Teaching the Italian Renaissance Romance Epic - Jo Ann Cavallo
2018-12-01

The Italian romance epic of the fifteenth and sixteenth centuries, with its multitude of characters, complex plots, and roots in medieval Carolingian epic and Arthurian chivalric romance, was a form popular with courtly and urban audiences. In the hands of writers such as Boiardo, Ariosto, and Tasso, works of remarkable sophistication that combined high seriousness and low comedy were created. Their works went on to influence Cervantes, Milton, Ronsard, Shakespeare, and Spenser. In this volume instructors will find ideas for teaching the Italian Renaissance romance epic along with its adaptations in film, theater, visual art, and music. An extensive resources section locates primary texts online and lists critical studies, anthologies, and reference works.

Handbook of Research on Contemporary Approaches to Orientalism in Media and Beyond - Tombul, I??l 2021-05-28

Orientalism is about much more than just information gathered about the East within its general postcolonial period. In this period, orientalism is a Western discourse that dominated and shaped the view of the East.

There is “otherization” in the way the West has historically looked at the East and within the information presented about it. These original stories of travelers in the past and previous telling about the East are facing a reconstruction through modern types of media. Cinema, television, news, newspaper, magazine, internet, social media, photography, literature, and more are transforming the way the East is presented and viewed.

Under the headings of post-orientalism, neo-orientalism, or self-orientalism, these new orientalist forms of work in combination with both new and traditional media are redefining orientalism in the media and beyond. The Handbook of Research on Contemporary Approaches to Orientalism in Media and Beyond shows how both new media and traditional media deal with orientalism today through the presentation of gender, race, religion, and culture that make up orientalist theory. The chapters focus on how orientalism is presented in the media, cinema, TV, photography, and more. This book is ideal for communications theorists, media analysts, practitioners, researchers, academicians, and students working in fields that include mass media, communications, film studies, ethnic studies, history, sociology, and cultural studies.

Auto-disruption - Alain Staron 2020-08-24

Au tout début de l'année 2020, le salon mondial de l'innovation CES témoignait des difficultés à conduire les innovations de rupture, à s'auto-disrupter. Et pourtant, le risque que les entreprises établies, parfois confortablement, disparaissent dans la décennie qui vient de s'ouvrir n'a jamais été aussi fort. Il leur est indispensable d'apprendre à pivoter. À travers de très nombreux exemples dont certains très récents, ce livre a pour objet d'expliquer les mécanismes successifs de la transformation digitale, qui, après avoir touché les collaborateurs, la relation client et les processus industriels, concerne maintenant la raison d'être de l'entreprise : sa proposition de valeur. Il décrit : les nouvelles façons d'innover l'avantage de capitaliser sur les écosystèmes quelques clés à propos des nouveaux paradigmes qui vont émerger dans le courant de cette décennie. Enfin, il met l'accent sur les méthodologies, les organisations et le management des équipes pour que l'entreprise allie au mieux les deux mécanismes antagonistes pourtant nécessaires à sa survie : la Transmission et la Disruption.

Karduniaš. Babylonia under the Kassites 2 - Alexa Bartelmus 2017-06-26

Karduniaš, as the kingdom of the Kassites in Babylonia was called in ancient times, was the neighbor and rival of great powers such as Egypt, the Hittites, and Assyria. But while our knowledge of the latter kingdoms has made huge progress in the last decades, the Kassites have until recently been largely ignored by modern scholarship. Recently a number of scholars have embarked on research into different aspects of Late Bronze Age Babylonia. The desire to share the results of these new investigations resulted in an international conference, which was held at Munich University in July 2011. The presentations given at this meeting have been revised for publication in the current volume. This book gives an overview of current research on the Kassites and is the first larger survey of their culture ever. An invaluable introduction by Kassite expert Professor John A. Brinkman is followed by seventeen specialist contributions investigating different aspects of the Kassites. These include detailed historical, social, cultural, archaeological, and art historical studies concerning the Kassites from their first arrival in Mesopotamia, during the period when a Kassite Dynasty ruled Babylonia (c. 1500-1550 BC), and in the subsequent aftermath. Concentrating on southern Mesopotamia the contributions also discuss Kassite relations and presence in neighboring regions. The book is completed by a substantial bibliography and a detailed index.

From Classicism to Modernism - Brian K. Etter 2019-07-30

This title was first published in 2001. The last century has witnessed the ascendancy of the avant-garde in music. From Schoenberg to Boulez to Stockhausen, the avant-garde has defined the modern conception of musical creativity. Contemporary serious music demands the "new" in terms of style, form and ways of listening and hearing. Implicit in this approach is the rejection of the "old", from the baroque to the music of the later 19th-century symphonists. Paradoxically, however, it is this "old" repertoire which continues to dominate concert programmes. An exploration of this dichotomy lies at the heart of this book. Drawing on a wealth of European philosophical and musical texts, the author examines the origins of the avant-garde and its relation to modernity in tandem with the history of the tonal tradition.

Negotiating Secular and Sacred in Medieval Art - Amanda Luyster 2017-07-05

Offering original analysis of the convergence between 'sacred' and 'secular' in medieval works of art and architecture, this collection explores both the usefulness and limitations of these terms for describing medieval attitudes. The modern concepts of 'sacred' and 'secular' are shown to be effective as scholarly tools, but also to risk imposing false dichotomies. The authors consider medieval material culture from a

broad perspective, addressing works of art and architecture from England to Japan, and from the seventh to the fifteenth century. Although the essays take a variety of methodological approaches they are unified in their emphasis on the continuing and necessary dialectic between sacred and secular. The contributors consciously frame their interpretations in terms and perspectives derived from the Middle Ages, thereby demonstrating how the present art-historical terminology and conceptual frameworks can obscure the complexity of medieval life and material culture. The resonance among essays opens possibilities for productive cross-cultural study of an issue that is relevant to a diversity of cultures and sub-periods. Introducing an innovative approach to the literature of the field, this volume complicates and enriches our understanding of social realities across a broad spectrum of medieval worlds.

Jamais elle n'épousera un homme dont elle n'est pas amoureuse ! Coup de foudre au palais, Robyn Donald Dès qu'elle croise le regard sombre du prince Luca de Dacie, Alexa comprend pourquoi cet homme a la réputation d'être un redoutable don Juan. Le bon plaisir d'un prince, Liz Fielding Laura est tout de suite sous le charme du prince Alexander de Montorino. Jamais encore elle n'a été aussi troublée par un homme.
