2021-06-01

An Instant New York Times Bestseller In a world where witches control the climate and are losing control, only one witch can save earth from destruction. But as her power grows, it hurts those closest to her, and when she falls in love with her training partner she's forced to choose between her power, her love, and saving the earth. For centuries, witches have maintained the climate, but now their control is faltering as the atmosphere becomes more erratic; the storms, more destructive. All hope lies with Clara, a once-in-a-generation Everwitch whose magic is tied to every season. In Autumn, Clara wants nothing to do with her power. It's wild and volatile, and the price of her magic—losing the ones she loves—is too high, despite the need to control the increasingly dangerous weather. In Winter, the world is on the precipice of disaster. Fires burn, storms rage, and Clara accepts that she's the only one who can make a difference. In Spring, she falls for Sang, the witch training her. As her magic grows, so do her feelings, until she's terrified Sang will be the next one she loses.
