The Unity of Science in the Arabic Tradition - Shahid Rahman 2008-07-15

the demise of the logical positivism programme. The answers given to these qu- tions have deepened the already existing gap between philosophy and the history and practice of science. While the positivists argued for a spontaneous, steady and continuous growth of scientific knowledge the post-positivists make a strong case for a fundamental discontinuity in the development of science which can only be explained by extrascientific factors. The political, social and cultural environment, the argument goes on, determine both the questions and the terms in which they should be answered. Accordingly, the sociological and historical interpretation - volves in fact two kinds of discontinuity which are closely related: the discontinuity of science as such and the discontinuity of the more inclusive political and social context of its development. More precisely it explains the discontinuity of the former by the discontinuity of the latter subordinating in effect the history of science to the wider political and social history. The underlying idea is that each historical and - cial context generates scientific and philosophical questions of its own. From this point of view the question surrounding the nature of knowledge and its development are entirely new topics typical of the twentieth-century social context reflecting both the level and the scale of the development of science.

The Common European Framework of Reference - Michael Byram 2012-06-06

A comparative study of the impact of the Common European Framework of Reference for Languages produced by the Council of Europe in 2001, this book asks writers in European countries and countries in the Americas and Asia to explain the influence of the CEFR. For each country there is a policy-maker and an academic perspective.

The Sexual Life of Catherine M. - Catherine Millet 2012-07-10

A window into a life of insatiable desire and uninhibited sex - this is Parisian art critic Catherine M.'s account of her sexual awakening and her unrestrained pursuit of pleasure. From the glamorous singles clubs of Paris to the Bois de Boulogne, she describes her erotic experiences in precise and beautiful detail. A phenomenal bestseller throughout Europe, *The Sexual Life of Catherine M.*, like *Fifty Shades of Grey*, breaks with accepted ideas of sex and examines many alternative manifestations of desire. Told in spare, elegant prose, her story will shock, enlighten and liberate you.

Film Language - Christian Metz 1991

A pioneer in the field, Christian Metz applies insights of structural linguistics to the language of film. "The semiology of film . . . can be held to date from the publication in 1964 of the famous essay by Christian Metz, 'Le cinéma: langue ou langage?'"—Geoffrey Nowell-Smith, *Times Literary Supplement* "Modern film theory begins with Metz."—Constance Penley, coeditor of *Camera Obscura* "Any consideration of semiology in relation to the particular field signifying practice of film passes inevitably through a reference to the work of Christian Metz. . . . The first book to be written in this field, [Film Language] is important not merely because of this primacy but also because of the issues it raises . . . issues that have become crucial to the contemporary argument."—Stephen Heath, *Screen*

Lexicon Grammaticorum - Harro Stammerjohann 1996

The "Lexicon Grammaticorum" is a comprehensive reference book that provides information on the lives and work of all scholars and thinkers throughout the world who have concerned themselves down the ages

with the study and description of language. The "Lexicon" contains articles on more than 1,500 representatives of the world's linguistic traditions, written by 422 authors from 27 countries. Generally, an article consists of a biography, an abstract of the linguist's achievements, including his or her influence, and a two-part bibliography, listing first his or her writings, then those about him or her. Whenever possible, the references are complete; where the works are too numerous for them all to be listed, as is often the case with more recent linguists, only the main titles appear, with references to already existing bibliographies. The aim of the "Lexicon" is twofold: namely to provide access to the history of linguistics through its most important representatives and to combine the world's diverse linguistic traditions in one book, thus showing what is individual and is universal in human thought about language.

France, Mexico and Informal Empire in Latin America, 1820-1867 - Edward Shawcross 2018-02-06

This book explores French imperialism in Latin America in the nineteenth century, taking Mexico as a case study. The standard narrative of nineteenth-century imperialism in Latin America is one of US expansion and British informal influence. However, it was France, not Britain, which made the most concerted effort to counter US power through Louis-Napoléon's military intervention in Mexico, begun in 1862, which created an empire on the North American continent under the Habsburg Archduke Ferdinand Maximilian. Despite its significance to French and Latin American history, this French imperial project is invariably described as an "illusion", an "adventure" or a "mirage". This book challenges these conclusions and places the French intervention in Mexico within the context of informal empire. It analyses French and Mexican ideas about monarchy in Latin America; responses to US expansion and the development of anti-Americanism and pan-Latinism; the consolidation of Mexican conservatism; and, finally, the collaboration of some Mexican elites with French imperialism. An important dimension of the relationship between Mexico and France, explored in the book, is the transatlantic and transnational context in which it developed, where competing conceptions of Mexico and France as nations, the role of Europe and the United States in the Americas and the idea of Latin America itself were challenged and debated.

