Targa Florio - Pino Fondi 2006

Many years ago in Sicily, the legend of the "Coppa Florio" and "Targa Florio" road races became one of the most emotive and prestigious expressions in world motor racing, second only to the mythical Mille Miglia. "Coppa Florio" began in 1905 while "Targa Florio" in 1906, at the dawn of motoring civilisation and evolved over the years, hand-in-hand with the ever growing popularity of the car itself. The narrow and tortuous roads of the Sicilian mountains were testimony to the feats of Fiat, Bugatti, Alfa Romeo, Maserati, Lancia, Ferrari and Porsche: manufacturers who alternated year after year at the top of the final classification of one of the toughest races in history, a race rich in allure and an ever present peril. On the occasion of the Targa Florio Centenary the book retraces this charming epics thanks to a vivid text and hundred of pictures, many of them unpublished. The work is complemented by a rich appendix (150 pages) reporting the complete results of all the Coppa and Targa Florio editions.

Sites where archaeological and historical evidence of palaeoseismic events is investigated include Mycenae, Late Helladic III Kynos, 13th century BC Tiryns and Late Minoan Crete. The Holy Veil of Manoppello - Paul Badde 2018-10-11

The horrific 1915 earthquake that leveled tiny Manoppello, Italy, brought forth from the local church's rubble one of Christendom's long-lost, but most precious relics: the small cloth that lay on Jesus's face in the tomb. Saint John speaks of it in his Gospel: "When Peter went into the tomb, he saw linen wrappings lying there, and the cloth that had been on Jesus' head, not lying with the linen wrappings but rolled up in a place by itself." Tradition says that Our Lady herself laid this cloth on His face before He was wrapped in His shroud for burial. This small veil — now known as the Holy Face of Manoppello — absorbed the very first new breath of the Risen Christ . . . and at that same instant had imprinted on itself, miraculously, a vivid image of the now-resurrected Jesus. Modern scholars have confirmed that this image corresponds perfectly in all its measurements to the face of the dead Christ on the more famous Shroud of Turin. Unlike the Shroud, however, the Holy Face of Manoppello shows not the grim visage of a dead man with eyes closed, but the lively face of the living Christ, His eyes wide open, piercing us with their gaze. In 2006, Pope Benedict made a pilgrimage to Manoppello to pray before this image. In the decade since then, tens of thousands of other pilgrims have followed in the Pope's footsteps, making the trek to central Italy to meet Jesus face-to-face. Now, thanks to author Paul Badde you can learn of the loss and recovery of this precious relic. Better yet, by means of the dozens of color pictures in this book, you, too, can encounter this miraculous cloth, and finally gaze reverently on the face of the living Christ Himself!

Broom Broom - Brecken Hancock 2014-03-10

Nothing slips by Brecken Hancock's deft ear as she seductively plumbs the depths of the evolution of bathing, doppelgangers, the Kraken, and the minutiae of family with all its tragic misgivings. The poems in Broom Broom pervert the rational, safe parts of the world to extoll and absorb the sweep of human history. What I mean to say is, the evidence is always there. From where we stand, we confuse lampposts for ghosts. Brecken Hancock's poetry, essays, interviews, and reviews have appeared in several journals, including Event and Fiddlehead. She is reviews editor for Arc Poetry Magazine.

Racing Cars of the Sea - Gerald Guetat 2015-04-01

From 1954 to 1975, the Milan-based San Marco boatyard wrote some of the most interesting pages in the post-war history of powerboating. San Marco is the only yard that has extensively used Italian car engines for both its racing and production boats, including those of Ferrari, Maserati, Alfa Romeo, Lancia, Fiat and Abarth. The yard produced such models as the 600 Del Mare, Giulietta del Mare, Appia; all fast and prestigious wooden runabouts with elegant lines and refined details. Like a fashion designer or a famous Italian coachbuilder, for over 20 years Oscar Scarpa, founder of the yard, promoted a tradition of excellence, building several hundred exclusive boats with his son Sandro each with unique specifications, either technical or aesthetic, and all beautifully finished. The San Marco boatyard has also enjoyed a successful racing career, with more than 30 world speed records and hundreds of victories to its credit at the highest competitive level - often with Oscar Scarpa in the driver's seat! This book is both a tribute to the full history of the San Marco boatyard and its unique contribution to the world of speed boats. Racing Cars of the Sea is illustrated with a remarkable collection of hundreds of unpublished archival documents and photographs, as well as detailed information, including extensive production and racing records.

Porsche 911: 50 Years - Randy Leffingwell 2013-09-01

DIVIn Porsche 911: 50 Years, bestselling author Randy Leffingwell celebrates a half-century of one of the world's premiere sports cars, focusing on the major themes that have defined Porsche's rear-engined wonder. He tells the whole story—design and development, racing and competition, engineering and technology, style and culture. All the iconic 911 models are included: the original 901 prototype that set the standard; the legendary RS models that made the little Porsche a dominant force on the world's racetracks; the infamous Turbo, the car that kept the performance flame alight during the dark, dismal decade of the 1970s; the fabled 959, the model that redefined the term "sports car"; the 993, last of the original air-cooled models; and the 996, 997, and 991, the liquid-cooled cars that brought the 911 into a new millennium. But beyond telling the story of the cars, this book also spotlights the people behind them: Ferdinand "Butzi" Porsche, the son of legendary Porsche founder Ferdinand "Ferry" Porsche, who co-designed the instantly recognizable 911 shape; Peter W. Schutz, the Porsche CEO who saved the 911 from extinction; and Dr. Helmuth Bott, the engineering genius behind many of the groundbreaking technologies that have defined the 911, including fuel injection, turbocharging, and all-wheel-drive. Leffingwell also tells the story of the 911 community—the clubs and culture that surround the car. Together, all of these facets make Porsche 911: 50 Years the most essential book in any Porsche fan's library.
