Riverine Ecosystem Management - Stefan Schmutz 2018-05-08

This open access book surveys the frontier of scientific river research and provides examples to guide management towards a sustainable future of riverine ecosystems. Principal structures and functions of the biogeosphere of rivers are explained; key threats are identified, and effective solutions for restoration and mitigation are provided. Rivers are among the most threatened ecosystems of the world. They increasingly suffer from pollution, water abstraction, river channelisation and damming. Fundamental knowledge of ecosystem structure and function is necessary to understand how human activities interfere with natural processes and which interventions are feasible to rectify this. Modern water legislation strives for sustainable water resource management and protection of important habitats and species. However, decision makers would benefit from more profound understanding of ecosystem degradation processes and of innovative methodologies and tools for efficient mitigation and restoration. The book provides best-practice examples of sustainable river management from on-site studies, European-wide analyses and case studies from other parts of the world. This book will be of interest to researchers in the field of aquatic ecology, river system functioning, conservation and restoration, to postgraduate students, to institutions involved in water management, and to water related industries.

The Nibelungenlied (Prose Translation) - Daniel B. Shumway 2019-05-23

The Nibelungenlied ("The Song of the Nibelungs") is an epic poem originally written in Middle High German around the year 1180. It tells the story of the dragon-slayer Siegfried at the court of the Burgundians, how he was murdered, and of his wife Kriemhild's revenge. Along with the Völsunga saga, the Nibelungenlied served as source material for Richard Wagner's famous four music dramas Der Ring des Nibelungen ("The Ring of the Nibelung"), although the storyline in the Nibelungenlied is far more extensive than in Wagner's work. Based on pre-Christian Germanic heroic motifs which include ancient oral traditions (including the Norse sagas), the Nibelungenlied first appeared from the area of the Danube between Passau and Vienna, from where the oldest manuscripts originate. The epic is divided into two parts, the first dealing with the story of Siegfried and Kriemhild, the wooing of Brünhild and the death of Siegfried at the hands of Hagen, and Hagen's hiding of the Nibelung treasure in the Rhine (Chapters 1-19). The second part deals with Kriemhild's marriage to Etzel (Atilla the Hun), her plans for revenge, the journey of the Burgundians to the court of Etzel, and their last stand in Etzel's hall (Chapters 20-39). The original was written as a poem in 2,400 stanzas, divided up into 39 Aventiuren ("adventures"). This edition has been translated into prose format, but still accurately follows the storyline of all the Adventures. It includes a complete background introductory essay by the translator, in which the history of the surviving manuscripts and their storylines are fully explored. About the translator: Daniel Bussier Shumway (1868-1940), served as Professor of Germanic Languages and Literature at University of Pennsylvania.

Hungary - Adrian Phillips 2010

With numerous air and rail links, keen foreign interest in the local property market, a solid spot in the world's top-10 conference destinations for business, and significant recent investment in hotels, spas and other facilities, Hungary's tourist industry is booming. The Adventures of Sindbad - Gyula Krudy 2011-11-08

"What you have loved remains yours." Thus speaks the irresistible rogue Sindbad, ironic hero of these fantastic tales, who has seduced and abandoned countless women over the course of centuries but never lost one, for he returns to visit them all—ladies, actresses, housemaids—in his memories and dreams. From the bustling streets of Budapest to small provincial towns where nothing ever seems to change, this ghostly Lothario encounters his old flames wherever he goes: along the banks of the Danube; under windows where they once courted; in churches and in graveyards, where Eros and Thanatos tryst. Lies, bad behavior, and fickleness of all kinds are forgiven, and love is reaffirmed as the only thing worth persevering for, weeping for, and living for. The Adventures of Sindbad is the Hungarian master Gyula Krúdy's most famous book, an uncanny evocation of the autumn of the Hapsburg Empire that is enormously popular not only in Hungary but throughout Eastern Europe.

