Rhythm - Vincent Barletta
2020

"Vincent Barletta traces an

alternate history of rhythm

theory, one linked not to

repetition and temporality, as

most of us understand the

term, but rather to form,

ethics, and the conditions of

(human) being. Beginning with

Archilochus, the Greek

seventh-century BCE poet who

wanted to know the "rhythm

that holds us all," Barletta

explores what we mean when

we talk about "rhythm," how

and to what extent we can

know it, and what

Archilochus's idea that rhythm

"holds us all" might mean for

us today. Barletta identifies

three key "moments" in the

long and varied history of

rhythm to uncover their deeper

implications for poetry, art, and

philosophy. Beginning with the

earliest, most explicit formulation of the meaning of rhythm in the dramatic, philosophical, and poetic works of the pre-Socratic Greeks, Barletta then links this early understanding of rhythm to the emergence of vernacular poetry, especially in the Iberian Peninsula, in the sixteenth century during the European quest for overseas empires. He brings his study into the twentieth century, where echoes of Archilochus's notion of rhythm have shaped much African, European, and Anglo-American thought, especially John Dewey and Emmanuel Levinas on aesthetics and ethics, Émile Benveniste on philology and rhythm, and Léopold Sédar Senghor on rhythm in the context of West African thought and the "Négritude" movement. Ultimately, the common thread that runs through these three historical moments, Barletta shows, is an approach to rhythm that transcends poetry, aesthetics, and even temporality. For Barletta, rhythm is a powerful force that

holds us in place and shapes the very foundations upon which we and our contemporary world ultimately rest. "Rhythm speaks," he says, "to the very conditions of our being in the world." This study participates in the recent return to formalism in literary studies, and will find readers in a number of other areas, comparative literature, reception of classical poetry, and philosophy and literature, among them"--

The experience of growing up

without the opportunity to ever "put down roots" A fusion of voices and deeply personal experiences from every corner of the globe, Unrooted Childhoods presents a cultural mosaic of today's citizens of the world. In twenty stirring memoirs of childhoods spent packing, writings by both world-famous and first-time authors (many published here for the first time) make universal the story of growing up without the opportunity to ever feel rooted. Best-selling fiction and non-fiction authors Isabel Allende, Carlos Fuentes, Pat Conroy, Pico Iyer and Ariel Dorfman contribute powerful and deeply personal accounts of mobile childhoods and the cultural experiences they engender. The memoirs touch on both the benefits and the difficulties of growing up in the ever changing landscape of diplomatic, military and other expatriate communities.

On the Future of Art - Arnold Toynbee 1970

"In today's world, the question of what the future will bring--if, indeed, we are to have a future at all--has become a matter of critical concern. Through developments in science and technology, we are rapidly approaching the point where we will be able to comprehend and even control the present in order to predict the future more accurately than ever before. But the influence of the creative individual is one aspect of the future that always eludes such predictions. In this collection of essays, based on a series of lectures given at the Guggenheim Museum in New York, seven prominent intellectuals and artists speculate on the future of art

in light of their own ideas about what the world will be like. Although historian Arnold Toynbee, anthropologist Claude Lévi-Strauss (perceptively interpreted by critic Annette Michelson), psychologist B. F. Skinner, and philosopher Herbert Marcuse envision the future in very different ways, each chooses to consider the arts in terms of the artist's role in society. The artists themselves (architect Louis Kahn, sculptor James Seawright, artist-author J. W. Burnham) characteristically look ahead to the artistic possibilities offered by technological advances rather than to their relationship with a future public. Revised by the authors for book publication, edited and introduced by Edward Fry, Associate curator of the Guggenheim Museum, these essays make up a provocative symposium which sheds a great deal of light on present-day thinking as it anticipates the world of tomorrow." -- Provided by publisher

Je danse donc j'existe -

Catherine Maillard 2015-04-29
Depuis toujours, sous toutes les latitudes, la danse fait partie des rituels de guérison et de célébration. Aujourd'hui, la danse-thérapie rencontre un engouement croissant. Au-delà du simple divertissement, elle inaugure un autre rapport au corps, le libérant de siècles de tabous et de frustrations. Elle apparaît aussi comme un outil de développement personnel et de connaissance de soi. Enfin, répondant au besoin crucial d'une époque en quête de «vivre ensemble», elle nourrit notre sentiment d'appartenance au groupe. Pour nous présenter la danse-thérapie, Catherine Maillard, journaliste, formée à cette discipline depuis 20 ans, a interrogé cinq écoles : la danse des cinq rythmes de Gabrielle Roth, le life art process d'Anna Halprin, la biodanza de Rolando Toro, la danse biodynamique de Rafaël Baile, la danse médecine de Susannah et Ya'Acov Darling Khan. Et pour nous permettre de mieux appréhender cette pratique en pleine floraison,

African Homecoming -

Katharina Schramm

2016-06-16

African Americans and others in the African diaspora have increasingly “come home” to Africa to visit the sites at which their ancestors were enslaved and shipped. In this nuanced analysis of homecoming, Katharina Schramm analyzes how a shared rhetoric of the (Pan-)African family is produced among African hosts and Diasporan returnees and at the same time contested in practice. She examines the varying interpretations and appropriations of significant sites (e.g. the slave forts), events (e.g. Emancipation Day) and discourses (e.g. repatriation) in Ghana to

highlight these dynamics. From this, she develops her notions of diaspora, home, homecoming, memory and identity that reflect the complexity and multiple reverberations of these cultural encounters beyond the sphere of roots tourism.

