### **Through Time Into Healing -**

Brian L. Weiss 2012-05-08

The book that sheds new light on reincarnation and the extraordinary healing potential of past life and hypnotic regression therapy, from the New York Times bestselling author of Many Lives, Many Masters. Brian Weiss made headlines with his groundbreaking research on past life therapy in Many Lives, Many Masters. Now, based on his extensive clinical

experience, he builds on time-tested techniques of psychotherapy, revealing how regression to past lifetimes provides the necessary breakthrough to healing mind, body, and soul. Using vivid past life case studies, Dr. Weiss shows how regression therapy can heal grief, create more loving relationships, uncover hidden talents, and ultimately shows how near death and out of body experiences help confirm the existence of past

lives. Dr. Weiss includes his own professional hypnosis, dream recall, meditation, and journaling techniques for safe past life recall at home. Compelling and provocative, *Through Time Into Healing* shows us how to help ourselves lead healthy, productive lives, secure in the knowledge that death is not the final word and that the doorways to healing and wholeness are inside us.

**Memories of the Afterlife** - Michael Newton 2010-09-08

Dr. Michael Newton, best-selling author of *Journey of Souls* and *Destiny of Souls*, returns with a series of case studies that highlight the profound impact of spiritual regression on people's everyday lives. Edited by Dr. Newton, these fascinating true accounts from around the world are handpicked and presented by Life Between Lives hypnotherapists certified by the Newton Institute. After recalling memories of their afterlife, the people in these studies embarked on life-changing spiritual journeys—reuniting with soul

mates and spirit guides, and discovering the ramifications of life and body choices, love relationships, and dreams by communing with their immortal souls. As gems of self-knowledge are revealed, dramatic epiphanies result, enabling these ordinary people to understand adversity in their lives, find emotional healing, realize their true purpose, and forever enrich their lives with new meaning.

*Memories of Heaven* - Wayne Dyer 2015-12-15

Nineteenth-century British poet William Wordsworth expressed the idea that we gradually lose our intimate knowledge of heaven as we grow up, observing that "our birth is but a sleep and a forgetting" of our previous heavenly existence. Dr. Wayne W. Dyer and co-author Dee Garnes had often talked about how the ones who know the most about God are those who have just recently been wrapped in the arms of the Divine, our infants and toddlers. In fact, Dee had an interaction with her own young

son that convinced her of this. Curious about this phenomenon, Wayne and Dee decided to issue an invitation to parents all over the world to share their experiences. The overwhelming response they received prompted them to put together this book, which includes the most interesting and illuminating of these stories in which very young children speak about their remembrances before they were born. It seems that infants and toddlers often arrive here with memories of their lifetimes in the spirit world and frequently provide evidence of this to their immediate families. They tell of dialogues with God, give evidence that they themselves had a hand in picking their own parents, speak about long-deceased family members they knew while in the dimension of Spirit, verify past-life recollections, and speak eloquently and accurately of a kind of Divine love that exists beyond this physical realm--and even of times when telepathic communication took place, as

well as the ability to decide just when they would come here to Earth. This fascinating book encourages parents and grandparents to take a much more active role in communicating with their new arrivals . . . and to realize that there is far more to this earthly experience than what we perceive with our five senses. *Life After Life* - Raymond Moody 2015-12-15  
The groundbreaking, bestselling classic, now available in a special fortieth-anniversary edition that includes a new Foreword from Eben Alexander, M.D., author of *Proof of Heaven*, and a new Afterword by the author. Raymond Moody is the “father” of the modern NDE (Near Death Experience) movement, and his pioneering work *Life After Life* transformed the world, revolutionizing the way we think about death and what lies beyond. Originally published in 1975, it is the groundbreaking study of one hundred people who experienced “clinical death” and were revived, and who tell,

in their own words, what lies beyond death. A smash bestseller that has sold more than thirteen million copies around the globe, *Life After Life* introduced us to concepts—including the bright light, the tunnel, the presence of loved ones waiting on the other side—that have become cultural memes today, and paved the way for modern bestsellers by Eben Alexander, Todd Burpo, Mary Neal, and Betty Eadie that have shaped countless readers notions about the end life and the meaning of death.

