The Inner Life of Animals - Peter Wohlleben 2017-11-07

From the New York Times-bestselling author of *The Hidden Life of Trees*. "The Inner Life of Animals will rock your world. This book shows us that animals think, feel and know in much the same way as we do."—Sy Montgomery, bestselling author of *The Soul of an Octopus* Through vivid stories of devoted pigs, two-timing magpies, and scheming roosters, *The Inner Life of Animals* weaves the latest scientific research into how animals interact with the world with Peter Wohlleben's personal experiences in forests and fields. We learn that horses feel shame, deer grieve, and goats discipline their kids. Ravens call their friends by name, rats regret bad choices, and butterflies choose the very best places for their children to grow up. In this captivating book, Peter Wohlleben follows the hugely successful *The Hidden Life of Trees* with insightful stories into the emotions, feelings, and intelligence of animals around us. Animals are different from us in ways that amaze us—and they are also much closer to us than we ever would have thought. "Wry, avuncular, careful and kind. . . Each story adds to a widening vision of intelligence, emotion and relationship."—The Guardian Published in Partnership with the David Suzuki Institute

This translation of the French bestseller brings readers an intimate, insightful, and wide-ranging conversation between Buddhist monk and author Matthieu Ricard, philosopher Alexandre Jollien, and psychiatrist Christophe André. "We don't pretend to be experts on the subject matter or models in accomplishing the work or overcoming the obstacles involved in it," they write. "We are only travelers in search of wisdom, aware that the path is long and arduous, and that we have so much still to discover, to clarify, and to assimilate through practice . . . Our dearest wish is that when you cast your eyes on these pages, you will discover subjects for reflection to inspire you and brighten the light of your life." In *In Search of Wisdom Highlights* • Discovering our deepest aspirations • The ego: friend or impostor? • Learning to live with the full spectrum of our emotions • The art of listening • The body: burden or idol? • Suffering and its origins • The joy of altruism • The school of simplicity • Guilt and forgiveness • True freedom • Daily practice

[On the Animal Trail](#) - Baptiste Morizot 2021-06-11

From the forests of Yellowstone to the steppes of the Haut-Var, the French philosopher and

environmentalist Baptiste Morizot invites us to develop a different relationship to nature: to become detectives of nature and to follow the footprints of the many wonderful and extraordinary animals with which we share the Earth. By deciphering and interpreting an animal's footprints and other signs, we gradually discover not only which animal it is, but the animal's motives too. Through this kind of 'philosophical tracking', we come to see the world from the animal's point of view, to learn to live in this world from the perspective of another species. We begin to let go of our anthropocentric point of view and to recapture the kind of perspective that our ancestors once had when they had no choice but to adopt an animal point of view if they wanted to survive. In short, by following animal trails, we learn how to pay increased attention to the living world around us and how to cohabit this world with others, thereby enriching our understanding of other species, of the world we share with them and of ourselves.

Capital Letters - Ève Morisi 2020-03-15

Capital Letters sheds new light on how literature has dealt with society's most violent legal institution, the death penalty. It investigates this question through the works of three major French authors with markedly distinct political convictions and literary styles: Victor Hugo, Charles Baudelaire, and Albert Camus.

Working at the intersection of poetics, ethics, and law, Ève Morisi uncovers an unexpected transhistorical dialogue on both the modern death penalty and the ends and means of literature after the French Revolution. Through close textual analysis, careful contextualization, and the critique of violence forged by Giorgio Agamben, Michel Foucault, and René Girard, Morisi reveals that, despite their differences, Hugo, Baudelaire, and Camus converged in questioning France's humanitarian redefinition of capital punishment dating from the late eighteenth century. Conversely, capital justice led all three writers to interrogate the functions, tools, and limits of their art. Capital Letters shows that the key modern debate on the political and moral responsibility, or autonomy, of literature crystallizes around the death penalty in works whose form disturbs the commonly accepted divide between aestheticism and engagement.