Cycling & Walking for Regional Development - Paolo Pileri 2020-08-28

This book investigates why and how cycle and walking paths can help to promote the regeneration of marginalized areas facing depopulation and economic decline. In addition, it offers a broad overview of

recent scientific research into slow tourism and marginality/spatial inequality and explores the linkages between these topics. Key issues are addressed by experts from various disciplinary backgrounds, and potential measures are proposed for the integration of slow tourism into strategies for regional development. Particular attention is devoted to the VENTO project, which involves the creation of a 700-km-long cycle route from Venice to Turin that passes through various rural and marginalized areas of northern Italy. The goal, research process, design, and early lessons from this important project are all discussed in detail. Moreover, the book describes policies and strategies that have successfully been used to enhance the slow tourism infrastructure in other European countries. Given its scope, the book will appeal to researchers, professionals, and students interested in e.g. policymaking, tourism planning, regional development, and landscape and urban planning.

Magyar Origins - Frank Sandor 2012

This is the first edition of this book, for the second edition see ISBN-13: 978-1484822753 Do you think you know where Hungarians came from? Odds are what you were told was based on myths or politics, and almost no science. Hungarian origins prior to the 9th century has been embroiled between eastern and western views of where each thinks Hungarian origins may be found. The prevailing view is that Hungarian (or Magyar) origins are to be found east of the Ural Mountains as part of an east to west migration of Uralic speakers. In 2000 a genetic marker was found that proved beyond any doubt that Hungarians were never part of this Uralic migration. In fact they have had no contact with other Uralic speakers for at least 4,000 years. This book explores how views of Hungarian origins reached the state of ignorance that it is today and then examines where the available evidence puts the Magyars origins. For the first time ever evidence is provided that combines the prevailing theories of the west and the east. Hungarian is shown to be an Uralic language as linguists have stated for 150 years and at the same time the Hungarian legends that say Hungarians originated near Persia are also proven to be correct. DNA evidence is examined to determine the physical origins of the Hungarian people as farmers in the Hindu Kush region. The myths that have evolved regarding Hungarian origins are traced back to their origins. Hungarian pre-Christian religious practices are also examined. Finally, not just Hungarian but all Uralic languages are shown to be a form of spoken Sanskrit "slang," based not on word inheritance but on the observational qualities of the object. For example, the Hungarian word for shovel, 'kanal', is derived from the Sanskrit word meaning to dig, 'khana,' and the Hungarian word for hoe, 'kapa', is from the Sanskrit word for a cavity or hole, 'kupa'. A language law is presented that governs how Sanskrit words were adopted into Hungarian. Even the origins of the word 'Magyar' itself are presented.

Breathtaking - Paula Holmes-Eber 2022-05-15

Carrying one stuffed elephant, six panniers and two tents, Paula and Lorenz Eber set off from Athens, Greece on two tandem bicycles with their eleven year old daughter, Yvonne, and her thirteen year old sister, Anya. Their dream: to circle the world by bicycle, raising awareness of asthma and the world's desperate need for clean air. Pedaling in an unbroken line through Europe and Asia, along Australia and the South Pacific and then across North America, the Ebers promoted a carbon free, environmentally friendly way to travel, encouraging others to try new, more sustainable and harmonious ways to interact with new places and peoples. Breathtaking is the exciting, hilarious and inspiring true story of their

adventures. Readers follow the Ebers as they raise their daughters around the world, teaching them to cherish and respect our environment and other cultures. School is conducted outdoors on mountaintops and in historic castles. Dinnertime consists of strange international foods cooked on a simple backcountry stove in a meadow. And the responsibilities of parenting have been expanded to include hunting for an English copy of the latest Harry Potter book and holding a memorial service for one of Yvonne's most treasured (and only) possessions: a Polish bunny thermos. But the journey is also a test of the family's strength and endurance. As the family pedals further and further away from home, they struggle to work together through increasing hardships. They face a 100 degree heat wave in Italy, drug smugglers in Russia, a snowstorm at the Great Wall in China, and even the bite of a poisonous molokau in Tonga. To succeed, they realize that the greatest challenge they must face is not the journey without, but the one they must undergo within themselves.

