[The Rejection of Consequentialism](#) - Samuel Scheffler 1994-08-11

In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality.

Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

*Tropical Plant Science* - G. K. Berrie 1987

*The Making of Modern Colombia* - David Bushnell 1993-02-09

Colombia's status as the fourth largest nation in Latin America and third most populous—as well as its largest exporter of such disparate commodities as emeralds, books, processed cocaine, and cut

flowers—makes this, the first history of Colombia written in English, a much-needed book. It tells the remarkable story of a country that has consistently defied modern Latin American stereotypes—a country where military dictators are virtually unknown, where the political left is congenitally weak, and where urbanization and industrialization have spawned no lasting populist movement. There is more to Colombia than the drug trafficking and violence that have recently gripped the world's attention. In the face of both cocaine wars and guerrilla conflict, the country has maintained steady economic growth as well as a relatively open and democratic government based on a two-party system. It has also produced an impressive body of art and literature. David Bushnell traces the process of state-building in Colombia from the struggle for independence, territorial consolidation, and reform in the nineteenth century to economic development and social and political democratization in the twentieth. He also sheds light on the modern history of Latin America as a whole.

Lost Downtown - Peter Hugar 2016-02

It's a vanished world, and Peter Hugar was right there in it. The Lower East Side between 1972 and 1985 -- filled with artists, wannabe artists and hangers-on -- was a community of the misbegotten gathered from every town in America and relocated in the mean streets between Broadway and the Bowery. Nothing but their talent, their flamboyance, their rank gender-bending mockery and their arch irony supported them. Some made their names. Many came to grief. A few made art. In those days, the gutted streets of the Lower East Side looked like a war zone. Everyone lived and worked on the extreme outer margins of money and art, penniless and unknown. As a community, Downtown was a counterstatement to the rich New York of the banks, museums, media, corporations ... and the art world itself. That Downtown is forever gone. Time, gentrification, disease and death have taken their toll and turned this vibrant epoch into a chapter of art history. But before it vanished, its extravagant cast sat for Peter Hugar's camera -- and is now alive again in front of our eyes. Featured among others: Joe Brainard, William Burroughs, Remy Charlip, Edwin Denby, Divine, Ray Johnson, Fran Lebowitz, Charles Ludlum, Susan Sontag, Paul Thek, John Waters, Robert Wilson, David Wojnarowicz.

**The Dare** - Harley Laroux 2021-01-26

Warning: This erotica contains scenes and elements that may be disturbing to some readers. Please review the full content warning below. Jessica Martin is not a nice girl. As Prom Queen and Captain of the cheer squad, she'd ruled her school mercilessly, looking down her nose at everyone she deemed unworthy. The most unworthy of them all? The "freak," Manson Reed: her favorite victim. But a lot changes after high school. A freak like him never should have ended up at the same Halloween party as her. He never should have been able to beat her at a game of Drink or Dare. He never should have been able to humiliate her in front of everyone. Losing the game means taking the dare: a dare to serve Manson for the entire night as his slave. It's a dare that Jessica's pride - and curiosity - won't allow her to refuse. What ensues is a dark game of pleasure and pain, fear and desire. Is it only a game? Only revenge? Only a dare? Or is it something more? This book contains intense fantasy scenes of hard kinks/edgeplay, graphic sex, and harsh language. It is intended only for an adult audience. Beware: this is a dark, weird, kinky read. The activities depicted therein are dangerous and are not meant to be an example of realistic BDSM. Reader discretion is advised. Kinks/Fetishes within: erotic humiliation, fearplay, painplay, knifeplay, consensual non-consent (CNC), orgasm denial, boot worship, spanking, crying, blowjobs, clowns, group sexual activities, spit, bondage, public play, bloodplay.

**Handbook of Plant Breeding** - Clive Koelling 2015-01-30

Altering the traits of plants for the purpose of generation of desired characteristics is referred to as plant breeding. Breeding of crop plants in order to make them more adapted to human agriculture systems has been in practice for the past 10,000 years. However, the invention of the Mendelian principles of genetics

and the consequent development of quantitative genetics in the 20th century has resulted in genetic crop enhancement. In the past 50 years, plant breeding has commenced a molecular era based on molecular tools to analyze RNA, proteins and DNA and relate such molecular outcomes with plant phenotype. These marker trait relations develop rapidly in order to allow more effective breeding. The aim of this book is to provide important information to the readers regarding this field and serve as a valuable source of reference.

*Twelve Years a Slave* - Solomon Northup 2021-01-01

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Marilyn Manson by Perou - 2020-05-19

'I often get asked, 'Who was your favorite person to photograph?' or 'Who is the best person you've photographed?' says photographer Perou. 'It's always 'Marilyn Manson.' Which is just as well, considering how many times I've photographed him.' Perou has been photographing Marilyn Manson since a 1998 magazine cover shoot. Twenty-one years of collaborating have resulted in this unique book, featuring over 350 photographs including previously unpublished work, conceptual portraits, onstage and informal behind-the-scenes images, giving a rare insight into Manson's world.

**Political Violence in South Asia** - Ali Riaz 2018-09-24

Political violence has remained an integral part of South Asian society for decades. The region has witnessed and continued to encounter violence for achieving political objectives from above and from below. Violence is perpetrated by the state, by non-state actors, and used by the citizens as a form of resistance. Ethnic insurgency, religion-inspired extremism, and ideology-driven hostility are examples of violent acts that have emerged as challenges to the states which have responded with violence in the form of civil war and through violations of human rights disregarding international norms. This book explores various dimensions of political violence in South Asia, namely in Bangladesh, India, Nepal, Pakistan, and Sri Lanka. Each chapter either speaks to an important aspect of the political violence or provides an overall picture of the nature and scope of political violence in the respective country. Political violence is understood in the larger sense of political, that is, above and beyond institutions, and also as an integral part of social relationships where social norms and the role of individual agency play seminal roles. The contributions in this book incorporate both institutional and non-institutional dimensions of political violence. Exploring how everyday life in South Asian states and societies is transformed by the engagement with violence through direct and indirect methods, this book adopts an interdisciplinary framework; diverse methods are employed - from ethnographic readings to more macro level analyses. The phenomenon is explored from historical, sociological, and political perspectives. This book will be useful as a supplementary text in courses on South Asian Studies in general and South Asian Politics in particular.