The Theatre de la Monnaie and Theatre Life in the 18th

Century Austrian Netherlands -

Bram Van Oostveldt 2000

In the Austrian Netherlands, city culture determined social life: the cities' feeling of independence stimulated the realization of a personal interdependence within them and consolidated a new conception of society and its focal point. The court attempted to unite and appease at the same time. Theater supplied the symbols and the rituals which shaped and contributed to the building of a new identity. This book describes this social progress from the point of view of the theater and in doing so offers the first extensive study of the influence of the Brussels' Monnaie Theatre on theatrical

life in the Dutch speaking part of the Southern Netherlands.

Literary Washington, D.C. -
Patrick Allen 2012-09-11

The public face of Washington- the gridiron of L'Enfant's avenues, the buttoned-down demeanor Sloan Wilson's archetypal "Man in the Grey Flannel Suit," the monumental buildings of the Triangle-rarely gives up the secrets of this city's rich life. But, beneath the surface there are countless stories to be told. From the early swamp days to the Civil War, the "gilded age" to the New Deal and McCarthy eras, as the center of world power to its underlying multicultural social fabric, Washington is a writer's town. While this is surprising to some, it is not news to the close observer. Alan Cheuse, in his foreword to Literary Washington, D.C. comments: "Part of this peculiar city's sense of place is that it serves as a capital for people who have no permanent sense of place. . . . War has

brought us here, peace has brought us here, love has kept us here, and love or loss of love will give some of us reason to leave again. Which makes Washington, D.C. exactly like most other places in the rest of the country and the rest of the world-only more so." In fact, D.C. has been a magnet for great writers for centuries. Including novelists, poets, journalists, essayists, and politicians and patriots, finally, in Literary Washington D.C., the story of the capital of world power is finally told.

Stage - Edward Nye

2011-07-21

The 'ballet d'action' was one of the most successful and controversial forms of theatre in the early modern period. A curious hybrid of dance, mime and music, its overall and overriding intention was to create drama. It was danced drama rather than dramatic dance, musical drama rather than dramatic music. Most modern critical studies of the ballet d'action treat it more narrowly as stage dance and very few view it as part of the history of mime. Little use has previously been made of the most revealing musical evidence. This innovative book does justice to the distinctive hybrid nature of the ballet d'action by taking a comparative approach, using contemporary literature and literary criticism, music, mime and dance from a wide range of English and European sources. Edward Nye presents a fascinating study of this important and influential part of eighteenth-century European theatre.

Je danse donc je suis - Alain

Foix 2007

Quatrième de couverture:"

Tout le monde croit savoir ce qu'est la danse, mais il suffit de se demander ce qu'elle est vraiment pour que cette évidence se transforme en mystère. La danse est un mode d'expression auquel bien des sociétés prêtent des vertus magiques, une manière de se mouvoir dans l'espace qui donne au spectateur l'envie de participer, la création d'un sujet libre et maître de ses mouvements, et aussi un art... Qu'est-ce que le corps en mouvement ? Quel lien unit le danseur et le spectateur ? Quelle part l'esprit prend-il à la danse ? Cette pratique si riche de sens nous aide à explorer la relation de l'homme avec le monde, l'autre, le corps, le langage, l'espace et le temps. Voici un livre original, qui propose une réflexion philosophique sur la danse, pour y intéresser petits et grands."

Gaudin 2013-11-25

Dans ces entretiens avec le philosophe François L'Yvonnet, Thierry Gaudin, ingénieur devenu prospectiviste, s'attache à montrer que la mutation contemporaine n'est pas assimilable à un nouvel avatar de la révolution industrielle mais doit être comprise comme un véritable changement de civilisation. L'ampleur de cette transformation fait se lever les résistances et les conformismes. Mais quelque chose d'inévitable est en train de se produire. Thierry Gaudin constate que la notion même de connaissance est mise en cause. Il propose une philosophie de la reconnaissance, qui vaut pour les individus comme pour les collectivités, ou encore les " personnes morales " que sont les entreprises. Vue avec le regard d'un prospectiviste, la philosophie apparaît en effet comme une production de l'espèce humaine, un de ces nombreux discours qu'elle élabore pour se reconnaître, se justifier, se conforter, se

rassurer. À partir de multiples exemples empruntés aussi bien au monde de la littérature, de la vie animale, des relations internationales ou de l'économie, Thierry Gaudin invite à rompre avec l'injonction philosophique de Parménide distinguer ce qui est de ce qui n'est pas en adoptant pour règle: distinguer ce qui est vivant de ce qui ne l'est pas. Il jette les bases d'une philosophie de la prospective et d'une prospective de la philosophie. Un livre clé pour comprendre notre futur.