[Reverse Wine Snob](#) - Jon Thorsen 2015-06-16

Most rational people don't pay \$40 for \$20 items. And yet with wine, it happens all the time. Wine can be an expensive hobby. Founder of the popular site ReverseWineSnob.com, Jon Thorsen is an unapologetic frugal wine consumer. He flips wine snobbery on its head by pushing a \$20 or less mantra. Reverse Wine Snob is designed to help wine drinkers stop wasting money and get the most satisfaction out of their drinking dollars. It reveals Thorsen's Ten Tenets of Reverse Wine Snobbery—ten beliefs that eliminate myths about wine—as well as a unique rating system that includes the cost of the bottle so that there is satisfaction in both taste and price. In Jon's unique system, the more expensive a wine, the better it must taste. Reverse Wine Snob explains: The number one rule all wine drinkers should follow, no matter what the wine snobs say. How to shop for wine at stores like the nation's #1 wine retailer Costco and Trader Joe's. The regions and varieties of wine that give the best value. Why the price of a wine has nothing to do with its taste. Why the distribution system in the US is broken which costs you money and limits your wine choices. Tons of Jon's very favorite wine picks. Jon dapples in every kind of wine from \$10 kitchen sink blends to the \$20 "Saturday Night Splurge," so delicious it's worth twice the price. Reverse Wine Snob brings plain old common sense to the wine industry and encourages wine lovers to explore the world of inexpensive quality wine. [A Time of Gifts](#) - Patrick Leigh Fermor 2011-09-14

This beloved account about an intrepid young Englishman on the first leg of his walk from London to Constantinople is simply one of the best works of travel literature ever written. At the age of eighteen, Patrick Leigh Fermor set off from the heart of London on an epic journey—to walk to Constantinople. A Time of Gifts is the rich account of his adventures as far as Hungary, after which Between the Woods and the Water continues the story to the Iron Gates that divide the Carpathian and Balkan mountains. Acclaimed for its sweep and intelligence, Leigh Fermor's book explores a remarkable moment in time. Hitler has just come to power but war is still ahead, as he walks through a Europe soon to be forever changed—through the Lowlands to Mitteleuropa, to Teutonic and Slav heartlands, through the baroque remains of the Holy Roman Empire; up the Rhine, and down to the Danube. At once a memoir of coming-of-age, an account of a journey, and a dazzling exposition of the English language, A Time of Gifts is also a portrait of a continent already showing ominous signs of the holocaust to come.

It focuses on benthic macroinvertebrates, phytobenthos, macrophytes, fish, phytoplankton as well as microbiology, with chapters dedicated to gaps and uncertainties in the ecological status assessment and to invasive alien species. The Danube - Nick Thorpe 2014-01-14

The magnificent Danube both cuts across and connects central Europe, flowing through and alongside ten countries: Romania, Ukraine, Moldova, Bulgaria, Serbia, Croatia, Hungary, Slovakia, Austria, and Germany. Travelling its full length from east to west, against the river's flow, Nick Thorpe embarks on an inspiring year-long journey that leads to a new perspective on Europe today. Thorpe's account is personal, conversational, funny, immediate, and uniquely observant—everything a reader expects in the best travel writing. Immersing himself in the Danube's waters during daily morning swims, Thorpe likewise becomes immersed in the histories of the lands linked by the river. He observes the river's ecological conditions, some discouraging and others hopeful, and encounters archaeological remains that whisper of human communities sustained by the river over eight millennia. Most fascinating of all are the ordinary and extraordinary people along the way—the ferrymen and fishermen, workers in the fields, shopkeepers, beekeepers, waitresses, smugglers and border policemen, legal and illegal immigrants, and many more. For readers who anticipate their own journeys on the Danube, as well as those who only dream of seeing the great river, this book will be a unique and treasured guide.

