Has China Won? - Kishore Mahbubani 2020-03-31

The defining geopolitical contest of the twenty-first century is between China and the US. But is it avoidable? And if it happens, is the outcome already inevitable? China and America are world powers without serious rivals. They eye each other warily across the Pacific; they communicate poorly; there seems little natural empathy. A massive geopolitical contest has begun. America prizes freedom; China values freedom from chaos. America values strategic decisiveness; China values patience. America is becoming society of lasting inequality; China a meritocracy. America has abandoned multilateralism; China welcomes it. Kishore Mahbubani, a diplomat and scholar with unrivalled access to policymakers in Beijing and Washington, has written the definitive guide to the deep fault lines in the relationship, a clear-eyed assessment of the risk of any confrontation, and a bracingly honest appraisal of the strengths and weaknesses, and superpower eccentricities, of the US and China.

Women and the Periodical Press in China's Long Twentieth Century - Michel Hockx 2018-05-24

In this major new collection, an international team of scholars examine the relationship between the Chinese women's periodical press and global modernity in the late nineteenth and twentieth centuries. The essays in this richly illustrated volume probe the ramifications for women of two monumental developments in this period: the intensification of China's encounters with foreign powers and a media transformation comparable in its impact to the current internet age. The book offers a distinctive methodology for studying the periodical press, which is supported by the development of a bilingual database of early Chinese periodicals. Throughout the study, essays on China are punctuated by transdisciplinary reflections from scholars working on periodicals outside of the Chinese context, encouraging readers to rethink common stereotypes about lived womanhood in modern China, and to reconsider the nature of Chinese modernity in

a global context.

Postal Séance - Henrik Drescher 2004-07-08

If you can write letters to Santa Claus c/o the North Pole, you ought to be able to write a letter to Jack Kerouac or Albert Einstein. As it turns out, you can. People have been trying to communicate with the dead for aeons, but it took renowned author and illustrator Henrik Drescher to break through the eternal barrier. Postal Seance is the result of his bizarre and ambitious experiment, in which the afterlife meets the epistolary impulse in the form of elaborately decorated letters to the dead. By sending out 52 ornately designed cards and letters to deceased luminaries throughout history -- including James Joyce, Dolly the Sheep (in two letters), Chairman Mao, Saul Steinberg, and others -- Drescher puts his faith in the efficacy of the international postal network. In some cases, the letter is returned, bearing evidence of its lengthy journey in the form of international postmarks as it bounced from Singapore to Manchester, Sydney to Kentucky, or Madrid to Moscow, at last surrendering to the ultimate defeat, the "Return to Sender" stamp. Of those not returned, it is deduced that the letter was successfully delivered. With a foldout map showing the post-life postal system and custom stamps for the reader's own far-reaching missives, Postal Seance is a uniquely imaginative presentation, and perhaps the closest we humans have ever come to contact with the dead.

On China - Henry Kissinger 2011-05-17

For more than twenty years after the Communist Revolution in 1949, China and most of the western world had no diplomats in each others' capitals and no direct way to communicate. Then, in July 1971, Henry Kissinger arrived secretly in Beijing on a mission which quickly led to the reopening of relations between China and the West and changed the course of post-war history. For the past forty years, Kissinger has maintained close relations with successive generations of Chinese leaders, and has probably been more intimately connected with China at the highest level than any other western figure. This book distils his unique experience and long study of the 'Middle Kingdom', examining China's history from the classical era

to the present day, and explaining why it has taken the extraordinary course that it has. The book concentrates on the decades since 1949, presenting brilliantly drawn portraits of Mao Zedong, Zhou Enlai, Deng Xiaoping and other Chinese leaders, and reproducing verbatim Kissinger's conversations with each of them. But Kissinger's eye rarely leaves the long continuum of Chinese history: he describes the essence of China's approach to diplomacy, strategy and negotiation, and the remarkable ways in which Communist-era statesmen have drawn on methods honed over millennia. At the end of the book, Kissinger reflects on these attitudes for our own era of economic interdependence and an uncertain future. On China is written with great authority, complete accessibility and with many wider reflections on statecraft and diplomacy distilled from years of experience. At a moment when the rest of the world is thinking about China more than ever before, this timely book offers insights that no other can.