Studies in Ancient Greek Dialects - Georgios Giannakis 2017-12-18

A new collective volume with over twenty important studies on less well-studied dialects of ancient Greek, particularly of the northern regions. The book covers geographically a broad area of the classical Greek world ranging from Central Greece to the overseas Greek colonies of Thrace and the Black Sea. Particular emphasis is placed on the epichoric varieties of areas on the northern fringe of the classical Greek world, including Thessaly, Epirus and Macedonia. Recent advances in research are taken into consideration in providing state-of-the-art accounts of these understudied dialects, but also of more well-known dialects like Lesbian. In addition, other papers address special intriguing topics in these, but also in other dialects, such as Thessalian, Lesbian and Ionic, or focus on important multi-dialectal corpora such as the oracular tablets from Dodona. Finally, a number of studies examine broader topics like the supraregional Doric koinai or the concept of dialect continuum, or even explore the possibility of an ancient Balkansprachbund, which included Greek too. This new reference work covers a gap in current research and will be indispensable for people interested in Greek dialectology and ancient Greek in general.

Manual of Deixis in Romance Languages - Konstanze Jungbluth 2015-10-16

Deixis as a field of research has generated increased interest in recent years. It is crucial for a number of different subdisciplines: pragmatics, semantics, cognitive and contrastive linguistics, to name just a few. The subject is of particular interest to experts and students, philosophers, teachers, philologists, and psychologists interested in the study of their language or in comparing linguistic structures. The different deictic structures – not only the items themselves, but also the oppositions between them – reflect the fact that neither the notions of space, time, person nor our use of them are identical cross-culturally. This diversity is not restricted to the difference between languages, but also appears among related dialects and language varieties. This volume will provide an overview of the field, focusing on Romance languages, but also reaching beyond this perspective. Chapters on diachronic developments (language change), comparisons with other (non-)European languages, and on interfaces with neighboring fields of interest are also included. The editors and authors hope that readers, regardless of their familiarity with Romance languages, will gain new insights into deixis in general, and into the similarities and differences among deictic structures used in the languages of the world.

Testing and Assessment in Translation and Interpreting Studies - Claudia V. Angelelli 2009-10-22

Testing and Assessment in Translation and Interpreting Studies examines issues of measurement that are essential to translation and interpreting. Conceptualizing testing both as a process and a product, the collection of papers explores these issues across languages and settings (including university classrooms, research projects, the private sector, and professional associations). The authors have approached their

chapters from different perspectives using a variety of methods, some focusing on very specific variables, and others providing a much broader overview of the issues at hand. Chapters range from a discussion of the measurement of text cohesion in translation; the measurement of interactional competence in interpreting; the use of a particular scale to measure interpreters' renditions to the application of a specific approach to grading or general program assessment (such as interpreter or translator certification at the national level or program admissions processes). These studies point to the need for greater integration of research and practice in the specific area of testing and assessment and are a welcome addition to the field.

Computational and Corpus-Based Phraseology - Gloria Corpas Pastor 2019-08-30

This book constitutes the refereed proceedings of the Third International Conference on Computational and Corpus-Based Phraseology, EuroPhras 2019, held in Malaga, Spain, in September 2019. The 31 full papers presented in this book were carefully reviewed and selected from 116 submissions. The papers in this volume cover a number of topics including general corpus-based approaches to phraseology, phraseology in translation and cross-linguistic studies, phraseology in language teaching and learning, phraseology in specialized languages, phraseology in lexicography, cognitive approaches to phraseology, the computational treatment of multiword expressions, and the development, annotation, and exploitation of corpora for phraseological studies.

English across Cultures. Cultures across English - Ofelia García 1989-01-01

CONTRIBUTIONS TO THE SOCIOLOGY OF LANGUAGE brings to students, researchers and practitioners in all of the social and language-related sciences carefully selected book-length publications dealing with sociolinguistic theory, methods, findings and applications. It approaches the study of language in society in its broadest sense, as a truly international and interdisciplinary field in which various approaches, theoretical and empirical, supplement and complement each other. The series invites the attention of linguists, language teachers of all interests, sociologists, political scientists, anthropologists, historians etc. to the development of the sociology of language.

