The Deepening Divide - Jan A. G. M. van Dijk 2005-02-15

advanced high-tech societies, deepening. clear and easy-to-consult text guides students through the richness and diversity of this major world language. This new edition has been extensively revised and updated to take a fuller account of Latin-American (particularly Mexican) usage. The vocabulary sections have been significantly expanded, and now include examples which contextualize each word or expression. The presentation of many sections has been improved to make reference even easier than before, and some completely new material has been added on semi-technical vocabulary and Anglicisms.

City Steeple, City Streets -
Candace Slater 2021-01-08
Candace Slater's new book focuses on narratives concerning Fray Leopoldo de Alpanseire (1864-1956), a Capuchin friar from Granada and probably the most popular nonconsecrated saint in

all of Spain. In tracing the emergence of a group of contemporary legends about Fray Leopoldo, Slater discusses both the stories she tape-recorded in the streets of Granada and the friar's official biography. She underscores the essential pluralism of the tales, their undercurrent of resistance to institutional authority, and their deep concern for the relationship between past and present. Bearing witness to the subtlety and resilience of even the most apparently conservative folk-literary forms, these stories are not only about the role of saints and miracles in an increasingly secular and industrial society but, first and foremost, also about the legacy of the Franco years. Painting and the Turn to Cultural Modernity in Spain - Andrew Ginger 2007

Cultural modernity has habitually been defined as a focus on the means of representation themselves, as opposed to art that imitates external reality or expresses its maker's inner life. The crucial moment is usually considered the emergence of Edouard Manet in mid-nineteenth-century France, and the features of French developments have been seen as defining terms in the theory of modernity. However, recent art and cultural history have often spoken of plural modernities, distinct from the pattern set in France. For the first time, this study in cultural history explores how Spanish culture took a radical turn

toward the medium of representation itself in the 1850s and early 1860s. It argues that this happened in a way that is critically at odds with many fundamental theoretical suppositions about modernity.

Speak the Culture - Andrew Whittaker 2008

* Provides a deeper, long-term understanding of the nation and its people * Designed to supplement the "usual suspect" guide books A guidebook can show you where to go, a phrasebook what to say when you get there. Only Speak the Culture: Spain will lead you to the nation's soul. Spain boasts a rich and sometimes misunderstood culture, itself infused with the influences of other great and distant civilizations. Spanish life, language and culture in its widest sense is a major force of

growing influence. How many outside it understand its origins and significance? Through exploring the people, the movements and the lifestyles that have shaped the Spanish experience, you will come to an intimate understanding of Spain and the Spanish. There are many travel guides and manuals on living in Spain. Speak the Culture: Spain is different: a superbly designed, informed and entertaining insight into Spanish life and culture and who the Spanish really are. For new residents, business travelers, holidaymakers, students and lovers of Spain everywhere, Speak the Culture: Spain is an engaging companion and guide to an enviably rich civilization at the heart of Europe. Excerpt "As you might expect Spain's traditional vernacular architecture isn't easily pigeonholed; regionalism generates marked variation. Available building materials and, more significantly, climate have always dictated how people build their houses or

outbuildings. The Spaniards' approach to living arrangements is more easily summed up. They're nothing if not sociable; while northern Europeans anxiously section off their own plot of terra firma, in Spain they seem to enjoy living on top of each other, clustered in apartments and houses around the plaza mayor. It's not like they're short of space either--a population density of around 85 per sq km is one of the lowest in Europe."

Santa Anna of Mexico - Will Fowler 2009-10-25

Antonio López de Santa Anna (1794-1876) is one of the most famous, and infamous, figures in Mexican history. Six times the country's president, he is consistently depicted as a traitor, a turncoat, and a tyrant—the exclusive cause of

all of Mexico's misfortunes following the country's independence from Spain. He is also, as this biography makes clear, grossly misrepresented. ø Will Fowler provides a revised picture of Santa Anna's life, offering new insights into his activities in his bailiwick of Veracruz and in his numerous military engagements. The Santa Anna who emerges from this book is an intelligent, dynamic, yet reluctant leader, ingeniously deceptive at times, courageous and patriotic at others. His extraordinary story is that of a middle-class provincial criollo, a high-ranking officer, an arbitrator, a dedicated landowner, and a political leader who tried to prosper personally and help his country develop at a time of severe and repeated crises, as the colony that was New Spain gave way to a young, troubled, besieged, and beleaguered Mexican nation. ø ø

