The Three-Arched Bridge - Ismail Kadare 2012-01-31

In the Balkan Peninsula, history's long-disputed bridge between Asia and Europe, the receding Byzantine empire has left behind a patchwork of warring peoples who fight over everything, from their pastures of sheep to the authorship of their countless legends. One such gruesome tale declares that a castle under construction cannot be finished until a young mason's bride has been walled up alive, one breast left exposed to suckle her growing infant even after her death. Myth becomes perverse reality when a mason is plastered into a bridge over a strategically important river, where his will not be the last human sacrifice.

Sleeping with the Enemy - Hal Vaughan 2012-08-07

This explosive narrative reveals for the first time the shocking hidden years of Coco Chanel's life: her collaboration with the Nazis in Paris, her affair with a master spy, and her work for the German military intelligence service and Himmler's SS. Gabrielle "Coco" Chanel was the high priestess of couture who created the look of the modern woman. By the 1920s she had amassed a fortune and went on to create an empire. But her life from 1941 to 1954 has long been shrouded in rumor and mystery, never clarified by Chanel or her many biographers. Hal Vaughan exposes the truth of her wartime collaboration and her long affair with the playboy Baron Hans Günther von Dincklage—who ran a spy ring and reported directly to Goebbels. Vaughan pieces together how Chanel became a Nazi agent, how she escaped arrest after the war and joined her lover in exile in Switzerland, and how—despite suspicions about her past—she was able to return to Paris at age seventy and rebuild the iconic House of Chanel.

Homo Deus - Yuval Noah Harari 2017-02-21

Official U.S. edition with full color illustrations throughout. NEW YORK TIMES BESTSELLER Yuval Noah Harari, author of the critically-acclaimed New York Times bestseller and international phenomenon *Sapiens*, returns with an equally original, compelling, and provocative book, turning his focus toward humanity's future, and our quest to upgrade humans into gods. Over the past century humankind has managed to do the impossible and rein in famine, plague, and war. This may seem hard to accept, but, as Harari explains in his trademark style—thorough, yet riveting—famine, plague and war have been transformed from incomprehensible and uncontrollable forces of nature into manageable challenges. For the first time ever, more people die from eating too much than from eating too little; more people die from old age than from infectious diseases; and more people commit suicide than are killed by soldiers, terrorists and criminals put together. The average American is a thousand times more likely to die from binging at McDonalds than from being blown up by Al Qaeda. What then will replace famine, plague, and war at the top of the human agenda? As the self-made gods of planet earth, what destinies will we set ourselves, and which quests will we undertake? *Homo Deus* explores the projects, dreams and nightmares that will shape the twenty-first century—from overcoming death to creating artificial life. It asks the fundamental

questions: Where do we go from here? And how will we protect this fragile world from our own destructive powers? This is the next stage of evolution. This is *Homo Deus*. With the same insight and clarity that made *Sapiens* an international hit and a New York Times bestseller, Harari maps out our future.

Gender Bias in School Text Books - Bronwyn Davies 1995

Gender bias in school textbooks takes many forms and is often subtle and difficult to detect. It creates and sustains a view of the world in which male activity and male persons are of primary importance and of greatest value, while female activity and female persons are marginalised, made invisible or downgraded. This book has been produced in response to the lack of information on gender bias in existing textbooks in the countries of the Commonwealth. Section I presents three major studies of primary school textbooks, one in the Caribbean, one in Asia and one in Africa. Section II describes inclusive language and provides guidelines for textbook writers and producers. Section III assists teachers and teacher educators to develop strategies. Section IV provides a guide to evaluating gender bias in specific textbooks and other materials used in primary school classrooms.

Atlas Shrugged - Ayn Rand 2005-04-21

Peopled by larger-than-life heroes and villains, charged with towering questions of good and evil, *Atlas Shrugged* is Ayn Rand's magnum opus: a philosophical revolution told in the form of an action thriller—nominated as one of America's best-loved novels by PBS's *The Great American Read*. Who is John Galt? When he says that he will stop the motor of the world, is he a destroyer or a liberator? Why does he have to fight his battles not against his enemies but against those who need him most? Why does he fight his hardest battle against the woman he loves? You will know the answer to these questions when you discover the reason behind the baffling events that play havoc with the lives of the amazing men and women in this book. You will discover why a productive genius becomes a worthless playboy...why a great steel industrialist is working for his own destruction...why a composer gives up his career on the night of his triumph...why a beautiful woman who runs a transcontinental railroad falls in love with the man she has sworn to kill. *Atlas Shrugged*, a modern classic and Rand's most extensive statement of Objectivism—her groundbreaking philosophy—offers the reader the spectacle of human greatness, depicted with all the poetry and power of one of the twentieth century's leading artists.