Political Discourses at the Extremes - Malin Roitman 2020-10-09

"The authors of this edited volume focus on the emergence of populist discourses, coming from movements or parties from Romance-speaking countries in Europe and in Latin America. By combining linguistics, social and political sciences in a discourse analytical approach, the sixteen papers enlighten the mechanisms behind populist discourses yielding from different socio-cultural and political contexts. The common denominator of the studies is the focus on the discursive and rhetorical characteristics of recently emerged movements of populism in both continents. Investigating expressions of these political movements is highly relevant in today's society, where the growing number of populist discourses has become a pre-eminent issue, alongside people's increasing insecurity regarding future political and environmental challenges. The primary audience of this volume are researchers working in the fields of political discourse analysis; however, this book may benefit anybody with interest in language in politics. ***** 'This volume will be a valuable contribution to the study of populist discourse at the political extremes. It hardly needs to be mentioned that this is one of the most topical issues in political discourse throughout the world today. The specifics of populist discourse are often misunderstood, so I have found this volume enlightening and

helpful to increasing my own understanding.' - Rodney Williamson, University of Ottawa 'The anthology provides indeed a fine analysis of discourses connected to different socio-cultural and political contexts [...] Since it brings together researchers specialized in media and political discourse analysis, it contributes to a large extent to promote a deeper understanding of current political discourses and extremist ideologies.' - Ana Pano Alamán, University of Bologna" This work was published by Saint Philip Street Press pursuant to a Creative Commons license permitting commercial use. Beyond Priesthood - Richard L. Gordon 2017-08-21

The last decade has seen a surge of scholarly interest in these religious professionals and a good number of high quality publications. Our volume, however, with its unique intercultural character and its explicit focus on appropriation and contestation of religious expertise in the Imperial Era is substantially different. Unlike the rather narrow focus of earlier studies of civic priests, the papers presented here examine a wider range of religious professionals, their dynamic interaction with established religious authorities and institutions, and their contributions to religious innovation in the ancient Mediterranean world, from the late Hellenistic period through to Late Antiquity, from the City of Rome to mainland Greece, Asia Minor, Syria and Egypt, from Greek civic practice to ancient Judaism. A further advantage of our volume is the wide range of media of transmission taken into account. Our contributors look at both old and new materials, which derive not only from literary sources but also from papyri, inscriptions, and material culture. Above all, this volume assesses critically convenient terminological usage and offers a unique insight into a rich gamut of ancient Mediterranean religious specialists.

Informe sobre el estado del voluntariado en el mundo 2015 - United Nations Volunteers 1900-02-09

El segundo Informe del estado del voluntariado en el mundo, dedicado a la relación entre el voluntariado y la gobernanza, defiende que el voluntariado y las políticas e inversiones de desarrollo que se centran en las personas ofrecen un potencial sin explotar para el desarrollo sostenible. El informe postula el voluntariado como recurso y vehículo adicionales para que las destrezas, los conocimientos y la competencia técnica impulsen la voz y la participación, la responsabilidad y rendición de cuentas y la receptividad como pilares principales de la buena gobernanza, complementando así otras soluciones y recursos en aras del desarrollo. A partir de un amplio conjunto de pruebas, el informe destaca la capacidad del voluntariado para promover la paz y el desarrollo. Muestra los logros alcanzados en determinados contextos y, a partir de ellos, deduce la posible contribución de los voluntarios y el voluntariado. Este «arte de lo posible» se pone de manifiesto en una serie de estudios de casos que facilitan un sorprendente abanico de ejemplos de cómo las personas, a título individual o colectivo, están aunando fuerzas para actuar en distintos espacios de gobernanza. El presente informe también demuestra que, cuando los gobiernos y otros agentes de gobernanza crean un entorno propicio y animan a las personas a acceder a espacios restringidos, se puede lograr un cambio con una base más amplia de apropiación y apoyo.