Regression to Times and Places

- Brian Weiss 2008-05

Regression to Times and Places is the first CD in Brian's new meditation series. This series helps you to discover and learn meditation and regression techniques. This CD uses several visualizations to access

the mind-body connection for healing; for releasing negative thoughts, feelings, and emotions; and for replacing them with positive energy, peace, wisdom, love, and joy. Dr. Brian L. Weiss uses a technique of recounting different historical time periods and suggesting the visualization of geographical places to trigger past-life memories. The regressions provide different techniques for retrieval of memories from this lifetime and prior lifetimes, as well as methods to access spiritual states and inner wisdom.

visión de la psicoterapia. Una de sus pacientes, Catherine, recordó bajo hipnosis varias de sus vidas pasadas y pudo encontrar en ellas el origen de muchos de los traumas que sufría. Catherine se curó, pero ocurrió algo todavía más importante: logró ponerse en contacto con los Maestros, espíritus superiores que habitan los estados entre dos vidas. Ellos le comunicaron importantes mensajes de sabiduría y de conocimiento. Este relato, profundamente conmovedor, punto de encuentro entre ciencia y metafísica, constituyó un extraordinario best seller y sigue siendo de obligada lectura en un mundo convulsionado, en especial para los que buscan un sentido espiritual. Los mejores comentarios de los lectores sobre Muchas vidas, muchos maestros: «Impactante. Un libro que te obliga a realizar pausas de vez en cuando para asimilar y procesar las experiencias que relata. Tiene la credibilidad de una eminencia en psiquiatría y se

asemeja en ocasiones al Libro Tibetano de los muertos pero bajo mi opinión hay aceptar esta información y cogerlo con pinzas ya que ningún hombre a lo largo de la humanidad murió y volvió para contarnos lo que hay en el más allá.»

«Interesante lectura incluso para escépticos. He disfrutado su lectura, a pesar de ser muy escéptico sobre estas cuestiones. Habitado a lectura científica, sentía una sana curiosidad por este libro. Quería descubrir si se trataba de una farsa o tenía visos de seriedad y, tras su lectura, no puedo sino recomendarlo. Se puede creer o no lo que en él se describe, eso es cuestión de cada uno, pero sin duda merece la pena su conocimiento.» «Un libro increíblemente interesante. Libro muy fácil de leer y de tremendo impacto. Las cosas que hablan y los temas que abordan deberían ser aprendidos en el colegio. Todo ser humano debería leer este libro y respetar las teorías que mencionan en el. Brian Weiss es sin lugar a dudas un

psiquiatra de prestigio que se atreve a abordar temas muy estigmatizados en nuestra época y sociedad actual.»

failed for almost a year with

conventional methods.In a

state of deep trance, the young

woman remembered her

previous lives and freed herself

little by little from the traumas

that were the key to her

disorders.Catherine was

completely cured. But the greatest success of this therapy was what the therapist learned, and his discoveries and verified truths that changed his way of seeing human life. This work constitutes a meeting point between science and metaphysics in which the subjects of reincarnation and life after death merge. *Go, Went, Gone* - Jenny Erpenbeck 2017-09-15  
An unforgettable German bestseller about the European refugee crisis: "Erpenbeck will get under your skin" (Washington Post Book World)  
*Go, Went, Gone* is the masterful new novel by the acclaimed German writer Jenny Erpenbeck, "one of the most significant German-language novelists of her generation" (The Millions). The novel tells the tale of Richard, a retired classics professor who lives in Berlin. His wife has died, and he lives a routine existence until one day he spies some African refugees staging a hunger strike in Alexanderplatz. Curiosity turns to compassion and an inner

transformation, as he visits their shelter, interviews them, and becomes embroiled in their harrowing fates. *Go, Went, Gone* is a scathing indictment of Western policy toward the European refugee crisis, but also a touching portrait of a man who finds he has more in common with the Africans than he realizes. Exquisitely translated by Susan Bernofsky, *Go, Went, Gone* addresses one of the most pivotal issues of our time, facing it head-on in a voice that is both nostalgic and frightening.

**Emotion & Relationships (2 Books in 1)** - Sadhguru  
2017-12-07

Emotion “One can make any emotion into a creative force in one’s life.” – Sadhguru It’s not just poetic license that allows us to refer to emotions as “juicy”. In a literal sense also, emotions are a chemical cocktail that course through our bodies. But while we have no problems with pleasant emotions, unpleasant emotions are the source of much angst in our lives. In Emotion: The Juice of Life, Sadhguru looks at the

gamut of human emotions and how to turn them into stepping stones rather than stumbling blocks. Relationships “If you enhance yourself into a very beautiful state, everyone will want to hold a relationship with you.” – Sadhguru Human beings constantly make and break relationships.