bestselling exploration on leadership from Pulitzer Prize-winning author and presidential historian Doris Kearns Goodwin, and also the inspiration for the HISTORY Channel multipart series Abraham Lincoln and Theodore Roosevelt. “After five decades of magisterial output, Doris Kearns Goodwin leads the league of presidential historians” (USA TODAY). In her “inspiring” (The Christian Science Monitor) Leadership, Doris Kearns Goodwin draws upon the four presidents she has studied most closely—Abraham Lincoln, Theodore Roosevelt, Franklin D. Roosevelt, and Lyndon B. Johnson (in civil rights)—to show how they recognized leadership qualities within themselves and were recognized as leaders by others. By looking back to their first entries into public life, we encounter them at a time when their paths were filled with confusion, fear, and hope. Leadership tells the story of how they all collided with dramatic reversals that

disrupted their lives and threatened to shatter forever their ambitions. Nonetheless, they all emerged fitted to confront the contours and dilemmas of their times. At their best, all four were guided by a sense of moral purpose. At moments of great challenge, they were able to summon their talents to enlarge the opportunities and lives of others. Does the leader make the times or do the times make the leader? “If ever our nation needed a short course on presidential leadership, it is now” (The Seattle Times). This seminal work provides an accessible and essential road map for aspiring and established leaders in every field. In today’s polarized world, these stories of authentic leadership in times of apprehension and fracture take on a singular urgency. “Goodwin’s volume deserves much praise—it is insightful, readable, compelling: Her book arrives just in time” (The Boston Globe).

Molecular Modeling in Drug Design - Rebecca Wade

2019-03-26

Since the first attempts at structure-based drug design about four decades ago, molecular modelling techniques for drug design have developed enormously, along with the increasing computational power and structural and biological information of active compounds and potential target molecules. Nowadays, molecular modeling can be considered to be an integral component of the modern drug discovery and development toolbox. Nevertheless, there are still many methodological challenges to be overcome in

the application of molecular modeling approaches to drug discovery. The eight original research and five review articles collected in this book provide a snapshot of the state-of-the-art of molecular modeling in drug design, illustrating recent advances and critically discussing important challenges. The topics covered include virtual screening and pharmacophore modelling, chemoinformatic applications of artificial intelligence and machine learning, molecular dynamics simulation and enhanced sampling to investigate contributions of molecular flexibility to drug-receptor interactions, the modeling of drug-receptor solvation, hydrogen bonding and polarization, and drug design against protein-protein interfaces and membrane protein receptors.

Postmodern Artistry in
Medievalist Fiction - Earl R.
Anderson 2018-06-07

Focusing on modern-day fiction set in the Middle Ages or that incorporates medieval elements, this study examines storytelling components and rhetorical tropes in more than 60 works in five languages by more than 40 authors.

Medievalist fiction got its "postmodern" start with such authors as Calvino, Fuentes, Carpentier and Eco. Its momentum increased since the 1990s with writers whose work has received less critical attention, like Laura Esquivel, Tariq Ali, Matthew Pearl, Matilde Asensi, Ildefonso Falcones, Andrew Davison, Bernard Cornwell, Donnal Woolfolk Cross, Ariana Franklin, Nicole Griffith, Levi Grossman, Conn Iggulden, Edward Rutherfurd, Javier Sierra, Alan Moore and Brenda Vantrease. The author explores a wide range of "medievalizing" tropes, discusses the negative

responses of postmodernism and posits four "hard problems" in medievalist fiction.

The Lady in Blue - Javier Sierra
2007-06-19

An elaborately woven novel of intrigue about one of America's most curious and enduring legends -- the enigma of the Lady in Blue In Los Angeles, Jennifer Narody has been having a series of disturbing dreams involving eerie images of a lady dressed in blue. What she doesn't know is that this same spirit appeared to leaders of the Jumano Native American tribe in New Mexico 362 years earlier, and was linked to a Spanish nun capable of powers of "bilocation," or the ability to be in two places simultaneously. Meanwhile, young journalist Carlos Albert is driven by a blinding snowstorm to the little Spanish town of Ágreda, where he stumbles upon a nearly forgotten seventeenth-century convent founded by this same legendary woman. Intrigued by her rumored powers, he delves into finding out more. These

threads, linked by an apparent suicide, eventually lead Carlos to Cardinal Baldi, to an American spy, and ultimately to Los Angeles, where Jennifer Narody unwittingly holds the key to the mystery that the Catholic Church, the U.S. Defense Department, and the journalist are each determined to decipher -- the Lady in Blue.

