*More Crop Per Drop* - Meredith Giordano  
2007-01-01

This volume is an analytical summary and a critical synthesis of research at the International Water Management Institute over the past decade under its evolving research paradigm known popularly as 'more crop per drop'. The research synthesized here covers the full range

of issues falling in the larger canvas of water-food-health-environment interface. Besides its immediate role in sharing knowledge with the research, donor, and policy communities, this volume also has a larger purpose of promoting a new way of looking at the water issues within the broader development context of food, livelihood, health and environmental challenges.

More crop per drop: Revisiting a research paradigm contrasts the acquired wisdom and fresh thinking on some of the most challenging water issues of our times. It describes new tools, approaches, and methodologies and also illustrates them with practical application both from a global perspective and within the local and regional contexts of Asia and Africa. Since this volume brings together all major research works of IWMI, including an almost exhaustive list of citations, in one single set of pages, it is very valuable not only as a reference material for researchers and students but also as a policy tool for decision-makers and development agencies.

**The Soulful Seeker** - Punam Chadha-Joseph  
When writer-poet Punam Chadha-Joseph took to the pen, to give expression to the scale of emotions she went through in a single day, what emerged over time was a cyclical play of love, joy, wonder, peace, anger, courage, sadness, fear and even despair in varying intensities.

Having always been forthright, outspoken and a nonconformist, conventional morality was open for debate as was gender stereotyping. The writer-poet's enquiry into matters philosophical and comical, culminated in *The Soulful Seeker*, a moving collection of poems that resonates our aspirations, hopes, longings and disappointments, and above all, our ever-changing notion of ideality. A delightful read indeed! "A good poet's task is to provoke thought through simple language. For, translating Descartes, I think, therefore I am. Doing this is not easy. Punam, however, does it simply and well. Do read her poems and you will find yourself thinking. And equally importantly, often find yourself smiling too. For as she rightly says, there are 'little bubbles of happiness that (we) often forget to see'." Amish Tripathi, award-winning author, *The Shiva Trilogy* and *Scion of Ikshvaku* "A delicate rhythmic journey laced with clarity and elegance, the warmth of Punam's persona reflects beautifully in this collection. I'm

sure it will engross every reader who is 'A Soulful Seeker'!" Padma Shri Prasoon Joshi, National Award-winning poet, song-writer, screen-writer & advertising legend. After completing her Bachelor's in Economics (Honours) from St. Xavier's College, Mumbai, Punam Chadha-Joseph joined the prestigious Oberoi School of Hotel Management in Delhi to do her post-graduation. In the course of her work-life, she met her husband Sabbas Joseph, the Founder-Director of Wizcraft, India's pioneer Event Management agency. *The Soulful Seeker* is her first book of poems, and she is ready with another one, especially written for children, based on appreciating and saving the environment. Sketching being a new hobby, she has incorporated many of her sketches in *The Soulful Seeker*, including the very striking visual on the cover. Talking Points - Foreword by National Award-winning actress and activist Shabana Azmi - Endorsed by bestselling author Amish Tripathi, Padmashri and National Award-

winning poet and lyricist Praseon Joshi, National-Award winning director, Rakeysh Omprakash Mehra, and popular Bollywood actress Sonakshi Sinha among others - Debut collection of poems by artist-writer Punam Chadha-Joseph - Accompanied by Punam Chadha-Joseph's beautiful artwork

### **My Prison Journey : An Incredible Achievement** - BHANUBHAI PATEL

Have you ever heard or read about a world record in education in the most adverse environment of the prison? Probably the answer would be 'No'. I must admit that I was fortunate to accomplish such an achievement in the prison and outside the prison. I am very curious to share with you and reveal to you all the aspects and secrets of my achievement that led to the world record in education in prison. 'Adversity causes some men to break, others to break records' a maxim by famous maxim writer 'William Arthur Ward' which has been proved appropriate by my achievement. Because I

accomplished this achievement in the most adverse and indifferent prison environment. The goal was very tough and difficult because education and prison are very contradictory and conflicting in nature. Generally, studying in a prison environment is a very difficult task. It's like swimming in the opposite direction of the flow. Have I also revealed what kind of environment is there in prison? From the outside, only projections and guesses can be made about it. Most prisoners in prison suffer from negative factors such as anxiety, frustration, worry, fear, depression, despair, anger, feelings of retaliation, etc. Sometimes they may lose their mental stability and mental balance. Incarceration makes life difficult for prisoners inside the prison and outside the prison after their release. In such a prison's negative environment, it is very difficult to form a circle of mental peace, mental balance, and a positive attitude for noble and sacred activities like education which needs a special role of the