Rivers make the perfect touring -- flat, easy to navigate, interesting towns, historical sites, and relatively short distances between stops and sites. These trips are for everyone -- from weekend warriors to casual riders, from the young to the old. Our routes guide riders through Germany, the Netherlands, Austria, Czech Republic, Hungary, France, Italy, Switzerland, and, Slovakia, and utilize the detailed maps found in the terrific German Bikeline map guides. "Cycling Along Europe's Rivers" is a companion book to the European Bikeline Map Guides. It will tell you how and where to go, which Bikeline map guide to use for route details, and how to use these maps. That's all you need! Please Note: While the book does provide over 25 routes, suggested overnight stops, and associated mileage, it does not provide turn-by-turn details, and detailed maps, because this is not necessary for these trips given GPS, generally well-marked trails, the very detailed Bikeline companion guides, and the rivers themselves providing the ultimate route guide! Cities and regions in Europe you can visit include, among many other: the Danube Gorge, Amsterdam, Leiden, the Hague, Rotterdam, Utrecht, Arnhem, Dusseldorf, Cologne, Bonn, Koblenz, Cochem, Frankfurt, Heidelberg, Strasbourg, Colmar, Basel, the Rhine Falls, Lake Bodensee, Konstanz, Regensburg, Passau, Linz, Melk, Vienna, Bratislava, Gyor, Tata, Budapest, Cesky Krumlov, Prague, Dresden, Meissen, Wittenberg, Potsdam, Berlin, Hamburg, Bremerhaven, Bremen, Hameln, Hann. Munden, Orleans, Chambord, Blois, Amboise, Chenonceaux, Chinon, Saumur, Angers, St. Nazaire, Milan, Cremona, Parma, Mantua, Chioggia, and Venice. Even a brief mention of the C&O Canal and Erie Canal rides as warm-ups. Cycling Along Europe's Rivers is practical and well-organized. We have loved these trips and think you will, too! Budapest & Surroundings Travel Adventures - Dante Mena 2010-10-11

This is an excerpt from our larger guide to all of Hungary, focusing on Budapest and the surrounding area primarily. The author is a resident of Budapest, who knows the region intimately and takes us behind the scenes to discover its best features the sights, the places to stay and eat, the shopping, and all the activities. Millions of people every year hike into, bike, drive or climb into the green valleys and limestone mountain ridges of Hungary's national parks and the hills. Storks, eagles, wrens, blackbirds, woodpeckers, and flocks of thousands make their home in forests, grasslands, and cliff-sides. Majestic antlered stags and deer range the forest. Fresh springs and cold clear creeks tumble down from the mountains. The author takes us there. Sitting astride the Danube, Budapest has been called the Paris of Eastern Europe and The Pearl of the Danube. There are thousands of restaurants and virtually every type of cuisine. Hotels and nightspots are just as numerous and the author guides us to the best of them all. This is the only guide illustrated with color maps and photographs throughout. Print edition is 586 pages.

Post-Communist Mafia State - B lint Magyar 2016-03-01

Having won a two-third majority in Parliament at the 2010 elections, the Hungarian political party Fidesz removed many of the institutional obstacles of exerting power. Just like the party, the state itself was placed

under the control of a single individual, who since then has applied the techniques used within his party to enforce submission and obedience onto society as a whole. In a new approach the author characterizes the system as the 'organized over-world', the 'state employing mafia methods' and the 'adopted political family', applying these categories not as metaphors but elements of a coherent conceptual framework. The actions of the post-communist mafia state model are closely aligned with the interests of power and wealth concentrated in the hands of a small group of insiders. While the traditional mafia channeled wealth and economic players into its spheres of influence by means of direct coercion, the mafia state does the same by means of parliamentary legislation, legal prosecution, tax authority, police forces and secret service. The innovative conceptual framework of the book is important and timely not only for Hungary, but also for other post-communist countries subjected to autocratic rules. Ÿ

The Danube Cycleway Volume 2 - Mike Wells 2016-02-09

This guide describes the second part of the Danube Cycle route, a 1717km cycle ride following the lower part of the Danube from the Hungarian capital of Budapest through Hungary, Croatia, Serbia and Romania to the river's delta on the shores of the Black Sea. The cycling is generally level with a few gentle gradients, mostly on quiet country roads or riverside flood dykes. The 32 stages vary from 30-100km, with some longer excursions and surfaces are mostly asphalt and in good condition, suitable for hybrid or touring cycles. Cycling infrastructure is generally good in Hungary, Croatia and Serbia. In Romania, where there is no waymarking and often long distances between places to sleep and eat, this guidebook gives a detailed route description, maps for each stage at a cycle-friendly a scale of approximately 1:150,000 and a listing of all places offering accommodation. Off-route excursions enable short visits to be made to Bulgaria, Moldova, Ukraine and the Danube delta.