This book constitutes thoroughly revised and selected papers from the 8th International Conference on Model-Driven Engineering and Software Development, MODELSWARD 2020, held in Valletta, Malta, in February 2020. The 15 revised and extended papers presented in this volume were carefully reviewed and selected from 66 submissions. They present recent research results and development activities in using models and model driven engineering techniques for software development. The papers are organized in topical sections on methodologies, processes and platforms; applications and software development; modeling languages, tools and architectures.

The Heritage Machine - Pablo Alonso Gonzalez 2018-12-20

This book upturns the conventional understanding of heritage, challenging widespread notions about how we relate to and why we preserve the past. Heritage research is often based on the assumption that heritage is something 'given' to us, that it is good and valuable in its own right. However, by looking at the historical and cultural roots of heritage and its development through the Enlightenment, modernity and capitalism, Pablo Alonso Gonzalez shows that it is in fact a system pervaded by fetishistic social

relationships, embedded in capitalism, and not as benign as it appears. Focusing on a case study in the region of Maragatería, Spain, Alonso Gonzalez explores the ethnic and racial discrimination towards the local population in the context of Spanish nationalism, and how this formed the region's heritage today. By challenging mainstream scholarship in the field, *The Heritage Machine* rethinks the relations between heritage, ideology and capitalism.

International Environmental Law - Edith Brown Weiss 1992

The important new 1999 Supplement to this widely-used sourcebook contains the text of 48 major treaties and other legal instruments completed between 1991 and 1998. These instruments represent the important developments in international environmental law since the 1992 UN Conference on Environment and Development. Both volumes are ideally suited for adoption in international environmental law courses. Special classroom prices are available. Published under the Transnational Publishers imprint.

Dada - Leah Dickerman 2005

Dada includes many of the key figures in the history of modernism, such as Hans Arp, Marcel Duchamp, Max Ernst, Hannah Hoch, John Heartfield, Francis Picabia, Kurt Schwitters, and Sophie Taeuber, and introduces artists who are less well known. This book explores the variety of art-making practices that emerged between 1916 and 1924 in the movement's primary centers: Zurich, Berlin, Hannover, Cologne, New York, and Paris. Six city essays by scholars of the movement; an illustrated chronology; more than forty artists' biographies; period photographs; and extensive plate sections document a provocative and influential artistic era. This illustrated book accompanies Dada, the most comprehensive museum exhibition of Dada art ever mounted in the United States, on view in 2006 at the National Gallery of Art, Washington, and The Museum of Modern Art, New York. The exhibition was on view at the Musée national d'art moderne-Centre Pompidou in Paris in 2005.

The North American Mosaic - Commission for Environmental Cooperation (Montréal, Québec). Secretariat 2001

The North American Mosaic has four overarching features. First, it is, to the extent feasible, based on comparable information on the status and trends of major indicators of the state of the environment in Canada, Mexico, and the United States. Second, the report confirms that these three countries together make up an incredibly complex, dynamic, and interconnected ecosystem in which humans play a dominant and decisive role. Third, the report raises important and sometimes disquieting questions concerning the sustainability of some current trends. Finally, the report is a reminder that our economic, social, and physical well-being are utterly dependent on the life-sustaining services provided by nature. This report emphasizes the importance of developing mutually compatible economic, social, and environmental goals and policies across the three-country region.

Diaspora and Trust - Adrian H. Hearn 2016-03-25

In *Diaspora and Trust* Adrian H. Hearn proposes that a new paradigm of socio-economic development is gaining importance for Cuba and Mexico. Despite their contrasting political ideologies, both countries must build new forms of trust among the state, society, and resident Chinese diaspora communities if they are to harness the potentials of China's rise. Combining political and economic analysis with ethnographic fieldwork, Hearn analyzes Cuba's and Mexico's historical relations with China, and highlights how Chinese diaspora communities are now deepening these ties. Theorizing trust as an alternative to existing models of exchange—which are failing to navigate the world's shifting economic currents—Hearn shows how Cuba

and Mexico can reformulate the balance of power between state, market, and society. A new paradigm of domestic development and foreign engagement based on trust is becoming critical for Cuba, Mexico, and other countries seeking to benefit from China's growing economic power and social influence.

Translation and Lexicography - Mary Snell-Hornby 1989-01-01

"Translation and Lexicography" includes a selection of papers presented at the 1987 European Lexicographers' Conference (EURALEX). The volume gives a comprehensive impression of new developments in the making and use of dictionaries for translation purposes, providing practical and theoretical approaches, general and in-depth studies.