Unfortunately, relationships can make and break human beings too. Why are relationships such a circus for most of us? What is this primal urge within us that demands a bond – physical, mental, or emotional – with another? And how do we keep this bond from turning into bondage? These are the fundamental questions that Relationships: Bond or Bondage looks at as Sadhguru shares with us the keys to forming lasting and joyful relationships, whether they are with husband or wife, family and friends, at work, or with the very existence itself. Sadhguru is a yogi and profound mystic of our times. An absolute clarity of perception places him in a unique space in not only

matters spiritual but in business, environmental and international affairs, and opens a new door on all that he touches.

cancer. During his seventh operation against the disease, dying from sepsis with a 105 degree fever, Dr Parti left his body and watched his own operation from the ceiling. What followed was a profound near-death experience, in which Dr Parti was met by archangels and his deceased father, who led him to witness both heaven and hell. From the angels, he learned lessons of spiritual health that they insisted he bring down to earth - to do so, Dr Parti knew he had to change his ways. After his near-death experience, Dr Parti awoke a new man. He gave away his mansion, quit his career, opened a wellness clinic and completely turned around his relationships with his family. In this remarkable true story of spiritual transformation, Dr Parti provides rare details of heaven, hell, the afterlife and angels. **Eliminating Stress, Finding Inner Peace** - Brian L. Weiss, M.D. 2020-09-01

Eliminating Stress, Finding Inner Peace is an important step on the healing journey. Stress kills—there's no doubt. It eats away at you, affecting

your level of happiness, as well as your stomach lining. It raises your blood pressure and directly harms your cardiovascular system. It depresses your immune system and allows chronic illnesses to overwhelm you—causing pain, disability, and even death. Basically, stress prevents you from experiencing life's many pleasures. Stress is a mental state that can cause severe negative emotional and physical consequences. It can be entirely eliminated, or at least greatly lessened, by adjusting our understanding and attitudes, and by learning simple, yet very effective, relaxation techniques. This book, with its accompanying stress-reduction audio download, will help you deeply relax. It will enable you to release the acute and chronic tension you constantly carry in your body and mind. It can also help you remove the blocks and obstacles to your inner peace and contentment, and prevent stress-related illness and disease. To heal yourself in this manner is an act of self-love,

because you're taking the time and expending the energy to work on yourself physically and emotionally, thereby bringing more joy into your life. You'll find that regular practice with the audio will produce profound, long-lasting results. *Signs* - Laura Lynne Jackson 2019

"Laura Lynne Jackson is a psychic medium and the author of the New York Times bestseller *The Light Between Us*. She possesses an incredible gift--the ability to communicate with loved ones who have passed, convey messages of love and healing, and impart a greater understanding of our interconnectedness. Though her abilities are exceptional, they are not unique, and that is the message at the core of this book. Understanding "the secret language of the universe" is a gift available to all. As we learn to ask for and recognize signs from the other side, we will start to find meaning where before there was only confusion, we will see light in the darkness. We may

decide to change paths, push toward love, pursue joy, and engage with life in a whole new way. In *Signs*, Jackson is able to bring the mystical into the everyday. She relates stories of people who have experienced these uncanny revelations and instances of unexplained synchronicity, as well as those drawn from her own experience. There's the producer whose lost child appears to her as a deer that approaches her unhesitatingly at a highway rest stop; the name tag of an ER nurse that lets a terrified wife know that her husband will be okay; the Elvis Presley song that arrives at the exact time of her own father's passing; and many others. This is a book that is both inspiring and practical, deeply comforting and wonderfully motivational in asking us to see beyond ourselves to a more magnificent universal design"--

*Many Lives, Many Masters: The True Story of a Psychiatrist, His Young Patient, and Past-Life Therapy* by Brian L. Weiss Book Summary Abbey Beathan (Disclaimer: This is NOT the original book.) The story about how a skeptical doctor discovered evidence on past lives and developed a method using them to cure his

patients. There are many stories about how a skeptic turns into a believer but this one stands out. A skeptical doctor was astonished when he discovered one of his patients recalling past-life traumas.

Those wounds from the past seem to be responsible of his recurring nightmares and anxiety attacks. Doctor Weiss manages to channel his new knowledge and develop a method called "past life regression" which recovers memories of incarnations in order to address them and cure the patient of his traumas.

"For truly we are all angels temporarily hiding as humans."

- Brian L. Weiss After discovering about past lives, Brian L. Weiss entered a new phase in his career; one that would use memories from the past lives of patients in order to heal them. His method of hypnosis worked so he started heading in a new path in order to help each one of his

patients. His work in parapsychology is outstanding and his method of past life regressions is brilliant. Definitely a book worth reading. A skeptic doctor discovered evidence that baffled him and change his mind about reincarnation. P.S. Many Lives, Many Masters is an amazing book that shows us a new approach on psychological treatment. P.P.S. It was Albert Einstein who famously said that once you stop learning, you start dying. It was Bill Gates who said that he would want the ability to read faster if he could only have one superpower in this world.
