Buttress's World Guide to
Abbreviations of Organizations

- L. Pitman 2012-12-06

The previous edition of this directory extended its coverage of the Far East, Australasia and Latin America, areas previously under-represented. For this new edition emphasis has been given to increasing the number of entries for organizations

from Britain, the United States and Australia, and particular attention has been paid to new political organizations in Central and Eastern Europe and the former Soviet Union. The number of entries included has gone up to over 68,000 of which over 9,000 are new or amended. Cross-references from defunct organizations in the previous edition have been deleted, and references (indicated by ex and now)

added for organizations which have changed their name since the previous edition. As before, the range of organizations included is broad and only purely local organizations have been excluded. This directory therefore lists official and unofficial organizations, national and international, on all Subjects: political, economic and social. Acronyms of parent bodies of subsidiary organizations are given where appropriate and equivalencies are used to link acronyms in different languages for the same organization. Further information about the organizations listed can be found in the sources listed in the bibliography. I would like to thank Henry Heaney and Graeme Mackintosh for their advice, and David Grinyer for his technical support. L. M. Pitman Bibliography Adams, R. (ed.) The Boat Drinks Book - Fiona Sims 2017-04-20

'Complete novice or know-all, you'll love this stunning book. An essential boater's companion, it will certainly have a place on my boat on the Amalfi coast' Salvatore Calabrese, legendary bartender
A boozy book for boaters, The Boat Drinks Book serves up an expert look at the drinking

culture in key sailing spots around the world. The book is split into five regions: Atlantic, Med, Baltic, Pacific, and Caribbean, and author Fiona Sims encourages us to explore each region and discover what locals like to drink, how it's made, where to go to drink it, and what is best to eat with it. In doing so she uncovers distilleries, breweries and wineries all within a short taxi ride of the harbour and shows us how to make the most of traditional markets. As well as giving us the insider knowledge on fabulous locations worldwide, The Boat Drinks Book gets in on the making too. Cocktail and drink recipes inspire us to whip up something delicious - using local liqueurs, wines, spirits and produce - to sip on deck at the end of a long day's cruising or exploring. There's even a scattering of recipes for ultimate boat nibbles, inspired by each region, from tapenade to salsa to stuffed piquillo peppers. So whether you're a seasoned sailor or an armchair aperitif enthusiast, grab a copy

This edition of over 60 000 entries, including significantly more than 20% new or revised material, not only updates its predecessor but also continues the policy of extending coverage to areas dealt with only sparsely in previous editions. Special attention has been paid to the Far East, Australasia and Latin America in general, and to the People's Republic of China in particular. The cross-referencing between a defunct organization and its

successor (indicated by ex and now) introduced into the last edition, has been extended.

Otherwise the policies adopted in previous editions have been retained. All kinds of organizations are included - international, national, governmental, individual, large or small - but strictly local organizations have been omitted. The subject scope includes activities of all kinds, in the fields of commerce and industry, education, law, politics, public administration, religion, recreation, medicine, science and technology. The country of origin of a national organization is given in brackets, unless it is the home country of the title language or can be deduced readily from the title itself. Acronyms of parent bodies of subsidiary organizations are also added in brackets. Equivalences are used to link acronyms in different languages for the same organization. A select bibliography guides the reader to specialist works providing more detailed information.

Extremely Pale Rosé - Jamie Ivey 2013-09-10

On a sunny day in the South of France, over a typically languorous French lunch, Jamie Ivey, his wife, Tanya, and their friend, Peter, discover the distinct pleasures of drinking a bottle of cool, pale rosé in the Mediterranean sun. Far from the plonk he's used to in England, Jamie is entranced by a blushing wine that is seen as no more than an aperitif by the French, but one that is rising in popularity all over the world. Owing to a translation mishap, Jamie finds himself challenged to the task of finding the palest bottle of rosé in France. Rising to the occasion, Jamie sets off with Tanya and Peter in tow through the vineyards of France to find the elusive bottle. They visit the main rosé producing areas, trawl through every tiny bar and sample the local bistros. Peter noses out the local specialties, as well as the best purveyors for threateningly odoriferous

cheeses. "Extremely Pale Rosé" is food and travel writing in the best tradition as Jamie and his fellow travelers eat, sip, and taste with the colorful vintners, chefs, bakers and townspeople who live in and among the vineyards. Readers will be delighted. It's the perfect book to read on a summer day while sipping a glass of icy Bandol, nibbling on a bit of baguette and dreaming of the south of France.

Vins de Provence - François Millo 2003

Lorsque l'on arrive en Provence, c'est le plus souvent par le nord-ouest : des millions de visiteurs ont suivi au siècle dernier, la célèbre Nationale 7 et, des millions d'entre eux n'auront probablement connu que la facette vacances de cette terre secrète. émotions à partager : derrière le rideau né de la fréquentation touristique, se cache un ensemble complexe, fait d'hommes et de femmes de caractère, de traditions, de paysages, de produits et de grands vins... François Mille nous invite à découvrir ce monde haut en couleurs, fruit d'une histoire incroyablement riche. Au fil des pages, nous parcourons cette terre de Provence forte et contrastée, tantôt en teintes vives sur fond de mistral, tantôt en pastels, mais toujours baignée de cette lumière particulière et unique. Ici ont grandi peu à peu des cultures jumelles : la tradition vigneronne et la cuisine provençale. En bons artistes passionnés d'esthétique, d'odeurs et de saveurs, maîtres de chai et chefs de cuisine ont créé des mets et des vins à leur image : expressifs, astucieux, joyeux, vifs, colorés bref... Provençaux. Les appellations de Provence constituent indéniablement une famille au caractère affirmé, fruit du terroir, du climat et du savoir-faire. Mais sous ce nom se

cache une incroyable diversité, et si la cuisine commence tôt sur le marché, la dégustation des vins, elle, pourra se prolonger longtemps après le repas pour se terminer, à l'ombre d'un olivier, d'un platane, ou assis sur la margelle d'une fontaine. Un art de vivre, à découvrir, à partager...

