About Canada: Immigration - Nupur Gogia 2016-07-01T00:00:00Z

Many Canadians believe that immigrants steal jobs away from qualified Canadians, abuse the healthcare system and refuse to participate in Canadian culture. In About Canada: Immigration, Gogia and Slade challenge these myths with a thorough investigation of the realities of immigrating to Canada. Examining historical immigration policies, the authors note that these policies were always fundamentally racist, favouring whites, unless hard labourers were needed. Although current policies are no longer explicitly racist, they do continue to favour certain kinds of applicants. Many recent immigrants to Canada are highly trained and educated professionals, and yet few of them, contrary to the myth, find work in their area of expertise. Despite the fact that these experts could contribute significantly to Canadian society, deeply ingrained racism, suspicion and fear keep immigrants out of these jobs. On the other hand, Canada also requires construction workers, nannies and agricultural workers — but few immigrants who do this work qualify for citizenship. About Canada: Immigration argues that we need to move beyond the myths and build an immigration policy that meets the needs of Canadian society.

Canadian Immigration and South Asian Immigrants - Abdur Rahim 2014-09-19

South Asian immigrants have made a significant contribution to the Canadian mosaic. However, their trials and tribulations and their successes and failures constitute a story that remains untold. To know of their arrivals, their struggles to beat the odds, as well as their successes, is to read a story of hard work, of tireless effort to 'make it' of the commitment to belong, and of ultimate success. This process not only re-shaped them from 'who they were' to 'who they are now', but also re-shaped Canada that we know today. Their influence can be felt in the arts and sciences, the humanities and in politics, community works and in social services. This book is an attempt to understand the 'what' and 'how' of that unfolding process, and also to know the real concerns about the conditions of Canada's ethnic minority population, South Asian Canadians and their children in particular.

Language and Canadian Media - Rachele Vessey 2016-04-30

Language Ideologies and Canadian Media explores how French and English Canadian media discuss languages and language issues, which language ideologies predominate in English and French, and whether language ideologies in traditional news media are transferred to new and social media. Using corpus linguistics and discourse analysis and a variety of different datasets ranging from print newspapers to online news, commentary and Twitter, the author argues that language ideologies in Canadian media have a bearing not only on the extent to which Canadian language policies are adopted, but also on the very way that Canadians understand themselves and their place in the nation.

Screening Out - Laura Bisailon 2022-05-01

What happens when people with HIV apply to settle in Canada? Screening Out takes readers through the process of seeking permanent residency, demonstrating how mandatory HIV testing and the medical inadmissibility regime are organized to make such applications impossible. This ethnographic inquiry into the medico-legal and administrative practices governing the Canadian immigration system shows how it works from the perspective of the very people toward whom this exclusionary health policy is directed. Laura Bisailon provides a vital corrective to state claims about mandatory HIV screening, pinpointing how and where things need to change.
