Small History of a

Disagreement - Claudio

Fuentes 2020-10-27

A lively introduction to debate, democracy, and citizenship. “A refreshing and timely reminder that disagreement can—and should—be productive.” — Kirkus

Should an ancient monkey puzzle tree be cut down to make room for exciting new classrooms? In this spirited picture book, students must work together to come to an agreement—but it’s not as easy as it seems! On the first day back at school after the holidays, a group of classmates notice a construction crane parked next to the old monkey puzzle tree. The school principal says the tree will be cut down to make room for new science classrooms and computer labs. The classmates are divided, with some in favor of innovation, and others calling for the protection of the thousand-year-old tree. As they protest, march, fight, and strike, one teacher offers a solution: Why not hold a debate? The principal agrees, and at the end of the debate, a student vote will end the disagreement, once and for

all—or will it? Inspirational without being didactic, and filled with warm, lively illustrations, this wonderful introduction to the process of debate, listening, and collective decision-making will be read by young and old alike for years to come. An Aldana Libros Book

Mighty Jack - Ben Hatke
2016-09-06

Jack might be the only kid in
the world who's dreading
summer. But he's got a good
reason: summer is when his
single mom takes a second job
and leaves him at home to
watch his autistic kid sister,
Maddy. It's a lot of
responsibility, and it's boring,
too, because Maddy doesn't
talk. Ever. But then, one day at
the flea market, Maddy does
talk—to tell Jack to trade their
mom's car for a box of
mysterious seeds. It's the best
mistake Jack has ever made. In
Mighty Jack, what starts as a
normal little garden out back
behind the house quickly grows
up into a wild, magical jungle

with tiny onion babies running
amok, huge, pink pumpkins
that bite, and, on one moonlit
night that changes
everything...a dragon.

On Empson - Michael Wood
2017-04-04

From one of today's most
distinguished critics, a
beautifully written exploration
of one of the twentieth
century's most important
literary critics Are literary
critics writers? As Michael
Wood says, "Not all critics are
writers—perhaps most of them
are not—and some of them are
better when they don't try to
be." The British critic and poet
William Empson (1906–84), one
of the most important and
influential critics of the
twentieth century, was an
exception—a critic who was not
only a writer but also a great
one. In this brief book, Wood,
himself one of the most gifted
writers among contemporary
critics, explores Empson as a
writer, a distinguished poet
whose criticism is a brilliant
literary performance—and
proof that the act of reading
can be an unforgettable

adventure. Drawing out the singularity and strength of Empson's writing, including its unfailing wit, Wood traces the connections between Empson's poetry and criticism from his first and best-known critical works, *Seven Types of Ambiguity* and *Some Versions of Pastoral*, to later books such as *Milton's God* and *The Structure of Complex Words*. Wood shows why this pioneer of close reading was both more and less than the inventor of New Criticism—more because he was the greatest English critic since Coleridge, and didn't belong to any school; and less because he had severe differences with many contemporary critics, especially those who dismissed the importance of an author's intentions. Beautifully written and rich with insight, *On Empson* is an elegant introduction to a unique writer for whom literature was a nonstop form of living.

2014-08-12

Traumatized by memories of his war-ravaged country, and with his son and daughter-in-law dead, Monsieur Linh travels to a foreign land to bring the child in his arms to safety. The other refugees in the detention center are unsure how to help the old man; his caseworkers are compassionate, but overworked. Monsieur Linh struggles beneath the weight of his sorrow, and becomes increasingly bewildered and isolated in this unfamiliar, fast-moving town. And then he encounters Monsieur Bark. They do not speak each other's language, but Monsieur Bark is sympathetic to the foreigner's need to care for the child. Recently widowed and equally alone, he is eager to talk, and Monsieur Linh knows how to

listen. The two men share their solitude, and find friendship in an unlikely dialogue between two very different cultures. Monsieur Linh and His Child is a remarkable novel with an extraordinary twist, a subtle portrait of friendship and a dialogue between two cultures.

Book Excerpt: ...st and meals and other domestic matters were timed by them. To keep

thus ahead of time was an old custom in many country families which was probably instituted to ensure the early rising of man and maid in the days when five or even four o'clock was not thought an unreasonably early hour at which to begin the day's work. The smiths still began work at six and Zillah, the maid, was downstairs before seven, by which time Miss Lane and, later, Laura, was also up and sorting the morning mail. The kitchen was a large room with a flagstone floor and two windows, beneath which stood a long, solid-looking table large enough to accommodate the whole household at mealtimes. The foreman and three young unmarried smiths lived in the house, and each of these had his own place at table. Miss Lane, in a higher chair than the others, known as a carving-chair, sat enthroned at the head of the table, then, on the side facing the windows, came Laura and Matthew, the foreman, with a long space of tablecloth between them, .

