Information Technology and Evidence-Based Social Work Practice - Judith Dunlop 2013-05-13

Learn to use the latest technological advances in evidence-based social work Social work practice can be positively or negatively impacted by the advance of technology. Advances and applications must be up-to-date as possible, yet they may be ineffective if not simple enough to easily learn and use. Information Technology and Evidence-Based Social Work presents leading social work experts exploring the latest technological advances and the innovative practical applications which can be used effectively in evidence-based social work. Students and practitioners get creative practical advice on how best understand technology and apply it to their work. Information Technology and Evidence-Based Social Work is divided into four sections. The first section provides the context for understanding the technological link between social work and evidence-based practice. The second section presents examples of how information technology can be used to effectively teach students and practitioners in the field. Section three explores ways to implement technology for use by clients. The fourth section summarizes and then takes a look at the future of technology in evidence-based social work. Chapters include questions for practitioners and for clients to illuminate the current and future issues surrounding technology and evidence-based practice. The text also includes extensive references, and useful tables and figures. Topics in Information Technology and Evidence-Based Social Work include: the impact of technology on social work computer-assisted evidence-based practice customized web-based technology and its use in clinical supervision enhanced technology-based evidence-based practice model and its applicability to large human service organizations. using information technology to provide evidence for planning and evaluating programs using technology in advocacy the geographic information system (GIS) as a useful tool in all aspects of programs and policies evaluating practice through information technology the development and evaluation of an online social work service psychotherapeutic group intervention for family caregivers over the Internet support group online chat a case study of how Internet chat group technology can be implemented with cancer survivors technology as a service learning mechanism for promoting positive youth development in a community-based setting a model which can be used to collect information and—by using best evidence available—arrive at a confident decision and more! Information Technology and Evidence-Based Social Work is timely, stimulating reading for educators, undergraduate students, graduate students, and practitioners in the fields of social work, psychology, and public administration.

Human Behavior in the Social Environment from an African-American Perspective - Letha A See 2013-02-01

Human Behavior in the Social Environment from an African-American Perspective, Second Edition is an updating of the classic text that presents leading black scholars discussing complex human behavior problems faced by African-Americans in today's society. This new edition provides fresh theories and the latest practical interventions not in the first edition that show, for example, how to enhance a client's coping strategies and resilience by focusing on their strengths rather than their weaknesses. This edition includes a new foreword by former Surgeon General, Dr. Joycelyn Elders. *Human Behavior in the Social Environment from an African-American Perspective, Second Edition* acquaints practitioners with the Black experience, and provides the latest innovative methods of working with this diverse population. This edition also offers new insights on evaluating practice initiatives. Experts and scholars explore and interpret individual and group behaviors, the strength and resilience of the black family, the stresses and problems affecting children, the significant problem of the affects of colorism, the self-esteem and identity issues of biracial children, violence in the criminal justice system, the HIV/AIDS pandemic, the stress and behaviors resulting from belonging to the armed services, and other behavior stemming from progression through the life cycle. Chapters include charts and tables of data, extensive references, and study questions for deeper study for students. Topics in *Human Behavior in the Social Environment from an African-American Perspective, Second Edition* include: the importance of the consideration of the black experience in analyzing black behavior as a response to a hostile social system the black church's role in leading African-Americans resiliency perspective as a positive force the use of strength behaviors for socialization and survival strategies to strengthen roles of fathers in African-American families military culture as a microcosm of the wider society the psychological effects of skin color on self-esteem the No Child Left Behind Act of 2001 and its effects refreshing social work practice to better meet the needs of African-American girls examination of a study on the help-seeking behaviors of young African-American males empirically based creative intervention strategies to alleviate black-on-black crime analysis of street gang behaviors with a program to address it influences of hip hop culture strategies to lessen substance abuse in children practices that help assist administrators and social workers to lessen school violence *Human Behavior in the Social*

Environment from an African-American Perspective, Second Edition is a supplementary text that is valuable for undergraduate and graduate students, human service practitioners, mental health and medical counselors, policymakers, school officials, and criminal justice personnel.

Child Protective Services - Diane DePanfilis 2003

From the Preface: This manual, *Child Protective Services: A Guide for Caseworkers*, examines the roles and responsibilities of child protective services (CPS) workers, who are at the forefront of every community's child protection efforts. The manual describes the basic stages of the CPS process and the steps necessary to accomplish each stage: intake, initial assessment or investigation, family assessment, case planning, service provision, evaluation of family progress, and case closure. Best practices and critical issues in casework practice are underscored throughout. The primary audience for this manual includes CPS caseworkers, supervisors, and administrators. State and local CPS agency trainers may use the manual for preservice or inservice training

of CPS caseworkers, while schools of social work may add it to class reading lists to orient students to the field of child protection. In addition, other professionals and concerned community members may consult the manual for a greater understanding of the child protection process. This manual builds on the information presented in *A Coordinated Response to Child Abuse and Neglect: The Foundation for Practice*. Readers are encouraged to begin with that manual as it addresses important information on which CPS practice is based—including definitions of child maltreatment, risk factors, consequences, and the Federal and State basis for intervention. Some manuals in the series also may be of interest in understanding the roles of other professional groups in responding to child abuse and neglect, including: Substance abuse treatment providers; Domestic violence victim advocates; Educators; Law enforcement personnel. Other manuals address special issues, such as building partnerships and working with the courts on CPS cases.

Case Management - Arthur J. Frankel 2019-01-02

Over the course of twenty years and across three editions, this text has approached case management as both an art and a science by providing students and practitioners with the basics of case management theory, skills, and applications. This fourth edition, which focuses on both the social work and nursing professions, offers trainers, instructors, and students detailed information about how case management is delivered, major issues encountered in practice, how services are affected by different populations, and the unique skills that are required by case managers in order to be effective. Chapter exercises and numerous case examples help readers practice some of the skills associated with the

content offered. Case Management is unique in that it brings together the major professions that conduct case management in the United States. It is focused on skill learning more than on theory, and discusses not only the importance of case management in the current social work and medical milieu, but also the challenges that case managers face in helping clients. In addition, the text offers a model for integrated case management between professions and in numerous settings, including nursing centers, community mental health facilities, and criminal justice centers.

Research Methods in Child Welfare - Amy J. L. Baker 2008-06-17

Social service agencies are facing the same expectations in quality management and outcomes as private companies, compelling staff members and researchers to provide and interpret valid and useful research to stakeholders at all levels in the field. Child welfare agencies are particularly scrutinized. In this textbook, two highly experienced researchers offer the best techniques for conducting sound research in the field. Covering not only the methodological challenges but also the real-life constraints of research in child welfare settings, Amy J. L. Baker and Benjamin J. Charvat present a volume that can be used both for general research methods and as a practical guide for conducting research in the field of child welfare. Baker and Charvat devote an entire chapter to ethical issues involved in researching children and their families and the limits of confidentiality within this population. They weave a discussion of ethics throughout the book, and each chapter begins with a scenario that presents a question or problem to work through, enabling readers to fully grasp the methods in the context of a specific setting or area of concern. Special sections concentrate on the value of continuous quality-improvement activities, which enable the collection and analysis of data outside of the strictures of publishable research, and the implementation of program evaluations, which can be helpful in obtaining further research and programmatic funding.
