The New Children's Encyclopedia - DK 2019-01-08

This stimulating and comprehensive encyclopedia for children ages 8-12 provides answers to all the questions kids love to ask. Each chapter is jam-packed with maps, charts, timelines, diagrams, beautiful images, and amazing facts. Did you know, for example, that a single drop of blood contains around five million blood cells? Or that there are areas of desert in all seven of Earth's continents? Kids can build their knowledge on a wide range of topics-including Earth and beyond, plants and animals, history and politics, science, technology, and the human body-arranged thematically with more than 9,000 indexed entries and 2,500 colorful images. Cross-reference icons encourage children to explore and discover linked information, feeding their curiosity and building their general knowledge. The New Children's Encyclopedia, which has sold almost 500,000 copies worldwide since 2009, has now been fully updated in line with the latest knowledge and research. Developed, written, and checked by experts, this is the must-have reference book for every child's library.

Eyewitness Workbooks Human Body - DK 2020-06-30

Popular history, science, and geography topics brought out of the classroom and into your home with fast facts, activities, and quizzes. Some subjects are too interesting to be left at school! Carry on your love of science and anatomy at home with Human Body, an activity-packed exploration of how our bodies work. Divided into sections, the book starts with fast facts on topics including the skeleton, muscles, brain and nerves, the senses, heart, and digestion; and ends with charts of body organ facts and record breakers. Using this information, you can complete the puzzles in the main part of the book, plus there are hands-on activities such as watching your muscles work, testing your reflexes, and seeing how two eyes work together. Finally, test your newfound knowledge with the quick quizzes (with answers supplied). You can keep track of your achievements throughout with a star chart to fill in every time you finish a page. Note to parents: The Eyewitness Workbooks series is devised and written with the expert advice of educational and reading consultants and is designed to appeal to children ages 8 years and up. First published in 2007-2009, this series has been fully revised and updated for 2020.

First Human Body Encyclopedia - DK 2018-06-12

The book's thematic structure makes it easy for young readers to understand the various systems and organs that make up the body. Dozens of activities and experiments, including - Keeping a food diary (to analyze diet) - provide children with the opportunity to reinforce newly learned information. Full-color spreads address the questions that fascinate children, such as: What are we made of?, Why do we need to sleep?, and How do we breathe? A reference section at the back of the book includes a glossary, an index, and an 'Amazing facts' section. Special Features: Over 1,000 appealing, colorful photographs and illustrations. Clear and easy-to-understand definitions. Related activities and projects. Vocabulary carefully chosen for the 5-8 yr. reading level. Cross-references encourage further exploration.

Human Body A Children's Encyclopedia - DK 2019-02-07

From your head to your toes, this encyclopedia for children takes you on a tour of the human body and explains how each part works. On every page, discover amazing facts about the human body. Did you know that you are made up of 100 trillion cells? Learn about blood vessels (capillaries, veins, and arteries) which, if they were laid out end to end, would wrap around the Earth twice! Find out what makes a balanced diet - after all, you will eat about 20 tonnes of food in your entire life! See what part of the brain makes you appreciate music (it's the right side). There are also fun quizzes, so you can assess your own personality and test your logical and reasoning skills. An international best-seller since 2012, Human Body: A Children's Encyclopedia has now been fully updated in line with the latest research. Combining clear descriptions of human biology with awesome photographs, graphics, and CGI artworks, make your way from the skin, muscles, organs, bones, right down to your cells and DNA. From homework projects to just reading for curiosity, this comprehensive encyclopedia is filled with everything that you need to know about what makes your body tick.

Philosophy A Visual Encyclopedia - DK 2020-11-10

The perfect book for young readers looking to explore some of life's biggest questions. Thousands of years ago, ancient philosophers asked some important questions: "What is real?", "What is the point of my existence?", "Why is there evil in the world?", and "What can I know?" These questions have gone on to spark passionate debates about our existence and how we understand the world around us. In this engaging and accessible introduction to philosophy, readers aged 11+ will be introduced to a variety of philosophical ideas through the teachings of Plato, Confucius, Simone de Beauvoir, and many more. Vibrant, reader-friendly illustrations bring the history of ideas and thinking to life, and provide topics for reflection and debate. With biographies of the most influential philosophers from around the world, young readers will explore the questions that have been fundamental to the development of scientific study, logical thinking, religious beliefs, freedom in society, and much more. Thought experiments peppered throughout will help to connect readers with the theories presented so they can apply them to their own lives.