Maybe... - Chris Haughton

2021-11-30

A trio of misbehaving, mango-loving monkeys have a close call as the creator of Don't Worry, Little Crab gives readers a taste of vicarious mischief. Whatever you do, do NOT go down to the mango tree. There are tigers down there." Mmm . . . mangoes! think the little monkeys. They LOVE mangoes. Hmm . . . Maybe . . . maybe they could just look at the mangoes. That would be OK, right? With vivid colors, bold shapes, and his trademark visual humor, Chris Haughton is back with a deliciously suspenseful cautionary tale about pushing boundaries—and indulging your more impish side (when nobody is looking).

The Age of Catastrophe -

Heinrich August Winkler

2015-01-01

One of Germany's leading historians presents an ambitious and masterful account of the years encompassing the two world wars. Characterized by global war, political revolution and national crises, the period between 1914 and 1945 was one of the most horrifying eras in the history of the West. A noted scholar of modern German history, Heinrich August Winkler examines how and why Germany so radically broke with the normative project of the West and unleashed devastation across the world. In this total history of the thirty years between the start of World War One and the dropping of atomic bombs on Hiroshima and Nagasaki, Winkler blends historical narrative with political analysis and encompasses military strategy, national identity, class conflict, economic development and cultural

change. The book includes astutely observed chapters on the United States, Japan, Russia, Britain, and the other European powers, and Winkler's distinctly European perspective offers insights beyond the accounts written by his British and American counterparts. As Germany takes its place at the helm of a unified Europe, Winkler's fascinating account will be widely read and debated for years to come.

The Ascendancy of Finance - Joseph Vogl 2017-09-05

The global financial crisis of 2008 ushered in a system of informal decision-making in the grey zone between economics and politics. Legitimized by a rhetoric of emergency, ad hoc bodies have usurped democratically elected governments. In line with the neoliberal credo, the recent crisis has been used to realize the politically impossible and to re-align executive power with the interests of the finance industry. In this important book, Joseph Vogl offers a much longer perspective on these developments, showing

how the dynamics of modern finance capitalism have always rested on a complex and constantly evolving relationship between private creditors and the state. Combining historical and theoretical analysis, Vogl argues that over the last three centuries, finance has become a "fourth estate," marked by the systematic interconnection of treasury and finance, of political and private economic interests. Against this historical background, Vogl explores the latest phase in the financialization of government, namely the dramatic transfer of power from states to markets in the latter half of the 20th century. From the liberalization of credit and capital markets to the privatization of social security, he shows how policy has actively enabled a restructuring of the economy around the financial sector. Political systems are "imprisoned" by the regime of finance, while the corporate model suffuses society, enclosing populations in the

production of financial capital. *The Ascendancy of Finance* provides valuable and unsettling insight into the genesis of modern power and where it truly resides.

You Big and Me Small -

Gregoire Solotareff 2017-08-15

A charming story about friendship and acceptance. A lion finds a baby elephant, cold and alone outside the door of his castle. The lion takes in the elephant and they become friends. They play games (mostly what the lion wants) and the small elephant sings for the lion, songs that his mother taught him. The lion tells the elephant many stories of his adventurous life, his travels, the animals he fought, his many grand possessions and, most especially, his throne and crown. For, he is the king. "You big and me small" becomes their secret couplet of affection. But soon the elephant outgrows the lion, as an elephant will. The lion is unhappy. He no longer feels like the king, he is no longer bigger. The elephant goes on his knees so the lion can ride on his back. Still the lion feels small. The elephant sings to

the lion that even though he is the smaller, he will always be the greater, for he is a lion. Still it is not enough for the lion. In a sour mood, he sends the elephant away. Time passes. One day, the elephant is riding through town in a taxi when he sees someone on a sidewalk, draped in a blanket. It is the lion, cold and alone. "Good morning majesty! Can I help you?" "Majesty?" asks the lion, astonished. "I recognize you! You are the little elephant that I brought in and then drove out of my house! I am big and you are small!" "You big and me small!" replies the elephant. They throw themselves into each other's arms. "What has happened to you?" asks the elephant. "Oh," said the lion. "I have not been a king for a long time. I was chased away. I was too proud!" The elephant reassures the king that while he may not have a crown, he will always be great, he will always be big. "You are always the king!" And this time it is the elephant that helps the lion.
