**Italian Motherhood on Screen** - Giovanna Faleschini Lerner 2017-10-14

This book is the first scholarly analysis that considers the specificity of situated experiences of the maternal from a variety of theoretical perspectives. From "Fertility Day" to "Family Day," the concept of motherhood has been at the center of the public debate in contemporary Italy, partly in response to the perceived crisis of the family, the economic crisis, and the crisis of national identity, provoked by the forces of globalization and migration, secularization, and the instability of labor markets. Through essays by an international cohort of established and emerging scholars, this volume aims to read these shifts in cinematic terms. How does Italian cinema represent, negotiate, and elaborate changing definitions of motherhood in narrative, formal, and stylistic terms? The essays in this volume focus on the figures of working mothers, women who opt for a child-free adulthood, single mothers, ambivalent mothers, lost mothers, or imperfect mothers, who populate contemporary screen narratives.

**Italian futurism and the machine** - Katia Pizzi 2019-05-24

This is the first interdisciplinary exploration of machine culture in Italian futurism after the First World War. The machine was a primary concern for the futuristi. As well as being a material tool in the factory it was a social and political agent, an aesthetic emblem, a metonymy of modernity and international circulation and a living symbol of past crafts and technologies. Exploring literature, the visual and performing arts, photography, music and film, the book uses the lens of European machine culture to elucidate the work of a broad set of artists and practitioners, including Censi, Depero, Marinetti, Munari and Prampolini. The machine emerges here as an archaeology of technology in modernity: the time machine of futurism.

With everything at stake, the Tumbling Turners take to the road and the four young women, teenagers Gert, Winnie, and Kit, and Nell, a 22-year-old new mother and recent widow of the Great War, are soon immersed in the tumultuous world of American Vaudeville on a nine-city tour that will make or break them. Swindlers and ne'er-do-wells await in abundance, but so does kindness, and just maybe a chance at love. Italian Discourse - Gian Marco Farese 2019-11-15

Using the Natural Semantic Metalanguage methodology, Gian Marco Farese presents a comprehensive analysis of the most important Italian cultural keywords and cultural scripts that foreign learners and cultural outsiders need to know to become linguistically and culturally proficient in Italian. Farese focuses on the words and speech practices that are used most frequently in Italian discourse and that are uniquely Italian: both untranslatable into other languages and reflective of salient aspects of Italian culture and society. Italian Discourse: A Cultural Semantic Analysis sheds light on ways in which the Italian language is related to Italians' character, values, and way of thinking, and it does so in contrastive perspective with English. Each chapter focuses on a cultural keyword, tracing the term through novels, plays, poems, and songs. Italian Discourse will be an important resource for anyone interested in Italian studies and Italian linguistics, as well as in semantics, cultural studies, linguistic anthropology, cognitive linguistics, intercultural communication, and translation.

*One Hundred Saturdays* - Michael Frank 2022-09-06

Recipient of the Jewish Book Council's Natan Notable Book Award The remarkable story of ninety-nine-year-old Stella Levi whose conversations with the writer Michael Frank over the course of six years bring to life the vibrant world of Jewish Rhodes, the deportation to Auschwitz that extinguished ninety percent of her community, and the resilience and wisdom of the woman who lived to tell the tale. With nearly a century of life behind her, Stella Levi had never before spoken in detail about her past. Then she met Michael Frank. He came to her Greenwich Village apartment one Saturday afternoon to ask her a question about the Juderia, the neighborhood in Rhodes where she'd grown up in a Jewish community that had thrived there for half a millennium. Neither of them could know this was the first of one hundred Saturdays over the course of six years that they would spend in each other's company. During these meetings Stella traveled back in time to conjure what it felt like to come of age on this luminous, legendary island in the eastern Aegean, which the Italians conquered in 1912, began governing as an official colonial possession in 1923, and continued to administer even after the Germans seized control in September 1943. The following July, the Germans rounded up all 1,700-plus residents of the Juderia and sent them first by boat and then by train to Auschwitz on what was the longest journey—measured by both time and distance—of any of the deportations. Ninety percent of them were murdered upon arrival. Probing and courageous, candid and sly, Stella is a magical modern-day Scheherazade whose stories reveal what it was like to grow up in an extraordinary place in an extraordinary time—and to construct a life after that place has vanished. *One Hundred Saturdays* is a portrait of one of the last survivors drawn at nearly the last possible moment, as well as an account of a tender and transformative friendship that develops between storyteller and listener as they explore the fundamental mystery of what it means to collect, share, and interpret the deepest truths of a life deeply lived.

**The White Moth** - Camilla Calhoun 2018-10-28

A compelling love story and memoir that bridges three generations and vividly recreates life in Florence and rural Tuscany from the 1930s to 1970s.

**Folklore by the Fireside** - Alessandro Falassi 2014-07-03

For centuries, social life in rural Tuscany has centered around the veglia, an evening gathering of family and friends at the hearth. *Folklore by the Fireside* is a thorough and insightful study of this custom—from the tales, riddles, lullabies, and folk prayers performed as the small children are put to bed to the courtship songs and dances later in the evening to the anti-veglia male gossip, card games, and protest songs originating in the tavern. Alessandro Falassi skillfully correlates the veglia to the rites of passage and family values of an agrarian society. Although the impact of mass media and other factors has tended to weaken the tradition, even today Tuscan children are taught to behave and adolescents are guided along the conventional path to adulthood, courtship, and marriage through veglia folklore. This is the first work to deal systematically with Tuscan folklore from a semiotic and structural viewpoint and to examine the veglia as a means of handing down traditional values. It is important not only for its careful, detailed description but also for its rigorous methodology and theoretical richness.

**Infant Musicality** - Johannella Tafuri 2017-07-05

What can infants hear? What are their reactions to music? Is it useful for them to sing and listen to music? Is their auditory sensitivity developed before their birth? At what age do they start singing, and clapping their hands? How can their musical development be improved? These (and other) questions are present in today's debate on music education and the responses are normally given in an intuitive way. It is now necessary and urgent to sketch a developmental profile of infants, starting from their earliest manifestations. In the last 30 years, research in this field has been progressively developed. In most cases

research has been devoted to single aspects of more complex problems. Moreover, it has been based on non-homogeneous categories of subjects and by different methods. Motivated by the fact that many open problems need to be solved, Professor Tafuri decided, in 1998, to begin a longitudinal research project devoted to studying the musical development in children from 0 to 6 years, with particular attention on the ability to sing in tune. During these 6 years, the children would have a regular music education experience with their mothers and often other members of the immediate family. This book has two main areas of focus. The first reconstructs the development of human musical abilities. Tafuri systematically reports studies of the development of vocal, rhythmic and motor abilities through the observation of the same participants for three years, beginning with the mothers' experiences in the last three months of pre-natal life. The programme of musical activities and the modalities of the collaboration with the parents are described. The second area of focus puts forward an educational perspective based on the results of the research. The amount and the quality of the collected data can allow parents and educators to plan different activities by considering the starting point for individual participants and the development of the *Current Issues in Second Language Research and Methodology* - Canadian Society for Italian Studies 1989