Inside the Mind of Vladimir Putin - Michel Eltchaninoff 2018

The Russian president's landmark speeches, interviews and policies borrow heavily from great Russian thinkers past and present, from Peter the Great to Dostoevsky and Solzhenitsyn. They offer powerful visions of strong leaders and the Russian nation: they value conservatism and the Slavic spirit. They root morality in Orthodoxy, and Russian identity in the historic struggle with the West. Today, Putin manages and manipulates those same ideas in his 'defense' of 130 million ethnic Russians against the world. With the annexation of Crimea, the war in Syria and shock election results across the West, the challenge of decrypting his worldview has become more pressing than ever. From a Eurasian Union to a new Russian Empire, this is a revealing tour of Kremlin doctrine and strategy, viewed through its philosophical roots.

Power in International Criminal Justice - Mark Klamberg 2020-12-09

Edited by Morten Bergsmo, Mark Klamberg, Kjersti Lohne and Christopher B. Mahony, this book comprehensively explores the role and manifestations of power in international criminal justice. Twenty chapters discuss this topic in four main parts: power in international criminal justice institutions (Part I), representational power in international criminal justice (Part II), state power and autonomy in international criminal justice (Part III), and non-state power and external agents in international criminal justice (Part IV). The book invites the crystallisation of a sociology of international criminal justice, and argues that among its focuses should be the wielding of power within and over international criminal justice institutions, just as this is a feature of sociology of law within several countries. The contributors to this anthology are Marina Aksenova, Mayesha Alam, Helena Anne Anolak, David Baragwanath, Morten Bergsmo, Mikkel Jarle Christensen, Marieke de Hoon, Djordje Djordjevic, Gregory S. Gordon, Jacopo Governa, Alexander Heinze, Emma Irving, Mark Klamberg, Sarah-Jane Koulen, Kjersti Lohne, Christopher B. Mahony, Jolana Makraiová, Jackson Nyamuya Maogoto, Benjamin Adesire Mugisho, Tosin Osasona, Sara Paiusco, Barrie Sander, Joachim J. Savelsberg, Jacob Sprang, Chris Tenove and Sergey Vasiliev. The chapters draw on papers presented at a conference held in Florence in October 2017 co-organized by the

Centre for International Law Research and Policy (CILRAP) and the International Nuremberg Principles Academy.

Biodiversity, Food and Nutrition - Danny Hunter 2020-05-15

This book examines the challenges and impacts of poor diets and nutrition from current food systems and the potential contribution of biodiversity and ecosystem services in addressing these problems. There is a strong need for a multi-level, cross-sectoral approach that connects food biodiversity conservation and sustainable use to address critical problems in our current food systems, including malnutrition. Building on research from the Biodiversity for Food and Nutrition Project (BFN), which aims to better link biodiversity, diets and nutrition, the book presents a multi-country, cross-sectoral analysis of initiatives that have promoted local food biodiversity in four countries: Brazil, Kenya, Turkey and Sri Lanka. This book offers a comprehensive summary of the BFN Project results in each of the four countries along with lessons learned and how this work could be upscaled or applied in other regions. It argues that the strategic promotion and use of food biodiversity is critical in uniting attempts to address conservation, nutrition and livelihood concerns. The book is structured around chapters and case studies encompassing the BFN Project with specific experiences related by partners who played key roles in the work being done in each country. By offering a comparative view capable of furthering dialogue between the respective countries, it is also meant to connect the individual cases for a "greater than the sum of its parts" effect. This means consideration of how localized activities can be adapted to more countries and regions. Therefore, the book addresses global issues with a foot planted firmly in the grounded case study locations. This book will be of great interest to policymakers, practitioners and NGOs working on food and nutrition, as well as students and scholars of agriculture, food systems and sustainable development.