Red Roulette - Desmond Shum 2021-09-07

"THE BOOK CHINA DOESN'T WANT YOU TO READ." —CNN SELECTED AS A BEST BOOK OF THE YEAR by THE ECONOMIST and FINANCIAL TIMES This "powerful and disturbing" (Bill Browder, author of Red Notice) New York Times bestseller is narrated by a man who, with his wife, Whitney Duan, rose to the top levels of power and wealth—and then fell out of favor. Whitney had been disappeared four years before, but this book led to her dramatic reemergence. As Desmond Shum was growing up impoverished in China, he vowed his life would be different. Through hard work and sheer tenacity he earned an American college degree and returned to his native country to establish himself in business. There, he met his future wife, the highly intelligent and equally ambitious Whitney Duan who was determined to make her mark within China's male-dominated society. Whitney and Desmond formed an effective team and, aided by relationships they formed with top members of China's Communist Party, the so-called red aristocracy, he vaulted into China's billionaire class. Soon they were developing the massive air cargo facility at Beijing International Airport, and they followed that feat with the creation of one of Beijing's premier hotels. They were dazzlingly successful, traveling in private jets, funding multi-million-dollar buildings and endowments, and purchasing expensive homes, vehicles, and art. But in 2017, their fates diverged irrevocably when Desmond, while residing overseas with his son, learned that his now ex-wife Whitney had vanished along with three coworkers. This vivid, explosive memoir shows "how the Chinese government keeps business in line—and what happens when businesspeople overstep" (The New York Times) and is a "singular, highly readable insider account of the most secretive of global powers" (The Spectator).

Urbanization and Contemporary Chinese Art - Meiqin Wang 2015-08-11

This book explores the relationship between the ongoing urbanization in China and the production of contemporary Chinese art since the beginning of the twenty-first century. Wang provides a detailed analysis of artworks and methodologies of art-making from eight contemporary artists who employ a wide range of mediums, including painting, sculpture, photography, installation, video, and performance. She also sheds light on the relationship between these artists and their sociocultural origins, investigating their provocative responses to various processes and problems brought about by Chinese urbanization. With this urbanization comes a fundamental shift of the philosophical and aesthetic foundations in the practice of Chinese art: from a strong affiliation with nature and countryside to one that is complexly associated with the city and the urban world.

The Hundred-Year Marathon - Michael Pillsbury 2015-02-03

One of the U.S. government's leading China experts reveals the hidden strategy fueling that country's rise - and how Americans have been seduced into helping China overtake us as the world's leading superpower. For more than forty years, the United States has played an indispensable role helping the Chinese government build a booming economy, develop its scientific and military capabilities, and take its place on the world stage, in the belief that China's rise will bring us cooperation, diplomacy, and free trade. But what if the "China Dream" is to replace us, just as America replaced the British Empire, without firing a shot? Based on interviews with Chinese defectors and newly declassified, previously undisclosed national security documents, The Hundred-Year Marathon reveals China's secret strategy to supplant the United States as the world's dominant power, and to do so by 2049, the one-hundredth anniversary of the founding of the People's Republic. Michael Pillsbury, a fluent Mandarin speaker who has served in senior national security positions in the U.S. government since the days of Richard Nixon and Henry Kissinger, draws on his decades of contact with the "hawks" in China's military and intelligence agencies and translates their documents, speeches, and books to show how the teachings of traditional Chinese statecraft underpin their actions. He offers an inside look at how the Chinese really view America and its leaders - as barbarians who will be the architects of their own demise. Pillsbury also explains how the U.S. government has helped - sometimes unwittingly and sometimes deliberately - to make this "China Dream" come true, and he calls for the United States to implement a new, more competitive strategy toward China as it really is, and not as we might wish it to be. The Hundred-Year Marathon is a wake-up call as we face the greatest national security challenge of the twenty-first century.

