISUL in Tubarão, Santa Catarina, Brazil in August 2007—the largest gathering on genre to that date. The chapters also represent a wide variety of approaches, including rhetoric, Systemic Functional Linguistics, media and critical cultural studies, sociology, phenomenology, enunciation theory, the Geneva school of educational sequences, cognitive psychology, relevance theory, sociocultural psychology, activity theory, Gestalt psychology, and schema theory. Sections are devoted to theoretical issues, studies of genres in the professions, studies of genre and media, teaching and learning genre, and writing across the curriculum. The broad selection of material in this volume displays the full range of contemporary genre studies and sets the ground for a next generation of work.

The Netherlands and the Oil Crisis - Duco Hellema 2004

This incisive study examines the role of the Netherlands in the October War and the oil crisis of 1973. The authors contend that the actions of the Dutch government were hypocritical: the Dutch government faced a domestic crisis when an oil embargo was levied against them by Arab countries for selling arms to Israel; yet after oil began arriving again two months later, the Dutch rejected a proposal for a stricter interventionist energy policy within the European Union. A probing and thought-provoking study, *The Netherlands and the Oil Crisis* draws on previously unavailable archival sources to shed new light on a pivotal moment in contemporary Dutch history.

The Voynich Manuscript - M. E. D'Imperio 1978

In spite of all the papers that others have written about the manuscript, there is no complete survey of all the approaches, ideas, background information and analytic studies that have accumulated over the nearly fifty-five years since the manuscript was discovered by Wilfrid M. Voynich in 1912. This report pulls together all the information the author could obtain from all the sources she has examined, and to present it in an orderly fashion. The resulting survey will provide a firm basis upon which other students may build their work, whether they seek to decipher the text or simply to learn more about the problem.

Active Learning - Charles C. Bonwell 1991

This monograph examines the nature of active learning at the higher education level, the empirical research on its use, the common obstacles and barriers that give rise to faculty resistance, and how faculty and staff can implement active learning techniques. A preliminary section defines active learning and looks at the current climate surrounding the concept. A second section, entitled "The Modified Lecture" offers ways that teachers can incorporate active learning into their most frequently used format: the lecture. The following section on classroom discussion explains the conditions and techniques needed for the most useful type of exchange. Other ways to promote active learning are also described including: visual learning, writing in class, problem solving, computer-based instruction, cooperative learning, debates, drama, role playing, simulations, games, and peer teaching. A section on obstacles to implementing active learning techniques leads naturally to the final section, "Conclusions and Recommendations," which outlines the roles that each group within the university can play in order to encourage the implementation of active learning strategies. The text includes over 200 references and an index. (JB)

Threads and Traces - Carlo Ginzburg 2012-09-02

"This book is a translation of historian Carlo Ginzburg's latest collection of essays. Through the detective work of uncovering a wide variety of stories or microhistories from fragments, Ginzburg takes on the bigger questions: How do we draw the line between truth and fiction? What is the relationship between history and memory? Stories range from medieval Europe, the inquisitional trial of a witch, seventeenth-century antiquarianism, and twentieth-century historians"--Provided by publisher.

Holographic Quantum Matter - Sean A. Hartnoll 2018-03-16

A comprehensive overview of holographic methods in quantum matter, written by pioneers in the field. This book, written by pioneers in the field, offers a comprehensive overview of holographic methods in quantum matter. It covers influential developments in theoretical physics, making the key concepts accessible to researchers and students in both high energy and condensed matter physics. The book provides a unique combination of theoretical and historical context, technical results, extensive references to the literature, and exercises. It will give readers the ability to understand the important problems in the field, both those that have been solved and those that remain unsolved, and will enable them to engage directly with the current literature. The book describes a particular interface between condensed matter physics, gravitational physics, and string and quantum field theory made possible by holographic duality. The

chapters cover such topics as the essential workings of the holographic correspondence; strongly interacting quantum matter at a fixed commensurate density; compressible quantum matter with a variable density; transport in quantum matter; the holographic description of symmetry broken phases; and the

relevance of the topics covered to experimental challenges in specific quantum materials. Holographic Quantum Matter promises to be the definitive presentation of this material.
