Jurisprudence de la Cour Internationale - Edvard Isak Hambro 1952

*Recueil Des Cours, 1998* - Academie de Droit International de la Haye 1999-04-01

The Academy is an institution for the study and teaching of public and

private international law and related subjects. Its purpose is to encourage a thorough and impartial examination of the problems arising from international relations in the field of law. The courses deal with the theoretical and practical aspects of the subject, including legislation and case law. All courses at the Academy are, in principle, published in the language in which they were delivered in the Collected Courses of the Hague Academy of International Law. This volume contains: - Conférences prononcées à l'occasion du soixante-quinzième anniversaire de l'Académie/Addresses Delivered on the Occasion of the 75th Anniversary of the Academy. - La contribution de l'Académie au développement de la science et de la pratique du droit international privé, par A.V.M. STRUYCKEN, membre du Curatorium de l'Académie de droit international de La Haye. - The Contribution of the Academy to the Development of the Science and Practice of Public International Law by S. SKUBISZEWSKI, Member of the Curatorium of the Hague Academy of International Law. - Is International Law Threatened by Multiple International Tribunals? by J.I. CHARNEY, Professor at Vanderbilt University, Nashville.

Traité de droit civil belge - Tome II : Les obligations. Volumes 1 à 3 -  
Pierre Van Ommeslaghe † 2013-07-22

Cet ouvrage a pour objet un exposé systématique, circonstancié et synthétique du droit des obligations en s'inspirant de la tradition des grandes synthèses que connaît notre droit. Il se caractérise par une vue non seulement scientifique, mais aussi pragmatique de cette importante partie du droit privé. Il est le couronnement de plus de 30 années d'enseignement du droit des obligations à la Faculté de droit de l'Université Libre de Bruxelles, conjuguées avec une pratique quotidienne de cette matière et avec la publication de diverses études spécifiques sur le sujet. Le plan des trois volumes que comporte l'ouvrage est classique : - une partie préliminaire comprend une introduction, une définition de l'obligation et la présentation de certains concepts généraux ; - la première partie est ensuite consacrée aux sources des obligations ; - la deuxième partie décrit le régime général de l'obligation, prise comme telle, indépendamment de sa source ; - la troisième partie a pour objet la théorie des preuves. Cet ouvrage est destiné non seulement à tous les praticiens du droit privé (magistrats, avocats, notaires, juristes d'entreprise, fonctionnaires, experts comptables, fiscalistes, réviseurs...), mais aussi aux étudiants en droit et à ceux qui enseignent et étudient cette matière.

*Jurisprudence du XIXe siècle, ou Recueil des arrêts et décisions des cours de France et des Pays-Bas, en matière civile, criminelle, commerciale et administrative* - Victor Alexis Désiré Dalloz 1830

**Recueil de législation de Toulouse - 1913**

**Forum Non Conveniens** - Ronald A. Brand 2007-07-27

With increased international trade transactions and a corresponding

increase in disputes arising from those transactions, the application of the doctrine of Forum Non Conveniens - the discretionary power of a court to decline jurisdiction based on the convenience of the parties and the interests of justice - has become extremely relevant when determining which country's court should preside over a controversy involving nationals of different countries. Forum Non Conveniens: History, Global Practice, and Future Under the Hague Convention on Choice of Court Agreements provides an in-depth analysis of the common law doctrine of Forum Non Conveniens as it has evolved in the four major common law countries (UK, US, Canada, and Australia), and looks at the similarities and differences of the doctrine among those four countries. It compares Forum Non Conveniens to the more rigid analogous doctrine of Lis Alibi Pendens found in civil law countries, which requires automatic deference to the court where a dispute is first filed and explains current initiatives for coordinating jurisdictional issues between the common law and civil law systems, the most important of which is the 2005 Hague Convention on Choice of Court Agreements. The authors explain how the Hague Convention provides a rational approach to the confluence of common law and civil law doctrines and how its application to international transactions is likely to temper judicial application of the doctrine of Forum Non Conveniens and provides greater predictability with respect to enforcement of private party choice of court agreements. Forum Non Conveniens: History, Global Practice, and Future Under the Hague Convention on Choice of Court Agreements is the only book to provide a complete explanation of Forum Non Conveniens in the context of global litigation, making it a very important resource and reference work.

Jurisprudence du Code Civil: Jurisprudence du Code Civil, ou Recueil complet des arrêts rendus par toutes les cours d'appel - 1805

*Recueil de jurisprudence du Forum de l'assurance* - Claude Devoet (dir.)  
2017-10-25