Dog Days - Ivan Franceschini 2019-04-05

According to the Chinese zodiac, 2018 was the year of the 'earthly dog'. In the middle of the long, hot, and feverish dog days of the summer of 2018, some workers at Shenzhen Jasic Technology took their chances and attempted to form an independent union. While this action was met by the harshest repression, it also led to extraordinary demonstrations of solidarity from small groups of radical students from all over the country, which in turn were immediately and severely suppressed. China's year of the dog was also imbued with the spirit of another canine, Cerberus—the three-headed hound of Hades—with the ravenous advance of the surveillance state and the increasing securitisation of Chinese society, starting from the northwestern region of Xinjiang. This Yearbook traces these latest developments in Chinese society through a collection of 50 original essays on labour, civil society, and human rights in China and beyond, penned by leading scholars and practitioners from around the world.

Censored - Margaret E. Roberts 2020-02-18

A groundbreaking and surprising look at contemporary censorship in China As authoritarian governments around the world develop sophisticated technologies for controlling information, many observers have predicted that these controls would be easily evaded by savvy internet users. In Censored, Margaret Roberts demonstrates that even censorship that is easy to circumvent can still be enormously effective. Taking advantage of digital data harvested from the Chinese internet and leaks from China's Propaganda Department, Roberts sheds light on how censorship influences the Chinese public. Drawing parallels between censorship in China and the way information is manipulated in the United States and other democracies, she reveals how internet users are susceptible to control even in the most open societies. Censored gives an unprecedented view of how governments encroach on the media consumption of citizens.

Ignorance is Bliss: The Chinese Art of Not Knowing - Mieke Matthyssen 2021-06-15

This book examines the popular, yet puzzling, Chinese saying Nande hutu 难得好 to uncover how the ancient Chinese wisdom of not knowing is constructed, interpreted, practiced and valued in contemporary society. Originating in the calligraphy of Qing-dynasty scholar Zheng Banqiao, Nande hutu translates literally as: “hard to attain muddle-headedness”. Mieke Matthyssen traces the historical development of this saying and related philosophies to reveal a culturally conditioned, multi-layered inclination to different forms of not knowing. In contemporary society, she argues, this inclination forms part of a living art: in some respects, a passive, evasive strategy for self-preservation; in other respects, a strategy for coping with intrapersonal, interpersonal and social complexities. Drawing on an extensive range of primary sources and original research, the analysis skillfully combines philosophical and socio-historical analysis with theory from Chinese philosophy, philosophical psychology and the relatively new field of indigenous psychology, to provide an in-depth understanding of how Nande hutu has shaped, and continues to shape, the Chinese psyche and behaviour. This book will appeal to all readers looking for fresh insights into Chinese culture, and in particular to students and scholars of Chinese and Asian studies, cultural and social anthropology, and philosophical and indigenous psychology.

Inside China's Legal System - Chang Wang 2013-10-31

China’s legal system is vast and complex, and robust scholarship on the subject is difficult to obtain. Inside China’s Legal System provides readers with a comprehensive look at the system including how it works in practice, theoretical and historical underpinnings, and how it might evolve. The first section of the book explains the Communist Party’s utilitarian approach to law: rule by law. The second section discusses Confucian and Legalist views on morality, law and punishment, and the influence such traditional Chinese thinking has on contemporary Chinese law. The third section focuses on the roles of key players (including judges, prosecutors, lawyers, and legal academics) in the Chinese legal system. The fourth section offers Chinese legal case studies in civil, criminal, administrative, and international law. The book concludes with a comparison of China’s fundamental governing and legal principles with those of the United States, in such areas as checks and balances, separation of powers, and due process. Uses extensive legal materials and historical documents generally unavailable to Western based academics Gives insider knowledge, including first-hand experience teaching law, and close involvement with judges, attorneys, and law professors in China Analyses legal issues from historical and cultural perspectives holistically