Provence Food and Wine -
François Millo 2014-02-17

“Almost as much guide book as it is cookbook . . . the authors dive into the ingredients unique to Provençal cuisine and the history of the region.”

—Kitchn Provence, the beautiful region that sits at the scenic crossroads of southern France, the Italian Alps, and the Mediterranean, has long been an area of historical import and distinct culture. But above all else, it is known as a producer of some of the finest food and wine France has to offer, with a cuisine that emphasizes healthful ingredients such as olive oil, fresh vegetables, Mediterranean seafood, as well as dry, aromatic rosé. Provence Food and Wine is one of the only English-language books available on the cuisine, wine, and sights of this stunning Mediterranean enclave on the southern coast of France. Packed with 47 traditional

Provençal recipes, all of which emphasize the incredibly popular and healthy Mediterranean diet, Provence Food and Wine also provides detailed information on regional wines, most notably rosé. This is the most famous wine of Provence and has made great strides in the US.

Readers will be able to learn about pairing between wine and food, as Viktorija Todorovska and François Millo expertly explain what to look for and where to get these wines outside of Europe. Full-color photography shows off all of these dishes, as well as the dazzling sights of the region's lush interior, sparkling coastline, and breathtaking vistas. In Provence Food and Wine, Todorovska and Millo “bring the joie de vivre of this region right to your fingertips, capturing its allure with simplicity and heart” (One for the Table).

Geographical Indications - Dev S. Gangjee 2016-02-26

In an increasingly globalised world, place and provenance matter like never before. The law relating to Geographical Indications (GIs) regulates designations which signal this provenance. While Champagne, Prosciutto di Parma, Café de Colombia and Darjeeling are familiar designations, the relevant legal regimes have existed at the margins for over a century. In recent years, a critical mass of scholarship has emerged and this book celebrates its coming of age. Its objective is to facilitate an interdisciplinary conversation, by providing sure-footed guidance across contested terrain as well as enabling future avenues of enquiry to emerge. The distinctive feature of this volume is that it reflects a multi-disciplinary conversation between legal scholars, policy makers, legal practitioners, historians, geographers, sociologists, economists and anthropologists. Experienced contributors from across these

domains have thematically explored: (1) the history and conceptual underpinnings of the GI as a legal category; (2) the effectiveness of international protection regimes; (3) the practical operation of domestic protection systems; and (4) long-unresolved as well as emerging critical issues. Specific topics include a detailed interrogation of the history and functions of terroir; the present state as well as future potential of international GI protection, including the Lisbon Agreement, 2015; conflicts between trade marks and GIs; the potential for GIs to contribute to rural or territorial development as well as sustain traditional or Indigenous knowledge; and the vexed question of generic use. This book is therefore intended for all those with an interest in GIs across a range of disciplinary backgrounds. Students, scholars, policy makers and practitioners will find this Handbook to be an invaluable resource.

Abbreviations of

Organizations - F. A. Buttress
2012-12-06

This edition of well over 50,000 entries not only updates its predecessor but considerably increases the coverage of Latin America and Eastern Europe. I have been aided in this work by two colleagues at Glasgow University Library, Dr Lloyd Davies and Barbara MacMillan, and in general revision by Kate Richard. Close on 20% of the text has been altered. The equivalences, introduced into the last edition, linking acronyms in different languages for the same organization, have been extended. New to this edition is the cross-referencing between a defunct organization and its successor. Otherwise the policies adopted in previous editions have been retained: strictly local organizations are omitted, but the subject scope includes activities of all kinds; the country of origin of a national organization is given in brackets, unless it is the home country of the title language or can be readily

deduced from the title itself. Acronyms of parent bodies of subsidiary organizations are also added in brackets. A select bibliography guides the reader to specialist works providing more detailed information. Particularly at a time of such widespread political change affecting organizational structures in so many countries, it is impossible to ensure complete up-to-date accuracy in a work of this kind. Readers are earnestly invited to inform me of any errors and omissions for attention in a later edition of this work. H. H. Bibliography Acronyms, Initialisms and Abbreviations Dictionary. 13th edn. The Wine Revolution in France

- Leo A. Loubère 2014-07-14

During the past eight decades French vineyards, wineries, and wine marketing efforts have undergone such profound changes--from technological, scientific, economic, and commercial standpoints--that the transformation is revolutionary for an industry dating back thousands of years. Here Leo Loubère examines how the modernization of Western society has brought about new conditions in well-established markets, making the introduction of novel techniques and processes a matter of survival for winegrowers. Not only does Loubère explain how altered environmental conditions have enabled pioneering enologists to create styles of wine more suited to contemporary tastes and living arrangements, but he also discusses the social impact of the wine revolution on the employees in the industry. The third generation of this new viticultural regime has encountered working and living conditions drastically

different from those of its predecessors, while witnessing the near disappearance of the working class and the decline of small and medium growers of ordinary wines. Originally published in 1990. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.