The Bullet Journal Method - Ryder Carroll 2021-12

THE NEW YORK TIMES BESTSELLER Transform your life using the Bullet Journal Method, the revolutionary organisational system and worldwide phenomenon. The Bullet Journal Method will undoubtedly transform your life, in more ways than you can imagine' Hal Elrod, author of The Miracle Morning In his long-awaited first book, Ryder Carroll, the creator of the enormously popular Bullet Journal organisational system, explains how to use his method to: * TRACK YOUR PAST: using nothing more than a pen and paper, create a clear, comprehensive, and organised record of your thoughts and goals. * ORDER YOUR PRESENT: find daily calm by prioritising and minimising your workload and tackling your to-do list in a more mindful and productive way. * PLAN YOUR FUTURE: establish and appraise your short-term and long-term goals, plan more complex projects simply and effectively, and live your life with meaning and purpose. Like many of us, Ryder Carroll tried everything to get organised - countless apps, systems, planners, you name it. Nothing really worked. Then he invented his own simple system that required only pen and paper, which he found both effective and calming. He shared his method with a few friends, and before long he had a worldwide viral movement. The system combines elements of a wishlist, a to-do list, and a diary. It helps you identify what matters and set goals accordingly. By breaking long-term goals into small actionable steps, users map out an approachable path towards continual improvement, allowing them to stay focused despite the crush of incoming demands. But this is much more than a time management book. It's also a manifesto for what Ryder calls "intentional living": making sure that your beliefs and actions align. Even if you already use a Bullet Journal, this book gives you new exercises to become more calm and focused, new insights on how to prioritise well, and a new awareness of the power of analogue tools in a digital world. *** This book has been printed with three different colour designs, black, Nordic blue and emerald. We are unable to accept requests for a specific cover. The different covers will be assigned to orders at random. ***

Organisational Resilience - Ran Bhamra 2015-12-01

An eternal dilemma for all organizations, and one that a considerable portion of management schools are set up to address, is how to become and stay competitive. Organisational Resilience: Concepts, Integration, and Practice brings together, for the first time, key works that describe the scope and nature of resilience and provides direction to take the field forwards. A response not only to rapidly growing interest in this field, but to the increased importance placed on it, the book presents a broad introduction to research, knowledge, and practice. The book captures the diversity and depth of current thinking about research on organizational-related resilience. The book explains fundamental concepts and clarifies some underlying ideas from diverse fields of resilience-related research. It examines how some of these concepts and ideas have been integrated into specific research activity and used to further develop their respective fields of enquiry. The connecting of concepts and ideas to existing readily helps to progress the development of theory. The book then focuses on aspects of real World practice and experience. However, the central theme about resilience as a concept is that it is not merely concerned with survival pure and simple, but that this survival involves transformation more often than not. Examining resilience at the organizational level, this book clarifies the commonality of concepts and practice that exists among disparate research disciplines and establishes a singular ‘go-to’ work that can be used to develop operational and strategic practices.

Suddenly the Minotaur - Marie H  l  ne Poitras 2006

Why did Guatemalan immigrant Mino Torr  s try to rape Quebec student Ariane? What was the failed attempt's aftermath? In this terse, prize-winning novel, Marie H  l  ne Poitras, with an imagination tutored by the Minotaur myth, offers a controversial tale about a thug who exults in his ferocious urges and is as incorrigible as a primal force. Torr  s (the bull) enthusiastically and unapologetically seeks hectic transcendence through rape and recurring fits of epilepsy. Ariane (Ariadne), straying into his twisted, downtown Montreal labyrinth, suffers the consequences of his random sexual predation, though significantly, her refusal to be a terrorized and passive victim haunts him. Ariane's deliverance from his maze, her conquest of persistent fears, is prolonged past her assailant's capture. Once more she must learn to live and love in particular, men to pick up and follow the thread of human trust, to feel sure again about

her flat's dark places and her walk-in cupboard's contents. On the site of the Berlin Wall, in a reunified Germany that has survived its own and other regimes' violent perversions, she permits herself to be gently hoisted up and passed from palm-to-palm over a vast and joy-filled crowd. she permits herself to be gently hoisted up and passed from palm-to-palm over a vast and joy-filled crowd.

