**A Schole-house for the Needle** - Richard Shorleyker 1632

**Bream Gives Me Hiccups** - Jesse Eisenberg 2015-08-31

The wildly inventive debut collection of stories by the Oscar-nominated star of *The Social Network*. "Hilarious . . . It's a hoot" (People, The Best New Books). Jesse Eisenberg, known for his iconic film roles, his regular pieces in the *New Yorker* and two critically acclaimed plays, proves himself "a deeply original comic voice" in these 28 stories" about the funniness, sadness, and strangeness of everyday life and they really made me laugh" (Roz Chast). Moving from contemporary LA to the dorm rooms of an American college to ancient Pompeii, Eisenberg throws the reader into a universe of social misfits, reimaged scenes from history, and ridiculous overreactions; a college freshman forced to live with a roommate is stunned when one of her ramen packets goes missing ("She didn't have 'one' of my ramens. She had a chicken ramen."); Alexander Graham Bell has teething problems with his invention ("I've been calling Mabel all day, she doesn't pick up! Yes, of course I dialed the right number—2!"); and in the title story, a precocious and privileged nine-

year-old boy finds himself in the uncomfortable position as an amateur restaurant critic. Featuring illustrations by award-winning cartoonist Jean Jillian, this "alphabet soup of sketches, riffs, and innovations" (Seattle Times) explores the various insanities of the modern world, "playfully bringing both familiar and wholly original scenarios to life" (Marie Claire). *Chelsea Porcelain at Williamsburg* - John Cecil Austin 1977

The Colonial Williamsburg Foundation has amassed an outstanding collection of ceramics produced by the Chelsea porcelain Manufactory during its years of operation, 1745-1769. The most important part of the collection falls within the Manufactory's earliest, or triangle, period, and includes examples of nearly all the extant forms. Exotic teapots shaped like Chinamen holding creatures, and objects copied directly from silver prototypes are but a few of the fascinating forms from the early, experimental period. Also illustrated are unique and aesthetically pleasing examples that were manufactured at Chelsea later.

**Joan Crawford** - David Bret 2009-04-15

In the first biography of Joan Crawford to give the full, uncensored story,

bestselling author David Bret tells Crawford's rags to riches climb, from working in a Kansas City laundry to collecting an Oscar for her defining role in *Mildred Pierce*, and on to her devotion to Christian Science and reliance on vodka. He discusses the star's legendary relationship with Clark Gable, her countless love affairs, her marriages -- three of them to gay men -- and her obsession with rough sex. Bret divulges what really happened that led her to disinherit two of her four children, earning her the nickname "Mommie Dearest," as well as how her loathed mother forced Crawford to work as a prostitute, appear in pornographic films, and sleep her way to the top. Bret analyzes Crawford's films, many of which were constructed purely as vehicles where actress and character were often indistinguishable. Overtly generous towards her coterie of gay friends, she was heartless towards her enemies, particularly Bette Davis, her co-star in *Whatever Happened to Baby Jane*, with whom she shared a lifelong feud. Drawing on a wealth of unpublished material and interviews, David Bret presents a unique, fascinating portrait of a single-minded, uncompromising woman.

**English Dry-bodied Stoneware** - Diana Edwards 1998

English dry-bodied stoneware was the ultimate ceramic expression of the neoclassical wave which erupted in England and on the Continent in the mid-eighteenth century. Initially basalt commanded the scene, with its imposing black stoneware forms imitating Greek vases. However, it was Wedgwood's invention of the jasper body which was to be the tour de force associated with his name. Wedgwood's jasper vases, purchased by gentry and nobility alike, were soon imitated by a myriad of potters. This book is the first to explore the vast subject of English dry-bodied stoneware with discussions on the antecedents of the eighteenth century neoclassical wares, the red stonewares of the seventeenth century, as well as the other bodies produced by Wedgwood and his contemporaries: caneware, white felspathic stoneware and, of course, the flagship of the Wedgwood name, jasper. The authors have, for the first time, utilised Wedgwood's surviving sales records from 1774-1794 and these have made it possible to allow

*The Pottery Trade and North Staffordshire, 1660-1760* - Lorna Weatherill 1971

*White Salt-glazed Stoneware of the British Isles* - Diana Edwards 2005

From its first introduction, in the early 16th century in the Westerwald, salt-glazed stoneware vessels, impermeable to liquids and made hygienic by their clear, lustrous silica glaze, vastly changed food storage and consumption habits. This is the first book on the subject in over thirty years and the very first to cover white salt-glazed production in the whole of the British Isles, not just in Staffordshire. With its original research on the histories of 150 18th century potters and 450 illustrations of pieces, many of previously unpublished archaeological finds, this book reveals a great deal that is new about the industry as a whole, both the making and the marketing, and also about those who collected these wares.

**William Greatbatch** - David Barker 1991-01-01

**Jock Sturges** - Jock Sturges 2000

Building on his first monograph, Jock Sturges presents us with a new body of work that strikes the same chords of beauty and evolution that we find in his earlier images, but with a more intense dramatic and metaphoric intention. His new work often has an almost theatrical effect on the viewer -- seeming to emanate directly from the lives of the artist's models. The settings, the subjects, the sumptuous lighting will all be familiar to longtime admirers of Sturges' ongoing body of work. As his experience as a photographer has deepened and his relationships with his growing subjects spans decades of collaboration, both subjects and

photographer have found more to say to each other. The new photographs include diptychs of clothed/nude models, pictures of true mutual trust, as well as never-before seen color photographs! This large format book takes direct aim at Jock Sturges' long-standing vision as his large format, 8x10 view-camera always demanded the large exhibition prints that were to follow. Thanks to the brilliant combination of computer-driven advances in modern printing techniques and the old-world attention to detail and craftsmanship, this book sets a new standard for the reproduction of artworks.