The Last Cato - Matilde Asensi 2007-04-03

A masterful blend of Christian scholarship and thrilling adventure, *The Last Cato* is a novel about the race to find the secret location of the Vera Cruz, the True Cross on which Christ was crucified, and the ancient brotherhood sworn to protect it. Holy relics are disappearing from sacred spots around the world—and the Vatican will do whatever it takes to stop the thieves from stealing what is left of the scattered splinters of the True Cross. Brilliant paleographer Dr. Ottavia Salina is called upon by the highest levels of the Roman Catholic Church to decipher the scars found on an Ethiopian man's corpse: seven crosses and seven Greek letters. The markings,

symbolizing the Seven Deadly Sins, are part of an elaborate initiation ritual for the Staurofilakes, the clandestine brotherhood hiding the True Cross for centuries, headed by a secretive figure called Cato. With the help of a member of the Swiss Guard and a renowned archaeologist, Dr. Salina uncovers the connection between the brotherhood and Dante's Divine Comedy, and races across the globe to Christianity's ancient capitals. Together, they will face challenges that will put their faith—and their very lives—to the ultimate test.

Old School - Tobias Wolff
2004-08-31

The protagonist of Tobias Wolff's shrewdly—and at times devastatingly—observed first novel is a boy at an elite prep school in 1960. He is an outsider who has learned to mimic the negligent manner of his more privileged classmates. Like many of them, he wants more than anything on earth to become a writer. But to do that he must first learn to tell the truth about himself. The

agency of revelation is the school literary contest, whose winner will be awarded an audience with the most legendary writer of his time. As the fever of competition infects the boy and his classmates, fraying alliances, exposing weaknesses, Old School explores the ensuing deceptions and betrayals with an unblinking eye and a bottomless store of empathy. The result is further evidence that Wolff is an authentic American master.

The Luminaries - Eleanor Catton 2013-10-15

The winner of the Man Booker Prize, this "expertly written, perfectly constructed" bestseller (The Guardian) is now a Starz miniseries. It is 1866, and Walter Moody has come to stake his claim in New Zealand's booming gold rush. On the stormy night of his arrival, he stumbles across a tense gathering of 12 local men who have met in secret to discuss a series of unexplained events: a wealthy man has vanished, a prostitute has tried to end her life, and an

enormous cache of gold has been discovered in the home of a luckless drunk. Moody is soon drawn into a network of fates and fortunes that is as complex and exquisitely ornate as the night sky. Richly evoking a mid-nineteenth-century world of shipping, banking, and gold rush boom and bust, *The Luminaries* is at once a fiendishly clever ghost story, a gripping page-turner, and a thrilling novelistic achievement. It richly confirms that Eleanor Catton is one of the brightest stars in the international literary firmament.

An Early Self - Susanne Zepp
2014-11-19

What role has Jewish intellectual culture played in the development of modern Romance literature? Susanne Zepp seeks to answer this question through an examination of five influential early modern texts written between 1499 and 1627: Fernando de Rojas's *La Celestina*, Leone Ebreo's *Dialoghi d'amore*, the anonymous tale *Lazarillo de Tormes* (the first picaresque novel), Montaigne's *Essais*, and the poetical renditions of the Bible by João Pinto Delgado. Forced to straddle two cultures and religions, these Iberian conversos (Jews who converted to Catholicism) prefigured the

subjectivity which would come to characterize modernity. As "New Christians" in an intolerant world, these thinkers worked within the tensions of their historical context to question norms and dogmas. In the past, scholars have focused on the Jewish origins of such major figures in literature and philosophy. Through close readings of these texts, Zepp moves the debate away from the narrow question of the authors' origins to focus on the innovative ways these authors

subverted and transcended traditional genres. She interprets the changes that took place in various literary genres and works of the period within the broader historical context of the sixteenth and seventeenth centuries, demonstrating the extent to which the development of early modern subjective consciousness and its expression in literary works can be explained in part as a universalization of originally Jewish experiences.