sound mind. At the age of fifty, I began to study again in life in an adverse and negative environment of prison. Even though both my place of study (prison) and my age (50+) did not match with the activities of study, I completed 31 educational courses in this adverse environment of the prison. At the same time, performing the duty of managing study centers located inside the prison premises and set a world record in education. This book has been written with my sublime desire to share my immense pleasure and contentment with my unique, unparalleled achievement and how I accomplished it. After being released from prison, I continued my study while doing a full-time job at Dr. Babasaheb Ambedkar Open University and completed 23 more educational courses taking the tally of my educational courses to 54. I completed them with good grades and in just 12 years. Being a prisoner is destiny; but establishing a world record as a prisoner in education in prison is a testament to

the ability to shape one's personality with strong morale, self-confidence, and inner strength. This book is based on my prison experience or my prison journey and in my prison experience, education was at the center. I chose the medium of this book to convey my message to my readers revealing how I accomplished this gigantic task. Hopefully, this life story will prove to be inspiring to you and will encourage you with great vigor and passion to achieve your unique, unimaginable achievements and to conquer the highest peaks in life. With best wishes. "Prison is a laboratory of turning difficulties and adversities into success." - Bhanu Patel

Memoir of one of India's most prominent businessmen The pioneer who gate-crashed his way to the top Subhash Chandra, the promoter of Essel/ Zee Group, is an unlikely mogul. Hailing from a small town in Haryana, where his family ran grain mills, Chandra has been a perennial outsider, repeatedly aiming high and breaking into businesses where he was considered an interloper. Starting work as a teen to pay off family debts, Chandra had to rely on bluff, gumption and sheer hard toil to turn things around. A little bit of luck and political patronage saw him make a fortune in rice exports to the erstwhile USSR. Always a risk-taker, Chandra then had the vision of getting into broadcasting early, even as established media players failed to see its potential. His Zee TV, India's first private Indian TV channel, changed the rules of the game and tickled the fancy of a public starved of entertainment. Several gutsy initiatives followed, though not all of them were successful. Chandra's attempts to

launch satellite telephony and a cricket league came a cropper. But the man continues to reinvent himself; he is now also focusing on infrastructure and smart cities. This is an unusually candid memoir of a truly desi self-made businessman who came to Delhi at age twenty with seventeen rupees in his pocket. Today, he has a net worth of \$6.3 billion and annual group revenues of about \$3 billion. Interaction of Media, Cognition, and Learning - Gavriel Salomon 2012-12-06

The educational use of television, film, and related media has increased significantly in recent years, but our fundamental understanding of how media communicate information and which instructional purposes they best serve has grown very little. In this book, the author advances an empirically based theory relating media's most basic mode of presentation -- their symbol systems -- to common thought processes and to learning. Drawing on research in semiotics, cognition and

cognitive development, psycholinguistics, and mass communication, the author offers a number of propositions concerning the particular kinds of mental processes required by, and the specific mental skills enhanced by, different symbol systems. He then describes a series of controlled experiments and field and cross-cultural studies designed to test these propositions. Based primarily on the symbol system elements of television and film, these studies illustrate under what circumstances and with what types of learners certain kinds of learning and mental skill development occur. These findings are incorporated into a general scheme of reciprocal interactions among symbol systems, learners' cognitions, and their mental activities; and the implications of these relationships for the design and use of instructional materials are explored.

**Race, Myth and the News** - Christopher P. Campbell 1995-02-28

How are the perceptions of the majority culture, the 'preferred readings', reflected in television news? How do they reinforce stereotyped attitudes on race? This interpretive analysis presents evidence of racism, including under-representation, within news texts. The author examines the values, traditions and practices of news production that, often unconsciously, serve to maintain the alienation of racial groups in society. While the focus is on local television news in the United States, *Race, Myth and the News* has a broad relevance to studies of culture and race.

### **Distance Education Technologies in Asia -**

Jon Baggaley 2010-11-10

In Asia, Distance Education (DE) is providing major solutions in the areas of education and training. DE methods that are standard in other parts of the world, however, have yet to demonstrate their full potential in Asia. Covering nine DE projects by 39 researchers from 13 countries, this book analyses the DE scenario in

Asia, the successes, the failures and the reasons behind them. This book is a unique collation of the results of studies of educational technologies across an extensive network of Asian countries. It also provides a useful snapshot of DE's development in Asia in the early years of the 21st century. The surveys reported cover different DE contexts, methodologies, and levels of generalisability, and add to the existing scholarship on the subject by providing previously unavailable, firm evidence about DE's prospects in Asia. The contributors give important recommendations that can be translated into practical and political actions to help solve critical socio-economic problems of Asia as well as other parts of the world.

each of us as individuals. These levels are all interconnected. Hence the conflict that rages within a person will lead them to seek out conflict with another. Similarly, conflict between people of one nation is likely to result in conflict between many nations. So the first step to world peace is a simple one: we must first find peace within ourselves. Peace is Possible draws together age-old stories which, as they have been passed down over generations, inspired and transformed the lives of millions. From the power of adaptability, to the importance of trust, to the sticking-place of courage, these are the messages that will change the world. For good.