Uumajursiutik unaatuinnamut / Hunter with Harpoon / Chasseur au harpon - Markoosie Patsauq 2021-01-20

Fifty years ago, Markoosie Patsauq, then a bush pilot in his late twenties living in the tiny, isolated High Arctic community of Resolute, spent his spare time quietly writing a story that effectively emerged as the first Indigenous novel released in Canada. Published in English under the title *Harpoon of the Hunter* in 1970 by McGill-Queen's University Press, that version of the story was Patsauq's own adaptation. In the years that followed the widely acclaimed English edition was translated into many different languages, but what has remained obscured until the present day is the Inuktitut text originally produced by the author. In collaboration with Patsauq, Valerie Henitiuk and Marc-Antoine Mahieu have foregrounded the original Inuktitut text to inform their translations into both English and French. This critical edition, complete with the story in both Inuktitut syllabics and Latin script, utilizes the author's handwritten manuscript as well as interviews with Patsauq to produce a new, rigorous examination of this literary and cultural milestone. This work also includes the first comprehensive account of the critical response to his writing while underscoring the way the much-altered English adaptation from 1970 shaped that response. A momentous achievement that situates a new classic in the twenty-first century, *Hunter with Harpoon* brings readers back to the roots of Markoosie Patsauq's Inuit story to experience it as it was originally written.

The End of Protest - Micah White 2016-03-15

Is protest broken? Micah White, co-creator of Occupy Wall Street, thinks so. Disruptive tactics have failed to halt the rise of Donald Trump. Movements ranging from Black Lives Matter to environmentalism are leaving activists frustrated. Meanwhile, recent years have witnessed the largest protests in human history. Yet these mass mobilizations no longer change society. Now activism is at a crossroads: innovation or irrelevance. In *The End of Protest* Micah White heralds the future of activism. Drawing on his unique experience with Occupy Wall Street, a contagious protest that spread to eighty-two countries, White articulates a unified theory of revolution and eight principles of tactical innovation that are destined to catalyze the next generation of social movements. Despite global challenges—catastrophic climate change, economic collapse and the decline of democracy—White finds reason for optimism: the end of protest inaugurates a new era of social change. On the horizon are increasingly sophisticated movements that will emerge in a bid to challenge elections, govern cities and reorient the way we live. Activists will reshape society by forming a global political party capable of winning elections worldwide. In this provocative playbook, White offers three bold, revolutionary scenarios for harnessing the creativity of people from across the political spectrum. He also shows how social movements are created and how they spread, how materialism limits contemporary activism, and why we must re-conceive protest in timelines of centuries, not days. Rigorous, original and compelling, *The End of Protest* is an exhilarating vision of an all-encompassing revolution of revolution.

Jesuit Kaddish - James Bernauer, S.J. 2020-03-30

While much has been written about the Catholic Church and the Holocaust, little has been published about the hostile role of priests, in particular Jesuits, toward Jews and Judaism. Jesuit Kaddish is a long overdue

study that examines Jesuit hostility toward Judaism before the Shoah and the development of a new understanding of the Catholic Church's relation to Judaism that culminated with Vatican II's landmark decree *Nostra aetate*. James Bernauer undertakes a self-examination as a member of the Jesuit order and writes this story in the hopes that it will contribute to interreligious reconciliation. Jesuit Kaddish demonstrates the way Jesuit hostility operated, examining Jesuit moral theology's dualistic approach to sexuality and, in the case of Nazi Germany, the articulation of an unholy alliance between a sexualizing and a Judaizing of German culture. Bernauer then identifies an influential group of Jesuits whose thought and action contributed to the developments in Catholic teaching about Judaism that eventually led to the watershed moment of *Nostra aetate*. This book concludes with a proposed statement of repentance from the Jesuits and an appendix presenting the fifteen Jesuits who have been honored as "Righteous Among the Nations" by Israel's Yad Vashem Holocaust Center. Jesuit Kaddish offers a crucial contribution to the fields of Catholicism and Nazism, Catholic-Jewish relations, Jesuit history, and the history of anti-Semitism in Europe.
