Flower Fables - Louisa May Alcott 2020-10-13
We are no longer children, — but it is not long since we were; and remembering that golden time, when the sun was brighter, the flowers twice as many, the rivers larger, and everything fairer, than it ever has been since, we welcome this book of fables for children. The writer of them was herself a girl of sixteen when they were written, — many, many years ago, — and of course their chief charm is for younger people than we venerable undergraduates. And the children (whose judgment is best) declare loudly for the book, and listen pleased for hours to the

adventures of Lily-Bell and Thistledown and the kind little Ripple. But others also can find a pleasure in the love and knowledge of Nature which the book shows, and in its graceful fancies and sweet lessons of charity and patience. The men and women who write stories for children do a greater work for the world than we are wont to think of. Horace praised poets because they formed the "tender mouth" of children, and turned them from the vile to the beautiful. Miss Alcott does not need to "Claim the shelter from her sire of an immortal name," for she has earned praises for herself.

Flower Spirit Cards - Melanie Eclair 2004
Flower Spirit Cards are the first in a series of nature spirit divination cards, designed to enable us to tap into the infinite wisdom of nature spirits, or 'devas', an ancient Sanskrit word meaning 'shining one' used to describe the inner life of a plant. Cards are divided into four sets of eleven: bulbs, annuals, perennials, and wildflowers, representing our past, our present, our future, and our true or 'higher' selves. The cards have been created as a bridge between

two worlds, revealing the extraordinary healing messages that can be received from flower spirits. They offer the user an extra tool for enlightenment and a means to expand their consciousness and connections with nature. This exquisitely designed package contains a pack of 44 flower spirit divination cards and an accompanying book with full instructions for the different ways for laying out and interpreting the cards. Once discovered you can also involve the messages of the flower spirits in your life in a more direct way by growing the flowers - thus surrounding yourself with their supportive messages.

often money—for the spirits of deceased family members, ancestors, and myriads of demons and divinities. Although frequently denigrated as wasteful and vulgar and at times prohibited by governing elites, today this venerable custom is as popular as ever. *Burning Money* explores the cultural logic of this common practice while addressing larger anthropological questions concerning the nature of value. The heart of the work integrates Chinese and Western thought and analytics to develop a theoretical framework that the author calls a “materialist aesthetics.” This includes consideration of how the burning of paper money meshes with other customs in China and around the world. The work examines the custom in contemporary everyday life, its origins in folklore and history, as well as its role in common rituals, in the social formations of dynastic and modern times, and as a “sacrifice” in the act of consecrating the paper money before burning it. Here the author suggests a great divide between the modern means of

cultural reproduction through ideology and reification, with its emphasis on nature and realism, and previous pre-capitalist means through ritual and mystification, with its emphasis on authenticity. The final chapters consider how the burning money custom has survived its encounter with the modern global system and internet technology. Innovative and original in its interpretation of a common ritual in Chinese popular religion, *Burning Money* will be welcomed by scholars and students of Chinese religion as well as comparative religion specialists and anthropologists interested in contemporary social theory.

Flower Flash - Lewis Miller 2021-11-02
From Lewis Miller, the celebrated floral designer and "Flower Bandit" himself, an intimate and joyous behind-the-scenes look at his signature Flower Flashes as they introduced bright moments of natural beauty into the city when they were needed most. Before dawn one morning in October 2016, renowned New York-based floral designer Lewis Miller stealthily arranged hundreds of brightly colored dahlias,

carnations, and mums into a psychedelic halo around the John Lennon memorial in Central Park. The spontaneous floral installation was Miller's gift to the city—an effort to spark joy during a difficult time. Nearly five years and more than ninety Flower Flashes later, these elaborate flower bombs—bursts of jubilant blooms in trash cans, over bus canopies, on construction sites and traffic medians—have brought moments of delight and wonder to countless New Yorkers and flower lovers everywhere, and earned Miller a following of dedicated fans and the nickname the "Flower

Bandit." After New York City entered lockdown, Miller doubled down, creating Flower Flashes outside hospitals to express gratitude to frontline health workers and throughout the city to raise spirits. This gorgeous and poignant visual diary traces the phenomenon from the first, spontaneous Flower Flash to the even more profound installations of the pandemic through a kaleidoscopic collage of photos documenting the Flower Flashes, behind-the-scenes snapshots, Miller's inspiration material, fan contributions, and more.
