A Universal Critical and Pronouncing Dictionary of the English Language: Including Scientific Terms - 1863

Acta Horticulturae - 1984

Harrap's New Standard French and English Dictionary - Harrap Ltd 1980

Cet ouvrage est une édition complètement révisée, recomposée et très agrandie de la seconde partie du HARRAP'S STANDARD FRENCH AND ENGLISH DICTIONARY rédigé par J.E. Mansion. Publié il y a plus de quarante ans, le STANDARD DICTIONARY a acquis depuis lors une réputation hors pair comme le meilleur des dictionnaires bilingues. Bien que depuis 1950 trois suppléments aient paru pour mettre l'ouvrage à jour, l'évolution rapide et continuelle des deux langues et la publication de l'édition

révisée de la partie français-anglais en 1972 ont rendu absolument nécessaire la publication d'une édition totalement nouvelle de la partie anglais-français. Les troisième et quatrième volumes qui forment la seconde partie du HARRAP'S STANDARD FRENCH AND ENGLISH DICTIONARY représentent plus de trente ans de recherche par M. René Ledésert, licencié-ès Lettres, licencié en Droit, et son épouse Margaret Ledésert, M.A., et toute une équipe de collaborateurs dans le monde entier. Le résultat de ce travail a été non seulement une révision intégrale des anciens articles par rapport à l'ouvrage original, mais aussi l'inclusion d'environ 60 pour cent de texte supplémentaire. Une majeure partie de ce nouveau texte tient compte en particulier des développements techniques et scientifiques, y compris dans les domaines aussi modernes que les sciences atomiques, les voyages intersidéraux et l'informatique, sans négliger les mots nouveaux des industries tels que l'aviation, l'automobile et le génie civil. Les sciences naturelles, l'économie et le monde financier figurent également au premier plan, et aucun effort n'a été épargné pour introduire un nombre considérable d'idiotismes et d'expressions familières ou argotiques. Un des caractères unique de cet ouvrage est l'inclusion de mots et expressions usités aux Etats-Unis et au Canada, ainsi qu'un certain nombre d'expressions courantes dans d'autres pays anglophones et francophones. Plusieurs changements ont été effectués en ce qui concerne le format et la disposition typographique, notamment la présentation en trois colonnes par page, qui permettent à

l'usager de consulter ce dictionnaire avec beaucoup plus de facilité que le dictionnaire original.

Optica Acta - 1954

Acta Pædiatrica Scandinavica - 1955

Clio Medica. Acta Academiae Internationalis Historiae Medicinae. Vol. 20 - 2020-06-15

As periodical of the International Academy of the History of Medicine, this Clio Medica volume contains 4 papers.

Close to Home - Juan C. Guerra 1998-10-30

When teachers are familiar with what adults and children bring with them into the classroom, they are far better prepared to develop appropriate curricula and pedagogical techniques. Close to Home is a unique portrayal and analysis of the language, literacy, and cultural resources of a social network of Mexicano adults living in a rural community in Mexico and Chicago's inner city. By exploring the ways in which this group's experiences as immigrants have affected their communicative practices, the author provides a basis for understanding how researchers, policy makers, and educators can provide these adults and their children with a relevant education that effectively embraces their schooling and lived experience. After establishing a historical and sociocultural context for the author's analysis, this rich ethnographic study presents a variety of oral and written sample texts, including tape recordings of everyday oral language use, personal letters, and autobiographical writing.

Home Gardens for Improved Food Security and Livelihoods - D. Hashini Galhena

Dissanayake 2020-07-06

Home Gardens for Improved Food Security and Livelihoods demonstrates how home gardens hold particular significance for resource-poor and marginalized communities in developing countries, and how they offer a versatile strategy toward building local and more resilient food systems. With food and nutritional security being a major global challenge, there is an urgent need to find innovative ways to increase food production and diversify food sources while increasing income-generating opportunities for communities faced with hunger and poverty. This book shows that when implemented

properly, home gardens can become just such an innovative solution, as well as an integral part of sustainable food security programs. It provides a conceptual overview of social, economic, environmental and nutritional issues related to home gardening in diverse contexts, including gender issues and biodiversity conservation, and presents case studies from Africa, Asia and Latin America highlighting home gardening experiences and initiatives. The volume concludes with a synthesis of key lessons learned and ways forward for further enhancing home gardens for sustainable food security and development. This book will be a useful read for students and scholars working on local food systems, food security, sustainable development and more broadly development strategy.

Sears, Roebuck Home Builder's Catalog - Sears, Roebuck and Co. 2012-09-26

Reprint of rare original catalog includes huge illustrated selection of building materials, fixtures and trimmings, complete with descriptions, specifications, and prices. Hundreds of black-and-white illustrations.

UN Millennium Development Library: Coming to Grips with Malaria in the New Millennium - UN Millennium Project 2013-06-17

The Millennium Development Goals, adopted at the UN Millennium Summit in 2000, are the world's targets for dramatically reducing extreme poverty in its many dimensions by 2015 income poverty, hunger, disease, exclusion, lack of infrastructure and shelter while promoting gender equality, education, health and environmental sustainability. These bold goals can be met in all parts of the world if nations follow through on their commitments to work together to meet them. Achieving the Millennium Development Goals offers the prospect of a more secure, just, and prosperous world for all. The UN Millennium Project was commissioned by United Nations Secretary-General Kofi Annan to develop a practical plan of action to meet the Millennium Development Goals. As an independent advisory body directed by Professor Jeffrey D. Sachs, the UN Millennium Project submitted its recommendations to the UN Secretary General in January 2005. The core of the UN Millennium Project's work has been carried out by 10 thematic Task Forces comprising more than 250 experts from around the world, including scientists, development practitioners, parliamentarians, policymakers, and

representatives from civil society, UN agencies, the World Bank, the IMF, and the private sector. Coming to Grips with Malaria in the New Millennium presents an innovative strategic framework for relieving the burden that malaria imposes on society through the implementation of tried and tested anti-malarial interventions designed to improve health nationally and to promote economic development locally. Recommendations include early diagnosis, treatment with effective anti-malarial medicines, the use of insecticide treated nets, indoor residual spraying, managing the environment,

improving housing, extending health education and improving monitoring and evaluation systems.
