language. What You Will Learn Install and configure the Go development environment to quickly get started with your first program. Use the basic elements of the language including source code structure, variables, constants, and control flow primitives to quickly get started with Go Gain practical insight into the use of Go's type system including basic and composite types such as maps, slices, and structs. Use interface types and techniques such as embedding to create idiomatic object-oriented programs in Go. Develop effective functions that are encapsulated in well-organized package structures with support for error handling and panic recovery. Implement goroutine, channels, and other concurrency primitives to write highly-concurrent and safe Go code Write tested and benchmarked code using Go's built test tools Access OS resources by calling C libraries and interact with program environment at runtime In Detail The Go programming language has firmly established itself as a favorite for building

complex and scalable system applications. Go offers a direct and practical approach to programming that let programmers write correct and predictable code using concurrency idioms and a full-featured standard library. This is a step-by-step, practical guide full of real world examples to help you get started with Go in no time at all. We start off by understanding the fundamentals of Go, followed by a detailed description of the Go data types, program structures and Maps. After this, you learn how to use Go concurrency idioms to avoid pitfalls and create programs that are exact in expected behavior. Next, you will be familiarized with the tools and libraries that are available in Go for writing and exercising tests, benchmarking, and code coverage. Finally, you will be able to utilize some of the most important features of GO such as, Network Programming and OS integration to build efficient applications. All the concepts are explained in a crisp and concise manner and by the end of this book; you would be able to create

The Queen of Sorrow - Sarah Beth Durst

2018-05-15

The battle between vicious spirits and strong-willed queens that started in the award-winning *The Queen of Blood* and continued in the powerful *The Reluctant Queen* comes to a stunning conclusion in *The Queen of Sorrow*, the final volume of Sarah Beth Durst's *Queens of Renthia* trilogy. Queen Daleina has yearned to bring peace and prosperity to her beloved forest home—a hope that seemed doomed when neighboring forces invaded Aratay. Now, with the powerful Queen Naelin ruling by her side, Daleina believes that her dream of ushering in a new era can be realized, even in a land plagued by malevolent nature spirits who thirst for the end of human life. And then Naelin's children are kidnapped by spirits. Nothing is more important to her than her family, and Naelin would rather watch the world burn than see her children harmed. Blaming the defeated Queen

Merecot of Semo for the kidnapping, Naelin is ready to start a war—and has the power to do it. But Merecot has grander plans than a bloody battle with her southern neighbors. Taking the children is merely one step in a plot to change the future of all Renthia, either by ending the threat of spirits once and for all . . . or plunging the world into chaos.

Giant Days - John Allison 2019-10-16

The third (and final!) year of university is finally here, and BFFs Daisy, Esther, and Susan are in for some surprising upsets in their first semester. Between Halloween run-ins with Daisy's dreaded (dreadful) ex, part-time gigs at a shady pop-up Christmas market, Esther dating a tech-bro, and Susan attempting to be...romantic, there's still plenty to learn and more than enough misadventure to squeeze in before it's time to don caps and gowns! Written by John Allison (*Scary Go Round, By Night*) and illustrated by the incredible Max Sarin, *Giant Days* volume 11 kicks off third year with a bang,

collecting issues #41-44 of the Eisner Award winning series.

Masters Theses in the Pure and Applied Sciences - W. H. Shafer 2013-03-14

Masters Theses in the Pure and Applied Sciences was first conceived, published, and disseminated by the Center for Information and Numerical Data Analysis and Synthesis (CINDAS) * at Purdue University in 1957, starting its coverage of theses with the academic year 1955. Beginning with Volume 13, the printing and dissemination phases of the activity were transferred to University Microfilms/Xerox of Ann Arbor, Michigan, with the thought that such an arrangement would be more beneficial to the academic and general scientific and technical community. After five years of this joint undertaking we had concluded that it was in the interest of all concerned if the printing and distribution of the volume were handled by an international publishing house to assure improved service and broader

dissemination. Hence, starting with Volume 18, Masters Theses in the Pure and Applied Sciences has been disseminated on a worldwide basis by Plenum Publishing Corporation of New York, and in the same year the coverage was broadened to include Canadian universities. All back issues can also be ordered from Plenum. We have reported in Volume 24 (thesis year 1979) a total of 10,033 theses titles from 26 Canadian and 215 United States universities. We are sure that this broader base for theses titles reported will greatly enhance the value of this important annual reference work. While Volume 24 reports these submitted in 1979, on occasion, certain universities do report theses submitted in previous years but not reported at the time.

The Backstagers Vol. 1 - James Tynion IV
2017-07-19

James Tynion IV (Detective Comics, The Woods) teams up with artist Rian Sygh (Munchkin, Stolen Forest) for an incredibly earnest story that explores what it means to find a place to fit

in when you're kinda an outcast. When Jory transfers to an all-boys private high school, he's taken in by the lowly stage crew known as the Backstagers. Hunter, Aziz, Sasha, and Beckett become his new best friends and introduce him to an entire magical world that lives beyond the curtain that the rest of the school doesn't know about, filled with strange creatures, changing hallways, and a decades-old legend of a backstage crew that went missing and was never found. Collects the first four issues.

Culture Jam - Kalle Lasn 2000-11-07

America is no longer a country but a multimillion-dollar brand, says Kalle Lasn and his fellow "culture jammers". The founder of Adbusters magazine, Lasn aims to stop the branding of America by changing the way

information flows; the way institutions wield power; the way television stations are run; and the way the food, fashion, automobile, sports, music, and culture industries set agendas. With a courageous and compelling voice, Lasn deconstructs the advertising culture and our fixation on icons and brand names. And he shows how to organize resistance against the power trust that manages the brands by "uncooling" consumer items, by "dermarketing" fashions and celebrities, and by breaking the "media trance" of our TV-addicted age. A powerful manifesto by a leading media activist, Culture Jam lays the foundations for the most significant social movement of the early twenty-first century -- a movement that can change the world and the way we think and live.
