Serviani in Vergili Aeneidos libros IX-XII commentarii - Completed and Prepared for Publication by Robert A. Kaster 2018-03-29

The Servian commentaries on Vergil are doubly distinguished: they are among the very few ancient commentaries on classical Latin texts to survive essentially intact; and they exist in two radically different forms—the original commentary created by the grammarian Servius early in the fifth century, emphasizing grammar and syntax, and an augmented version produced in the seventh century when a reader blended his Servius with much other recherché ancient lore. In the 1920s, the medievalist Edward Kennard Rand undertook to produce a truly modern edition that would fully reveal for the first time the character of the commentaries' two versions. All did not go smoothly, however: a volume devoted to Aeneid 1-2 appeared in 1946, and another, with the commentaries on Aeneid 3-5, in 1965; this edition of the commentaries on Aeneid 9-12 is the first new contribution to the series to appear in more than fifty years. On his death in 2013, Charles E. Murgia left publishable versions of the text, upper and lower critical apparatuses, and large parts of the introduction, and he had gathered most of the data for a testimonial apparatus. Robert A. Kaster completed the work on the testimonia and introduction (using some of Murgia's other writings to supplement the latter), added some subsidiary elements, and prepared the whole for publication. Thanks primarily to Murgia's work, this edition is superior to its predecessors in the series, and to all other editions of Servius, in every respect.

Alea Iacta Est The Die is Cast - Goeran B Johansson 2020-08-18

The book deals with the latest global developments since the presidential election in the US in 2016 when Donald Trump took over the presidency in the White House. The author gives a historical look back at the earlier geostrategic theories from the 1800s - 1900s, of which Great Britain and the United States have followed the classic Anglo-American ditto in practice since the First World War and until recently. Also, a reasonably detailed presentation is given about the, in the West among the population, relatively unknown Petrodollar System, which took place after Breton Wood. This Pax Americana-colonial power tool, where the United States can no longer act militarily globally without risk with its aircraft carriers, which is the cornerstone of the United States' superpower status, is currently under intense attacks from Russia and China. With the fight for oil in focus and where Vladimir Putin has succeeded in the entirely impossible. Namely, to receive political support from all countries in the Middle East. We get an overview of the Anglo-Saxon classical geostrategies. Furthermore, Foundation of Geopolitics, the Fourth Political Theory, and Eurasianism, by the Russian professor, geopolitician and ideologue, Alexander Dugin, whose policies are primarily led by Russia under Vladimir Putin. In an action under which China's, Xi Jinping, forms support as the most potent coastal power in Eurasia. These authoritarian powers work together to neutralize US-NATO and thereby take control of the entire Eurasian continent, thus gaining Global World Domination. Plenty of sources from well-known international newspapers/magazines such as Washington Post, The Atlantic, Politico, RBTH, The National Interest, Forbes, Pravda, Oil-price, New York Times, Financial Times, Sputnik, Business Insider, and many more. The entire course of events has escalated dramatically in the

shadow of the COVID-19 pandemic, which received enormous global economic and other consequences.

Ennius Noster - Jason S. Nethercut 2020

"Ennius' Annales was one of the most important hexameter epics written before Vergil's Aeneid, and perhaps the most influential Latin poem of any period. ... This book ... capitalizes on the fruits of ... Ennian studies in order to analyze the reception of Ennius' Annales in Lucretius' De Rerum Natura. ... For the reader interested in Lucretius, this book offers a systematic analysis of the primary poetic model of the De Rerum Natura and so fills a long-standing and sizeable gap in our understanding of Lucretian poetics and his allusive program. For the reader interested in Ennius, this book offers, at best, an excavation of Lucretius' version of the Annales, a version that must have been foundational for many subsequent receptions of the Annales "--

Acta Est - Lise Sarfati 2000-08-29

Acta Est is the first book by the French photographer-artist Lise Sarfati. Composed of images made during extended visits to Russia in the 1990s, *Acta Est* is neither travelogue nor photo-journalistic essay. Rather, Sarfati weaves daring detailed descriptions of the Russian environments that fascinate her to create a visual drama of dysfunction and deterioration, change and beauty. The title - from the Latin phrase *Acta Est Fabula*, meaning 'the play is over' - signals her insistence that the work not be read as journalism but as a work of theatrical imagination. Sarfati builds a disturbing world of decaying buildings and neglected factories, which she brings to an eerie life with lost characters: young transsexuals and teenage runaways interned in 're-education' camps. What results is a body of beautiful, engaging and disturbing photographs that are both a powerful historical record of Russia at the end of an era and examples of the unique poetry of a powerful new visual artist conjuring her own world. The forty-six featured photographs sequenced by Sarfati are accompanied by a thought-provoking introduction by the Russian-born art historian Olga Medvedkova.
