Buzz - Jeffrey Spivak 2011

The Great Depression was defined by poverty and despair, but visionary American filmmaker Busby Berkeley (1895-1976) managed to divert the public's attention away from the economic crash with some of the most iconic movies of all time. Known for his kaleidoscopic dance numbers featuring multitudes of performers in extravagant costumes, his musicals provided a brief respite for an audience whose reality was hard and bitter. Buzz: The Life and Art of Busby Berkeley is a revealing study of the director, drawing from interviews with his colleagues, newspaper and legal records, and Berkeley's own unpublished memoirs to uncover the life of a Hollywood legend renowned for his talent and creativity. Jeffrey Spivak examines how Berkeley's career evolved from creating musical numbers for other directors in films such as *42nd Street* (1933) and *Gold Diggers of 1933* (1933) to directing his own pictures, such as *Strike up the Band* (1940) and *The Gang's All Here* (1943). Though Berkeley claimed he was no choreographer, his movies revitalized the public's waning interest in musical pictures. While other popular filmmakers advertised their works specifically as nonmusical, Berkeley embraced his niche, eventually becoming the premier dance director of his time. However, the happy face Berkeley presented publicly did not necessarily reflect his life. Offstage and away from the set, the director met with scandal, and his fondness for liquor and women was well known. In September 1935, he was involved in a car accident that left three people dead and four others severely injured. Accused of driving under the influence, he was put on trial for second-degree murder. The accident significantly changed the nature of his stardom.

**Psycho-Cybernetics** - Maxwell Maltz 2015-11-03

Cybernetics (loosely translated from the Greek): "a helmsman who steers his ship to port." Psycho-Cybernetics is a term coined by Dr. Maxwell Maltz, which means, "steering your mind to a productive, useful goal so you can reach the greatest port in the world, peace of mind." Since its first publication in 1960, Maltz's landmark bestseller has inspired and enhanced the lives of more than 30 million readers. In this updated edition, with a new introduction and editorial commentary by Matt Furey, president of the Psycho-Cybernetics Foundation, the original text has been annotated and amplified to make Maltz's message even more relevant for the contemporary reader. "Before the mind can work efficiently, we must develop our perception of the outcomes we expect to reach. Maxwell Maltz calls this Psycho-Cybernetics; when the mind has a defined target it can focus and direct and refocus and redirect until it reaches its intended goal." —Tony Robbins (from *Unlimited Power*) Maltz was the first researcher and author to explain how the self-image (a term he popularized) has complete control over an individual's ability to achieve (or fail to achieve) any goal. And he developed techniques for improving and managing self-image—visualization, mental rehearsal, relaxation—which have informed and inspired countless motivational gurus, sports psychologists, and self-help practitioners for more than fifty years. The teachings of Psycho-Cybernetics are timeless because they are based on solid science and provide a prescription for thinking and acting that lead to quantifiable results.

**From Scratch** - Tembi Locke 2019-04-30

Now a limited Netflix series starring Zoe Saldana! This Reese Witherspoon Book Club Pick and New York Times bestseller is “a captivating story of love lost and found” (Kirkus Reviews) set in the lush Sicilian countryside, where one woman discovers the healing powers of food, family, and unexpected grace in her darkest hours. It was love at first sight when actress Tembi met professional chef, Saro, on a street in Florence. There was just one problem: Saro’s traditional Sicilian family did not approve of his marrying a black American woman. However, the couple, heartbroken but undeterred, forged on. They built a happy life in Los Angeles, with fulfilling careers, deep friendships, and the love of their lives: a baby girl they adopted at birth. Eventually, they reconciled with Saro’s family just as he faced a formidable cancer that would consume all their dreams. *From Scratch* chronicles three summers Tembi spends in Sicily with her daughter, Zoela, as she begins to piece together a life without her husband in his tiny hometown hamlet of farmers. Where once Tembi was estranged from Saro’s family, now she finds solace and nourishment—literally and spiritually—at her mother-in-law’s table. In the Sicilian countryside, she discovers the healing gifts of simple fresh food, the embrace of a close knit community, and timeless traditions and wisdom that light a path forward. All along the way she reflects on her and Saro’s romance—an incredible love story that leaps off the pages. In Sicily, it is said that every story begins with a marriage or a death—in Tembi Locke’s case, it is both. “Locke’s raw and heartfelt memoir will uplift readers suffering from the loss of their own loved ones” (Publishers Weekly), but her story is also about love, finding a home, and chasing flavor as an act of remembrance. *From Scratch* is for anyone who has dared to reach for big love, fought for what mattered most, and those who needed a powerful reminder that life is...delicious.