Responsabilités - Assurances - Accidents du travail L'année 2014 fut à nouveau riche en jurisprudence dans le domaine du droit des assurances et de la responsabilité. Les chroniqueurs de ce recueil ont épinglé avec soin les décisions les plus marquantes et illustrent les orientations actuelles de la jurisprudence, mais aussi celles, plus originales, qui adoptent une approche singulière, mais non moins intéressante. Le lecteur trouvera ainsi des notes d'observation traitant de sujets aussi variés que la responsabilité des avocats et son étendue, la notion d'accident privé, l'impact du changement de bénéficiaire d'une assurance vie sur la déductibilité des primes, les infections nosocomiales ou encore la question de la volonté dans le chef des malades mentaux et ses répercussions sur leur responsabilité. Le recours à certains modes de preuve comme les détectives privés suscite également un grand nombre d'interrogations soulignées dans le présent ouvrage. La matière des accidents du travail continue, elle aussi, à générer une jurisprudence abondante. Les commentateurs constatent notamment une résurgence de la théorie exigeant de l'événement soudain une certaine forme d'anormalité. De même, ils soulignent que la faute, normalement inopérante dans le cadre des accidents du travail, continue manifestement à jouer un rôle dans une partie de la jurisprudence. Ils relèvent aussi la volonté des assureurs-loi de maîtriser le coût de l'expertise entraînant des demandes adressées au tribunal parfois surprenantes. Sont également abordées des questions plus classiques mais qui continuent à être débattues devant les prétoires telles que la présomption de causalité de l'article 7 de la loi du 10 avril 1971 et son renversement ou encore la notion d'accident sur le chemin du travail. Sans nul doute, cette nouvelle édition du Recueil intéressera tout praticien qui, de loin ou de près, est concerné par ces matières. Un ouvrage écrit par des professionnels, pour des professionnels. À PROPOS

DES ÉDITIONS ANTHEMIS Anthemis est une maison d'édition spécialisée dans l'édition professionnelle, soucieuse de mettre à la disposition du plus grand nombre de praticiens des ouvrages de qualité. Elle s'adresse à tous les professionnels qui ont besoin d'une information fiable en droit, en économie ou en médecine.

*An Equitable Framework for Humanitarian Intervention* - Ciarán Burke  
2013-05-09

This book aims to resolve the dilemma regarding whether armed intervention as a response to gross human rights violations is ever legally justified without Security Council authorisation. Thus far, international lawyers have been caught between giving a negative answer on the basis of the UN Charter's rules ('positivists'), and a 'turn to ethics', declaring intervention legitimate on moral grounds, while eschewing legal analysis ('moralists'). In this volume, a third solution is proposed. The idea is presented that many equitable principles may qualify as 'general principles of law recognised by civilised nations' - one of the three principal sources of international law (though a category that is often overlooked) - a conclusion based upon detailed research of both national legal systems and international law. These principles, having normative

force in international law, are then used to craft an equitable framework for humanitarian intervention. It is argued that the dynamics of their operation allow them to interact with the Charter and customary law in order to fill gaps in the existing legal structure and soften the rigours of strict law in certain circumstances. It is posited that many of the moralists' arguments are justified, albeit based upon firm legal principles rather than ethical theory. The equitable framework proposed is designed to provide an answer to the question of how humanitarian intervention may be integrated into the legal realm. Certainly, this will not mean an end to controversies regarding concrete cases of humanitarian intervention. However, it will enable the framing of such controversies in legal terms, rather than as a choice between the law and morality. '...has potential to become one of the most important books in public international law of the decade, or in a generation'. Martin Scheinin, Professor of Public International Law, European University Institute, Florence

Recueil des cours - 1999

Collection of Essays by Legal Advisers of States, Legal Advisers of International Organizations and Practitioners in the Field of International

Law - United Nations. Office of Legal Affairs 1999

The world has changed radically since 1989, when the General Assembly declared the period from 1990 to 1999 as the United Nations Decade of International Law. During that time, the international community claimed some major achievements as reflected by the adoption of conventions and treaties. This publication presents a collection of essays from legal advisers of States and international organizations, all of whom are among those committed to promoting respect for international law. Their contribution provides a practical perspective on international law, viewed from the standpoint of those involved in its formation, application and administration.

Brokering Europe - Antoine Vauchez 2015-02-26

Since the 1960s, the nature and the future of the European Union have been defined in legal terms. Yet, we are still in need of an explanation as to how this entanglement between law and EU polity-building emerged and how it was maintained over time. While most of the literature offers a disembodied account of European legal integration, *Brokering Europe* reveals the multifaceted roles Euro-lawyers have played in EU polity, notably beyond the litigation arena. In particular, the book points at select transnational groups of multipositioned legal entrepreneurs which have been in a situation to elevate the role of law in all sorts of EU venues. In doing so, it draws from a new set of intellectual resources (field theory) and empirical strategies only very recently mobilized for the study of the EU. Grounded on an extensive historical investigation, *Brokering Europe* provides a revised narrative of the 'constitutionalization of Europe'.

*Comparative Tort Law* - Thomas Kadner Graziano 2018-03-20

*Comparative Tort Law* promotes a 'learning by doing' approach to comparative tort law and comparative methodology. Each chapter starts with a case scenario followed by questions and expertly selected material, such as: legislation, extracts of case law, soft law principles, and (where appropriate) extracts of legal doctrine. Using this material, students are invited to: • solve the proposed scenario according to the laws of several jurisdictions; • compare the approaches and solutions they have identified; • evaluate their respective pros and cons; and • reflect upon the most appropriate approach and solution. This book is essential reading for all students and scholars of comparative tort law and comparative law methodology and is the ideal companion for those wishing to both familiarise themselves with real-world materials and understand the many diverse approaches to modern tort law.