Dollar Shave Club and its hilarious marketing. Casper mattresses popping out of a box. Third Love's lingerie designed specifically for each woman's body. Warby Parker mailing you five pairs of glasses to choose from. You've seen their ads. You (or someone you know) use their products. As Lawrence Ingrassia--former business and economics editor and deputy managing editor at the New York Times--shows in this timely and eye-opening book, a growing number of digital entrepreneurs have found new and creative ways to crack the code on the bonanza of physical goods that move through our lives every day. They have discovered that manufacturing, marketing, logistics, and customer service have all been flattened--where there were once walls that protected big brands like Gillette, Sealy, Victoria's Secret, or Lenscrafters, savvy and hungry innovators now can compete on price, value, quality, speed, convenience, and service. The Forty Rules of Love - Elif Shafak 2010-02-18

In this lyrical, exuberant tale, acclaimed Turkish author Elif Shafak,

author of *The Island of Missing Trees* (a Reese's Book Club Pick), incarnates Rumi's timeless message of love *The Forty Rules of Love* unfolds two tantalizing parallel narratives—one contemporary and the other set in the thirteenth century, when Rumi encountered his spiritual mentor, the whirling dervish known as Shams of Tabriz—that together explore the enduring power of Rumi's work. Ella Rubenstein is forty years old and unhappily married when she takes a job as a reader for a literary agent. Her first assignment is to read and report on *Sweet Blasphemy*, a novel written by a man named Aziz Zahara. Ella is mesmerized by his tale of Shams's search for Rumi and the dervish's role in transforming the successful but unhappy cleric into a committed mystic, passionate poet, and advocate of love. She is also taken with Shams's lessons, or rules, that offer insight into an ancient philosophy based on the unity of all people and religions, and the presence of love in each and every one of us. As she reads on, she realizes that Rumi's story mirrors her own and that Zahara—like Shams—has come to set her free.

Albanian Literature - Robert Elsie 2005-07-29

The tender plant of Albanian literature grew in a rocky soil. It was late to evolve and its development, indeed its very existence, was threatened in many periods. "Albanian Literature: A Short History" tells the story of the survival and growth of Albanian creative writing beginning with the earliest thirteenth century texts of Theodor of Shkodra, tracing the development of the modern literature of Buzuku, Budi and Bogdani, the incorporation of the Muslim influences of Frakulla and Kycyku and continuing with the works of Cajupi and Kadare during the reign of King Zog and the Hoxha administration. A unique book that illuminates an under-researched subject, "Albanian Literature" is an essential reference guide for all those interested in Balkan cultures, in comparative literature and in European cultural history in general.

Political Trust in Kosovo - Ermira Babamusta 2020-05

What are the key factors that affect political trust in a transitional democracy? This question is at the core of the scholarly academic book, *Political Trust in Kosovo: Examining Cultural and Institutional Dynamics*. This book emerges from a 10-year scientific study, conducted from field research of the political elite and experts in Kosovo. The study uses two original datasets dating from 2012-2013 survey (220 participants) and 2017-2018 survey (40 participants). In this book, Dr. Babamusta dives into trust perceptions across different political-legal institutions and actors, including the Kosovo Specialist Court, the U.S. Embassy in Kosovo, NATO, the United Nations, the European Union, Kosovo police and legal system, and media/TV. Low levels of political trust pose a serious threat to democracy. A certain degree of trustworthiness in institutions is a necessary precondition for the legitimacy, fairness, and democratic governance. Therefore, trust in political institutions is vital to the democratic functioning of the state. The findings show that at the macro level the functioning of democracy and political institutions matter to political trust.

The Siege - Ismail Kadare 2010-02-12

From Ismail Kadare, winner of the inaugural Man Booker International Prize - a novelist in the class of Coetzee, Pamuk, Márquez, and Rushdie - the stunning new translation of one of his major works. In the early fifteenth century, as winter falls away, the people of Albania know that their fate is sealed. They have refused to negotiate with the Ottoman Empire, and war is now inevitable. Soon enough, dust kicked up by Turkish horses is spotted from a citadel. Brightly coloured banners, hastily constructed minarets, and tens of thousands of men fill the plain below. From this moment on, the world is waiting to hear that the

fortress has fallen. The Siege tells the enthralling story of the weeks and months that follow - of the exhilaration and despair of the battlefield, the constantly shifting strategies of war, and those whose lives are held in the balance, from the Pasha himself to the artillerymen, astrologer, blind poet, and harem of women who accompany him. "Believe me," the general said. "I've taken part in many sieges but this," he waved towards the castle walls, "is where the most fearful carnage of our times will take

place. And you surely know as well as I do that great massacres always give birth to great books. You really do have an opportunity to write a thundering chronicle redolent with pitch and blood, and it will be utterly different from the graceful whines composed at the fireside by squealers who never went to war." Brilliantly vivid, as insightful as it is compelling, The Siege is an unforgettable account of the clash of two great civilisations, and a portrait of war that will resonate across the centuries.