**The Man Who Mistook His Job for His Life** - Naomi Shragai 2021-08-26

A revolutionary approach to understanding the emotional dynamics within our working lives. ‘Nobody understands the everyday madness of working life better than Naomi Shragai. This book should be read by everyone who ventures anywhere near an office’ - Lucy Kellaway You probably don’t realise this, but every working day you replay and re-enact conflicts, dynamics and relationships from your past. Whether it’s confusing an authority figure with a parent; avoiding conflict because of past squabbles with siblings; or suffering from imposter syndrome because of the way your family responded to success, when it comes to work we are all trapped in our own upbringings and the patterns of behaviour we learned while growing up. Many of us spend eighteen formative years or more living with family and building our personality; but most of us also spend fifty years - or 90,000 hours - in the workplace. With the pull of the familial so strong, we unconsciously re-enact our personal past in our professional present - even when it holds us back. Through intimate stories, fascinating insights and provocative questions that tackle the issues that cause us most problems - from imposter syndrome and fear of conflict to perfectionism and anxiety - business psychotherapist Naomi Shragai will transform how you think about yourself and your working life. Based on thirty years of expertise and practice, Shragai will show you that what is holding you back is within your gift to change - and the first step is to realise how you, like the rest of the people you work with, habitually confuse your professional present with your personal past.

**The 48 Laws Of Power** - Robert Greene 2010-09-03

THE MILLION COPY INTERNATIONAL BESTSELLER Drawn from 3,000 years of the history of power, this is the definitive guide to help readers achieve for themselves what Queen Elizabeth I, Henry Kissinger, Louis XIV and Machiavelli learnt the hard way. Law 1: Never outshine the master Law 2: Never put too much trust in friends; learn how to use enemies Law 3: Conceal your intentions Law 4: Always say less than necessary. The text is bold and elegant, laid out in black and red throughout and replete with fables and unique word sculptures. The 48 laws are illustrated through the tactics, triumphs and failures of great figures from the past who have wielded - or been victimised by - power.

(From the Playboy interview with Jay-Z, April 2003) PLAYBOY: Rap careers are usually over fast: one or two hits, then styles change and a new guy comes along. Why have you endured while other rappers haven’t? JAY-Z: I would say that it’s from still being able to relate to people. It’s natural to lose yourself when you have success, to start surrounding yourself with fake people. In *The 48 Laws of Power*, it says the worst thing you can do is build a fortress around yourself. I still got the people who grew up with me, my cousin and my childhood friends. This guy right here (gestures to the studio manager), he’s my friend, and he told me that one of my records, Volume Three, was wack. People set higher standards for me, and I love it.

**Better Living Through Criticism** - A. O. Scott 2016-02-09

The New York Times film critic shows why we need criticism now more than ever Few could explain, let alone seek out, a career in criticism. Yet what A.O. Scott shows in *Better Living Through Criticism* is that we are, in fact, all critics: because critical thinking informs almost every aspect of artistic creation, of civil action, of interpersonal life. With penetrating insight and warm humor, Scott shows that while individual critics--himself included--can make mistakes and find flaws where they shouldn't, criticism as a discipline is one of the noblest, most creative, and urgent activities of modern existence. Using his own film criticism as a starting point--everything from his infamous dismissal of the international blockbuster *The Avengers* to his intense affection for Pixar's animated *Ratatouille*--Scott expands outward, easily guiding readers through the complexities of Rilke and Shelley, the origins of Chuck Berry and the Rolling Stones, the power of Marina Abramovich and 'Ode on a Grecian Urn.' Drawing on the long tradition of criticism from Aristotle to Susan Sontag, Scott shows that real criticism was and always will be the breath of fresh air that allows true creativity to thrive. "The time for criticism is always now," Scott explains, "because the imperative to think clearly, to insist on the necessary balance of reason and passion, never goes away."

**Working with the Law** - Raymond Holliwell 1985-01-03

Science has defined a variety of natural laws that explain the physical world and how it changes. One such law states that for every action there is a reaction, and that for every motion there is corresponding counter-motion. Whether it's visible to the human eye or not, one thing is certain - movement and change will occur as a result. Having studied these principles, author Raymond Holliwell not only understood the universal physical applications, he also understood the spiritual and mental applications as well. By using this law on a spiritual and mental level, Holliwell found that a specific thought could create a desired reaction in his personal and professional life through continual and dedicated practice. As he came to realize the expanded potential of this powerful law, he eventually recognized the ultimate source of the dramatic results - God.
